DUTTON'S MARKET,

Pineapples for preserving 81.25 to 82.25 per dozen.

R. A. DUTTON

Phone 394. 418-420 George street.

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of these graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM PRINGLE

$800 Presented to Local T.A.S.

At the afternoon meeting at the T.A.S. rooms Sunday, the announcement was made by Rev. Dr. O'Brien, of the donation of the sum of $800 to T.A.S. by his Lordship the Bishop and a prominent Catholic layman. A vote of thanks was unanimously passed to the donors for their munificent gift.

Matthew Kearns Kicked by Horse

A painful accident occurred last Saturday at the C.P.R. Hotel stables, when Matthew Kearns, the hostler of that hotel, when passing one of the horses, was kicked in the face by the animal. The unfortunate man was removed to St. Joseph's hospital yesterday where he is doing as well as can be expected.

Broke His Arm.

Mr. Joe. Rickerby, of the C.P.R., Hotel, met with a rather painful accident yesterday afternoon while out driving. He was seated on a road cart, and when about opposite the Auburn Mill went to turn, with the result that the cart capsized. Mr. Rickerby falling on his arm and breaking it. Dr. Coughlin dressed the limb and the patient is doing nicely.

Oddfellows will Go to Lakefield.

At the regular meeting of Otonabee Lodge, No. 13, I.O.O.F., last night arrangements were completed for a good attendance of our local Oddfellows at the institution of the new lodge at Lakefield on Wednesday night next; many members of Peterborough Lodge I.O.O.F. were present, and took part in the discussions and arrangements.

Good Attendance at Y.W.C.A.

In spite of the threatening rain, there was a very encouraging attendance at the Y.W.C.A. meeting, Sunday afternoon, ninety-one being present. Rev. Mr. McKay's subject was "The one thing needful," which he interpreted as being the need for a deeper spirit of devotion in our lives in this day and generation, when there is so much to detract from the more serious aspect of life.

Party Leave for Stony Lake.

R. S. Jackson, Mine Host of the Crown Inn., accompanied by a few friends leaves this morning for his place on Stony Lake, near the heads of the lake. Mr. Jackson is taking up a scow load of lumber, shingles and other building material for the fine cottage he is building on his property, and which, when completed, he will use as a summer residence. The architect's plans show a very pretty structure and will doubtless add to the beauty of the lake.

Vegetables Broadcast

A lively runaway aroused some excitement on Stewart street yesterday morning, and the sprint was greatly enjoyed by all except the owner of the vehicle. The delivery horse belonged to Mr. C. Giles, market gardener, North Monaghan, became alarmed at an automobile, and tore along the street at a 2.30 clip. A telegraph pole soon stopped the sprint however. The horse escaped without injury but the shafts of the wagon were shattered and other damage done. The vegetables in the wagon were strewn all over the road.

Reunion at St. Andrew's Church

Last night the anniversary services in St. Andrew's church were continued when the annual re-union of the congregation took place. The gathering was held at eight o'clock, and a good program was rendered. For this occasion, the choir was assisted by Miss Dorothy Fowler, of Carleton street Methodist church, Toronto, Miss Bryce, Mr. Markle and Mr. Milner also assisted in the program. Addresses were given, and a free-will offering for the funds of the Ladies' Aid was taken. There was a good attendance and great interest was manifested by all present.

Ladies, Bear in Mind

We draw special attention to the visit of Prof. Doranwand to Peterborough, who will be at the Oriental Hotel with a large selection of styles in Hair Goods, such as Ladies' and Gents' Wigs, Toupees, Bangs, Long Switches, etc. His Hair Coverings are worn everywhere, and the satisfaction obtained by those who adopt them, are health, comfort and younger appearance. DON'T Miss this chance. Why look careworn through the loss of Hair when Prof. Doranwand's Art Goods can improve your looks? He will demonstrate this to every caller free of charge. Only one day, Friday, May 19.

Twelfth Anniversary, under auspices of Lady Lansdowne Lodge, No. 22, High Tea and Concert in S. O. E. Hall, on Thursday, May 18th, 1905. Tea served from 5.30 to 8. Concert at 8 sharp. Admission 25c Come one! Come all!

Bicycles Stolen.

On Sunday night four bicycles were left in a stable belonging to the premises at 509 Bethune street. These wheels belonged to three men and a young lady boarding at the above address. During the night some one entered the yard, the gates of which were off, and finding the stable door unlocked, took advantage of this carelessness, and prying round, saw the array of bikes. Choosing the one that suited his fancy, although the saddle leather was ripped, and the enamelling somewhat rubbed off, or not noticing this in his haste, took his departure and, with it, the wheel.

Y. W. C. A. Meeting To-day

All young women are asked to remember the open meeting at the Y.W.C.A. to-day, May 16th. No admission fee will be charged, as some have supposed, as it is simply to be a social evening, when the young women of the town may meet together to see the building and find out the advantages of belonging to such an institution, and at the same time enjoy a good musical program, after which light refreshments will be served. The program which will consist of solos and duets, piano solos and duets of violin music, will be given by Misses Parnell, Tully, Gumpricht, Campbell, Jolliffe, Dobbin, Hall, E. Best, Mr. Robertson, M. Burnet, Jean Hill, and the Misses Chesty.

—The Peterborough Tool and Shovel Company directors met on Saturday and awarded the contract for a brick warehouse to Mr. Wm. Langford. Three tenders were received. The new building will be 180x60 feet, one storey high.

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. Edgar Hayden, of Roseneath, is in town.

—Mr. W. P. J. Alexander, of Madoc, is visiting friends in town.

—Mr. and Mrs. Ivory, of Omemee, were in town yesterday.

—Mr. Jas. McGlennan, Colbourne, was in town on business yesterday.

—Mr. and Mrs. Bradburn, Omemee, are visiting friends in town.

—Mr. P. J. Roach, Mount Forest, is registered at the National Hotel.

—Miss Clara Bellegbem went to Toronto yesterday and will remain there for a week.

—Mrs. B. F. Ackerman and the Misses Ackerman will not receive again this season.

—Rev. D. D. MacDonald and Mr. James McNeil, of Keene, were in town yesterday.

—Messrs. C. H. Keefer, C.E., and E. J. Walsh, C.E., of Ottawa, are in town on business.

—Rev. W. R. Tilley, Rural of St. John's church, who has been ill, is improving rapidly.

—Mr. and Mrs. John Crane will entertain the members of the choir of St. Paul's church on Thursday evening next.

—Mr. R. W. Errett left yesterday morning for Buckhorn and Lakehurst on his annual inspection of weights and measures.

—Lindsay Post—Mr. W. C. Perry, of Peterborough, is in town to-day. Mr. George Jackson, of Peterborough, was in town yesterday.

—Mr. and Mrs. W. D. Wilgar, of Toronto, are spending a few days with the latter's parents, Mr. and Mrs. A. Macfarlane, Homewood avenue.

—Mr. and Mrs. Marah Weir, of Keene, returned home yesterday afternoon, after a visit to the city, the guests of Mr. Archibald Weir, Elisabeth street.

—Dr. J. Wilbert Warren, graduate of Queen's University, Kingston, is spending a few days with his sisters, Miss Mabel Warren, and Mrs. J. H. Kimberly at 38 Bolivar street.

—Dr. Herbert Bell, Assiniboia, arrived in town last night on a visit to his father, Mr. F. J. Bell. Herb's many friends in town, will be pleased to know that he is prospering in the west.

—Dr. J. H. Kidd of Port Arthur, is home for a visit to his parents, Mr. and Mrs. W. E. Kidd, of town. Dr. Kidd was engaged as house surgeon in the Pigeon River Hospital, at Port Arthur.

—Mr. Mark Wilson, the popular leader of St. Andrew's choir, has been appointed as local agent of the Sovereign Life Assurance Company, and has opened an office on George street.

—Mr. H. G. Brown, of Toronto, who is designer for Novel-ti, Limited, the new company which is now in full operation on Water street, has arrived in town.

—Mr. J. T. Emmerson, of Port Arthur, is in town for a few days, accompanied by Mrs. Emmerson. They are the guests of Mr. Andrew McFarlane, Homewood avenue.

—Mr. D. C. Edwards, of Toronto, insurance adjuster, has adjusted Mr. Thomas Darcy's loss in the Burleigh Falls hotel fire at $6,100. Mr. Darcy is making arrangements to rebuild the hotel at once, and expects to have it completed in time to accommodate guests this summer.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—St Andrew's church held a congregational reunion yesterday evening.

—St. John's Young People held the last meeting of the season yesterday evening.

—Everybody is invited to the grand opening of the Y.M.C.A. dormitories Thursday, May 18th, 8 to 10 p.m.

—Will those sending cakes for the Y.W.C.A. Sponge Cake Tea, kindly have them at the building at four p.m.

—Rev. J. G. Potter preached in St. James' Square Presbyterian and Dunn avenue Presbyterian churches, Toronto, Sunday.

—Mrs. T. J. McDonough and family who have been visiting her parents, Mr. and Mrs. John McCarthey, of Campbellford, have returned home.

—Mr. W. H. Hunter has finished the series of revial services he has been holding in Gospel Hall. Many converts have been made by his earnest and eloquent appeals.

—At a meeting of the Turf Club held yesterday in the Bank of Ontario Chambers, it was decided to let the Young Conservative Club have the use of their grounds for a day's entertainment.

—The brick building at the south-east corner of Simcoe and Aylmer streets, which has been used for years as a grocery store and Chinese laundry, is being converted into a dwelling house.

—The Tennyson Club will meet on Wednesday evening of this week, at the home of Miss Beatrice Dutton, Aylmer street, when all the members are particularly requested to be present promptly at eight o'clock.

—A strong effort is being made to open the Y.M.C.A. dormitories free of debt on Thursday evening. Part of the amount needed has been received, but $200 is yet needed. Gifts of money towards this will be greatly appreciated.

—Mr. George Maitland and his men left for Campbellford yesterday morning to carry out a large contract received by the Peterborough Cement Roofing Company. Mr. James Cummings left for Western Ontario yesterday to represent this company in that district.

When you want a me-tite Portrait in Oil, Crayon, or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Gifts in Pictures, Frames and Fancy Work. Lessons in Painting and Pyrographic Work. Studio, 134 Brock street, Peterborough.

—Mr. H. Wharlow Bull, the famous English baritone, sang in George street and Mark street Methodist churches on Sunday. His powerful, rich voice was much appreciated, and his songs were given with great earnestness and expression. In the morning he contributed, "There is a Green Hill Far Away," and in the evening Goumod's "Glory to Thee."

—Mr. P. H. Munson, of Toronto, is in town in the employ of Mr. John L. Firth, who has lately returned to town, and is living on Dalhousie St. Mr. Firth is quite well and favorably known, in town, having been for some time a member of the 57th Band. Mr. Munson is here decorating Mr. Firth's house, and will likely be in town for a few days.

SPORTS' GATHERING

Crowd of Local Sports See a $50 Bet Decided by Market Scales

Yesterday afternoon about 3.30 some 30 of our local sports gathered in the vicinity of the market scales. Here they, wondering at the aggregation of men interested in horse flesh, and other sporting matters, soon stopped and swelled the crowd to a considerable number.

It appears that the clan of Crowleys had gotten their sporting blood heated over the weight of a stallion colt owned by one of them, and whose weight was doubted by another.

Mr. Tim. Crowley had contemplated buying a 4-year-old colt, as above, from another member of the Crowley family. Possibly, to effect a diversion of price, he was rash enough to say the colt would not weight 1600 lbs.; this statement was resented by Mr. Dave Crowley to the extent of his offering to bet $50 the horse would pull the beam at 1,600 or more by the market scales. The horse after the expectant crowd had awaited his arrival about an hour, was brought to the scales and weighed 1,640 lbs.

The $100 was peeled off a roll by the stake holder, and handed over to Dave, who immediately proceeded to help all present liquidate out of the funds won.

Visitors to Mount Julian Arriving

Messrs. R. Carter and Elsie, of Buffalo, are visiting at Mount Julian, guests of Mr. W. Thompson, proprietor of the popular summer resort at that pretty Stony Lake resort. It is expected that quite a number of their Buffalo friends will soon visit them at Mount Julian. Everything points towards Stony Lake and its summer resorts drawing greater crowds than ever this year; it goes without saying that Mount Julian, from its central position will get a good share of public patronage.

SYMPTOMS THAT INVITE GERMS

Little Ailments that Should Be Looked After if One Wants to Keep Well.

Anyone who has any of the many symptoms caused by poor digestion should take special care to avoid conditions where disease germs are likely to be present. Extreme thinness is the most common indication of a weak stomach, but any of the following symptoms are also good evidence of stomach troubles.

Disordered stomach	Confusion of mind
Acidity	Drowsiness
Water-brash	Heartburn
Sinking up of food	Dizziness
Colic	Gidyness
Accumulation of weight or	Confused tongue
heaviness in pit of stomach	Sour taste in the mouth
Sour breath	Diarrhoea
Constipation	Dry skin
Indifference to coffee	Blood impurities
Tired and sleepy	Accumulation of the head
Headache	Vertigo or dizziness
Cold hands and feet	Faintness
Pain under shoulder blade	Disappointment
Pain just under shoulders	Palpitation of the heart
Dazzling of vision or blurred	

These little ailments, which indicate a weak stomach and imperfect digestion, should be looked after by the use of Mi-o-na, if one wants to keep well. A tablet of this remarkable remedy, taken before each meal, will so strengthen the stomach and digestive organs that natural weight will be restored and perfect health and strength regained.

Mi-o-na is so nearly infallible in curing indigestion and the many diseases resulting from a weakened stomach, that a guarantee to refund the money is given with every box, should it not give perfect satisfaction. Ask Wm. Medill to show you the Mi-o-na guarantee.

FEARFUL OR CHEERFUL?

Whether a woman is fearful or cheerful depends not on what she has materially, but what she is physically. Many an indulgent husband is driven almost to despair by the fearful outburst of a wife who has "everything she wants." He wants to know what's the matter. But the wife can't tell. She only knows that she is depressed and despondent.

Such a condition is usually related to some form of womanly disease.

$500 REWARD FOR WOMEN

WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now offer fifty hundred dollars in gold, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

Mrs. Alice Adams, of Laboratory, Washington Co., Pa., says: "With many thanks I write to let you know how I am. I can say by God's blessing your help I am well. I have taken one bottle of Dr. Pierce's Favorite Prescription and three of his 'Golden Medical Discovery,' and I can do all my work. I can't praise your medicine too highly. I will recommend it to all whom I see as long as I live. If any one inquires I will give them my address."

Keep the bowels healthy by the timely use of Dr. Pierce's Pleasant Pellets.

VOL XXXIII NO 115 — PETERBOROUGH ONTARIO, WEDNESDAY MAY 17 1905. — PRICE TWO CENT

The Reserve Fleet Now Ready to Sail.

A Fleet which May Prove Russia's Salvation--Rojestvensky's Ships Are Over-Manned and St. Petersburg Awaits the Outcome with Confidence.

Tokio, May 17.—The Admiralty considers there is no harm now in divulging the fact that Rojestvensky's ships are [illegible] instead of under-manned, as when they left Libau there was still hope that Chilian and Argentine warships could be purchased and portions of the crews designed for them were carried on board the Russian fleet.

THE RESERVE FLEET READY.

Another division of reinforcements for Rosstjvensky is almost ready at Cronstady, and will be sent out under the command of Rear Admiral Pareango. It will consist of two fine new battleships, the Slava and the Emperor Alexander II., two cruisers, a torpedo cruiser, a gunboat, transports and several minor units. The division is now engaged in coal trials and manoeuvring off Cronstadt. The appearance of this reverse division in the far east in the course of the summer, should the hostile fleets suffer equally in the coming battle, is counted upon to give Russia the necessary decisive preponderance upon the sea. The possession of this division, naval men believe, may ultimately prove Russia's salvation.

JAPANESE SCARE.

Report from Tokio That Germany Had Siezed a New Point In China Greatly Alarmed the World for a Short Time.

Tokio, May 17.—It is reported that Germany has despatched a force of troops and occupied Hai Chou, in the southern portion of the Province of Shantung, where they raised and saluted the German flag. Hai Chou is on an extensive bay, north of the old channel of the Hoang River. Germany's object and intentions are not clear. It is suggested that she is seeking an extension of her interests in China, and is taking advantage of present political conditions, but explanations may eventually clear up the situation. It is feared that any changes in the existing status quo of China, coupled with the recent Indo-China incident, may seriously complicate the war situation.

Later—It is semi-officially announced that the Japanese Government have received conflicting reports relating to the Hai Chou incident, one being to the effect that the Germans occupied the place and raised and saluted their flag, and another to the effect that the Germans were merely engaged in surveying. Pending the receipt of full and correct information the Government here refrains from discussing the matter.

A DENIAL FROM BERLIN.

Berlin, May 17.—The Foreign Office, replying to an inquiry regarding the excitement at Tokio over the report that German troops had occupied Hai Chou, in the southern part of the Shantung Peninsula, says the report is wholly incorrect and one of several reports designed to make it appear that Germany is attempting in Shantung what Russia did in Manchuria. The German Government is doing nothing in Shantung outside of fulfilling her treaty agreement with China, which fact has been communicated to both Washington and Tokio Governments. The Foreign Office regards these reports as spread to mislead the opinion of the world concerning Germany's aims and acts.

Keene.

OBITUARY.

It is our painful duty to chronicle the demise of Mr. Archbald Angus, who died on Saturday, the 13th inst., at the ripe age of 82 years. The deceased was very much respected by all who knew him, on account of his cheerful, inoffensive disposition. The funeral left the residence of Mr. William Campbell on Monday morning, where the deceased has resided for the past fifteen or twenty years, and proceeded to the Little Lake cemetery, where the body was laid in its last resting place.

EARLY CLOSING.

The merchants of Keene have decided to close at six o'clock on Monday's, Wednesday's and Friday's, commencing on the 15th inst., and continuing to the middle of October.

GONE TO TORONTO.

Our late barber, Mr. Joseph Quinn, has left our village to start business in Toronto. This leaves a good opening for a barber here.

SONS OF REST.

A meeting of the Sons of Rest was held on their park on Saturday night last for the purpose of electing officers for the coming season. At seven o'clock no less than seventy members were present. The first order of business was to appoint a president. Tony Moore nominated Minnie Wale Jonas; Fadey Wedlock seconded the nomination. Generale Kennealy nominated Fighting Archy; Wary McFarlane seconded the nomination. The candidates were then balloted for, with the following result: Minney Wale Jonas received 469 votes; Fighting Archy 2. Minney Wale was declared duly elected by a majority of 467. He then took the chair and delivered the following address: My dear brethren, I cannot find words to express my feelings of gratitude for the high honor which you have conferred on me tonight by electing me to the honorable office of president. It is my intention to run this society in a very satisfactory manner. It is needless for me to remind you that I am boss and you must obey me and give attention to all rules. I again thank you for the honor conferred on me. He then took his seat and declared the meeting open for business. Jack Rinker rose to his feet and kind of hinted that new benches were required for the park. Wolf Howson rose and objected. Howden Doris next appeared on the scene and declared that benches were required, and they would be purchased or he would know the reason why. Hosier Roach said a plank was good enough to sit on. Banker Lundy made a jump, and never stopped till he lit in the creek. He wet his feet and called on Dr. McWilliams for a tonic. Sanky McFarlane rose and moved that this meeting be closed, as it was now ten minutes to Sunday morning. Fadey Wedlock and Tuney Moore sang the closing ode, and Minney Wale declared the meeting closed until Saturday night at seven o'clock sharp.

A RECORD CROP

Mr. Whyte Estimates Western Yield at Ninety Million Bushels

Montreal, May 17.—Mr. William Whyte, of Winnipeg, Assistant President of the C. P. R., who is in Montreal at present, says that there are good prospects for a record crop in the West this year. A good start has been made in seeding, and the amount of moisture was never better. His estimate of 4,500,000 acres under cultivation would at a yield of twenty bushels to the acre give a total of 90,000,000.

WEAR OF GUNS

United States Battleships Have Changed Guns

Washington, May 17.—All the Atlantic fleet battleships have had their barbette guns changed. In the case of the flagship Caesar only two guns have been changed, but other ships have had three, and in one case all four guns landed and replaced by others, and considerable pressure has had to be put on the Woolwich authorities to have all the required guns available. Surprise has been expressed that defects should have been simultaneously discovered in so many of the guns, and also at the fact that, although the ships have been in port for two months, the work of changing them should have been deferred until the last moment. The defects are all in the inner or A tube. In some cases it is worn, but in others the evil is much greater, as the tube has developed serious weakness owing to over-heating.

JAPAN'S NEW FLEET

Twenty-Five Vessels Constitute Reserve Fleet

London, May 17.—Twenty-five vessels that combine the best features of torpedo boats and torpedo-boat destroyers were laid down in the various Japanese naval construction yards last year, and it is believed, that not a few of them are already completed and ready to begin operations against Rojestvensky's fleet. They are craft of about 350 tons, with the tremendous speed of over 31 knots, derived from engines of over 7,000 horsepower. They are primarily designed for torpedo warfare, and their appliances for launching those deadly projectiles are so perfect that it is believed they can be directed against a hostile ship at quite a bit more than the half-mile heretofore regarded as the greatest effective point for a torpedo attack. At the stern the vessels have a fairly powerful gun for the purpose of keeping pursuers at a respectful distance while the destroyer scurries away after making a torpedo attack. We may hear much of the new destroyers during the coming weeks.

BETTER DAYS FOR RUSSIA

Baron Korff Says Plans for Self Rule are Under Way

New York, May 17.—Baron Serge Korff, of Russia, professor of Russian law at Helsingfors University, Finland, has arrived in this city en route to Washington, where, on June 5, he will wed Miss Alletta Van Reypen, daughter of Admiral Van Reypen, retired surgeon general of the United States navy. Baron Korff, in discussing the internal situation in Russia, declared it to be full of hope and promise. Reforms are now in progress, he said, and when they are put in operation the people will find they have been granted more than they asked. Baron Korff said the Emperor had expressed his readiness and desire to grant self-rule to the various governments or provinces of Russia, and that plans to that end are under way.

"But," he added, "the present is not the time to inaugurate these reforms. Russia's situation just now is a hard one. The war in the East is requiring the thought and the attention of the entire government. Questions of importance are arising daily which must be settled at once. The country's honor and prestige are at stake; its resources must be conserved and the foreign affairs are such as to command constant and undivided attention."

UNSEASONABLE HOURS.

Merchants Should Not Keep Pavements Wet During Business Hours.

An objectionable practice, the mere calling of attention to which, should be sufficient to produce a remedy, prevails nearly every summer morning on the business streets of Peterborough. With the advent of bright warm weather it has just begun. The practice in question is the using of hose by employes of stores to clean the windows and sidewalks. The cleaning of windows and sidewalks is of course praiseworthy. The objection lies in the fact that the cleaning is done at an hour when it should not be done. Windows are cleaned with hose as late as nine o'clock. This practice is very unpleasant to many hundreds of young ladies who go to work in the stores at eight o'clock, or who do early shopping. Many of the window cleaners fairly flood the sidewalks, and ladies with thin shoes get their feet damp. Some employes are also very careless as to how they use the hose. They do not lower the nizzle when people are passing. Cons quently the water flies in spray in the faces of passersby. In many towns and cities the cleaning of windows is strictly prohibited after half-past six in the morning. Why not in Peterborough?

OVER 1,000 VISITORS COMING.

Huge Invasion by Excursionists from Thornton, Ivy, Orillia and Barrie on 7th June.

It is expected that at least one thousand excursionists will spend the day of June 7th in Peterborough. Yesterday, Mr. Fred Sissons, of Thornton, Ont., was in town in reference to the coming excursion, and to arrange with the Calcutt line of steamers for transportation of the crowd to see the wonders of our hill locks.

The excursion is run under auspices and management of I.O.L. No. 16, of Thornton, and I.O.L. No 150 of Ivy, and a canvas, made by those organizing the outing, tends to show that at least 1,000 people will take advantage of the opportunity to visit this town.

The excursion will start from Tottenham and will include passengers from intervening points such as Thornton, Ivy, Barrie, Orillia and other places.

The excursionists will come by special trains and will leave Peterborough at 7 p.m. sharp.

During the afternoon Mr. Sissons called upon Mayor Best and several friends in town.

A MAY BRIDE.

Miss Della Sullivan Married to Mr. R. Healy in St. Peter's Cathedral.

A very pretty wedding was celebrated in St. Peter's cathedral yesterday, when Miss Della Sullivan became the bride of Mr. Richard Healey.

Both bride and groom are residents of town and have a large circle of friends.

The bride was costumed in a very becoming suit of brown with hat to match; her bridesmaid was Miss Mary Sullivan, her sister, and was arranged in a fetching costume of cream luster, with hat to match.

The happy husband was supported by Mr. Patrick Healey, his best man.

A charming dejeuner was enjoyed by the bridal party at the residence of Mrs. Thos. H. Bacon, 46 Bolivar street.

The presents were many, including some very substantial tokens of esteem in which both bride and groom are held by their many friends. The young couple will reside in town.

A Lakefield Robbery.

Mr. H. G. Fitzgerald's Store in Lakefield Burglarized and $10 Taken.

On Monday night the hardware store of Mr H G Fitzgerald, was entered by a midnight mechanic, and $10 abstracted from the cash drawer.

The burglar, or burglars, entered the premises through the tinshop in the rear of the main store. Mr. Casement, who slept above the store, next to Fitzgerald's, heard a noise during progress of the nefarious act, but arrived on the scene too late, as the thief had hastily departed.

No goods were taken from shelves or other parts of the store, possibly owing to noise caused by Mr. Casement's approach. The robbery was committed about one a.m., and the only clue left, as to identification of the burglar was a footprint mark left in the tin shop, and this gives evidence of the man being of large size.

UNION METHODS A DISGRACE

Slugging and Murder Runs Riot in Chicago

THE END OF UNIONISM

Is Said to be now in Sight--Public Opinion Disgusted and Horror-Stricken

Chicago, Ill., May 17.—Nothing since the teamsters' strike began has so inflamed public opinion against slugging, rioting and terrorizing during the labor disturbance as the killing yesterday of Charles J. Meyers, a driver for the Siegel, Cooper and Weston Baker & Candy Co., No. 4, that he had been active in the union and also in preventing "sluggers" for the strike-bound firms, which resulted in the death of Charles J. Meyers on Nov. 13. The conviction, and the general opinion that the teamsters' strike will be called off before the end of the week, are features of discussion in local circles today.

While the murder of Meyers had no connection with the teamsters' strike, the exposure of the plot at this time is unfortunate for the teamsters, in that the present rioting is believed in many instances to be prompted by sinister monetary inducements.

More officers of the union were arrested yesterday on the charge of being implicated in the murder than are John Haden and F. Novak, members of the executive committee of the union. Admissions by them to the police tend to corroborate the confession made by Casey.

EXTENSION MAY BE AVOIDED.

From authentic sources it was learned that the vote of the teamsters' joint council, in favor of declining the Team Owners' Association offer to make separate agreements to deliver goods to boycotted merchants, was declared after much opposition. For that reason another meeting of the joint council is expected to be held to reconsider. In anticipation of such a meeting, the Team Owners' Association issued edict to strike no further action regarding the keeping of further contracts with boycotted houses until the result of the meeting is ascertained.

SIXTH DEATH IN STRIKE.

Another death has been added to the list of strike victims, making a sixth since the strike began. The latest victim is attributed to Jimmie Colored, in the head and killed him. Cahill claims that he killed the negro in self-defence, while arguing over the strike. Cahill says Jimmie rushed at him with a club and knocked him down.

P. Lagogoris, owner of a lunch wagon, in front of which the shooting took place, was attacked as friends of Jimmie later in the day and beaten unconscious. Lagogoris may die.

Marching with draped banners and muffled drums, more than 2,000 union men yesterday followed the body of Geo. S. Perry, a striking teamster, who was killed by a deputy sheriff, from his home, to the Union station, whence the body was taken to Louisville, Ky., for burial.

No funeral rites were held in Chicago, but the escorting of the body to the station was made the occasion of a labor demonstration, in which not only the Teamsters' Union, but organized labor generally, participated. The progress of the procession was without incident. The men, marching solemnly four abreast, each wore on his coat lapel a white button with the inscription in black: "We mourn the loss of a murdered brother."

Germans will Strive for Separate Schools.

Alberta Teutons will Strive to Secure Same Privileges as Granted to the French in the New Provinces.

Winnipeg, May 17.—The Alberta Herald says: "As we Germans in Alberta form a considerable part of the population, we would tender our readers the advice to take steps that we may secure the same rights in education that the French population has long possessed. German instruction in the lower classes. This will be best accomplished by the election of German representatives, or such as are friendly to Germans, in the first Legislature of Alberta, which will be elected in the course of this summer."

GENERAL SPORTING GOSSIP

THE TURF - BASEBALL - LACROSSE - FOOTBALL

BASEBALL.

The Auburns and Peterboroughs will likely play a practice game on Thursday evening.

• • • •

The ball throwing contest, which was to have been held on Saturday, will be pulled off this evening at the T.A.S. grounds.

• • • •

The Peterborough Baseball Club will play the second game of the season on Saturday afternoon when they meet the Sherbournes of Toronto. The game will be played on the exhibition grounds, which are reported to be in the best of shape. The diamond is directly in front of the grand stand, so that the fans may be able to enjoy the game in comfort. The Sherbournes are a fast bunch and will give the locals a good game.

Stayne, the clever third baseman, signed by Manager McEwan, will report at once. He will be of great assistance to the team.

• • • •

The Peterboroughs will practice tonight, and Friday nights at the T.A.S. grounds. The following are asked to turn out in uniform—Sheridan, E. Pillar, J. Pillar, Shea, Connors, Wickham, Lowe, Douglas, Simpson, Cadman, and Stayne.

• • • •

Manager McEwan is arranging for a game on June 7th, the date of the Thornton and Ivy and intermediate points excursion to Peterborough. It is expected that from 1200 to 1500 visitors will be in town that day. As "Mull" Douglas is well and favorably known in Thorton and Ivy, having played ball there, the visitors are very anxious to once again see Mull tossing them over the plate.

I.O.O.F. LODGE AT LAKEFIELD.

Many of the I.O.O.F. Fraternity will Visit Lakefield to Institute New I.O.O.F. Lodge.

The result of Monday night's meeting held in Otonabee Lodge, No 13, I.O.O.F., was that arrangements have been made for the brethren to go to Lakefield to-night to institute the new lodge.

A special train will leave the G.T.R station at 7.45 o'clock p.m., sharp. Several brethren from Pontypool will come to Peterborough and accompany the local members to Lakefield, where they will receive degrees along with the charter members of the new Lakefield lodge. Only Oddfellows will be accorded the privilege of taking in the trip. The degree team of Otonabee lodge will confer the initiatory and second degrees, while Peterborough lodge degree team will put on the first and third degrees. The members of the district committee and D.D.G.M. Fry, of Norwood, will also be present. The work will be completed in the town hall as no other hall in the village is large enough. Bro. A. H. Blackaby, of Kingston, superintendent of the Oddfellow's Relief Association will be a visitor.

Last night three candidates received the second degree and there was an unusually large attendance, several visitors being present from Peterborough Lodge.

A committee was appointed from Otonabee lodge to act in conjunction with a similar committee from Peterborough lodge in the matter of observing Decoration Day. This impressive ceremony—decorating the graves of deceased brother—will take place on June 15th.

BROUGHT IN VERDICT OF SUICIDE.

Coroner's Jury Return Verdict of Suicide in Mrs. Winter's Death.

On Monday night the inquest to inquire into the death of the late Jennie E. Winters, who committed suicide by taking a dose of carbolic acid on Friday last, was held in the Council Chamber, when the evidence was taken by County Coroner Gray and the Crown Attorney, R. E. Wood, the members of the jury being: C. N. Brown, foreman; Wm. Outram, D. K. Drummond, W. H. Hamilton, Wm. Battisby, J. F. Squires, P. Alexander, J. B. Pentland, H. E. Stinson, Fred Clark, S. A. Oke, T. C. Elliott, John Crane, W. H. Meredith, Robert McWhinnie.

As noted in yesterday's issue this paper, contrary to custom in matters appertaining to loss of life by any means, were excluded from the inquest. It was learned that family matters of a nature that the relatives evidently would not want published, were discussed, particularly a letter that had bearing on the case.

After hearing the evidence, the jury brought in the following verdict.—

We, the undersigned jurors, sworn to inquire into the death of Jennie E. Winters, find that the deceased came to her death by carbolic acid poison, purchased and administered by her own hand.

—The Trent Valley Navigation Co. have informed Mr. Piton, Lindsay ticket agent, that only one ticket will be collected by the company's purser for the round trip between Lindsay and Sturgeon Point, or vice versa in the case of children between the ages of four and twelve years.

Mayor and Aldermen Measure Swords Over City Incorporation.

Council Decline to Accept the Mayor's Challenge to Appeal to the People--Celebration Practicaly Called Off--Civic Holiday Changed to First Monday in August.

> "If the Council will agree to submit to the people a by-law providing for the incorporation of the Town of Peterborough as a city, and it is not defeated by a two-third vote, I'll pay the cost of submitting that by-law."--Mayor Henry Best.

The above was a direct challenge made by the Mayor last night to his colleagues, in support of his Worship's firm conviction that public opinion is with him on this vexed question of "city incorporation."

Ald. Hicks opened the ball by requesting that the question of celebrating Peterborough's incorporation as a city be taken up and definitely disposed of by the Council. He, as Chairman of the Celebration Committee, wanted to know if this matter was to be proceeded with or not.

The Mayor had no opinion to give on the question of "celebrating."

Ald. Hall thought that as the Mayor was honorary chairman of the Celebration Committee, he should give expression to his views.

Ald. Hicks said it was up to the Mayor to offer some remarks on the subject. Business connected with the proposed celebration proceeded smoothly until obstruction to the bill was raised before the Private Bills Committee at Toronto. Since then the matter has stopped indefinitely. He did not wish to go on with the preparations unless his Worship approved of the measure. To make the celebration a success it would be necessary to have the chief magistrate's sympathy.

The Mayor explained that when in Toronto some private citizen he was unexpectedly called upon to express his views on the question of "city incorporation." He did so, and will still stand by his opinion as then offered. He did not think it too late to consult the people and still adhered to his statement made before the Private Bills Committee that should the Council submit the question to the people, and it was not defeated by a two-thirds vote, he would pay the cost.

Ald. Hicks—"A year ago, I opposed seeking special incorporation; but when the matter was opened up again this year, I agreed with the majority of the Council to take this step. And you were present, Mr. Mayor, and there is no record in the minutes of your opposing the measure. You are the man who allowed proceedings to go so far without obstruction on your part.

The Mayor here asserted that the Press Committee manipulated the matter, and had to [illegible] He also complained that the second day he was in Toronto, he was inveigled into the private room of Mr. Carscallen, chairman of Private Bills Committee, where a deputation in favor of incorporation were pressing their claims upon the chairman.

Ald. Hicks—"You misunderstand me. I am not censuring you for your action in Toronto. I merely want an expression of opinion from you on the advisability of proceeding with preparations for the proposed celebration. Are we to go on with them or not?"

The Mayor—"The question of "city incorporation," is not yet settled; it has to have three readings in the legislature. All I ask this Council to do is to submit a by-law to the people. The bill can easily be held over till an expression of public opinion is obtained.

Ald. Adams thought the matter of celebrating had better be dropped, as it is merely a question of sentiment whether the town is incorporated or not. Personally he was not in favor of such a jubilation as proposed, he certainly did not approve of spending so much as a $1,000 of the people's money in public rejoicing.

Ald. Begley considered the recent civic demonstration in the Parliament Buildings at Toronto, had sufficiently advertised the town without going in for a monster celebration. There certainly had been objections raised to spending a $1,000 on the proposed gala day.

Ald. Hall thought the matter was now in the citizens' hands.

His Worship here once again asked the Council if they were willing to submit a by-law on this question. "We cannot," he said, "ignore public opinion."

Ald. Hall replied that this matter had been sufficiently advertised in the usual way, and no objection had been offered until the night before the town's representatives went to Toronto. It was too late then to withdraw the incorporation clause, such a proceeding might have endangered the whole bill. "What I find fault with is, the citizens were too long in moving in that respect they did not act square with the Council."

His Worship did not agree with this, and took exception to the manner in which he was treated in Toronto. Referring to the action of the chairman of the Private Bills Committee, he characterized Mr. Carscallen as a wobbler.

The Mayor and Ald. Hall here measured swords in earnest, and warm utterances were indulged in. Ald. Hall said the Council had been treated in the most cowardly and shameful manner; no Council in Canada would received such treatment at the hands of their Mayor.

His Worship here intimated that Ald Hall was taking advantage of the precincts of the Council chamber to use such language in reference to him.

Ald. Hall—"You and the solicitor were deputed to go to Toronto in support of our bill at the town's expense, and you turned us down."

His Worship—"Did The Council?"

Ald. Hall—"No, as a private citizen, and paid my own way."

Ald. Hall—"The night before, at the Council meeting, it was agreed that the petition against incorporation had come too late, and you made no objection. We did not ask any other members to go with you and the solicitor because we relied on you to carry out our decision. But before the Private Bills Committee, you got up, and notwithstanding you were commissioned by us to support the bill for incorporation, you deliberately and in cold blood, threw us over."

The Mayor—"I was never questioned by the chairman of Private Bills Committee. Our member, Mr. Bradburn, persuaded Mr. Morrison of Trenton to call on Mr. Best for his views on the question, and I complied. What was I to do? Do you think I was going to swallow my own convictions? I had either to give my honest opinion or say nothing at all."

Ald. Hall—"What I complain of is, that you did not tell this Council you could not support the measure."

The Mayor—"Well, I told you that in the face of the petition against incorporation the question ought to go to the people, and you, Mr. Hall, replied that that petition was agitated by hotel men."

Ald. Hall—"I deny that. I never mentioned hotel men; but remarked that men interested from a dollar and cent standpoint were behind the petition."

Ald. Adams here took up the discussion. He thought the Mayor had not always been such a stickler for public opinion. He had ignored public opion on the sidewalk question. The people voted for paying for granolithic walks by a general tax, and on three occasions his Worship had turned the matter down by casting his vote against it. Now, however, on a question which really does not amount to much, he clamors for public opinion. Had he been so anxious some time ago in this respect the measure could have gone to the people; but when it came up again this year he raised no question.

The Mayor—"Who voted on the question of changing the system of paying for sidewalks?"

Ald. Adams—"The property owners."

His Worship—"No, No, It was a general vote, and that should not have been taken on a money by-law."

Ald. Adams called upon the town clerk to verify his assertion, when Mr. Armstrong produced the by-law which was found to call for a vote of freeholders only.

His Worship acknowledged his error, and Ald. Adams proceeding, said "As the January election the same people voted on three by-laws, the granolithic walks one was carried by a bigger majority than the others, and yet the Mayor ignored public opinion regarding it."

His Worship here again asked the Council were they willing to submit the question of "city incorporation" to the people on his conditions.

Ald. Hicks thought it too late now; the question must be decided by the legislature now that it was before that body.

Ald. Begley sequiesced in this. This discussion should drop as it is only creating a bitterness which will take years to wipe out. He could not find many citizens opposed to "city incorporation," neither did he see any signs of a revolution in town over the question. He thought that citizens were satisfied to accept the inevitable. Being himself present when the matter was first brought up, he could positively deny that the Council had

(Concluded on page four.)

KNOX' NATAL DAY

St. Andrew's Church will Celebrate Knox Birthday by Eight Days' Mission.

St. Andrew's church will celebrate the 400th anniversary of the birth of John Knox, by an eight days' mission, beginning on Sunday next, May 21st, conducted by Evangelist Walker Russell. Two great facts stands out pre-eminently in the spiritual vision of Knox. First, that no church was safe which did not rest upon the intelligent, enthusiasm and experience of the laity, as well as the learning of the ministry; and secondly, that the great duty of the church of Christ was to carry out the voice of God to every age. "This glad tidings of the Kingdom shall be preached throughout the whole world for a witness to all nations."

Mr. Russell will keep these very prominently before the consciences of the people.

A Bible school will be held on the afternoons of Tuesday, Wednesday, Thursday and Friday of next week, to which all Christians are most cordially invited. The subjects of study will be:

"The Holy Spirit in the Son of God."

"The Holy Spirit in the Word of God."

"The Holy Spirit in the Church of God."

"The Holy Spirit in the People of God."

—Mr. P. H. Munson, of Toronto, is in town in the employ of Mr. John B. Firth, who has lately returned to town, and is living on Dalhousie St. Mr. Firth is quite well and favorably known. In town, having been for some time a member of the 57th Band. Mr. Munson is here decorating Mr. Firth's house, and will likely be in town for a few days.

Toiled to Hard and Broke Down

Nerves Went to Smash—Could not Sleep—Work was Impossible

FERROZONE

Gave Me New Vital Energy—Nourished Me Back to Good Health

Perhaps you are in poor health? But work must be done, and there is no chance to take a rest.

Never mind the rest—it won't be necessary if you use Ferrozone. It builds up the system, enriches the blood, strengthens the nerves, makes you feel like new at once. No medicine in the world is so powerful in restoring health writes C. P. Sommerville, of Weymouth.

"I was weak and miserable.

"I toiled too hard at my business and broke down.

"My nerves went to smash. I couldn't sleep, and simply had to give up everything.

"Did Ferrozone help me?

"Well, I think it saved my life! It gave me new vital energy, nourished me back to permanent good health. No better tonic is made than Ferrozone."

All physicians recommend Ferrozone because it is absolutely certain to give strength to those that use it. 50c. per box, or six boxes for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

PROGRESS IN AFRICA

Of course the onward march of Christian civilization must go onward, but it doesn't look to some people as it does to others. An appeal is made through the Century Magazine by the native Prince Masaquoi, of the Vei Territory, on the western coast of Africa. Worse than the land grabbing by the European powers, he declares, is the fact that his people are losing themselves through the introduction of Western vices. "The vices of civilization," says Prince Massaquoi, "are as degrading as its virtues are uplifting; yet it is an acknowledged fact that these vices have been introduced in the African continent entirely by European representatives. All who have travelled on our continent will bear me out in the assertion that there is a remarkable contrast morally between the natives of the coast and those of the interior. This is owing simply to the fact that the people of the coast have been demoralised by the vices of civilization from European sources."

The Prince says further that when one hears a profane word it is always in English or German, and that against the laws of their own countries the whites practice polygamy and set the natives a bad example. The regard of the natives for the superiority of the whites leads him to suppose that everything the white man uses must necessarily be good and essential in civilization. It is, therefore, common to find a man who is poor, and not able to get sufficient liquor on which to get drunk, rubbing a drop on his head or his mustache, in order that people may smell it and call him civilised. The Prince makes the sweeping assertion that evil practice has already been introduced into everything, and tha tif the present policy continues "we cannot fight as men should against the wrong. The poison is fast doing its deadly work, and in a few years there will be none of us left to resist the oppressors. But our blood will be on their heads, and will cry to heaven for vengeance."

The world goes queerly on, but it goes on.

FARMERS NO LONGER LONELY

Conditions have changed in relation to the farmer. No longer is he segregated from his fellows. He is not now a condition of irremediable loneliness or isolation. With the advent of the interurban trolley car, the telephone and the rural mail delivery the entire condition of his existence has changed. Today the farmer has his daily newspaper, his added facilities for correspondence and his telephone that brings him within speaking distance of his neighbors, and the great outside world. The nature of the farmer has changed with changed conditions that surround him. He has become a business man who is in constant touch with his markets and is well versed in the varying circumstances of trade in the commodities that he produces. The old days of loneliness are gone forever. The man with the hoe has triumphed at last. He has come into his own.

CANADIAN BACON

The Weekly Sun declares that the statement that the price of hogs in Toronto is kept above the Buffalo level because of the tariff is not well founded. It states truly that our best bacon brings in England 10s. per long cwt. more than the best American. This is because our hogs are specially fed and specially bred for the purpose of meeting the peculiar demands of the British market. Even if the door was freely opened to the admission of American hogs to Canada, the price of Canadian hogs would today be higher than the price of American hogs in our markets. This is because it is only from the bacon hog of Canada that the Canadian packer can produce the best grade of article which his British customer demands. True, a number of American hogs have lately been brought in by our packers, but this has been done simply to prevent their plants from standing partially idle, and the product made from these animals has gone to an inferior market.

EDITORIAL COMMENT.

The Dominion Government has adopted a novel scheme for attracting settlers for Manitoba and the North-West Provinces. It has had built by a Detroit concern, a combination motor vehicle, so arranged as to carry from place to place under its own power a permanent exhibition of the products of that section of the Dominion. With this car the lecturer who accompanies the exhibition can lay before the people of the cities and towns the advantages of the territory it is hoped to populate.

• • • •

The Globe's Ottawa correspondent says: "There is good reason to believe that his holiness, the Pope, so far from having any intention or recalling Monsigneur Sbarretti, has recently expressed his entire satisfaction with the apostolic delegate's built by a Detroit concern, a controversy with the Manitoba Ministers.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

LARGE TURN OUT ON SUNDAY.

Great Turn Out of T. A. S. to Take Communion Sunday.

The members of St. Peter's T.A.S. received Holy Communion in a body at St. Peter's cathedral at eight o'clock mass on Sunday and the turnout was the largest in the history of that organization, there being fully three hundred members in line.

A special feature in connection with Sunday's turn-out was the appearance for the first time on parade of the T.A.S. brass band, and its showing was a credit alike to Bandmaster Halsley and the members.

The members of the T.A.S. assembled in the convent hall and marched to the church. Mass was celebrated by his Lordship Bishop O'Connor and at its conclusion Rev. Father McColl congratulated the society upon its splendid turnout and referred to the good example the members presented in turning out in such numbers to Holy Communion.

After mass the members marched to their rooms where the total abstinence pledge was renewed. Rev. Dr. O'Brien addressed the members, and referred with a high degree of pride to the magnificent turnout, and the bright out-look for the total abstinence cause.

GOVERNMENT GIFT

The Late Mr. Kivas Tully Leaves $6,250 for Ontario Government to Pay.

The will of the late Kivas Tully, who died recently contains a provision bequeathing $6,250, a retiring gratuity which he claims from the Ontario Government, to his two daughters, Louisa Beresford and Sydney Strickland Tully.

According to the will, it has been the practice of the Government to provide retiring civil servants with grants at the rate of one month's salary for each year of service.

Mr. Tully's period of service is placed at fifty years, dating from 1855, and he calculates his gratuity at the rate of his pay, $125 per month.

The balance of his estate amounts to $1,025, being $600 in household goods, $25 in real estate, and $200 in Thunder Bay real estate.

Henry John Lefevre, of Lakefield, is appointed executor.

Ayer's Sarsaparilla.

Used in all parts of the world for over 60 years. Has the unqualified endorsement of the best physicians. A strong nerve tonic. A blood purifier of great power. J. C. Ayer Co., Lowell, Mass.

Good Music at Mark Street Church.

A large congregation attended Sunday night's service at the Mark street Methodist church, when a forceful and able sermon was delivered by the pastor, Rev. J. G. Lewis, from the text, Daniel VI.—10. The musical service was exceptionally beautiful, a solo, Gounod's "Glory to Thee, My God This Night," being rendered in good voice by Mr. H Wharlow Bull, the noted English basso, who sang at Monday night's concert in the 5th ward hall. A chorus, "The Glory Song," was also given by the choir, Mr. Hull assisting. The services of Mr. Geo. Schneider as organist, were secured specially for the occasion

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES.

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

(2) If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses (2), (3) or (4) must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations nd private firms in Western Canada.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

More About the Jura-Trias

Referring to our ad. in yesterday's paper, we wish to say that the block of 15,000 shares of stock in our hands for sale is tied up as collateral in a bank and it must be sold quickly or will be forfeited. This stock is worth par value. There is no treasury stock on the market. Within one year's time this stock will be earning a big profit on its par value and will perhaps be worth from $1.50 to $2.50 a share. The president of the Stubbs Investment Company was in charge of development of this property for one year and knows it to be one of the biggest propositions in the country. It is not a prospect, but a mine, and will soon be shipping metallic copper. This opportunity will be open but a short time Will accept orders for blocks of 1000 shares or more at 45 cents a share

Stocks—The MARKETS OF THE WORLD—Grains

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $5 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and Newfoundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1. Edison electric light stock sold at $4,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and feel that you don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

Address all communications and make all checks payable to

BLOOD DISEASES

If you inherited or contracted any Blood Disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore throat, sores on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—enlarged glands. Don't trust to luck. Don't rush your system with the old fogy treatment—mercury, potash and patent medicines, which suppress the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEES ARE BACKED BY BANK BONDS that the Blood or Skin Disease will never return. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 20 years, and no return of the disease. No experiment, no risk—not a "patch up," but a positive cure. The worst cases solicited.

W. H. PATTERSON — NO NAMES USED WITHOUT WRITTEN CONSENT. — W. H. PATTERSON

HAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c., all failed.

Before Treatment

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety and especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a serious blood disease which in years of agony. The skin and blood symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints, dyspeptic stomach, foul breath, itchy skin, etc. It is needless for me to say I tried doctors. I grew to hate the looks of one. I visited Hot Springs twice for four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Dexter friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 20 years, and as they made a specialty of these diseases and treated the worst cases by the hundred they ought to be expert in curing them. I was afraid of advertising doctors, but I took him at his word. They agreed to treat me under a guarantee or no pay. I investigated their financial standing and found they were perfectly responsible, so I commenced the new method Treatment. The eruptions disappeared in two weeks, the bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."

After Treatment

CURES GUARANTEED OR NO PAY.

Consultation Free. Books Free. If unable to call, write for a Question Blank for Home Treatment.

Drs. KENNEDY & KERGAN

140 SHELBY STREET, - DETROIT, MICH.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY, COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Tabor County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 800 feet in length with a depth of 800 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is in from gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo, Colo., has averaged a little over $60 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $80 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $3.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $5 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $780.00 per ton and for gold $288.00.

With an average value of $60 00 and transportation and treatment expenses of $12 40 a ton, the net value of our ore has been $37.00 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 375 000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

Police Court

OFFICIALS
Chief of Police, G. I. Read
Magistrate, D. W. Dumble

Yesterday's session of the police court for a time certainly showed something doing. $2 bills came in for a few minutes like leaves falling under the autumn's chill.

Sam Denney was charged with depositing rubbish to wit, stove pipes and similar bric-a-brac at the Water street dump, near Goose Island, in defiance of a printed notice forbidding the same. Sam replied, in defence, that he did not see the sign. His Worship considered that he saw a big round hole in this line of defence, a big round hole in this line of defence, and murmured $2, which was paid forthwith.

Albert Yelland was charged with riding the untanned bike on certain pavements within the municipality, contrary to the by-law prohibiting the same. Defendant admitted the soft impeachment, and put up a paper bearing the inscription $2. Minocolo, an Italian fruit dealer, also paid in a crumpled paper good in any part of Canada for $2, for quitting the beaten track with his wheel.

This stolen fruit & riding on the pavement seems to have peculiar fascinations for wheelmen, with spare $2 bills.

Henry Ultman, who, as noted in yesterday's issue, was arrested in Toronto and brought here Saturday night by P.C. Stewart, was charged with the theft of two photographs from with the theft of two photographs from Mrs. Eliz. A. Hall. Ultman was defended by Mr. Kerr, who pleaded not guilty.

The Crown was not ready to proceed with the case, as the Chief wanted to correspond with Ottawa, to see if the pictures could be recovered. Ultman, through his counsel, contended that he was simply the agent of an Ottawa firm. In reply to a request for bail, his Worship consented to accept two sureties of $50 each, and the prisoner in $100. The case was enlarged until the 22nd. An extract from the Toronto Globe says;

"Henry Ultman, who has a photo-enlarging business at 68 Yonge street, was arrested on Saturday by Detective Black and taken to Peterborough for trial. The charge of theft against him arises out of a bout he had with a woman.

TO CANADIAN INVESTORS

Thomas Patterson & Co. Have a Fine Copper Proposition.

Fifty dollars invested in Granite Mountain Mining Company's stock paid the purchaser $34,500, besides several thousand dollars in dividends. One hundred dollars invested in Boston and Montana Mining stock paid the purchaser $44,000, besides several thousand dollars in dividends. A few dollars invested in shares of the Butte Copper Mining & Smelting Company stock, will not only insure you big returns in dividends, but a handsome profit in an increased value of the stock. Our mine is not a prospect but a copper mine which has produced $180,000 in profits in the last three years.

For the purpose of buying adjoining ground we have placed on the market 50,000 shares of our treasury stock. This stock is fully paid and non-assessable. Par value $1.00 per share. We will sell any part or all of this lot at 60 cents a share; no certificate issued for less than 100 shares. Send us your order for what stock you want and we will reserve it for you, pending your investigation of our company; and when you have received our prospectus and satisfied yourself that the investment is a good one, you can send us the money and we will issue the stock, or have the stock sent through any bank you may designate. Reference: Any Bank or Mercantile House in Butte, Montana. Write us for particulars. Butte Copper Mining & Smelting Co., Butte, Montana, or to Thos. Patterson & Co., Fiscal Agents, Peterborough.

—Mr. P. H. Munson, of Toronto, is in town in the employ of Mr. John E. Firth, who has lately returned to town, and is living on Dalhousie St. Mr. Firth is quite well and favorably known, in town, having been for some time a member of the 57th Band. Mr. Munson is here decorating Mr. Firth's house, and will likely be in town for a few days.

Port Hope, Ont., Rifle Range.

NOTICE TO CONTRACTORS

SEALED TENDERS, marked on the envelope "Tender for construction of Rifle Range, Port Hope, Ont.," and addressed to the Secretary of the Militia Council, Headquarters, Ottawa, will be received until noon, the 22nd May instant, for the construction of a rifle range at Port Hope, Ont.

Plans and specifications may be seen, and full information obtained, at the offices of the District Officer Commanding, Kingston, Capt. W. J. Robertson, Port Hope, and the Director of Engineer Services, Militia Headquarters, Ottawa.

Tenders must be made on a form supplied by the Department of Militia and Defence and accompanied by an accepted cheque on a Canadian Chartered Bank for 10 per cent. of the amount of tender, payable to the order of the Honourable the Minister of Militia and Defence.

The Department does not bind itself to accept the lowest or any tender.

E. F. JARVIS,
Secretary.

The Militia Council.
Department of Militia and Defence.
Ottawa, May 1, 1905.

A RARE OPPORTUNITY

To obtain a gilt edge investment in a great gold mining enterprise, developing a rich mineral area in an undeveloped mineral empire in Northwestern Colorado.

OFFERING OF 150,000 SHARES OF TREASURY STOCK OF THE

UNITED STATES GOLD CORPORATION

For the purpose of carrying out plans necessary to place the property on a dividend basis

The Board of Directors of the United States Gold Corporation estimate that the business of this company can be placed upon a paying and dividend basis, by the completion of the Klondyke tunnel a distance of 700 feet and by the construction of a modern concentration mill of not less than twenty five tons capacity per day on the property for the treatment of the great bodies of low grade ore, now awaiting treatment. To provide means for the execution of these plans, the Directors of this Company now offer for sale One Hundred and Fifty Thousand shares of Treasury Stock at the nominal price of 15 cents per share forcash.

For the information of investors the Company make the following statement of what a certificate of its stock represents

Assets and Financial Condition of the United States Gold Corporation

PROPERTIES OF COMPANY

Location in heart of famous copper-silver belt, in Northwestern Colorado, at the base of Continental divide, on Arapahoe peak, west of famous Caribou mine with gross production from 1860 to 1900 Twenty Million dollars, six miles from Colorado Northwestern Railway Co., ten miles from Denver Northwestern & Pacific Ry. Co.

MINERAL AREA

	Acres
3000 feet on Monroe dyke 12 feet wide	10.2
4500 feet on Arapahoe dyke 12 feet wide	15 3
6000 feet on Klondyke ore channel 50 to 100 feet wide	20 4
Klondyke Tunnel site claim	100.
Three Jacks Placer	160.
Total Acreage	301.

PLAN OF DEVELOPMENT

By Klondyke tunnel, fifteen hundred feet long, cutting ore body on Monroe lode 200feet on Arapahoe. Five hundred feet and Klondike ore channel, eleven hundred feet in depth.

DEVELOPMENT

Klondike Tunnel driven eight hundred feet opening ore bodies on Monroe and Arapahoe lodes estimated cost.....$15,000 00

EQUIPMENT

Power plant of machinery, blacksmith shop, cabins, store houses, and boarding house, estimated value $6,000 00

SHIPPING CAPACITY

	Estimated daily Production
Mill ore from Monroe Lode	100 tons
Mill ore from Arapahoe Lode	200 tons
Estimated tonnage from all dykes cut by Klondyke tunnel when completed	1000 tons

FINANCIAL CONDITION

Cash in Treasury	$ 1600.00
Treasury stock sales pledged	1600.00
Properties, equipment and development owned by the company free and clear of any indebtedness whatsoever.	
No bonds or mortgages, no preferred stock.	

ESTIMATED REVENUE FROM 25 TON CONCENTRATION MILL

	Ton
Average number of tons mill ore concentrates in on ton	8
Number of tons concentrated per day	3

VALUES

Gross value mill ore per ton	$ 12.00
Net value one ton of concentrates made from 8 tons mill ore of value of $12 00 showing 10 per cent loss in saving	96.00
Net value after deducting expense of mining and milling per day	80.00
Net revenue per day from 3 tons concentrates less smelting charges, etc., estimated	200.00
Net revenue per month, estimated	6 000 00
Net revenue per annum, estimated	72 000.00
Proceeds smelting ore per annum estimated at $2500 per month	60,000.00
Minimum net revenue per annum from ore treated and shipped	120,000 00

DIVIDEND

5 per cent. on 2,400,000 shares estimated as issued and entitled to dividends estimated 600 000 shares in treasury reserve fund which draws no dividend.....$120,000 00

RETURN ON PRINCIPAL

Purchaser of 1600 shares at 15 cents pays	$160 00
Dividend of 5 per cent per annum on 1000 shares returns	800 00
5 per cent dividends returns on investment per annum	20%
10 per cent dividends returns on investment per annum	66⅔

Careful estimates made by the officers and scientific and practical mill men prove to the satisfaction of this company, that the proceeds from the present treasury stock offering will place the property on a paying basis and the further sale of treasury stock will be withdrawn from the market, leaving a treasury reserve fund of over 600,000 shares.

This great enterprise has passed the prospect stage and upon the completion of our tunnel about June 1st, 1905, the energies of the Company will be entirely devoted to production shipment and treatment of its vast tonnage or ore developed through the Klondyke tunnel estimated at 1000 tons per day.

The officers of this Company court rigid investigation by prospective investors of its properties and management.

Persons desiring stock should mail their application to the United States Gold Corporation at Boulder, Colorado, together with draft for amount of shares desired at 15c. per share, for which a certificate of stock will be issued and sent subscriber by return mail. Do not delay sending application as treasury stock will be taken off the market after this offering is subscribed.

Consumption Can Be Cured

A Powerful and Effective Destroyer o Disease Germs Discovered Which Cures Consumption.

The ravages of consumption which for years have terrorized the modern world will no longer continue to cut off our population by thousands. Science has at last produced a remedy which not only can be readily applied to the lungs, but also kills every trace of bacilli in the throat, bronchial tubes, and air passages of all the breathing organs.

The name of this marvellous antiseptic about which the doctors are talking so much is Catarrhozone, the atomized air cure. The vapor is more soothing than the air of pine woods, and its healing properties are without limit.

Through a skilfully devised inhaler the sufferer is enabled to breathe this fragrant medicated vapor into the most minute air cells of the lungs. It is so destructive to microbic life that the tubercular germs are rapidly killed and prevented from ever returning. Congestion and inflammation are relieved, coughing stops, all disagreeable symptoms are quickly overcome.

So simple is Catarrhozone that anyone can use it. So certain to cure lung and throat troubles that it is prescribed by not less than twenty thousand doctors in United States and Canada. One well known authority who has made a life long study of consumption, has the following to say; "Catarrhozone is certainly a true specific for white plague. I find that its healing vapor readily spreads all through all the breathing organs passing over probably not less than one thousand square feet of mucous surface at a single inhalation. It is a perfect germicide and destroys tubercular germs with wonderful certainty. Catarrhozone is entitled to rank among the great medical discoveries of the age."

No matter how often you have been disappointed with other remedies you must not be discouraged. In Catarrhozone you will find new hope. What it has done before it can do again. Your case is not worse than others it has cured. Therefore if properly used you can also be cured by Catarrhozone. Two months treatment $1.00. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ont. Refuse any substitute for Catarrhozone—only the genuine can cure.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

Fences.

Try A. Reid for fencing or gates. 76 Lansdowne street, or address Box 876, Peterborough.

Girls Wanted.

A couple of good girls to learn the book binding, apply at once to the Times Bookstore.

Trent Valley Canal Opened

The Lindsay Post says; The various lockmasters and bridge tenders on the Trent Valley Canal resumed their duties to-day for the season of 1905, and navigation is now open from Kirkfield to Hastings — a noble stretch of water.

C.P.R. Beautifies Lindsay Station

The Lindsay Post says; The C.P.R. people have been making more improvements. The two bridges north of the station, over Colborne street, have been extended. The semaphores are now controlled at the station instead of at the signal tower near the egg house. Seven men, with horses, are engaged in levelling up the grounds in the vicinity of Station Agent Anderson's house on Caroline street. The grounds and tracks are being kept raked and cleaned by a couple of men, and flower beds will brighten the station surroundings this summer.

Twelfth Anniversary, under auspices of Lady Lansdowne Lodge, No. 22, High Tea and Concert in S. O. E. Hall, on Thursday, May 18th, 1905. Tea served from 5.30 to 8. Concert at 8 sharp. Admission 25c. Come one! Come all!

Peterboro' Business College
larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 90 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W H ELLIOTT

Arrested in Toronto.

The Mail and Empire says:—Henry Ultman, 68 Yonge street Arcade, was arrested yesterday on complaint of a resident of Peterborough. Ultman conducts a photo enlarging business and has agents throughout the province. A lady in Peterborough, said she had given one of Ultman's agents a deposit and an order for a picture, but had received no picture, consequently she laid a charge of theft. Several other complaints have been received.

Lemon Bros. Circus Here June 1st.

Mr. Carl W. Scott, representing Lemon Bros. circus was in town yesterday making arrangements for a grand exhibition to be held here on June 1st. A tour of all of the important Canadian cities and towns, has been arranged by this concern, and reports are that one of the grandest and most spectacular shows ever seen in Canada is in prospect. Mr. Walter Stocker is doing the publicity work for the company, and he states that it is a somewhat elaborate contract.

Dr. Harry King.

The hosts of friends in town of Dr. Harry King will be pleased to learn that he has successfully passed his final examination in medicine at the Detroit College of Medicine, the commencement exercises of which will take place on Friday, May 19th, in the Detroit opera house. Dr. King has always been one of our most popular young men in both sporting and social circles, and his old friends in town will unite in extending to him hearty congratulations coupled with best wishes for a successful future in the practice of his profession.

Mr. Robt. Hamilton's Hat Found!

Yesterday a small boy, playing about the canal banks, found floating in the water, near where Mr. Robert Hamilton's coat and vest were discovered, a cap which has been identified as belonging to the missing man. Every thing so far points towards the probability of foleo de se, but hopes are still entertained by his relatives that he may be found alive. Mr. Hamilton is about 45 years of age, and was born in Fermanagh, Ireland, coming to this country when twenty-five years of age. He has been a very successful agriculturist, and his farm of 200 acres is one of the largest in Smith township. There are five children, two of whom are girls, and the oldest is a boy of 14 years of age. It is hoped by Mr. Hamilton's friends that his disappearance will be cleared up in such a manner as to leave no doubt of his safety and well-being.

PERSONALLY CONDUCTED TOUR

To California and Lewis and Clarke Exposition, Portland, Oregon

A personally conducted excursion to the Pacific Coast via The Grand Trunk Railway System and connecting lines leaves Quebec July 5, and Montreal and Toronto July 6. The route will be via Chicago, thence through Council Bluffs to Omaha, Denver, and Colorado Springs. Stops will be made at each of these places, and side trips taken to Manitou, Cripple Creek, Garden of the Gods, etc. From there the party will continue through the famous scenic route of the Denver and Rio Grande, through the Royal Gorge to Salt Lake City, thence to Los Angeles, San Francisco, and home through St. Paul and Minneapolis. The trip will occupy about thirty days, ten days being spent on the Pacific Coast.

The price for the round trip, including railroad fare, Pullman tourist sleeping cars, all meals in the dining car, hotels, side trips, etc., is $165.50 from Quebec or $160.50 from Montreal and $150.00 from Toronto. This first trip is designed as a vacation trip for teachers, although many who are not teachers will improve the opportunity of taking the trip at the remarkably low price afforded.

For full particulars address E. C. Bowler, General Agent and Conductor, Room 308, Union Station, Toronto.

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. C. W. Spencer, master of transportation of the C.P.R. was in town, yesterday on business.

—Mr. G. Mitchell Thomas, travelling agent, Intercolonial Railway, Toronto, is in town on business.

—Rev. E. A. Langfeldt went to Millbrook yesterday. He lectured there on "Life in the German Army."

—Mr. and Mrs. H. F. Poste left yesterday morning for Atlantia, Georgia, where they will reside in the future.

—Mr. D. J. McKeggan of North Bay, district manager for the Dominion Express Company, was in town yesterday.

—The many friends of Mr. Arthur Donaldson, Water street, were yesterday extending "the glad hand to him," in congratulation. A daughter.

—Mr. Fred Lund, of the Munro House, has returned from Toronto. He brought back with him several art treasures, which he is showing his friends.

—Mrs. J. G. Perry, 95 Waller St., accompanied by her two sons, have gone to Toronto for a month's visit with her sister, Mrs. E. J. Cannon, Toronto.

—Mr. Miles Frouts and the Misses Frouts, will leave for New York this morning, where they will reside in future. A large circle of friends will regret their departure from town.

—Dr. King received word on Monday that his brother, (Mr.) H.H. King, had successfully passed his examinations at Detroit Medical College, and that he would graduate on Friday. Congratulations are in order.

—In company with five merchants from the west, Mr. Cressman left on the midnight C.P.R. train on Monday for Montreal. Purchases for the syndicate of stores represented by these men will be made on a very liberal scale.

—Mr. Robert G. Williamson, Inspector of the Great West Life Assurance Company is moving from town to Toronto, in which city the family will take up their permanent residence. They have resided for some years in town and their going away will create a vacancy in a large circle of friends, which cannot soon be filled.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Lemon Bros' circus will visit Lindsay on May 31st.

—County Police Magistrate Edmison held court in Norwood yesterday.

—There was a good turn out of the 57th Regiment last night for drill.

—One dozen best quality hexigon lead pencils for ten cents. Times Bookstore.

—The net proceeds of the H. Wharlow Bull concert in the Fifth Ward Hall, Monday night, amounted to $80.

—Replace that broken doll this week by taking advantage of the reduced prices on all lines of dolls. Times Bookstore.

—The regular weekly prayer meeting will be held in St. Andrew's this evening. It will partake of a special work of next week.

—The English Canoe Company are building a war canoe, seating 15 people, for the Smith's Falls Canoe club. It costs about $160.

—The first sale of cheese on the Peterborough Cheese Board will take place to-day in the town council chamber at 10.30 o'clock.

—The Sons of England will hold their annual church parade to George street church on Sunday next. Rev. Dr. Crothers will preach to the visitors.

—The Lindsay Post says; The steamer Kathleen commenced regular single trips between Lindsay, Sturgeon Point and Fenelon Falls today.

—A large assortment of iron toys for the children at Times Bookstore. Iron trains, carts, sulky and horse, flat irons, banks, etc., all prices from five cents up.

—The barbed wire fence around Victoria Park was removed on Monday. The park, which is looking as attractive as ever, has been thrown open to the public.

—It is learned that the opening night guarantee list for the new opera house has received sufficient signatures to justify the promoters of the new theatre going ahead with the construction of the building.

—The opening of the Y.M.C.A. Dormitory Department on Thursday evening, May 18th, will be one of the great historic events in the Association. Every citizen interested in young men is invited to attend.

—The early bird catches the worm but Mr. W. Croft catches the early sunbeams and uses them to raise the earliest potatoes in Peterborough. We yesterday saw some of Mr. Croft's potatoes which show a growth of six inches above ground.

—In London, Ont., frequenters of hotels must drink at the bar. The license commissioners there have issued a circular letter to the hotelmen instructing them to abolish drinking stalls and rooms in their hotels.

—Mr. W. C. Scott, of Toronto, special agent of the Bell Telephone Company, is in town. He went to Lakefield yesterday with Mr. F. W. Doan, local agent, to look over the improvements recently made in the system there.

—The annual district meeting of the Peterborough District of the Methodist church will be held in Charlotte street church on Thursday at ten o'clock. Rev. W. J. Jolliffe is chairman of the district, and Rev. J. G. Lewis is the financial secretary.

—An interesting meeting of the Baptist Young People's Union was held on Monday night, when the topic for the evening was taken by some ten or twelve young men. Brief, bright addresses were delivered, and the gathering was one of unusual interest.

BOYS FALL and bruise themselves. Grown-up athletes sprain muscles by overdoing wholesome exercise. The aches and soreness are taken out with Perry Davis' Painkiller. Rub it well into the throbbing flesh and relief is immediate.

—The steamer Beaver which has been undergoing repairs at Gore's Landing during the past two months was examined by the Government Inspector on Wednesday, and passed first-class examination. She was launched on Monday, and will be run on Rice Lake the balance of the year.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrographic Work. Studio 134 Brock Street, Peterborough.

Police Court

OFFICIALS
Chief of Police, G.I. Reed
Magistrate, D.W. Dumble

Yesterday morning only one case occupied the attention of his Worship, a charge against a man named Murphy, who resides in a coal shed on the G.T.R. tracks in town. The charge against Murphy is not properly bringing up and attending to his son, a small boy. Murphy appeared and said that he and the boy were "batching it," in the shed, and that the boy went regularly to school.

The case was enlarged until nine o'clock this morning.

A special session was held yesterday afternoon, to enquire into the sanity of a woman from Lakefield, whose name by request of the Magistrate, for sake of the relatives, we omit.

Her relatives deposed that the woman, who is married, and apparently about 50 years of age, is quite insane and at times maniacal. She sometimes rushes from her residence devoid of clothing and shows other signs of being a necessary candidate for proper restraint.

His Worship committed her to jail until her permanent sanity or otherwise should be ascertained.

After the trial the woman's actions showed positive evidence of her being not only a maniac but a powerful and obstinate one. It took an officer assisted by two sturdy male relatives and a lady friend, to get the poor creature into a cab, in which to convey her to the jail; they had to carry her bodily to the cab, and then it was some minutes before she could be forced into a position whereby the cab doors could be shut. In her struggles she smashed a glass in the back.

The woman spent some time in Mimico Asylum a few years ago, and for some time appeared cured, her recent outbreak occurred only last Saturday, and first symptoms were complaints of excessive pains in the head.

There may be a clot of blood pressing on the brain, which trepanning would possibly cure.

GOOD LIVING

Quite often results in bad health, because what is termed "good living" is usually the gratification of the palate without reference to the nutrition of the body. When the good liver is a business man and rises from a full meal to plunge at once into work requiring mental effort the result is almost sure to be disastrous, because digestion draws upon the same nervous forces which are employed in thought. In time the stomach becomes diseased, the processes of digestion and nutrition are imperfectly performed and there is a physical breakdown.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It eliminates the effete poisonous matter which originates in the system as a consequence of imperfect digestion. It gives sound health to the whole body.

"I wish to say to the world that Dr. Pierce's Golden Medical Discovery has proved a great blessing to me," writes Mrs. Ellen E. Bacon, of Shutesbury, Franklin Co., Mass. "Prior to September, 1897, I had doctored for my stomach trouble for several years, going through a course of treatment without any real benefit. In September, 1898, I had very sick spells and grew worse; could eat but little. I commenced in September, 1897, to take Dr. Pierce's medicine, and in a short time I could eat and work. I have gained twenty pounds in two months."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 31 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

The Town Council.

Continued from Page One.

in any way been influenced by the town solicitor, who merely answered questions put to him in his offical capacity.

His Worship here contended that in every Canadian town incorporated as a city the taxes had quickly increased 30 per cent.

3 The Council finally declined to submit this question to the people, and the matter was abruptly side-tracked.

MEMBERS PRESENT.

Last night's session was a special one. There were present:—Mayor Henry Best, and Aldermen Johnston, Begley, Hicks, Mason, Adam Hall, Tervey, McIntyre, Scott, Adams.

NEW OPERA HOUSE.

On a petition submitted by Mr. R M. Dennistoun, on behalf of Mr. R. H. Bradburn, the solicitor will be instructed to draft a by-law providing for a fixed assessment of $3,600 for 10 years on the new opera house, to be erected for Mr. Bradburn on the lot immediately north of J. J. Turner & Sons, George street. The Council are empowered to do this by special act. A nominal license fee of $10 a year will be charged. The building is to be constructed by local workmen from plans prepared by the New York Theatrical Stock Exchange, and will be up to date in everyparticular. Ample fire protection will be provided.

CIVIC HOLIDAY CHANGED.

Ald. Adams moved, seconded by Ald. Hall, that Civic Holiday be definitely fixed for the first Monday in August each and every year—Carried.

Ald. Hicks and Johnston voted against this change which was asked by the Trades and Labor Council.

BY-LAWS.

A by-law to authorize the extension of the conveyance of the site for an armoury and a collegiate institute passed its several readings.

A by-law to provide for the closing of barber shops at eight o'clock p.m., and remaining closed until five a.m., the following day, excepting Saturdays and evenings before holidays, passed its several readings. Any one infringing this by-law will be subject to a fine of not exceeding $50. This by-law will take effect June 1st.

A by-law to license plumbers and regulate plumbing and to provide rules and regulations respecting plumbing and drainage, passed its several readings. This by-law has been published at length in a previous issue, and goes into force this morning.

By-laws to provide for borrowing money for sewer and sidewalk construction passed their several readings.

A by-law appointing R. Parnell a driver in the fire hall, passed its several readings.

RESOLUTIONS.

The clerk was authorized to have the necessary forms in connection with the plumbing by-law, printed.

On motion of Ald. Mason, seconded by Ald. Adams the clerk was authorized to have 200 copies of the plumbing by-law printed in pamphlet form.

On motion of Ald. Adams, seconded by Ald. Hall, the treasurer was authorized to issue a cheque for $20,000 for the balance of purchase money for site for an armoury and collegiate institute, over the amount given by the Dominion Government.

The Council then adjourned.

Poland's Grievances Wiped Out by Czar Establish Zemstovs

Complete Reversal of Russia's Policy Gives Poles Rights for Which They Have Spent Years in Struggling--Imperial Rescript Obeyed in Tobolsk and Tomsk.

Tokio, May 17—The British steamer Includen was seized by a Japanese warship on May 15 south of Korea. The French steamer, Quang Nan, was Captured by a warship of Japan on the same date.

St. Petersburg, May 18.—There is little room for skepticism as to the genuineness of the broad policy of Imperial reform after the remarkable steps sanctioned by Emperor Nicholas in the Imperial rescript issued yesterday, modifying the restrictive decrees in nine of the Western Governments of Russia and giving the Poles greater freedom for acquiring farming lands and purchasing landed properties and industrial premises, and giving permission to introduce the Polish and Lithuanian languages in the primary and secondary schools where the majority of the inhabitants are non-Russian. Almost at one sweep the whole burden of the vexatious restrictive laws in Poland and the Baltic Provinces have been removed and the privileges for which the natives have been fighting for years are restored, the assemblies of the Polish nobles are re-established, and all the harsh administrative measures introduced at the time of the policy of reaction and Russification are abolished, unless later, for purposes of State, after the recommendation of the Council of State, they receive Imperial sanction. As a natural sequence of freedom of religion, the oppressive prohibition of the purchase of land by Catholic peasants is abolished. In effect the measures sanctioned amount to an entire reversal of the Russian policy in ancient Poland and the Baltic Provinces.

It is pointed out that in order to avoid delays in the matter of introduction of the Polish and Lithuanian languages, the Emperor specifically directed the formulation of the necessary regulations and laws within six months. These measures, it is understood, will be followed by the introduction of local self-Government all through the Zemstvo system.

The committee of Ministers has gone no further with the Jewish question than to grant freedom of residence in its entirety is of such great importance that it has been decided to refer it to the coming general Assembly.

The Emperor's action has produced a splendid impression among the reform elements, which are expressing the highest satisfaction. As the announcement was not published in the Official Gazette until this morning, however, the newspapers contain no comment.

ZEMSTOVS ESTABLISHED.

Irkutsk, Eastern Siberia, May 17.—The Governors of Tobolsk and Tomsk in obedience to the Imperial rescript of April 16, have proclaimed the establishment of Zemstvos in these provinces.

WOMAN'S THRILLING EXPERIENCE

Woman and Child Held as Hostages

SENT HUSBAND FOR MONEY

Desperado is Lynched After Being Caught by Mob

Belmont, Mo., May 17.—For kidnaping the wife and child of County Judge Ford J. Hess, and holding them prisoners, covered with a shotgun, with trigger cocked, until a ransom of $600 was paid, Robert Weatherspoon, a negro, was wrested from a posse which captured him, swung from a telegraph pole by a mob, and riddled with bullets.

The story of this crime is full of thrilling incident. Early this morning Judge Hess had occasion to go to his barn to hitch up his horse. He was in his slippers, but otherwise attired in street garb.

CONFRONTED BY PISTOL.

Entering the barn the judge was startled by seeing a negro standing before him with drawn revolver.

"Who are you and what do you want here?" asked the judge.

"You know's who I is," replied the negro with unveiled insolence. "I'se Bob Witherspoon. Dis yer state owes me $600, and you'se got to git it for me."

"All right. Come on to the house until I can get my boots and we will go to town and get the money," said the judge, and they proceeded to the house.

"Wait out here a minute until I go upstairs and get my boots," said the judge.

RUSE FAILS TO WORK.

Mrs. Hess was standing on the portico as they came up and was visibly affected by seeing her husband going before the negro, who had his revolver in his hand. Judge Hess started up the steps leading into the house, but the negro commanded him to halt.

"Let your wife git the boots. You stay here wid me. I knows you can't git away if I watches you."

Mrs. Hess did as she was directed When she came back and the judge had changed his footwear, the negro made both of them, the woman holding her baby, get in the buggy and drive slowly before him to a cabin some miles out of town.

Then "get out," ordered the negro. Judge Hess and his wife stepped from the buggy and went into the cabin. Mrs. Hess sat down in the single room, and the negro took a seat opposite her, gun in hand.

TOLD TO GET MONEY.

"I'll give you one hour and thirty minutes," he said to the judge, "to bring me $600. If you are not here on the minute I will kill your wife and baby."

The judge returned to his home and found he had only $60 there. He brought this to the negro, but Weatherspoon ordered him to get the remaining $540 if he ever wanted to see his wife and child alive again.

The judge started out once more, and crossing the Mississippi River to Columbus, Ky., procured the money demanded. Fearing he would be too late to save the lives of his wife and child, he did not stop to obtain help but spread the alarm as he rode through the streets.

POSSE GATHER QUICKLY.

Almost as soon as the judge left on his return journey a posse hastily collected about the town, under the leadership of Marshal Bob X. Zimmerman, known as "the nerviest man in Kentucky," started out on horseback at a gallop for the little cabin. They reached there almost as soon as the judge.

In the cabin Judge Hess found his wife, the baby and the negro still seated, the latter, watch in hand, counting the minutes until the time he stipulated should have expired. Weatherspoon had agreed that Perry Thurmann, a negro minister living in the vicinity, should act as go-between, and Judge Hess placed the $540 in his hands. The latter passed the roll of bills to Weatherspoon, who thrust them into his pocket, backed out the rear door of the cabin, mounted a saddled horse and galloped away.

HOUSE IS SURROUNDED.

Hardly had he disappeared when Marshal Zimmerman and his posse galloped up and surrounded the cabin, not knowing Weatherspoon had fled. They were able to trace Weatherspoon to the spot where he abandoned his horse and shotgun, and there they lost the trail.

Then began an all-day search. On the shore of the lake three miles away were found the negro's hat and shoes. Sheriff Zimmerman, convinced his man had taken to the water to obliterate the trail, scattered his men about the lake, and several hours were spent in beating the dense bushes which surround the lake. It was almost dark when two of the party came across the fugitive, crouching in the thickest of a clump of bushes, trembling and exhausted.

Weatherspoon, seeing that his pursuers were upon him, drew a revolver and attempted to bring down one of them. The cartridge, soaked in the water of the lake, did not explode, and he gave up without a struggle.

Zimmerman and his posse arrived in this city about 6 o'clock. Meanwhile the tale had spread, and the streets were crowded with men waiting for the return of the posse and prisoners.

As the procession came in sight Weatherspoon walking dejectedly between two deputies, the mob was upon him in an instant. Little was said. The work had been planned, and the members had determined what they were to do. The posse was overpowered in a moment, a rope was placed about Weatherspoon's neck, and he was dragged, shrieking and pleading for mercy, to the public square.

SWUNG INTO THE AIR.

A boy climbed a telegraph pole, and the loose end of the rope was thrown to him. He passed it over the cross arm of the pole, and a hundred pairs of hands clutched at it as it fell to the ground.

The rope tightened, and Weatherspoon was pulled upward with a jerk, until he hung ten feet above the ground. Then, for the first time, the silence of the mob was broken. The men yelled wildly, and fired a hundred bullets into the dangling body. Satisfied life was extinct, the lynchers tied the rope to the pole and went away, leaving the corpse dangling there.

Judge Hess said he never had seen the negro before, and did not know what he meant by saying the county owed him $600. The money was recovered from the negro. Mrs. Hess is almost prostrated by her experience.

COUNTER PETITION

Local Manufacturers Want Saturday July 1st a Holiday Not Monday July 3rd.

Dominion Day, July 1st., is our leading holiday during the summer months, and is universally celebrated by complete cessation of work among most leading factories and shops.

There is some agitation current in Peterborough to have Monday celebrated instead of Saturday. It is well-known that the 57th Regiment and Band, are to spend their Saturday and Sunday holiday in Ottawa, returning therefrom on Sunday night. The regiment's absence takes away about 450 of the different artisans of the town; this fact is causing most of the local manufacturing concerns to take united action to have Saturday celebrated instead of Monday as suggested. They claim, and it seems with some justice, that to have to run shorthanded on Saturday owing to depleted staffs on account of the withdrawal of men in Ottawa, and then again all day Monday, is a great draw-back, interfering with work at the busy season, and unjust to their interests. It must also from the standpoint of the manufacturers, be remembered that in a great many factories Saturday is a half holiday any way. Again the band and members of the 57th, would hardly feel one would judge, like continuing their Saturday and Sunday holiday over Monday. Among those employers who will probably oppose the Monday holiday are; The Canadian General Electric Co., Limited; Peter Hamilton Co., William Hamilton Co.; Lock Works; B F. Ackerman, Peterborough Canoe Co. Auburn Woollen Mills, Canadian Cordage Co., Matthews Packing Co., Canadian Canoe Co., English Canoe Co., American Cereal Co. Parkers Dye Works, Peterborough Light and Power Co., Otonabee Power Co. Peterborough Street Railway Co., Federal Milling Co., Dickson Co., A. McDonald Planing Mill Co., McAllister Milling Co., Examiner, Review, Bell Telephone, A. Comstock, Peterborough Fuel & Cartage Co., Colonial Weaving Co., Wm. Langford, Adam Hawkins, R Shrevur, Finnie & Gordon, J. J Hartley, E. H. Mann, W. H Meldrum, Peterborough Shovel & Tool Co., T. F. Rehill, Scott & Hoare, J. J. Turner & Sons., Peterborough Mattress Co., Rowers & Sons, G. W Green, Finning's Laundry, Times Ptg. Co., Curtis Bros., Colonial Typewriter Co., R. Clinkscale, H. Calcutt.

CHEESE SELLS AT 9-58 CENTS.

1701 Boxes of High Grade Cheese Offered Yesterday.

Seventeen hundred and one boxes of cheese were offered for sale at the initial meeting of the Peterborough Cheese Board which was held in the Ontario Bank Chambers yesterday morning. The highest price was 9 5-8c. There was a large attendance of salesmen and buyers, and the chair was occupied by Mr. T. D. Young, Vice-President, in the absence of Mr. J. M. Drummond, the president.

Mr. Drummond has presided at the Board for twenty-seven years, but desires to resign.

The buyers present were, J. L. Squire, Norwood; James Whitton, representing W. J. Magrath of Belleville; John Kerr for J. Alexander, Montreal; R. Rollins, for Brenton & Son, Belleville; H. Morton, for Lovell & Christmas, Montreal; James Cook, for W. S. Cook, Belleville; G. W. Fitzgerald, for Hodgson Bros., Montreal; W. H. Wrighton, for Ayr & Co., Montreal.

Mr. Wrighton bought 796 boxes and Mr. Kerr 709, leaving 96 boxes unsold.

THE official tests by the Inland Revenue Department of the Canadian Government show the Royal to be a pure baking powder, superior to all others in leavening strength.

It therefore makes purer, more wholesome and economical food than any other baking powder or leavening agent.

Royal Baking Powder is more convenient for use than cream of tartar and soda and makes finer-flavored food.

ROYAL BAKING POWDER CO., NEW YORK.

CLAIMS HE CANNOT BE ELECTROCUTED

A Canadian Said to Have Offered to Stand 10,000 Volts

MORE EMIGRATION FRAUDS

Birmingham Receiver Scores Land Settlement Company—Glasgow for Removal of Embargo

London, May 18.—At a public conference, held in Edinburgh under the auspices of the Glasgow District Co-Operative Defence Association, to protest against the Canadian cattle embargo, which was described as one of the worst forms of protection that could be introduced in a free trade country. Mr. Henderson, who spoke at a recent deputation, scouted Mr. Fellowes' reply as ridiculous, as there was absolutely no risk. The electors were urged to press the necessity of the removal of the restriction upon the Parliamentary candidates. A resolution in favor of the removal of the embargo was carried unanimously, for it is probable that on the vote of the Board of Agriculture the matter will be raised in Parliament.

Dr. Carl Hermann, a Canadian calling himself the human resistance cool, introduced on the London stage, claims he cannot be electrocuted, and invites specialists to apply 10,000 volts to his body for two minutes. He claims to have the power to work miracles on deformed people. He caused a girl who is paralyzed to walk across the stage after a few minutes. He claims he is able to give off sparks, and he possesses mesmeric gifts. If he can make good his claim Moss's Empires will engage him at $750 a week.

MORE EMIGRATION FRAUDS.

The Land Settlement Development Corporation appeared yesterday before a Birmingham receiver, who described the company as being started without the shadow of means to collect small weekly subscriptions from workingmen, afterwards leaving them stranded. The company said they sent in all sixty men to Canada, and had agents there to obtain situations. They also had a percentage on their fares.

Obituary.

Death, by Typhoid Fever, of Mr. Wm. Chrow in Vancouver, B.C.

Mrs. Edward Chrow, 167 Smith St., received the sad news from Vancouver, B.C., on Tuesday, that her eldest son, Mr. Wm. Chrow, had died suddenly from typhoid fever in that city, on Monday, 15th. Friends will remember the late Wm. Chrow, when employed by the firm of Hall & Gilchrist, and afterwards in the grocery store of Mr. T. W. Robinson

He was born in Peterborough, and has been about 25 years in the west. At time of his death he was business manager of a large wholesale house in Vancouver.

Besides his wife, who was Miss J. Simpson, of Victoria, he leaves to mourn his loss, two sisters, Mrs. W. R. Turner and Mrs. W. L. Mitchell, residing in town, and other brothers and sisters, residing in the United States and the west.

A MAY BRIDE

Miss Marie La Plante Married to Mon. V. Heftler in St. Peter's Cathedral.

One of the prettiest weddings that have, of late years, been celebrated in Peterborough, was that of Miss Marie B. A. LaPlante, to Mon. Victor Heftler, C.E., Toronto, in St. Peter's Cathedral yesterday.

The beautiful bride is a daughter of Mr. N T. LaPlante, Lock street, and is a lady with a large circle of ardent friends. The happy groom is a graduate of the Ancien Eleve de l'Ecole Polyteolnique, Paris. The ceremony was performed in St. Peter's Cathedral at 8 o'clock by Rev. Father M. F. Fitzpatrick, of Ennismore. The bride was assisted by her cousin Miss Armine Laplante, and was richly gowned in white crepe de Paris, wearing also a bridal veil and orange blossoms, and an emerald diamond and pearl pendant, sent from Paris. The wedding gown was embellished with medallions and trimming of applique, and the yoke was of chiffon brode. The bride carried a bouquet of white roses. Her attendant wore a pretty dress of white summer silk with white chrysanthemum hat to match, and carried pink roses. Mr. Ozias de Laplante, brother of the bride, was best man.

The presents were rarely beautiful, including some valuable articles of jewellery, heirlooms of the groom's family in France.

The dejeuner following the ceremony was attended only by immediate friends of the family.

Rev. Father Fitzpatrick made a most happy speech of congratulation to the happy couple.

Mr. and Mrs. Heftler left by the noon C. P. R. train for Kingston, where they will embark upon a trip by boat to Montreal. After the honeymoon they will take up residence at 93 St. Joseph St., Toronto.

Two Accused of Murdering an Infant.

Baby Drowned in Wash Basin--Young Man Rented Room for Young Lady Friend with Whom He Had Long Been Acquainted.

Toronto, May 18.—Murder is the charge which appears on the police court calendar, against Emma Harvey, aged twenty-five, who is in an unconscious condition at St. Michael's hospital, and William Furness, aged twenty-four, who appeared in the dock this morning.

It is alleged by the police that the young man and woman are responsible for the death of an infant child at 30 Walton street. The young man rented a room at that address about a week ago, telling the landlady that he wanted it for his sister. Miss Harvey moved there, and lived very quietly for a few days, being visited on Monday night by Furness. Yesterday morning her non-appearance downstairs and other suspicious circumstances led to the breaking open of the door of her room, when a dead infant was found on the floor, while the mother lay unconscious on the bed.

CHILD HAD LIVED.

Dr. J. M. Johnston was called in, and on examination decided that the child had lived and was not stillborn, as the landlady had supposed. On a washstand in the corner was a basin full of water, and the theory of the police in that somebody held the infant's head in it till life was extinct.

Furness was arrested by Acting Detective Kennedy yesterday as a material witness, but Crown Attorney Curry this morning gave instructions that an information be laid against him. The prisoner says he is a chauffeur, and that he lived in Georgetown till September last, when he moved to Toronto to engage in his business. He asserts that he has known the woman for five years, and that they are both Old Country people.

PLEADS NOT GUILTY.

When Furness appeared in court this morning he seemed very nervous, and hesitated when the Magistrate spoke to him. He pleaded not guilty, and was remanded till the 25th inst. The hospital authorities say the woman is in a serious condition as the result of inattention at a critical time, but that she will probably recover.

Russian Fleet Sailed.

Left the Coast of Annam Before May 13th and Had Really Gone to Fight Togo--Their Whereabouts Unknown.

Amoy, China, May 18—It is believed that part of the Japanese fleet is taking up a position below Formosa and that Admiral Togo has planned to fight the Russians South of Formosa.

Tokio, May 18.—In reply to the representatives of the Japanese Government, the French Government has notified the authorities here that Admiral De. Jonquieres, the French naval commander at Saigon, recently reported that he had cruised along the coast of Annam May 13 and 14 for the purpose of ordering the Russian ships to leave the coast should he find any in French waters. The admiral, however, did not find any Russian vessels between Cape St. James, near Saigon and Turan. Even so far north as Jowanedy, the most available northern anchorage on the Annam coast, not one Russian ship was observed.

CHURCH PARADE SUNDAY, MAY 27.

57th Regiment Will Turn Out on Sunday, May 27th, for Church Parade.

The officers and men of the 57th Regiment will hold their first church parade, this summer to some church, yet to be selected by the officers, on Sunday, May 27th.

A marchout of the corps headed by both bands, will be held on Tuesday night next.

At the regular drill Tuesday night there were 273 officers and men on parade. In Central Park the men were put through company drill, while some extended work was done. The non-commissioned officers practiced the signalling drill under the instructions of Sergt-Major Brittain.

Lieut.-Col. Miller expressed himself as being well pleased, and said that the prospects for presenting a very creditable appearance and showing a high standard of efficiency on the day of inspection were never better.

Castle Dago Moving.

The Old Live Stock Emporium on Simcoe Street Being Removed.

Mr. McCarty with a gang of men, was yesterday engaged in moving that old shack at the foot of Simcoe street, that was lately the home of innumerable sons of Italy, and probably other live stock of smaller stature and more objectionable repute, from its position across from the gas house to a new location behind the Peterborough Cereal Company's mill. This is done to make way for the new switch that a large gang of men are now building from the C. P.R. spur line to the Cereal Company's mill. It is quite an undertaking

ELEVEN CENTS PER PATIENT.

Nicholls Hospital Granted 11c. per Diem Per Patient by Ontario Legislature.

The Ontario Government cannot be accused of gross extravagance in the matter of their grant towards the Nicholls Hospital.

Messrs. John Crane and W H. Hill, were among some forty delegates who recently attended the meeting of the Ontario Hospital Association, held in the Speaker's chambers, Toronto, on April 12th. The Government were to give 30c. a day for indigent patients, but so many calls are now made on the fund for hospital purposes, that the appropriation will probably only get 11 cents per day for each such patient.

A resolution was passed that the association wait upon the Government and ask for a level grant of 25 cents per day.

WANTED A WIFE.

Must be a Good Housekeeper and Economical, Looks Immaterial

This is no clipping from a Yankee yellow journal, but absolute fact, founded on the word of a respected citizen. Ladies applying had better call early and avoid the rush. No photos or agents recognized.

In the north end of Peterborough lives a widower who pines for the joys of conjugal felicity once more, pines hard and impatiently. A few days ago he applied to a friend, a well known citizen, and asked him "Where can I get a good wife?" He further gave his requirements in detail, which include economy and housekeeping; every virtue usually looked for in the fair sex was enumerated, red him to a widow, who is housekeeper for a gentleman in town; forthwith, the importunate swain proceeded to interview the lady; he succeeded in making such an impression on the fair one's fancy, in two hours, that she allowed him to take her trunk to his house whilst she took a day or so to consider the matrimonial knot she was asked to help tie. Next day she sent for "her trunk."

Nothing dismayed by the first failure, the lover again (last Monday), consulted his friend, and begged him to think of some one who would marry him. His friend mentioned an unmarried lady, of certain age, also a housekeeper, living just at the outskirts of town, and said she might fill the bill. "Put in a good word for me, there's a good fellow, for I have never seen the lady," was the answer of the would-be benedict.

His friend assured him he would do this, that very night, as business would take him past her residence. The friend forgot to call on the lady to plead the would-be lover's cause that evening, but Tuesday morning the wife hunter called again, and said he had put on "his other clothes and a boiled shirt," and interviewed the fair one, but with no success. She told him she had gone for 40 years without marrying, and would not take the best man alive on such short notice.

For considerations that would help us to become independent, any lady calling in good faith may procure the gentleman's name and address, but we will not guarantee results.

HE PRINTED TOO MUCH

Because Editor Criticised Russian Institutions He May be Banished

St. Petersburg, May 18.—The public prosecutor has caused the indictment of M. Notoviteb, editor of the Novosti, charging criticism of state institutions, and he demanded that he be banished for life to Siberia and lose all his civil rights.

NEW CLUB HOUSE

Lawn Bowling Club will Erect New Club House at Brookside.

Owing to the enthusiasm and augmented strength of members in the Peterborough Lawn Bowling Club, it was decided at a meeting of the club held on oMnday night, in the offices of their president, Mr. D. H. Moore, to erect a new club house for the members on the Brookside bowling green. This building will be erected in the center of the grounds and will be surrounded by wide verandahs. It will be a handsome structure, and will be fitted up with many conveniences for the membership. Work will be commenced on it in the near future. It was also decided to instal a large number of new lights on the grounds and the fence at the east side will be rebuilt and the grounds will be fixed up for the season's work.

The prospects for the season are very rosy, and the game, with a good early start, will no doubt prove very popular this year.

THE TOWN FIREWORKS BY-LAW.

Notices Forbidding the Use of Fireworks to be Posted.

Yesterday morning the Chief had printed a number of notices calling attention to a town by-law, passed in 1897, forbidding the use in Peterborough, of fireworks of all kinds, crackers, squibs, rockets, etc., and warning the public that said by-law, involving a penalty of not over $50 for contravention, would be strictly enforced this year.

A local merchant came to the station yesterday morning, and represented to the Chief that it would be hard ship to himself and other dealers, who had laid in large stocks of fireworks, preparatory to the 24th May, and 1st July, to have them thus virtually left on their hands. He explained that he himself had laid in $200 worth, and if these placards were issued the expenditure, he had made, would be a clear loss, as the wholesalers would not take them back.

The Chief took the matter under consideration, without giving the merchant much encouragement. He explained that the by-law was still in force, that should any accident or fire take place from the already prohibited use of fireworks, the public might look to him as responsible for not enforcing the town's laws.

The point is, did not merchants lay-

MR. DEYELL'S SUCCESSOR.

It Is Believed That John Lancaster will be the New Councillor.

Mr. John Lancaster, who resides near Villiers, and was a member of Otonabee township Council for several years, is now spoken of as a successor to the late John Deyell as a representative for Otonabee Division in the county council. It is learned that Mr. Lancaster is in the hands of his friends and will likely be a candidate. Mr. John Moore of Keene, who was talked of, has decided not to run. Councillor John Carew, of Otonabee township council, has not yet stated whether or not he will run, but it is not thought he will aspire for the vacant position.

WILL BE ARBITRATED

French Claims for Newfoundland Rights Total $7,000,000

London, May 18.—A Paris despatch says that the arbitration tribunal, constituted in virtue of article 3 of the Anglo-French treaty, for awarding indemnities to all those whose interests were prejudiced by the abandonment of French rights in Newfoundland, will meet June 1st in Paris. The tribunal is to be composed of Captain Aubry, of the French Navy, and M. Delage, agents of the French Government, and Rear Admiral Charles Campbell, and Hon. Ernest Scott, agents of the British Government. The indemnities are claimed by some six hundred sailors, who ask for sums from two to three thousand francs, representing one to two years' salary; also by owners deprived of their establishments on the treaty shore. The claims in all amount to twenty million francs (four million dollars.)

Three Batteries for Limestone City

Kingston, May 18.—Lieut.-Colonel Fages, commanding the fortress, has received orders from the Militia Department to increase the strength of the Royal Canadian Field Artillery, composed of "A" and "B" batteries, to 312. At present it is 220. Sergt. Bramah is in Montreal looking for recruits, of whom five came in this morning. It is not known what the object of the increase is, though it is surmised that three batteries instead of two will be formed.

ATHLETIC WORLD

BY OUR SPORTING EDITOR.

CRICKET.

Lakefield and Peterborough cricketers went to Port Hope yesterday to play a game with Trinity College school men. The team was lined up as follows; Messrs. Delafosse, Ridale, Hall, Pullen, LeFevre, Stuart, and Curdew of Lakefield; and Messrs. K. Eardley-Wilmot, J. H. Burnham, R. H Rogers and George Strickland of Peterborough. Mr. H. LeFevre, of Lakefield, will umpire.

BASEBALL.

Providence defeated Toronto yesterday by 6 runs to 1.

Ladies, Bear in Mind

We draw special attention to the visit of Prof. Doremwand to Peterborough, who will be at the Oriental Hotel with a large selection of styles in Hair Goods, such as Ladies' and Gents' Wigs, Toupes, Bangs, Long Switches, etc. His Hair Coverings are worn everywhere, and the satisfaction obtained by those who adopt them, are health, comfort and younger appearance. DON'T Miss this chance. Why look careworn through the loss of Hair when Prof. Doremwand's Art Goods can improve your looks? He will demonstrate this to every caller free of charge. Only one day, Friday, May 19.

FERROZONE

Will Make You Feel Like New—It Vitilizes, Tones and Strengthens

The best medicine for restoring virility and strength is Ferrozone.

The time to take Ferrozone is when you first feel tired, and when appetite fails, when nerves get irritated.

Its record is marvelous—it makes you feel streng and sturdy, brings health that outlasts old age. Mrs. Mary McLeng, of Harbor Bouche, Nova Scotia, writes:

"Ferrozone built me up.

"Before using it I scarcely knew what good health meant.

"I was just as miserable and weak as any woman could be.

"Tired from morning till night bothered by trifles, unceasingly nervous.

"The first box of Ferrozone improved my blood, gave me appetite. In a short time I was like a new person. Now I rejoice in abundant good health."

Get Ferrozone. It will make an unexpected improvement in your looks, your feeling, your health. 50c. per box, or six for $2.50. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

PETERBOROUGH, MAY 18 1905

THE PLUMBING BY-LAW NOW IN FORCE

WAS FINALLY PASSED AND ADOPTED WEDNESDAY NIGHT

Barber Shops Must Close at 8 p.m.--Reports of Committees--Big Batch of Communications

The following routine business was transacted at the special Council meeting Tuesday evening:

COMMUNICATIONS.

From W. Parnell and S. Wainwright, driver and engineer in the Fire Department respectively, asking for an increase of salary.—Fire, Water and Light committee.

From a number of ratepayers, asking for an extension of Wescott street, from George to Lock streets. Board of Works.

From C. S. McClellan, saying he proposed to temporarily cut off the striking apparatus of the town clock for repairs.—Received.

From F. L. Robinson, saying that after a man employed by him had done considerable excavation at the corner of Charlotte and Aylmer streets for a sewer connection with his property, he found that there was already a sewer connection there. He asked the Town to reimburse him to the amount of $4 he paid the man for said excavation.—Board of Works.

The Misses B. and M. Griffith warned the town that should the grading of the sidewalk on Antrim street prove an injury to their property, they will take action against the town for damages.—Board of Works.

From J. Langley, Toronto, applying for the position of Plumbing Inspector.—Committee of the Whole.

From the Peterborough Light and Power Co., Ltd., showing the position of some poles they are desirous of erecting, and asking the Council's immediate action.—Board of Works.

W. J. Allison asked for a crossing at Bethune street, south of Dublin street.—Board of Works.

W. J. Allison petitioned for a granolithic walk on south side of Dublin street, from Bethune west a distance of 114 feet.—Board of Works.

From property owners on Dickson street, asking that their granolithic walk be constructed upon the ground occupied by the present board walk, and not outside the trees.—Board of Works.

R. G. Kingan asked that his dog tax be refunded, the animal having been killed by a street car.—Received.

From ratepayers, asking that the new granolithic walk south side of King street be extended to George street, and not terminated at the bridge east from Aylmer street, as intended.—Board of Works.

From property owners, petitioning for a granolithic or cement walk on west side of Jackson avenue.—Board of Works.

John Bell petitioned for a granolithic walk on the south side of Townsend street, from Rubidge street, a distance of 70 feet west.—Board of Works.

Property owners petitioned for a granolithic walk on the west side of Rubidge street, from Wolfe to Rink streets.—Board of Works.

Owners of real property petitioned for a pipe sewer on Bolivar street from Park street.—Board of Works.

From property owners, petitioning for a granolithic walk on the south side of Brock street, from Rubidge to Stewart streets, outside of the tree line.—Board of Works.

From property owners, petitioning for a granolithic walk on the east side of Rubidge street, from Wolfe to Townsend streets.—Board of Works.

From property owners, petitioning for a granolithic walk on the east side of Rubidge street, from Dalhousie to Wolfe streets.—Board of Works.

Mr. J. C. Shook, general manager of the Dickson Co., called attention to the neglected state of the east end of Murray and Dickson streets, and asked that the grade of the hill be reduced, and other necessary improvements made.—Board of Works.

The Peterborough Radial Railway Co. asked permission to make sewer connection with their barn on King street, running their pipe in connection with the one Mr. Lundy is laying to his new buildings on George street.—Board of Works.

From the Peterborough Light and Power Co., re a complaint from the Council of some street lamps not burning when needed. The company explained that although they are running on a moonlight schedule, they frequently turn on the lights when not required by contract. It may also happen that when this occurs the lamps were not trimmed, as they were counting on having sufficient carbon in the lamps to run them for the number of hours the moon was not shining; consequently if they turned them on earlier in the evening, the night being cloudy, some of the lamps might burn out before daylight next morning. This would account for so many lights being out on the day complained of.—Fire, Water and Light committee.

From property owners, praying that a granolithic sidewalk be constructed on the east side of Rubidge street, from London street north to Edinburgh street.—Board of Works.

From the Typographical Union, asking the Council to live up to the resolution passed last year, calling for the union label on all printing ordered by the town.—Committee of the Whole.

The Trades and Labor Council petitioned that Civic Holiday be changed from the third Thursday to the first or second Monday in August, Civic Holiday and Labor Day under the present law coming too close together.

COMMITTEE OF THE WHOLE.

Ald. Adams presented the following report:

Gentlemen,—Your Committee of the Whole Council beg leave to report as follows:

1. In accordance with instructions from the Council we appointed the Mayor and Ald. Hall and McIntyre to represent the Council on the deputation to wait upon the Minister of Public Works for Ontario in regard to the transfer of the dams and reservoirs on the Trent Valley waters from the Ontario to the Dominion authorities.

2. Your committee examined a bylaw to regulate the plumbing in the town and approved of it as amended and gave instructions to have it re-written.

3. Your committee appointed Ald. Adams, Mason, Hicks, Scott and Hall and the Town Solicitor to represent the Council before the Private Bills committee of the Legislature when the Town's bill came before it the second time, and recommend that their expenses be paid.

4. We recommend that the Street Commissioner be authorized to pay such wages as are necessary in connection with the construction of granolithic sidewalks, and that the Treasurer be authorized to pay them on the certificate of the Town Engineer and Street Commissioner.

All of which is respectfully submitted.

BOARD OF WORKS.

Ald Adams submitted the following report:

The report was adopted.

Gentlemen,—Your Board of Works beg leave to report and recommend as follows:

1. That the Peterborough Radial Railway Co. be permitted to put five poles on Perry street and remove seven off Lake street, and that they be permitted to renew poles on Crescent and Lock streets.

2. That the Peterborough Light and Power Co. be permitted to place six poles on the north side of Carlisle avenue, five on the north side of Aberdeen avenue, four on the west side of Aylmer street, seven on the west side of Driscoll terrace, and, as far as the town can give permission, six on the west side of Wolseley street.

3. That Mrs. E. Jackson be paid $125 in full settlement of her claim on account of the sidewalk being lowered on the north side of Hunter street, east of Water street, Mr. A. P. Poussette, K.C., having agreed on her behalf to accept that sum. Mrs. Jackson to execute a release satisfactory to the Town Solicitor.

4. That the teamsters employed on Corporation work be paid $2.25 a day, they to draw a minimum load of 1 1-2 cubic yards, and that those who draw 1 3-4 cubic yards be paid $2.50 per day.

5. That T. Rutherford be paid $20.50 for gravel in accordance with a certificate of the Town Engineer.

6. That having examined petitions for the construction of granolithic sidewalks as local improvements on the following parts of streets, and found them sufficiently signed, that they be granted; namely, on the north side of Townsend street, from Rubidge street west 70 feet; on the west side of Rubidge street, from Wolfe to Rink streets; on the south side of Brock street, from Rubidge to Stewart streets; on the east side of Rubidge street, from Wolfe to Townsend streets, and on the east side of Rubidge street, from Dalhousie to Wolfe streets.

7. That a petition for the construction of a sewer as a local improvement on Stewart street, from McDonnell to London streets, having been found to be sufficiently signed, be granted.

8. That the application from Odino Laplante for an extension of a sidewalk on Romaine street be granted, he to lay said plank.

9. That the letter from P. McNamara, asking that a bill board on Lake street be removed, be referred to the Town Engineer to notify the owners to remove it if it is on the street.

10. That the letter from Edmison & Dixon regarding the claim of J. H. Cobb for damages on account of his premises having been flooded be referred to the Legal committee.

11. That no action be taken on the letter from James Bogue regarding the grade of the sewer on Dublin street.

12. That the request of A. F. Lane and C. Seymour for a sidewalk on the east side of Reid street, between Simcoe and Charlotte streets be granted when a properly signed petition is presented.

(Concluded on page four.)

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 20 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations nd private firms in Western Canada.

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

More About the Jura-Trias

Referring to our ad. in yesterday's paper, we wish to say that the block of 15,000 shares of stock in our hands for sale is tied up as collateral in a bank and it must be sold quickly or will be forfeited. This stock is worth par value. There is no treasury stock on the market. Within one year's time this stock will be earning a big profit on its par value and will perhaps be worth from $1.50 to $2.50 a share. The president of the Stubbs Investment Company was in charge of development of this property for one year and knows it to be one of the biggest propositions in the country. It is not a prospect, but a mine, and will soon be shipping metallic copper. This opportunity will be open but a short time Will accept orders for blocks of 1000 shares or more at 45 cents a share

The Stubbs Investment Company

Stocks—The MARKETS OF THE WORLD—Grains

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $1 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and New Foundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $4,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on the impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

VARICOCELE CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.

Confined to His Home for Weeks.

"Heavy work, severe straining and evil habits in youth brought on a double varicocele. When I worked hard the aching would become severe and I was often laid up for a week at a time. My family physician told me an operation was my only hope—but I dreaded it. I tried several specialists, but soon found out all they wanted was my money. I commenced to look upon all doctors as little better than rogues. One day my boss asked me why I was off work so much and I told him my condition. He advised me to consult Drs. Kennedy and Kergan, as he had taken treatment from them himself and knew they were square and skilful. He wrote them and got the New Method Treatment for me. My progress was somewhat slow and during the first month's treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn $18 a week in a machine shop before treatment, now I am earning $21 and never lose a day. I wish all sufferers knew of your valuable treatment.
HENRY C. LOCUST.

HAS YOUR BLOOD BEEN DISEASED?

BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and unless entirely eradicated from the system will cause serious complications. Beware of Mercury. It only suppresses the symptoms—our NEW METHOD positively cures all blood diseases forever.

YOUNG OR MIDDLE-AGED MEN.—Imprudent acts or later excesses have broken down your system. You feel the symptoms stealing over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signals?

READER Are you a victim? Have you lost hope? Are you intending to marry? Has your blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. BOOKS FREE—"The Golden Monitor" (Illustrated), on Diseases of Men.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes or envelopes. Everything confidential. Question list and cost of treatment FREE for Home Treatment.

DRS. KENNEDY & KERGAN

Cor. Mich. Ave. and Shelby St., Detroit, Mich.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY, COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 800 feet in length with a depth of 300 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo, Colo., has averaged a little over $60 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $80 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $3.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $5 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $780.00 per ton and for gold $235.00.

With an average value of $65.00 and transportation and treatment expenses of $12.40 a ton, the net value of our ore has been $37.60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 378,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

AFTER TRAFALGAR.

One Cruiser of Modern Type Could Destroy the Whole of Nelson's Fleet—An Interesting Comparison.

For close upon a century, says The London Express, Britain has enjoyed, undisputed, the supremacy of the sea won for her by Nelson's glorious victory at Trafalgar ninety-nine years ago. Nothing is more remarkable than the complete revolution which naval construction and naval warfare have undergone in the intervening years. If the great Admiral's fleet could be restored as it was in 1805 a single cruiser would blow it out of the water in an hour without ever coming within range of its guns. Steam propelled vessels were, of course, unknown in Nelson's time, and the issue of a battle depended to a great extent upon seamanship and the vagaries of the wind.

The range and destructive power of the guns were then so small that officers and men were often killed by rifle fire from picked shots placed in the enemy's masts, and, as all know, Nelson himself met his death in this way. In modern naval warfare a decisive battle may be fought, as at Chemulpo, without the combatants coming within four miles of each other.

If we compare the navy at the commencement of the nineteenth century with the navy of to-day, the following interesting comparison is obtained:

	1802.	1904.
Number of ships..	450	473
Tonnage	461,000	1,867,202
Guns	24,800	1,802
Men	184,000	131,606
Cost	980,087,000	$184,000,000

The actual average number of guns to each ship, it is interesting to note, has fallen from fifty-five in 1803 to about fifteen this year. In striking this average torpedo craft are taken into account. This reduction, of course, has been rendered possible by the enormous increase in the range and destructive power of the modern gun. Comparing Nelson's flagship Victory with the newest 16,000 ton battle ship of the King Edward VII. class, it will be found that while the Victory's heaviest shot was sixty-eight pounds, the twelve-inch guns of the King Edward VII. will fire a projectile weighing 850 pounds.

With the invention of armor plates, the first of which was made for the Crimean War, the cost of warship construction has increased enormously. A 100-gun man-of-war in Nelson's time, coppered, masted and rigged, but excluding armament, cost $338,000. The King Edward VII, without its guns and ammunition cost the immense sum of $6,842,000, or twenty times as much as Nelson's Victory.

Britain's naval predominance over other Powers was much more pronounced five years after the battle of Trafalgar than it is to-day. It will be seen from the appended table that in 1810, so far as gun power is concerned, she could have made a good fight of it had all the other naval Powers in the world combined against her. The strength of the fleets of the great Powers in that year was as follows:

	Ships.	Guns
Great Britain	450	24,800
France	212	8,000
Russia	346	4,456
Spain	301	8,000
United States	159	628
Other countries	217	4,800

But in the unlikely event of Britain being at war with the combined nations of the world in 1905 she would stand a poor chance of victory. Coast defence ships are here included with battleships:

	Battle Ships.	Armored Cruisers.	Cruisers.
France	42	23	23
United States..	35	23	21
Russia	30	11	27
Germany	25	7	25
Italy	18	6	14
Japan	6	7	15
Totals	168	77	129
Great Britain..	64	41	126

If the ships and the guns of the navy have undergone a revolution since Nelson's day, so also have the men. So difficult was it to obtain sufficient seamen to man the ships toward the close of the eighteenth century that bounties amounting to as much as $350 had to be offered to induce men to serve. This naturally led to the introduction of the riff-raff and scum-bags of every class.

There is a striking difference, indeed, between these ruffians and the smart, kind-hearted men of King Edward VII.'s navy. Though men were difficult to obtain in Nelson's time, the supply of officers was seldom deficient. So great, in fact, was the competition among the upper classes to enter the navy that the names of children were often entered in the ship's books before they were out of the nursery.

A striking instance was Sir Edward Hamilton, who was born on March 12, 1772, and was entered as midshipman on May 21, 1779, when he was only seven years old. It is stated that he actually took part in an action on board his father's ship, the Hector, one year later.

The famous Thomas Cochrane, tenth Earl of Dundonald, whose name is associated with as many daring and successful exploits as that of almost any naval officer, was born in December, 1775, and entered as captain's servant when five years old. Nelson himself entered the navy at the age of twelve and immediately went west on a voyage to the West Indies.

It was the custom in those days, whether in the navy or army, for young gentlemen to serve their apprenticeship as page to some man of note or position and work their way up, partly by influence and partly by talent, to the higher grades of their profession.

A preliminary training on land was not so important for Nelson's officers as it is to-day, when a battleship is filled with complicated machinery from end to end and manual labor has been reduced to a minimum.

Arsenic in Beer Barrel.

Extraordinary evidence was given at an inquest at Bury St. Edmunds, England, on Robert Dickman, a farm laborer, who died after drinking a glass of home-brewed beer at the North Stow Farm, on the Culford estate.

The county analyst stated that an analysis of a sample of the beer of which Dickman had partaken had revealed the presence of 98 grains of arsenic per pint, sufficient to kill 25 or 30 persons.

The barrel from which the beer was taken was shown to have originally contained a double-strength weed destroyer, consisting of a strong solution of arsenic. When sent out by the manufacturer it bore large brass labels at either end, warning users of the dangerous contents of the barrel.

The career of the barrel was traced through various hands until it was finally sold by auction to a West Stow butcher, who afterwards sold it to Dickman's brother-in-law, the tenant of North Stow Farm, who used it for brewing beer.

Arsenic was found by the analyst still clinging to the sides of the barrel, and he estimated that there was sufficient to kill over 2,400 persons.

The jury brought in a verdict of "Death from misadventure."

George Meredith and Women.

Mr. Meredith has sent the following letter to Mr. Hugh W. Strong, managing editor of *The Cornish Leader*: "Since I began to reflect, I have been oppressed with the injustice done to women, the constraint put upon their natural aptitudes and their faculties generally, much to the degradation of the race. I have not studied women more than I have men, but with more affection, a deeper interest in their enfranchisement and development, being assured that women of the independent mind are needed for any sensible degree of progress. They will so educate their daughters that these will not be instructed at the start to think themselves naturally inferior to men because less muscular, and need not have recourse to particular arts, feline chiefly, to make their way in the world. I have no special choice among the women of my books. Perhaps I gave more color to 'Diana of the Crossways' and Clara Middleton of the 'Egoist,' and this on account of their position.

Descendant of Defoe.

At Essex Quarter Session the other day Howard C. Pearce pleaded guilty to stealing £30 from a grocer at Southend.

Counsel said that Pearce was a descendant of Daniel Defoe and inherited the author's romantic disposition. He had been to sea and returned to Southend, and when he committed this theft ran away to Canada. Being conscience-stricken, however, he returned and surrendered.

He was released on promising to go to sea.

Lung, Throat and Catarrhal Troubles

MARVELLOUS DISCOVERY THAT HAS DELIGHTED ALL CANADA BY ITS PROMPT CURES

The method that has proved successful through its enormous advantages of being pleasant and free from the danger of creating the drug habit employs dry air as the carrying agent.

By this method every part of the breathing apparatus is bathed by a medicated air. Germs which excite the trouble are immediately destroyed. Sore and tender spots are healed and the congested surfaces restored to normal condition.

This method of treatment is known as Catarrhosone, and has obtained a footing never attained by any other remedy for the many diseases affecting the respiratory tract.

Catarrhosone is fragrant, healing, balsamic, pleasant as the air of the pine woods and more active as a healing agent than anything hitherto discovered. It contains neither cocaine nor any of those irritating substances which really increase the congestion and add to the difficulty, instead of curing as Catarrhosone so quickly does.

MRS. BINT BROWN, of Lancaster, N.B., had lung trouble and catarrh. She took cough mixtures but they made her sick. Then she used an atomiser, but after resorting without benefit to poultices and numerous other remedies, she tried Catarrhosone. "I used Catarrhosone Inhaler," she writes, "five minutes every hour, and soon recognized it was going to cure. I could feel the soothing medicated air spreading through the air passages of the throat, and it touched the sore spots in the lungs that other remedies failed to reach. Catarrhosone seemed to go just where it was needed most, and soon put a stop to my cough. It restored me to perfect health, and I am convinced that no cough, cold or catarrh can exist where Catarrhosone is used."

The complete Catarrhosone outfit contains a large bottle of inhalent, sufficient to keep recharging the inhaler for two months. It costs $1.00 and is guaranteed to cure; sample size 25c. Sold by all druggists or sent direct to your home by mail if price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

Leave of Absence.

Ottawa, May 17.—At a meeting of the officers of the Governor-General's Foot Guards held Tuesday night it is understood that Lieut.-Col. Roper intimated his intention to apply for six months' leave of absence, after which he will retire from command of the regiment.

Getting in Shape for Stony Lake.

Mr. Frank Young of Young's Point was a visitor in town yesterday. He states that a very busy season is expected at Stony Lake this summer, and consequently the steamers are being put in good shape. The Majestic is at present towing logs in Buckhorn Lake. The Empress, it is expected will soon leave her winter quarters in Bobcaygeon for Stony Lake.

Twelfth Anniversary, under auspices of Lady Lansdowne Lodge, No. 22, High Tea and Concert in S. O. E. Hall, on Thursday, May 18th, 1905. Tea served from 5.30 to 8. Concert at 8 sharp. Admission 25c. Come one! Come all!

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

W H ERI LE

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. J. L. Reid, of Bobcaygeon, is in town.

—Capt. Zach White of the steamer Beaver, was in town yesterday.

—Mr. George J. Sherry, barrister of Norwood, was in town yesterday.

—Dr. T. N. Greer has returned from a business trip to Toronto.

—Mr. Bruce McBean and wife of Winnipeg, are registered at the Oriental.

—Mr. W. T. Buck, of Norwood, Warden of the county, was in town yesterday.

—Mr. J. Rundall, the well-known clothing manufacturer of Hamilton, is in town.

—Mr. Hugh Kennedy, representing the Tudhope Carriage Company, of Orillia, is in town.

—Mr. T. Commerford, representing the Brantford Carriage Company, Brantford, is in town.

—Mr. J. M. Kilbourn, Owen Sound, President of the Lakefield Portland Cement Company, is in town.

—Miss Allie Sherin, Lakefield, is the guest of Miss Nina Davidson, corner of London and Aylmer street.

—Mr. Charles Buck, a retired farmer, living in Norwood, died yesterday morning. He was a relative of Warden Buck.

—Ald. W. J. Magrath, cheese buyer, of Belleville, was in town yesterday attending the opening meeting of the cheese board.

—Miss Clara Dean, daughter of Mr. Richard Dean, Selwyn, passed through town yesterday on her way home, after an extended visit in Ottawa.

—Mr. H. LeBrun returned on Tuesday from Montreal, where he spent a few days attending the clearing sale in gent's furnishings of the whole sale houses.

Lindsay Trying to Get New Industry.

—The Lindsay Post says; The Board of Trade held a meeting last night, and about 50 citizens attended. Mayor Ray and Mr. Wm. Flavelle, who visited Toronto a few days ago, reported strongly in favor of the new furniture factory, and a stock list was opened. The response was discouraging, but to-day Mayor Ray, Mr. Alderson, and Mr. Weldon are interviewing our citizens and we hope to hear of the $12,000 of stock being subscribed.

Incorporation Now Accomplished

In the Ontario Legislature on Tuesday, Mr. T. E. Bradburn presented the bill respecting the town of Peterborough for its third reading. The measure was accordingly given its third reading and now only awaits the formal assent of the Lieutenant-Governor. The bill provides that Peterborough shall become a city on July 1st. All the other clauses in the measure are now safely passed. Now is the time for all citizens to put their shoulder to the wheel and roll Peterborough along.

Licenses Transferred.

A meeting of the liquor license board was held on Tuesday, when two applications for transfers of licenses were granted. Lucy Brown's shop license was transferred to A. Rountree, and the hotel license of James Furlong, of Lakefield, was transferred to Isaac Eastwood. The commissioners adjourned until the 30th inst. when they will discuss shop regulations and see that the liquor department is completely separated from the grocery store, and that other requirements of the law are fully complied with. Mr. Eastwood's license will again have to be transferred as his recent purchase has been resold to Mr. Jas. Allen, late proprietor of the C.P.R. Hotel, town.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

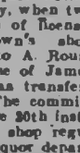
Hall's Family Pills are the best.

Police Court

OFFICIALS

Chief of Police, G.I. Reed
Magistrate, D.W. Dumble



Yesterday's court was of little interest to the "Sons of Rest," who usually occupy the parquet.

Murphy who, "batches it," with his small son in the coal shed, appeared with the boy, but his case was enlarged until this morning.

The first gun in the Chief's crusade against dog owners who have omitted the ceremony of paying dog-tax, was fired at yesterday's session, when the owner of a canine was charged with not paying the tax. The man said he did not own a dog, but that the dog, whose scalp the police were whetting their knives for, did not belong to him, but, like Mary's little lamb, followed him every where. The case was enlarged until Monday, to give the man a chance to argue with the dog and persuade it not to accompany and make its home with him. The argument will likely be augmented by a shot gun.

Mr. John Sims was charged with an infraction of the fire by-law, for having built a wooden addition to his house within the fire limits on Murray street. This case was also enlarged till Monday.

THE PLUMBING BY-LAW NOW IN FORCE

(Continued from page two.)

13. That the request of Sing Lung for permission to erect a sign on George street extending over the sidewalk be not granted.

14. That a petition for a sidewalk as a local improvement on the south side of Gilmour street, west St. Thomas street, not being sufficiently signed, be not granted.

15. That a petition for a sewer on Edinburgh and Union streets, not being sufficiently signed, be not granted.

16. That in making his report on the diversion of the creek in Ward 5 the Engineer calculated the interest on debentures at four per cent., and the sinking fund on a 3 1-2 per cent. basis.

17. That the Park street drain be covered with inch plank where necessary, between Townsend and Rink streets.

18. That the Street Commissioner be paid $3.25 per day, while engaged in superintending granolithic sidewalk construction, on the certificate of the Town Engineer.

19. That the matter of employing a time keeper on sidewalk construction be left to the Street Commissioner.

20. That the sewer on Park street between Charlotte and Sherbrooke streets, be laid on the west side of the street.

21. That the plank sidewalk be extended on Stewart street to Edinburgh street of old plank.

All of which is respectfully submitted.

The report was adopted.

PROPERTY COMMITTEE.

Ald. Scott presented the following reoprt:

Gentlemen,—Your Property committee beg leave to report and recommend as follows:

1. That the Chairman and Ald. Leary be authorized to purchase a new linoleum for the floor of the Committee Room, carpets for two of the Firemen's bed rooms, have a rail placed on the market scales and the ceiling of one of the Firemen's bed rooms papered.

2. That the Clerk be instructed to write to the W. C. Clark Coal Co., of Detroit, that the town does not need to purchase coal at such a distance.

The report was adopted.

All of which is respectfully submitted.

FIRE, WATER AND LIGHT.

Ald. Johnston presented the following report.

Gentlemen,—Your Fire, Water and Light committee beg leave to report as follows:

1. Your committee authorized the Water Commissioners to place a hydrant on a new main at the corner of Stewart and Perry streets.

2. We recommend that R. Parnell be appointed a driver in the Fire Department at a salary of $450 a year, payable on the 15th and last days of each month.

3. We recommend that the petition for a hydrant on the corner of Edinburgh and Union streets be granted, subject to the approval of the Water Commissioners.

4. We recommend that a hydrant be placed at the corner of Reid and Smith streets, subject to the approval of the Water Commissioners.

All of which is respectfully submitted.

The report was adopted.

EXTENSION OF TIME.

In response to a petition from Mr. B. Neill, the Solicitor was authorized to prepare a bylaw to provide for extending the time in which the Canadian Machine Telephone Co. are to complete their service six months

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Civic Holiday this year will be on Monday, August 7th.

—The work of arranging the new pleasure park is being carried on.

—The road roller is at work on Murray street, near the corner of Bethune street.

—Mr. T. Stillman has opened out a first-class harness shop in Keene. He is an experienced workman.

—The Girls' Guild of All Saints' Church will hold an apron sale on the rectory lawn, the first week in June.

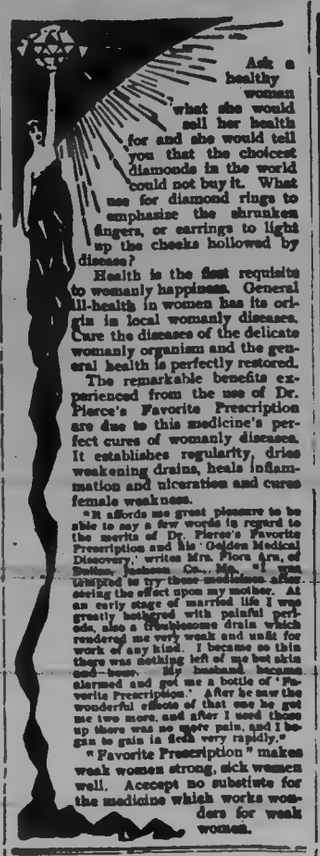
—P. C. Stewart, who is inspecting the backyards of the town, states that as a rule he finds the premises in very good order.

—County Constable Cochrane left on the noon train for Havelock yesterday. He was after two men in Belmont township.

—The boat livery which is being erected by Mr. H. B. Rye at the southern terminus of the street railway line, is nearing completition.

—The chief constable of Cobourg has wired the police to look out for Edith Bowen and Lucy Daniel, two young girls, who have run away from their homes.

—County Magistrate Edmison held police court at Norwood on Tuesday. Only one case was heard in which two men were charged with being disorderly. Both were discharged.



Ask a healthy woman what she would sell her health for and she would tell you that the choicest diamonds in the world could not buy it. What use for diamond rings to emphasize the shrunken fingers, or earrings to light up the cheeks hollowed by disease?

Health is the first requisite to womanly happiness. General ill-health in women has its origin in local womanly diseases. Cure the diseases of the delicate womanly organism and the general health is perfectly restored.

The remarkable benefits experienced from the use of Dr. Pierce's Favorite Prescription are due to this medicine's perfect cures of womanly diseases. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"It affords me great pleasure to be able to say a few words in regard to the merits of Dr. Pierce's Favorite Prescription and his 'Golden Medical Discovery,' writes Mrs. Flora Ara, of Bolton, Jackson Co., Mo. "I was tempted to try these medicines after seeing the effect upon my mother. At an early stage of married life I was greatly belagred with painful periods, also a Bloodsome drain which rendered me very weak and unfit for work of any kind. I became so thin there was nothing left of me but skin and bone. My husband became alarmed and got me a bottle of 'Favorite Prescription.' After he saw the wonderful effects of that one he got me two more, and after I used those up there was no more pain, and I began to gain in flesh very rapidly."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for weak women.

—The county auditors, Messrs. J. L. Squire, of Norwood, and W. H. Casement, of Lakefield, are in town auditing the county accounts for 1904. They will complete their work in a few days.

DOES IT STAND TO REASON that Perry Davis' Painkiller could have held public confidence for 60 years unless it really did cure diarrhoea, cholera morbus and all similar troubles so common and so dangerous in hot weather.

—The residents on Stewart street are asking what is the cause of the delay in laying the new six inch main on that street north of McDonnell. The pipe has been on the ground several days, and the trench has been opened up, and if not soon closed an accident may result.

—The Young Conservative Club will hold a big picnic on the Exhibition grounds on Saturday, July 1st. Invitations have been sent to Hon. J. P. Whitney, Mr. R. R. Gamey, M.P.P. Mr. George Taylor, M.P., Conservative whip and others to address the gathering. Favorable replies are expected in an early date.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrographic Work. Studio 134 Brock Street, Peterborough.

—At a meeting of the Advisory Board of All Saint's church on Monday night, it was decided to go on with the proposed extension to the church. Mr. J. E. Belcher is now preparing the plans and specification. Two members of the board have promised a chime of bells as a donation when the building and tower are completed.

A Desirable Change

Gentlemen Who Are Bald.—A great many think it is impossible to replace their former growth; these thoughts would be at once expelled from their minds should they investigate the Art Hair Coverings manufactured by Prof. Dorenwend, whose skill in this line is world-renowned. Over 36,000 wear his Art Productions. They are feather-weight, securely adjusted, durable, and a great protection to the head against cold, catarrh and other ailments, and give a much younger appearance. He is at the Oriental Hotel, Peterborough, on Friday, May 19th. Don't miss seeing his goods.

DUTTON'S MARKET.

Pineapples for preserving $1.25 to $2.25 per dozen.

R. A. DUTTON
Phone 304. 418-420 George street.

C.G.E. Co. Are Doing Things.

A Toronto despatch says business on the local stock exchange was the smallest in almost a year, only 349 shares. The dullness resulted in some recessions in prices. Gen. Electric sold off from 158 1-2 to 157 1-4. The company has just completed the largest generator ever built, one of 12,000 horse-power, the first of a series for the Ontario Electric Development Company. Peterborough reports also announce the construction of the first turbo-generator, the demand for which in the U.S., is so great that the American company has orders amounting to ten million dollars. A corresponding development in Canada would mean even greater activity at the Peterborough works.

HOW TO AVOID GERM DISEASES

Strengthen the Stomach and Digestion, and You Will Keep Well

When there is an epidemic of germ diseases, and most diseases are caused by germs, it is the person with a weak stomach who succumbs first.

People with healthy digestion are ordinarily not subject to sickness, and can throw off readily any disease germs that enter the system.

Strengthen the stomach and digestive organs with a Mi-o-na tablet before each meal, and every atom of food taken into the stomach will be digested and assimilated, and the whole digestive system made so healthy, clean and sweet that there will be no chance for disease germs to breed.

If you suffer with pains or distress after eating, headache, belching of gases, sour food, a bad taste in the mouth, dizziness, pains in the heart, specks before the eyes, and a general feeling of despondency and weakness, you should get well at once by strengthening the stomach with Mi-o-na. Just one small tablet out of a fifty cent box before eating, and your digestive system will become so strong that you will be the embodiment of good health and spirits, and need fear no germ diseases.

Ask Wm. Madill to show you the guarantee under which he sells Mi-o-na; it costs nothing unless it cures.

"CANADA'S PREMIER PIANO AND NATIONAL INSTRUMENT.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20 00 per share.

THERE IS NOTHING EXTRAORDINAR

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $930 00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least two thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

Russian Fleets Joined, Rojy is All Right? Japs Are Guessing

Vice-Admiral Birileff Sent to Vladivostok to Take Command of Fleet If It Ever Gets There--Japs Think Russian Fleet May Take the Aggressive.

Saigon, May 19.—A junction was effected on May 9 by the squadron of Vice-Admiral Rojestvensky and Rear-Admiral Nebogatoff. It took place outside of territorial waters.

Tokio, May 19.—The reported departure of Vice-Admiral Rojestvensky from Ham Koe Bay northward renews the popular expectation of a naval action in the near future. It is believed that Admiral Rojestvensky, having filled his coal bunkers and re-supplied his fleet, is now in a condition to assume the aggressive, if he desires. It is the opinionof some that Rojestvensky may make a demonstration in the vicinity of the islands of Formosa and the Pescadores, and then enter the Pacific in route for Vladivostock. This is, however, purely speculative. Everything depends upon Admiral Rojestvensky's plans, which, while as yet undisclosed, may include an extended stay in southern waters.

St. Petersburg, May 19.—The fears expressed here yesterday that, owing to the reported nervous break-down of Vice-Admiral Rojestvensky, the Russian fleet in the far east would lose its present commander-in-chief turned out to be un-founded. Capt. Zilotti, the aide-de-camp of Minister of Marine Avellan, to-day authorized the statement that Rojestvensky has not applied to be relieved from duty. However, the condition of the Russian admiral's health continues to be a source of anxiety. It is confirmed that the report that he had applied to be relieved may have arisen out of the virtual decision, in view of the condition of Rojestvensky's health, to send Vice-Admiral Birileff to Vladivostock, where, in the event of Rojestvensky's success in the coming battle, he, Birileff, will take over the supreme command of the Russian naval forces in the far east, and occupy a post similar to that of the late Vice-Admiral Makaroff at Port Arthur and Vice-Admiral Skrydloff at Vladivostok.

Running Down Long?

You and Your Food Are a Misfit Sure.

It's a relief to feel the sunshine and glow of perfect health, bounding energy and "go" of the successful, brimful-of-spirits man. The joy of living real LIFE will come back when you give your body the kind of food it is mutely appealing for, that from which it can make good the daily waste caused by brain work and exertion.

Suppose you abandon for a time the food which evidently is not properly nourishing you, and go in for a 10 day test and see how near the food expert, who perfected

Grape-Nuts

comes to your case. Drop tea and coffee absolutely and if you want to get to the front by bounds cut your tobacco down to at least one-half.

Now for breakfast.

A very little ripe fruit, a saucer of Grape-Nuts (not over 4 heaping teaspoonfuls with some rich cream poured over it, insist on cream, milk will do as a last resort, but water spoils the delicate sweet flavor), a slice of very hard-baked toast, thinly buttered and a cup of Postum Food Coffee. No more,

That will carry you until lunch time, when the same articles can be used, and add a little hot clear soup.

Take dinner at 6 or 7 and have a generous portion of meat, only one kind. Cut out the soup and fish, have 2 vegetables and a Grape-Nuts pudding, a cup of Postum Food Coffee (which will not keep you awake) and one or two slices of buttered toast. QUIT THERE.

Two days thus will open your eyes and 10 days make this good old world seem a happy place again.

It's nice to be happy.

THERE'S A WAY, AND "THERE'S A REASON."

DECLARES FRANCE IS RESPONSIBLE

The Japanese Times has a Warm Editorial

ROJESTVENSKY'S BIG FLEET

An American Sea Captain Reports That the Vessels are in Fine Shape

Tokio, May 19.—In a strong editorial dealing with France's failure to enforce neutrality on Rojestvensky the Japan Times asserts that through the Republic's ineptitude, Japan is confronted with a momentous question, the consequences of which will be far-reaching and on the outcome of which peace of the world rests. It adds that whatever may be the ultimate decision every right-minded person must admit that the responsibility rests on France alone.

RUSSIANS IN GOOD SHAPE.

Hong Kong, May 19.—When in the vicinity of Pescadore, May 10, the American mail steamer Doric was stopped by a Japanese cruiser, and after some signalling, allowed to proceed. On May 14, the Doric passed fifty-two vessels of the Baltic fleet. The captain of the Doric says that the Russian ships were in grand shape and have been recently painted. They were leaving Honkoe Bay when seen. The warships were towing some torpedo boats. The hospital ships were in the rear of the fleet. The converted cruisers were on each side. The armored cruisers and battleships were outside. The heavily laden transports were also in the centre of the formation. The Admiral's flagship was in the right wing, followed by several first class battleships.

LARGE ATTENDANCE AT Y.M.C.A.

Shows Appreciation of New Dormitory System--Good Program.

Last night a large and fashionable attendance of Peterborough's best citizens assembled within the commodious halls of our Y.M.C.A. building, to greet and inspect the new and elaborate system of dormitories inaugurated by that exemplary association.

Many of the ladies, perhaps as a more distinct way of evidencing their appreciation, came in evening dress and bathes.

The whole evening's proceedings were marked by good management and marked approval thereof by all present. Lieut.-Col. Edwards, Secretary Williamson and others took special trouble to make everyone at ease and to carry things to a successful toute ensemble.

From 7.30 till about 8.30, there was a pleasing but informal reception, and those attending availed themselves of the privilege of inspecting the new dormitories; the universal opinion was that the dormitory system was "not only a good idea, but that it had been put into successful execution. In the Association Hall, with Col. Edwards in the chair, a most excellent intermingling of good music, and stirring addresses succeeded the opening prayer by the Rev. J. G. Potter, B.A. A letter of regret was read from Mr. E. G. Patterson, in which the writer explained that sickness in his family prevented his participating in the evening's pleasure.

The addresses were listened to with great interest and were mainly expressions of approval of the good work done by the Y.M.C.A. in providing this long wanted dormitory system, which would have a marked tendency towards providing young men with more suitable residential quarters, and thereby keeping them from evil influences, one of the leading principles of the association. A happy feature of the evening was a presentation made by Messrs. G. L. Galley and Dormer, of a life-sized portrait of the trustees, Messrs. Richard Hall and Chas. McGill.

The program was as follows, eliminating Mr. Patterson's address, as noted:

Prayer ..... Rev. J. G. Potter, B.A.
Piano ..... Miss Alice K. Roger
Chairman's Address ....
Solo ..... Mrs. K. Eardley-Wilmot
Mr. Robt. F. Hardig
Addresses ..... Mr. J. W. Bennet
Mr. J. S. Knapman
Solo ..... Mr. Wm. McIlroy
Mr. E. G. Patterson
Addresses ..... Mr. T. F. Matthews
Mr. D. Hughes-Chirks
Instrumental ..... Mr. Gilbert Markl
Presentation on behalf of the Stranger's Fellowship Club.
Address ..... Mr. Richard Hall
Solo ..... Mr. R. N. Jolliffe
God Save the King.

WILL OPEN ABOUT OCTOBER IST.

The New Opera House May Now be Considered a Certainty.

One of the largest, and most really felt wants of this town has for years been a new, safe and commodious opera house. The old opera house has lost its usefulness as far as public requirements and approval go. It is behind the age and more suited to a back country village than a progressive town.

With good management (and no complaint was made with that of the old house) there is good reason to believe that the coming Temple of Thespis will be a paying investment as well as a pleasure to the public. Now that the assessment has been satisfactorily arranged, and the list on which the life of the scheme seemed to depend has been well signed, we can look forward with hopes for the opera house being finished by October 1st.

The plans provide for a seating capacity of 1,300 people, the dimensions of the stage being 60 feet wide by 40 feet deep and sixty feet high. The theatre will be equipped in modern style and the plans show that it will be a structure which might well be considered a credit to the town.

The New York Theatrical Stock Exchange will conduct the building operations. It is estimated that the house will cost in the neighborhood of $30,000.

SIR CHARLES IN LONDON

Veteran Canadian Statesman Confident of Chamberlain's Success

London, May 19.—Sir Charles Tupper is staying in London a few days after the trip in the South of Europe. He is enjoying the present beautiful spring weather and is visiting a number of acquaintances. Sir Charles expresses the keenest interest in the British political situation and his confidence that Chamberlainism is making decided headway with the British public. The stray by-elections, which have gone against him were not decided, Sir Charles, believes, upon great national issues such as away general elections.

LAKEFIELD LODGE I.O.O.F.

Lakefield Lodge No. 353 Duly Instituted by Visiting Peterborough Oddfellows.

The latest addition to Oddfellow's Lodges in this part of the country is Lakefield Lodge, No. 353, instituted on Wednesday night, at Lakefield.

Twenty candidates were secured the initiatory, first, second and third degrees. There are seven charter members, so that the lodge starts off under the most favorable auspices.

The work was ably put in by the degree teams of Peterborough lodge No. 111, and Otonabee lodge, No. 12. They went to Lakefield by special train accompanied by a large number of brethren. The lodge was organized by Mr. Blackley, of Kingston, who has been in the village for some days for this purpose.

The lodge being instituted, the election of officers was proceeded with, resulting as follows;

E. Kelly ..... N.G.
Rev. T. W. Leggott ..... P.G.
F. Burgess ..... V.G.
Geo. Spence ..... R.S.N.G.
W. Charlton ..... L.S.N.G.
H. Kidd ..... R.S.V.G.
A. Young ..... L.S.V.G.
J. Z. Webster ..... O.G.
F. E. Kline ..... I.G.
W. Allen ..... War.
C. S. Tanner ..... Con.
C. Royce ..... Chp.
R. Clark ..... Tr.
Rev. T. W. Leggott, P.G. ..... R.S.
T. E. Crawford ..... L.S.
Claude Bravender ..... R.S.S.
A. Bissell ..... P.S.

The new officers were instilled by D. D. G. M. Fry, of Norwood.

The initiatory and select degrees were exemplified by the degree team of Otonabee lodge, and the first and third by Peterborough lodge.

Between the first and second degrees refreshments were served by Mr. J. Z. Webster, and a number of short addresses were given by the visiting brethren.

LEMON BROS. CIRCUS COMING

The Advertising Car in Town Yesterday, Distributing Circus Bills

Yesterday, Mr. D. S. Ward, advance agent of Lemon Brothers' circus and menagerie, that shows here on June 1st, was in town with his private car and staff, placing the larger circus posters, lithographs and other advance paper depicting the wonders of the coming show.

Mr. Ward is a gentleman who understands the circus business. From gup ropes to head of the center pole, and showed several local citizens through his car.

In this, his staff of eighteen men work and sleep and store their stock of largest printers work. The car is divided into three sections, with a large well underneath the main flooring. At one end is stored tons of the various kinds of bills and posters, with suspended bunks like in a pullman car; the center section contains Mr. Ward's private office and sleeping appartment; at the far end of the car is a complete steam paste making plant, even this section is filled in every available space with bills and dodgers, here also are bunks for the men to sleep on. The plant turns out daily ten barrels of good paste, but has a larger capacity if required.

It is a well known fact that, almost without exception, the merits of a circus may be judged by the style and manners of their employes, and also by the condition of their horses; if Lemon Brothers' circus can be judged by their staff of advance agents and men, it is all right. Their posters are not the usual "stock" pictures, turned out by the million in Cincinnati, O., and used alike by all circuses with only a change of name, but are the private property of the show. The advance car left at 7 o'clock last night for Tweed, where the show exhibits this day, it is to Peterborough.

ARE YOU GOING WITH THE CROWD?

The Most Frequent Question Heard on the Streets Lately Refers to Saturday's Excursion.

More interest seems to be taken, in Peterborough, about the Turf Club excursion to Toronto on Saturday next, May 20th, than is usual over such trips.

It is anticipated that the cheap rates, $2.05 return, the King's Plate running race, to be seen by those who go, and the good arrangements completed for comfortable car accommodation will draw an immense number of people from Peterborough, Lindsay and intervening points.

The terms are unusually generous, in that tickets are good to return by any regular train on May 20th, 21st or 22nd, or by special train leaving Toronto at 11.15 Saturday night, thus allowing those only wanting one day's outing, to stop over for the theatre, and get back same night.

MAY PROHIBIT STAMP COMPANIES

Municipalities Given Power as to Trading Stamps--Merchants Left Free.

Toronto, May 19.—Hereafter municipalities will have power to prohibit the operation of trading stamp companies within their limits, but cannot interfere with the privilege of individual merchants or manufacturers to issue trading stamps, redeemable by themselves, if they wish. A report to this effect was presented to the Municipal Committee by the Special Committee appointed yesterday, and was carried with little discussion.

TRENT CANAL EXPENDITURE.

$38,700 in Supplementary Estimates for Surveys, Dredging, Etc.

Among the items in the supplementary estimates presented to the House of Commons, Wednesday night, appear the following of local interest;—

To complete survey of Trent Canal, $25,000.

To meet damages by flooding, Trent Canal, $7,000.

For completion of lowering floor lock at Peterborough, $2,500.

To complete new dam at Peterborough lock, $2,000.

River Otonabee, dredging at Peterborough lock, $2,000.

River Otonabee, dredging at Peterborough, $1,200.

The total appropriation for the canal is $38,700, rather a drop in the bucket, especially when one thinks of a dredge bucket.

CLEVER ARREST.

County Constable Cochrane Catches Two Men Charged with Calf Theft.

County Constable Cochrane went on an expedition into Belmont township on Wednesday, where he arrested Wm. Geer and John Grieves, who are charged with stealing a calf from Ernest Curtis.

The constable onnearing the spot where his men were supposed to be, cleverly diverted suspicion from his true errand, and managed to catch his men in a room from which there was no egress.

The two appeared before County Magistrate Edmison yesterday and were remanded until Monday. Their story was that they found the calf in question dead in the woods.

Police Court

OFFICIALS

Chief of Police, G. I. Read
Magistrate, D. W. Dumble

The Murphy case was finished at yesterday's court. Several witnesses testified that Murphy kept the toy in a tool house in the coal sheds near the G.T.R. tracks.

The gatekeeper of Charlotte street G.T.R. crossing testified that he had been in the place where Murphy and his 12-year-old son "hatched it." The place is dirty and filthy and the father and son slept on an old mattress laid on the grimy floor. Would not take $1 and spend one night in the place. A grocer on Charlotte street said that Murphy owed him $1.75 for goods, and had been told by Murphy's son, that he, the little boy, supplied the household monies.

Mr. Cochrane, agent for Children's Aid Society swore that the shed, where the pair lived, was filthy and that it was neither the place nor conditions under which a child could grow up rightly. All witnesses agreed that Joseph Johnston William Hamilton Murphy, was an exceedingly good little boy. The father, in evidence, said that the boy went to school and was in senior part second book; he said he was willing to pay board for his son in a respectable place, but had been out of work during the winter.

Mr. Dennistoun testified that Murphy had made this statement before, but had failed to connect; he also said that Murphy seemed a lazy shiftless man or he would not have kept a growing lad in such unsavory environments. He ascertained from Murphy that his wife had left him six years ago, and asked the father if he could eliminate a few of the christian names hung on the boy. His Worship gave decision to the effect that the little fellow should be handed over to the Children's Aid.

A local barber asked that his son, a lad of 16, be committed as insane, as he showed every evidence of insanity. He said the boy had queer fancies, thought he was being continually watched and gave other traits pointing towards insanity. His Worship made out the necessary commitment.

CRICKET.

The Lakefield-Peterborough cricket team which went to Port Hope on Wednesday, and played the T.C.S., was defeated by 54 to 42. The Peterborough men on the team were Mr. K. Eardley-Wilmot, Mr. J. H. Burnham and Mr. R. B. Rogers. They speak in the highest terms of their treatment by the T.C.S. men, although regretting the defeat.

Let Canada Rule the West India Islands.

Old Suggestion Revived in British Parliament by a Canadian Born--Would Like to See Government Negotiate with Canada.

London, May 19.—Mr. I. Z. Malcolm, M.P. for Stowmarket, Suffolk, speaking of St. Lucia and other of the West Indies Islands in a debate in the House of Commons upon the West Indian colonies, said he would like to see the Government enter into negotiations with Canada, in order to find out whether some of the islands could not be better administered by the great Dominion. If they were attached to Canada they would form something like a southern zone for the Dominion. Reorganizing and revitalizing the West Indies would result in an alteration that would add enormously to our Imperial strength on the strategic highway of the world and in the commercial center of the new world.

Mr. Malcolm is a Canadian by birth, having been born at Quebec, on September 3, 1868, while his father Col. Edward Donald Malcolm, C.B., was in command of the Royal Engineers there. He is a son-in-law of Mrs. Lily Langtry, the actress, having married Miss Jeanne Marie Langtry in 1892.

To Fight Bye-Elections

Opposition Held a Caucus Yesterday Morning and Decided to Put Up a Vigorous Contest in Both London and North Oxford.

Ottawa, May 19.—The Opposition held a caucus this morning, which was followed by an announcement by Mr. Borden that his party had made up its mind to vigorously contest both London and North Oxford bye-elections.

The party chieftain had nothing to say as to the probable duration of the session. One of his most prominent lieutenants, however, told your correspondent that the North-West Autonomy bills will certainly be disposed of before the end of the present month. The remaining measures of the session will be all passed he adds, during June.

WHAT RUSSIA STANDS TO LOSE

£15,000,000 in Her Great Fleet Alone

WARSHIPS ARE COSTLY

Expenses of Taking the Fleet to the Far East Also a Big Item.

London, May 18.—Japanese papers contain considerable information concerning the cost of the voyage of the Baltic fleet. One statement says:

The actual value of the units composing it, allowing for the heavy depreciation on the older vessels, such as the Navarin, Sissoi and Dmitri Donskoi, and for the cost of the volunteer cruisers and fast liners purchased from Germany, works out at about £12,900,000.

The most valuable of the ships are the four vessels of the Borodino class, each of which has cost the Russian Government £1,500,000. The Oslabya was a little less expensive, while the Sissoi and Navarin are probably worth today a million sterling between them, though they originally cost £1,750,000.

The equipment of the fleet with stores, provisions, charts, mines—of which it carried an immense supply, to be scattered about Far Eastern seas—coaling appliances, and so forth, could not be managed for much under £1,500,000.

The other serious items on the voyage are coal, provisions, Suez Canal dues, and port and light dues.

The coal consumption of the fleet has been given in the Russian press as 3,100 tons daily at ordinary cruising speed, and over 400 tons when lying in port. Three days in port alternate, on the average, with five days of steaming, so that the total quantity of coal consumed in each period of 12 days is about 17,000 tons.

It is estimated that 250,000 tons will be consumed on the voyage to Vladivostok. If the fleet continues on its voyage, and is destroyed by the Japanese or captured, as were the vessels of the Port Arthur fleet, the loss, in addition to most of the above items, will be about £14,400,000. Russia, in fact, is staking £15,000,000 or more on this fleet.

Get Money From Uncle Sam

London, May 18.—A. G. Chisholm, counsel for the Oneida Indians, who settled in Delaware Township in 1841, has received word from Washington that the court of claims had awarded the tribe $300,000 in lieu of lands which were taken from the Indians by the United States Government in New York State. The Government offered the Indians the equivalent of lands in Kansas, but the Oneidas refused and settled in Canada. Action has been pending for years.

The Fisheries Protection Fleet

North Sydney, N.S., May 18.—Jas. Bartlett and William Hemilli, two fishermen from the Newfoundland schooner, Exhibit, were brought here to-day by the French schooner, Lem Emillie, which picked them up adrift in the ice 56 miles of Scatterie. The men were twelve days adrift, having lost their schooner in a fog. They hauled their dory in the ice floes and lived on fish they had and water from the ice. In the last three days they had nothing to eat and were terribly exhausted when found.

FERROZONE

Cures all Ailments From which Women Suffer

Many women suffer untold torture from nervous debility caused by disorders of the feminine organs. Day by day they grow worse, but from a false sense of modesty they shrink from using a good remedy like Ferrozone. And it would cure them.

Nothing renews weak women like Ferrozone. It brings back lost nerve force, supplies new vital energy, increases the blood supply.

No restorative so potent and prompt as Ferrozone has ever been discovered. You feel its uplifting effect at once. Your spirits rise, you gain in power and cheerfulness. Feelings of weakness and despondency disappear.

No woman can remain sick or miserable if she uses Ferrozone. It goes direct to the seat of trouble, puts a stop to functional irregularities, and so establishes buoyant, robust health. Being free from alcohol, and dangerous drugs, Ferrozone can be used by young and old with absolute safety. Prepared in tablet form, fifty to the box; price 50c., or six boxes for $2.50, at all dealers, or N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ontario.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

THE NEW WORLD POWER

Nation-building is supposed to be a slow process. Yet within the memory of men now living Japan has developed from an unknown people into a world power. Only a few decades ago the Japanese were considered little more than barbarians. Today their military prowress and national spirit are causing the powers of Europe not only amazement but anxiety.

It is never to be forgotten that a great war is the supreme test of national efficiency. Not only does it bring to the touchstone the courage, discipline and endurance of the army and navy, the intelligence and skill of the officers and the leadership of the generals and admirals; it also tries severely the public spirit, determination and self-sacrifice of the civil population, and it puts to the proof the foresight and statesmanship of the nation's public men, their power to foresee all contingencies and their capacity to make full preparation for them.

It is no longer to be denied that a great world power has arisen in the Orient and that this new condition is regarded by the European nations as a very serious matter. Even England, which is Japan's special ally in the present war, is far from being at ease over future possibilities. The London Statist, which is said to be the organ of the great financial interests of England, significantly says:

"It is impossible for the most skeptical to refuse to recognise that we are face to face with a world power which is destined to exercise great influence, not only in the East, but also in the West—that, in fact, the ascendancy of Europe is at an end now that there are to non-European great powers."

The idea which has long been uppermost in the minds of the jingo statesmen of Europe is the dividing out of the great Chinese Empire. Up to the present time the chief difficulty in the way has been the jealousy of the various nations, each desiring to secure the lion's share and each fearing to be overreached by some of the others.

Russia had seized upon the vast northern Province of Manchuria. France has appropriated Cochin-China in the south. England has got possession of Hong-Kong at the mouth of the Canton River and holds a ninety-nine-year lease on an extensive region in the interior. Germany has a like lease on the Province of Shantung, facing on the Yellow Sea.

The partition of China was well begun and the nations concerned were only waiting for some fitting opportunity to complete the work without quarreling among themselves, when they are confronted with the sudden rise to great power of Japan, which has driven Russia nearly out of Manchuria and will soon accomplish the work.

Why should not Japan's next step be the driving of the Germans out of Shantung? If this can be done, it would be in order to arouse the whole of China and India and drive all the Europeans out of Asia. Under such leadership and following as the Japanese have exhibited in the war with the Russians it could easily be done.

Is it any wonder that Europe is worried? And can America be serene? If Japan can do all this she can also drive the Americans from the Philippines, thus completing a chain of islands clear from the top to the bottom of the coast of Asia and walling in that continent from the ocean. The possibilities of this new world power are portentous.

LESS WORK FOR CHILDREN

A well known specialist in nervous diseases has put himself on record as opposed to afternoon sessions in the schools. He states that an investigation of the health of 16,000 school children showed twice as much illness in schools having two daily sessions as those having but one. Afternoon sessions, he says, exhaust the vitality of their brains. From a medical standpoint, afternoon sessions should be abolished. The afternoon sessions should be given to play, outdoor exercises and physical training. He would have a five-hour session, with fifteen minutes' intermission at the end of each hour, or less than four hours' actual study each day. If it is necessary that the children be taken care of in the afternoon hours, he would have it done in retreats where they would be permitted to play or be taught light crafts. The suggestion appears to be well worth the consideration of educators. Equipment for the serious work of life is the object of education, and any system which will weaken the health of the pupil will prove to that extent a handicap. Health is quite as important as knowledge in the battle of life. It is a question, too, if the road to wealth and the road to knowledge cannot be made to coincide. As soon as the pupil's attention wanders he is losing time in instruction. A good instructor can hold a pupil's attention for three-quarters of an hour, but if he holds it for five periods of this length with only fifteen minutes between them he is doing very well. As much work of value can be done in this time as in longer sessions. It is a case of making haste slowly. Give the child a chance to be strong physically as well as wise. Such a plan will give ample school time to lay a solid foundation for future mental development.

PERSONALLY CONDUCTED TOUR

To California and Lewis and Clarke Exposition, Portland, Oregon

A personally conducted excursion to the Pacific Coast via The Grand Trunk Railway System and connecting lines leaves Quebec July 5, and Montreal and Toronto July 6. The route will be via Chicago, thence through Council Bluffs to Omaha, Denver, and Colorado Springs. Stops will be made at each of these places, and side trips taken to Manitou, Cripple Creek, Garden of the Gods, etc. From there the party will continue through the famous scenic route of the Denver and Rio Grande, through the Royal Gorge to Salt Lake City, thence to Los Angeles, San Francisco, and home through St. Paul and Minneapolis. The trip will occupy about thirty days, ten days being spent on the Pacific Coast.

The price for the round trip, including railroad fare, Pullman tourist sleeping cars, all meals in the dining car, hotels, side trips, etc., is $165.50 from Quebec or $160.50 from Montreal and $150.00 from Toronto. This first trip is designed as a vacation trip for teachers, although many who are not teachers will improve the opportunity of taking the trip at the remarkably low price afforded.

For full particulars address E. C. Bowler, General Agent and Conductor, Room 308, Union Station, Toronto.

Queen and Good Woman.

The London Times says: The Queen received at Buckingham Palace recently the Rev. W. Carlile, Honorary Chief Secretary of the Church Army, who laid before Her Majesty a statement of the operations of the institution. We learn from a statement furnished by Mr. Carlile that when told that her generous gift of £50 at Christmas had stimulated others to provide in all over 6,000 dinners for those who would otherwise have had none, Her Majesty said: "I was deeply touched by the accounts I read of the affectionate sympathy with which the poor dear people received the mention of my name." Her Majesty made special enquiries after the prisoners' wives and children, and seemed most thankful that the Princess of Wales and others were helping the Church Army to get work for them till their husbands came out. She made special enquiries concerning the respectable married men, with wives and families, who were being relieved by the Mansion House fund. "I am so glad," she said, "that aid can come through you to hundreds of those who cannot qualify by six months' residence for the Mansion House relief." Her Majesty then referred to two special cases which had been assisted by the Church Army—one being a bricklayer, whom she had herself assisted. She thanked the Church Army for finding him immediate work, as it had enabled him to begin getting his furniture out of pawn. She was grateful to the Church Army for enabling a woman whom she had recommended to find work. She sent affectionate greetings to all the earnest workers of the Church Army throughout the world, encouraging them to live and labor for the good of others. Finally, she said, "Tell your dear helpers throughout the world how I think of and pray for them."

BY-LAW NO. 1146

A By-law to Regulate the closing of Barbers Shops in the Town of Peterborough.

Passed the 16th day of May, 1905.

WHEREAS an application has been received by the Council of the Town of Peterborough praying for the passing of a By-law requiring the closing of barbers' shops within the said Town of Peterborough, under and by virtue of "The Ontario Shops Regulation Act," and the said Council is satisfied that such application has been signed by not less than three-fourths in number of the occupiers of barbers' shops within the Municipality, and it is desirable to comply with the prayer of such Petition.

The Corporation of the Town of Peterborough by the Council thereof therefore enacts as follows:

1. Under and in accordance with "The Ontario Shops Regulation Act," and amendment thereto, all Barbers' shops situated within the Town of Peterborough shall be closed and remain closed on each day of the week (except Saturday and the day before any public holiday) at and during the time between the hour of eight o'clock in the afternoon until the hour of five o'clock in the forenoon of the next following day.

2. Any person or persons within the Town of Peterborough neglecting or refusing to close and keep closed a Barber's shop of which he or they is or are the occupier or occupiers at and after the hour named for the closing thereof on each day on which the same is hereby required to be closed and kept closed, according to the true intent and meaning of the said Act and of this By-law, shall on conviction thereof be liable to a fine not exceeding fifty dollars and costs, to be levied in case of non-payment thereof by distress and sale of the goods of the offender, and in default of sufficient distress such offender shall be liable to be imprisoned in the common gaol of the County of Peterborough for any period not exceeding twenty-one days.

3. This By-law shall take effect on the first day of June, 1905.

4. This By-law shall be published by the insertion of a copy thereof once in the Morning Times, published in the said Town of Peterborough.

Henry Best, Mayor. S. R. Armstrong, Town Clerk.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

Stocks—The MARKETS OF THE WORLD—Grains

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalised for $5,000,000 in $1 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and New Foundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $1,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up, the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. You feel yourself a man and know marriage cannot be a failure. We invite all the afflicted to consult us confidentially and free of charge. Don't let quacks and fakirs rob you of your hard-earned dollars. WE WILL CURE YOU OR NO PAY.

☞NO NAMES USED WITHOUT WRITTEN CONSENT.

THREATENED WITH PARALYSIS.

BEFORE TREATMENT

AFTER TREATMENT

Peter E. Summers, of Kalamazoo, Mich., relates his experience:

"I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, knees were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers led in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for baths, but received little benefit. While at Mt. Clemens I was induced to consult Drs. Kennedy & Kergan, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through my nerves. I was cured mentally, physically and sexually. I have sent them many patients and will continue to do so."

CURES GUARANTEED OR NO PAY.

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD DISEASES, URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES.

CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONARCH MINING DISTRICT

CHAFFEE COUNTY COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 800 feet in length with a depth of 500 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo, Colo., has averaged a little over $50 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $60 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $3.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of $1 cents per ton, the average rate being $6 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $750.00 per ton and for gold $335.00.

With an average value of $60.00 and transportation and treatment expenses of $12.40 a ton, the net value of our ore has been $37.00 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 378,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

CHEESE SELLS AT 9-58 CENTS.

1701 Boxes of High Grade Cheese Offered Wednesday.

Seventeen hundred and one boxes of cheese were offered for sale at the initial meeting of the Peterborough Cheese Board which was held in the Ontario Bank Chambers Wednesday morning. The highest price was 9 5-8c. There was a large attendance of salesmen and buyers, and the chair was occupied by Mr. T. D. Young, Vice-President, in the absence of Mr. J. M. Drummond, the president.

Mr. Drummond has presided at the Board for twenty-seven years, but desires to resign.

The buyers present were, J. L. Squire, Norwood; James Whitton, representing W. J. Magrath of Belleville; John Kerr for J. Alexander, Montreal; R. Rollins, for Brenton & Son, Belleville; H. Morton, for Lovell & Christmas, Montreal; James Cook, for W. S. Cook, Belleville; G. W. Fitzgerald, for Hodgson Bros., Montreal; W. H. Wrighton, for Ayr & Co., Montreal.

Mr. Wrighton bought 796 boxes and Mr. Kerr 780, leaving 90 boxes unsold. The board adjourned two weeks.

Mr. C. G. Publow, Chief Dairy Inspector, of Kingston, addressed the Board, emphasizing the necessity of the highest possible standards being attained by the makers, and he referred to the work of the official referee at Montreal in that connection. The object was not to have any second or third grades, but to have a uniform standard. To reach this point it was essential that the milk producer, the manufacturer of cheese and the factory owners should do their duty. He said he would like the different salesmen to visit the factories and look over the cheese. It was necessary to have the goods uniform in size and put up attractively. The patrons and owners should also encourage the makers in this direction and the best utensils should be available. The speaker expressed the opinion that the cheese this week would be poorer than when the cows were only fed on fodder, but the combination with grass conduced to greasy appearance. It was necessary to take proper precautions at this time of the year against greasiness.

Mr. Publow expressed the hope that Peterborough Board would have a successful season's business.

Mr. Riddell impressed the advisability of all boards applying for the instructor at as early a date as possible in order that it would be known how to properly group the factories.

Vice-President Young addressed the Board, and urged that all interested should co-operate in the work of bringing Canadian cheese up to the highest standard possible.

On motion Mr. Robert Tudhope, was elected to act as Vice-President and to manipulate the chalk during the sale.

Mr. Whitton moved a hearty vote of thanks to Mr. Drummond, the president for the very efficient manner in which he had filled for twenty-seven years the position of presiding officer. The motion was seconded by Mr. John Coughlin of Ormonde, and carried unanimously.

The following were the factories boarded:

Keene	80
Warminster	65
Shearer	50
Central Smith	90
North Smith	50
Villiers	41
Warsaw	56
Westwood	120
Oakdale	75
Missing Link	25
Daisy D.	20
Lakefield	50
Pine Grove	60
Peterborough	25
Maple Leaf	45
Myrtle	50
Ormonde	75
Young's Point	35
Lang	65
Fraserville	35
Indian River	48
North Dummer	40
Treewarn	85
Bensfort	60
Stony Lake	23
Norwood	40
Fleetwood	75
Buckhorn	30
Brickley	50
Shamrock	60
Dartford	70
	1,701

Bidding opened with an offer by Mr. Fitzgerald of nine cents and the subsequent bids were; 9 1-16 by Mr. Kerr; 9 1-4 by Mr. Wrighton; 9 3-8 by Mr. Fitzgerald; 9 7-16 by Mr. Whitton; 9 1-2 by Mr. Wrighton; 9 9-16 by Mr. Kerr; 9 5-8 by Mr. Wrighton.

Mr. Wrighton's bid was the highest, and he was accepted by Keene, Warminster, Shearer, Bensfort, Central Smith, Warsaw, Westwood, Lakefield, Myrtle, Indian River, and Fleetwood.

Mr. Kerr next had the call at 9 5-8, and he bought Norwood, Ormonde, Shamrock, Brickley, Dartford, Pine Grove, Maple Leaf, Young's Point, Treewarn, North Smith salesman refused, stating that Mr. Kerr owed him $16.80 on last year. Mr. Kerr stated that he owed North Smith nothing. He called Fraserville and Peterborough, who accepted. Buckhorn refused Montreal inspection.

Mr. Wrighton bought North Smith at 9 5-8.

Buckhorn, North Dummer, Missing Link and Stony Lake refused Mr. Kerr's offer of 9 9-16.

Mr. Squire took Stony Lake at 9 5-8.

Declares Yashima was Lost

Victoria, B. C., May 17.—Lieutenant Count Keller and three other naval officers from the destroyed Russian Port Arthur squadron were among the passengers on the Empress of India, which arrived today from the Orient. Count Keller declared the Japanese battleship Yashima had been sunk by a mine about the same time as the Hatsuse and Yoshino were lost. He had seen her founder from the decks of the Pobedit. He said the Pobedia had been struck by a thirteen-inch shell, and her turrets, engine-rooms, etc., had been destroyed by explosions from on board. There was no hope of the Japanese saving her.

A RARE OPPORTUNITY

To obtain a gilt edge investment in a great gold mining enterprise, developing a rich mineral area in an undeveloped mineral empire in Northwestern Colorado.

OFFERING OF 150,000 SHARES OF TREASURY STOCK OF THE

UNITED STATES GOLD CORPORATION

For the purpose of carrying out plans necessary to place the property on a dividend basis

The Board of Directors of the United States Gold Corporation estimate that the business of this company can be placed upon a paying and dividend basis, by the completion of the Klondyke tunnel a distance of 700 feet and by the construction of a modern concentration mill of not less than twenty five tons capacity per day on the property for the treatment of the great bodies of low grade ore, now awaiting treatment. To provide means for the execution of these plans, the Directors of this Company now offer for sale One Hundred and Fifty Thousand shares of Treasury Stock at the nominal price of 15 cents per share forcash.

For the information of investors the Company make the following statement of what a certificate of its stock represents

Assets and Financial Condition of the United States Gold Corporation

PROPERTIES OF COMPANY

Location in heart of famous copper-silver belt, in Northwestern Colorado, at the base of Continental divide, on Arapahoe peak, west of famous Caribou mine with gross production from 1860 to 1900 Twenty Million dollars, six miles from Colorado Northwestern Railway Co., ten miles from Denver Northwestern & Pacific Ry. Co.

MINERAL AREA

	Acres
3000 feet on Monroe dyke 12 feet wide	10.2
4949 feet on Arapahoe dyke 22 feet wide	15.3
6000 feet on Klondyke ore channel 80 to 100 feet wide	20.4
Klondyke Tunnel site claim	100.
Three Jacks Placer	160.
Total Acreage	300.

PLAN OF DEVELOPMENT

By Klondyke tunnel, fifteen hundred feet long, cutting ore body on Monroe lode 200 feet on Arapahoe, five hundred feet and Klondike ore channel, eleven hundred feet in depth.

DEVELOPMENT

Klondike Tunnel driven eight hundred feet opening ore bodies on Monroe and Arapahoe lodes estimated cost.... $15 000 00

EQUIPMENT

Power plant of machinery, blacksmith shop, cabins, store houses, and boarding house, estimated value $6,000 00

SHIPPING CAPACITY

	Estimated daily Production
Mill ore from Monroe Lode	100 tons
Mill ore from Arapahoe Lode	300 tons
Estimated tonnage from all dykes cut by Klondyke tunnel when completed	1000 tons

FINANCIAL CONDITION

Cash in Treasury	$ 1000 00
Treasury stock sales pledged	1000.00
Properties, equipment and development owned by the company free and clear of any indebtedness whatsoever.	
No bonds or mortgages, no preferred stock.	

ESTIMATED REVENUE FROM 25 TON CONCENTRATION MILL

	Ton
Average number of tons mill ore concentrates in on ton	2
Number of tons concentrated per day	25
VALUES	
Gross value mill ore per ton	$ 12.00
Net value one ton of concentrates made from 2 tons mill ore of value of $12.00 allowing 10 per cent loss in saving	88.00
Net value after deducting expense of mining and milling per day	20.00
Net revenue per day from 2 tons concentrates less smelting charges, etc., estimated	200.00
Net revenue per month, estimated	6 000 00
Net revenue per annum, estimated	72 000.00
Proceeds smelting ore per annum estimated at $5000 per month	60,000.00
Minimum net revenue per annum from ore treated and shipped	120 000 00
DIVIDEND	
5 per cent. on 2 400,000 shares estimated as issued and entitled to dividends estimated (100 000 shares in treasury reserve fund which draws no dividend	$120,000 00
RETURN ON PRINCIPAL	
Purchaser of 1000 shares at 15 cents pays	$150 00
Dividend of 5 per cent per annum on 1000 shares returns	$60 00
5 per cent dividends returns on investment per annum	33⅓ %
10 per cent dividends returns on investment per annum	66⅔ %

Careful estimates made by the officers and scientific and practical mill men prove to the satisfaction of this company, that the proceeds from the present treasury stock offering will place the property on a paying basis and the further sale of treasury stock will be withdrawn from the market, leaving a treasury reserve fund of over 600,000 shares.

This great enterprise has passed the prospect stage and upon the completion of our tunnel about June 1st, 1905, the energies of the Company will be entirely devoted to production shipment and treatment of its vast tonnage of ore developed through the Klondyke tunnel estimated at 1000 tons per day.

The officers of this Company court rigid investigation by prospective investors of its properties and management.

Persons desiring stock should mail their application to the United States Gold Corporation at Boulder, Colorado, together with draft for amount of shares desired at 15c. per share, for which a certificate of stock will be issued and sent subscriber by return mail. Do not delay sending application as treasury stock will be taken off the market after this offering is subscribed.

Live Merchants Advertise in The Morning Times

Consumption is Not Hereditary

It is Not Handed Down From Generation to Generation but is Simply "Caught" by the Germs Getting Into Your LungsCured by Catarrhozone

Consumption was formerly believed by some to be due to poverty of the blood. By others it was supposed to be hereditary. Both these beliefs are incorrect.

If this disease passes through several members of the same family it is because the germs get into the clothes, bedding, furniture and carpets that are in general use.

These germs find their way into the air, are inhaled, lodge themselves securely in the throat and lungs where they rapidly increase, and soon claim another victim.

The only remedy that has cured a genuine case of Consumption is Catarrhozone. Its germ killing vapor is inhaled into every air cell and air passage of the head, throat and lungs, and creates a healthy condition of these organs in which disease germs cannot live.

It is impossible for consumption to make headway in the soothing antiseptic vapor of Catarrhozone is inhaled a few times daily into the lungs. The cause of the disease (germ life) is at once removed, the inflamed mucous surfaces are healed, and a lasting cure effected.

Catarrhozone is breathed right into the lungs. By its soothing influence the soreness caused by coughing is removed. The cough becomes less severe and soon ceases all together. Catarrhozone aids expectoration, quiets the nerves, and leads to the patient a large measure of comfort.

Consumptives are strongly urged to use Catarrhozone as immediate relief always follows. It is a direct method of treatment, and is endorsed by the highest medical authorities everywhere. The balsamic vapor reaches the lungs and respiratory tracts in a speedy manner that no medicine taken into the stomach can do.

Catarrhozone is just as good as a change of climate, equally pleasant and cheaper. It can be used at home at any hour of the day or night and never causes inconvenience or bother.

The complete Catarrhozone outfit contains two months treatment and costs only $1.00. It is a perfect boon to consumptives and their surrounding friends. You cannot afford to miss the benefit of Catarrhozone and should order it today. Sold by all druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

Mrs. E. L. Davis Entertains

Mrs. E. L. Davis entertained the members of All Saints' Girls' Guild very pleasantly at her home near dam No. 5 Wednesday evening. The young ladies to the number of about twenty drove to the residence and the journey proved a delightful one. They were right royally received by the host and hostess, and no element of enjoyment in the evening's entertainment was lacking. The hostess presented to her guests a profusion of May flowers. As farewells were said, Mr. and Mrs. Davis were assured that their kind hospitality had been very greatly appreciated.

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM. PRINGLE

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mrs. Elliott of Norwood, is visiting friends in town.

—Mr. Joseph Smith, of Norwood, was in town yesterday.

—Mr. Benj. Shortly has recovered from his recent illness.

—Miss Nellie Whitan and Miss Olive Stephens are visiting friends in Campbellford.

—Mr. J. J. Brignall, of the C.P.R. Toronto, is spending a day or two in town, a guest at the Snowden.

—Mr. Andrew Graham, who had been with Ed. Brown & Co., for some time is now on the staff of E.F. Mason & Co.

—Mr. E. C. Wrigley, commercial master of Peterborough Collegiate Institute, is in Toronto, writing on examinations for chartered accountancy.

—The Hastings Star says: Mr. J. O'Connor, of Peterborough, spent Sunday with his brother, Mr. R. O'Connor. Miss M. O'Brien, of Peterborough, visited Mrs. R. O'Connor on Sunday and Monday.

—Mrs. Sager, accompanied by Miss Sager and her charming little baby daughter, Mildred, left on Wednesday on a month's visit to relatives in the United States. After spending a few days in Buffalo, they will visit Mrs. Sager's father, Sharpsville, Pa., and her sister, Oil City, Pa.

Norwood Keeps Up to Date.

The Norwood Council have decided to lay a number of cement walks this season. The walk will extend from the King's Hotel on Colborne St. to the bank on Peterborough street, on one side, and the other side from the McGregor House corner on Peterborough and Colborne streets to the Register office on the other side. The total cost of the work will likely cost the village about $800.

Street Railway Patrons Kick.

People residing on North George street, who are passengers daily on the street car which stops between Antrim and Smith streets, complain that it does not always run on to Smith street crossing, as the car is labelled, but, instead, dumps them out in the mud between the cross streets. It is claimed that there is ample time to make connections, and to permit of this little accommodation.

North Monaghan Getting Better.

North Monaghan is becoming Puritanical. The council of that township will stop ball-playing on Sunday within their jurisdiction. They also intend to forbid bathing unless bathers are supplied with more clothing than was current in the garden of Eden. The people of Monaghan, complain that this bathing in full view, with a lack of proper clothing, is making the farmers restless, and pine for trips to the cities where art galleries are open to public view. Good Monaghan.

Sudden Death.

Mr. George McKee, an Old Resident of Smith, Drops Dead

The many friends of Mr. George McKee, of Smith township, were greatly shocked yesterday to learn of the sudden death of that widely respected farmer yesterday morning. While at work in the farm yard, he was suddenly taken with heart failure, and died in a few minutes.

Deceased was one of the best known residents of Smith and was eighty one years of age. He was born in Ireland and came to Canada when quite a young man. He was married about fifty-four years ago and his wife predeceased him thirty years. Several sons and daughters survive.

Charter for a New Wireless Company

Ottawa, May 18.—It has been decided to give the Fessenden Wireless Telegraph Company a charter similar to that of the Marconi Company. The location of lines, however, must be subject to the governor-in-council.

"THE OLD DELIGHT"

Before Coffee Did It's Work.

Where you get from food that power which keeps the heart beating high, full and regularly, and the nerves firm and steady, you may say with Monte Cristo, "The World is mine!"

All things that may be attained by human endeavor are possible to you.

But if you fill the stomach with drugs instead of food, you get only an unnatural stimulant which leave you in worse condition than you were before. Coffee is a drug. In time that sort of thing wears on you and wrecks the whole nervous system. Sure, sure, sure! A lady of Mamp aroneck, N. Y., tells how she became a nervous wreck through the use of coffee:

"I had been a sufferer," she says, "from nervous indigestion for a number of years and doctored for the same without result. I was in part to blame, for although the physician forbade me the coffee, and limited me to a small allowance of tea, I failed to obey him, and continued the use of coffee until I became a nervous wreck. My digestion got to be so poor that I was unable to eat scarcely anything. I became very much depressed and discouraged over my condition, for I had no hope of relief, until a little more than a year ago a friend recommended Postum Coffee Food.

"I was greatly surprised to find that the new beverage acted almost immediately and most favorably upon my nerves. It certainly is a nerve builder, at least it has been in my case. In an incredibly short time my nervous indigestion disappeared entirely, and with it has gone the depression and "blues" that follow in its train.

"I am careful to boil Postum Coffee from 20 to 30 minutes — then, using either boiled or condensed milk, or cream, the latter preferred, I have as delicious a beverage as the old coffee at its best, and never feel anything but pleasant effects from its use, and the old delight of being well." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Read the little book, "The Road to Wellville," in each pkg.

AN UNASSAILABLE POSITION

Mayor Best's Stand on Incorporation Was Above Reproach

Notwithstanding the fact that all members of the Council present at Tuesday's session were a unit, in playing to the gallery, refusing to accept the manly offer made by Mayor Best to pay, out of his own purse, all expenses of the election, should there be less than a two-thirds majority against the star chamber infliction of their views on the people of Peterborough, his action was that of a man sans peur et sans reproche.

For the Council to try and hide their autocratic dictation to the people, whose servants they are, by quibbling over the fact that on one particular night, the Mayor would not, and did not, openly avow his intention of changing entirely from the position he, always and openly, assumed on our incorporation as a city, was, to use the kindest euphemism, rot. With Peterborough a city, the Council can now apply public funds to whatsoever purpose they think fit. Whilst we would not, for one moment, hint at the possibility of future chances for graft in spending our funds, by a body of men, who, whilst all of them personally above suspicion as to honor and honesty in private dealings, but whose late record is, to say the least, "wobbling" and without that dogged determination to uphold a decision once made after due consideration, that should characterize an aldermanic aggregation, we cannot but think that the Mayor, in defiance of the enmity provoked, by opposing his Council, acted in the interests of those who placed both him and his Council in charge of our municipal affairs.

For Aldermen to get up and state, as one or two did Tuesday night, that they were not aware of much opposition to incorporation, showed either a strange misconception of public opinion, or a mighty limited acquaintance with the people of Peterborough: they must judge by the opinions of some irresponsible people, most of whom can have little or no tangible stake in this town's welfare.

We do not for one moment say but what there are a few of our more prominent citizens advocates of the incorporation, but in the face of a list, printed, as it was, in a local newspaper, showing that the opponents of the idea include hundreds of our leading merchants, mechanics, manufacturers, professional men and property-owners, it is childish to say there was no opposition. Allowing a liberal discount from the list to eradicate such men as will sign any petition offered them, for the sake of peace and quiet, there are still over 600 names of leading citizens on record against taking the disposal of public funds from the citizens and handing it to a Council, that at some future date, may not be as free from graft as our present Aldermanic body.

The Mayor threw down the gauntlet of defiance in the face of overwhelming odds, and the Council crept under the cry of "Too late," to escape from certain defeat. It is never too late to trust the judgment of the people when the people's good name, money and desires are concerned. Well, the matter is settled, the Council win and Peterborough is a city, but it is on record that Mayor Best acted for the people, who were almost unanimously against the incorporation.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—St John's choir will not practice this week.

—The Port Hope Council have appointed a special policeman, for night duty.

—At the Campbellford Cheese Board on Tuesday, 825 boxes were sold, the highest price 10 cents.

—The twelfth anniversary tea and concert of Lady Lansdowne Lodge, No. 22, was held yesterday evening in the S.O.E. hall.

—Several of McCollum Bros.' rigs were in use yesterday by circus bill posters on their mission of decorating the country.

—The council and the board of trade of Campbellford are negotiating with J. M. Kilbourn of Owen Sound, for the development of water power at Orowe Bay.

—A two weeks' mission will begin in St. Peter's Cathedral on Sunday, morning at 10.30 o'clock. It will be conducted by the Redemptorist Fathers.

—Mr. Thomas G. Anderson of the C. G. E. Company, is building for himself a neat gasoline launch. He expects to have it completed in a few weeks.

—Why are the bucket-shops like boys at the locks these days? For a correct solution watch the small boy's catch of an evening, as he returns from fishing.

—The Canadian Pacific Railway's proposal to put on one extra train a day between Toronto and Havelock, has been dropped. This train will not be pressed into service this year.

—Mr. B. Lastar of town, has bought the Doherty Dry Goods store at Campbellford, at eighty cents on the dollar and will continue business at Campbellford, in addition to his Peterborough house.

—The Olympic Club outing will be held up the lakes on June 9th, instead of June 1st, as originally intended, having been postponed for one week owing to the visit of the circus.

—Mr. Thos. H. Thompson of Madoc, has been appointed dairy instructor for the Tweed district in place of Mr. Herb. Marton, who has accepted a position as buyer for Lovell & Christmas, cheese exporters of Montreal.

—The Lindsay Post says: Mr. W. H. Meldrum, of Peterborough, President of the Cornell Brewing and Malting Co., town, and Mr. John Aldous, hotelkeeper, Fenelon Falls, one of the directors, were in town to-day.

—Parties who show some interest in the beauties of Central Park point out that, instead of using the path, many people prefer to tramp across the grass. The protest is that in a short time an unsightly and irregular path will be cut in the sward.

—In the Globe of Saturday last appeared a handsome portrait of Master Jack Carnegie, son of Mr. J. Hilliard Carnegie, M.P.P., East Victoria, and grandson of Mr. John Carnegie, town. The picture was executed in an admirable manner by Mr. J. W.L. Forster, the widely-known Canadian artist.

—An interesting meeting of St. Paul's Christian Endeavor Society will be held on Monday, relating to the life and work of John Knox, the 400th anniversary of whose birth will be observed. Addresses on various phases of his work will be delivered by Rev. W. M. Mackay, Mr. G. M. Roger and Mr. Thos. L. Anderson.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work. Lessons in Painting and Pyrographic Work. Studio 134 Brock Street, Peterborough.

—The Council were foxy when they decided not to spend $1,000 of public money over celebrating their slaying a city down the public throat, nolens volens. They knew that this last straw in their open disregard of public sentiment, would have broken the back of forbearance. The $1,000 would not, could not, have been spent and they knew it.

—The police have issued notices, throughout town, forbidding the use of all kinds of fireworks, crackers, squibs, rockets, pinwheels or others. This is hard on the dealers who have laid in supplies, but will make it easier for the fire brigade and doctors, not to mention anxious mothers, fearing that the little ones may come in minus an eyes or with burnt fingers.

—The lecture by the Rev. E. A. Langfeldt, B.A., under the auspices of the Anglican Young People's Association, held on Tuesday evening in St. Thomas' Sunday School room, was well attended, and followed with close attention and interest during the hour and a half in which the lecturer spoke.—Millbrook and Omemee Mirror.

—It is expected that the Peterborough Cereal Company, will begin operations next week. Two fifty horse power motors, which have been ordered from the Canadian General Electric Company, will be placed in position at once. Already a twenty-horse power and a five horse power motor have been installed which will make a total of 125 horse power.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Mrs. John P. Leahy is the guest of Mrs. William O'Toobil.

Mr. P. G. Towne held his annual entertainment on Tuesday night, and, as usual it was a decided success.

TENDERS FOR COAL

Tenders will be received until Thursday, the 25th inst., at 12 o'clock, for about four hundred tons of Youghiogheny Select 3 4 lump coal; same to be weighed on the market scales and delivered as required by the Board.

Tenders to be addressed to the chairman of the Property Committee of the Board of Education.

J. CRANE.
Chairman Property Committee.

EVERYBODY READS THE TIMES.

IN OLD AGE the question of health becomes mainly a question of nutrition. If the stomach and other organs of digestion and nutrition are kept in a healthful condition there will be a well-nourished body, and little liability to disorders of the liver, bowels or such other disorders as may result from imperfect nutrition and lack of exercise.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and also diseases of other organs which are caused by the diseased condition of the stomach. By enabling the perfect nutrition of the body it increases the vital power and promotes a vigorous old age.

"I was a sufferer from chronic diarrhea for five years," writes Mrs. Mary A. Aaron, of Rollin, Phelps Co., Mo., "I tried different remedies which would give me relief for a short time only. My trouble would return as bad as ever. I consulted you in July, 1901, and by your advice commenced using Dr. Pierce's remedies. I took two bottles of the 'Golden Medical Discovery,' three vials of the 'Pellets,' and some of the 'Extract of Smart-Weed,' as you advised, I have not had any return of my trouble since using your medicines. Am now seventy-one years old and I never had anything to relieve me so quick. I think Dr. Pierce's medicines the greatest on earth. Should I ever have any return of my trouble shall use your medicines. My thanks to you for your advice and thanks to Almighty God for restoring me to health through your hands."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Dr. Pierce's Pleasant Pellets, the best laxative for old people. They cure constipation and billousness.

VOL XXXIII NO 118 — PETERBOROUGH ONTARIO, SATURDAY MAY 20 1905. — PRICE TWO CENTS

Should Spend Millions to Resist Invasion of Japanese

French Indo-China Said to be in Great Peril of a Japanese Invasion--France Urged to Spend 42 Million Dollars on Defences--The Gravity of the Situation.

Paris, May 20—M. Francois Deloncie, Republican, Says—"Indo-China has only two enemies to fear, namely, Japan alone or China, encouraged and supported by Japan. The latter could easily, in a few weeks throw 100,000 men into Indo-China, and easily reinforce the first landing party.

Paris, May 20.—M. Francois Deloncie (Republican). Deputy for Indo-China, has submitted to the special Parliamentary Committee on Naval Affairs a remarkable report on the urgent necessity for the strengthening of the defences of Indo-China against the peril of a Japanese invasion.

"Indo-China," he says, "has only two enemies to fear, namely, Japan alone, or China, encouraged and supported by Japan. The former constitutes a real danger, for Japan has much to gain and little to risk, and her isolated position makes her almost invulnerable to us. She could in a few weeks throw 100,000 men into Indo-China, and easily reinforce this first landing party. The first phase of such a struggle would consist of Japan's efforts to secure mastery of the sea, in order to reinforce her troops. Owing to Japan's great superiority in naval force in far eastern waters our feeble division would not risk a decisive battle, but would fall back upon our naval base, Saigon. There it would be blockaded as the Russians were blockaded within Port Arthur. With our division thus bottled up, Japan could oppose the junction of the blockaded warships with the relief squadron, and, having seized the mastery of the sea, the Japanese thus would be free from invading forces. She has two admirable anchorages ready for her transports at Kamranh Bay and Port Bayet. She probably would take the first, as nearer to Saigon. Japanese would thus be established upon the sea route connecting Tonquin and Cochin-China, and who could prevent it? In the present condition of our defences could we resist such an attack? Evidently not, and within a brief time Indo-China would be the prey of the invader."

THE BEST SOLUTION.

The report then examines the means which it is necessary to adopt for the defence of the colony, and says the best solution of the problem is to strongly reinforce Indo-China so that the colony may be able to defend itself for several months against the Japanese, until French naval divisions reached the theater of operations.

The program to accomplish this consists of a large augmentation of the naval forces in the far east, an increase of the military force of occupation to a minimum of 50,000 men, the establishment of strong naval bases at Saigon, Kamrah Bay, Allong Bay, and Pulocondor, and the establishment of torpedo boat and submarine boat stations at Cape St. James, Kamranh Bay, and Turan.

PRESENTS AFTER DEATH

PROMINENT MONTREAL MAN DIES ON EVE OF WEDDING

Wedding Guests Mourners---"In Midst of Life We are in Death"

Montreal, May 18.—A funeral, under particularly pathetic circumstances, took place from St. Louis de France church. It had in it all the elements of romance. It was the funeral of Mr. Joseph Delauriers, of 479 St. Denis street. Last Tuesday he was to have been married to Miss Ludivine Lorange. Invitations had been sent out for the happy event. The marriage banns had been published in St. Louis de France church, and present rich and numerous had arrived. Within three days of the event that was to make two hearts happy, the young man was stricken with the deadly spinal meningitis, and died last Saturday.

But a week ago the following note was sent to relatives and friends:

"Mr. and Mrs. N. Deslauriers have the honor to inform you of the marriage of their son, Joseph, with Miss Ludivine Lorange, Tuesday, May 9th, 1905, in the church of Contrecoeur.

"Reception, May 17th, at 7.30 p.m., at their residence, 479 St. Denis street, Montreal."

Three days after the date fixed for the wedding, the same relatives and friends received this sorrow-laden note:

"You are respectfully invited to attend the funeral of the late Joseph Delauriers, only son of Napoleon Delauriers, who died on the 12th inst., aged 26 years and 20 days. The funeral cortege will leave his father's residence, 479 St. Denis street, to St. Louis de France church, thence to Cote des Neiges cemetrey."

Montreal, May 12th, 1905.

To add to Fate's irony, wedding presents came from the States for him when he was lying cold in death.

Unorganized Men Lose Strike

Toronto, May 18.—The strike of piano action workers has been declared off; and after ten weeks of idleness the men have gone back to work on the old conditions.

HEADS IN JEOPARDY

Uneasy Fits the Head That was Crowned by Late Ross Government

The Ontario Government is considering a clean sweep of officials appointed during the last hours of the Ross Government. Among those who are expected to go are William Hill, ex-M.L.A., appointed by the Ross Government registrar of West York and John Richardson, ex-M.L.A., appointed clerk of the county court. Robert Bull is slated for the West York registrarship. There are many others who were thrown into office in January last who will have to go, if the present intention of the Government is not changed. The demands for positions under the new government were so numerous and urgent a few weeks ago that the Government was compelled to withhold these appointments for a time, but the promise is that they will be made as soon as the house rises.

Where this official act will be felt most will be in the Northern Ontario country, where practically all the old government officials will be required to walk the plank. There is a host of government officials in that new country, fire rangers, timber estimators, etc., most of whom were more concerned in holding the Ross government in power than in discharging their official duties. Most of the crown lands officials in that country held office merely for the summer season, and the new government found a clean slate when it came into office and appointed entirely new men, but there are many other prominent positions, such as registrars, division court clerks, bailiffs, sheriffs, etc., who are slated for decapitation.

COMING TO CANADA

Why Settlers From the United States Migrate to the Canadian West

The St. Paul Farmer, a leading agricultural paper of Minnesota, says in a recent issue:

"Again this year, as for the last four or five years, hundreds and thousands of farmers from the Middle States are moving into the Canadian West. If anything the movement has opened earlier this spring than usual. During the month of February, 920 tickets were sold from points on the Atchison, Topeka & Santa Fe Railway system to Western Canada via Minneapolis and St. Paul. The little town of Norton, Kansas, which has only 600 people, sent 70 of those into Manitoba and the Canadian Territories last month. These farmers are leaving land that is now worth $50 and $100 an acre and was secured by them for nothing only a few years ago. They are moving to Western Canada not because they are dissatisfied, but because they know that the opportunities there during the next few years will be as good as, or better, than they were in Oklahoma a few years since. Splendid land may be homesteaded in Western Canada or bought for a few dollars an acre, land that will multiply in value in the next five or ten years.

"If you question the thousands of people who are now passing through the St. Paul gateway on their way to their new homes in Western Canada, they will tell you they are going into Canada simply because they can still get cheap and fertile lands. So great has been the demand for the famous hard wheat lands of Western Canada during the past few years that it is a fact that the Candian Pacific land department at Winnipeg has sold about five million acres. In addition to these sales it must be remembered that there have been large sales by other companies and that about five million acres of Government land has been homesteaded yearly.

"There is no doubt that these new settlers will do well. Practically all of the farmers in Western Canada who have come from the states are doing well. Many are making their fortunes. With wheat a dollar a bushel and land at from five to ten dollars an acre that will produce 20 to 40 bushels of wheat per acre, it is not difficult to understand how these people will 'get rich quick' in the neat sense of the phrase."

JULY EXAMS.

Subjects, With Their Various Dates, for the Coming Examinations

The annual summer examinations are now approaching, and students interested, will do well to cut out the appended list of dates and subjects. The examinations last from 1st to 12th July, from 9 a.m., to 11.30 a.m., and from 1.30 p.m to 4 p.m.

Following are the dates, the hours and subjects,—

Afternoon—1.30 to 2.45, Experimental Science, Pt. A., Physics, and from 2.50 to 4.05, Pt. B. Chemistry, for Junior Matriculation. 1.30 to 4, Geography for Teachers' District Certificate and Chemistry for Honor and Scholarship Matriculation and senior teachers.

July 1st, 9.00 to 11.30 a.m., Arithmetic and Mensuration for Teachers' District Certificate and Junior Matric. 1.30 to 4.00 English Grammar for Teachers' District Certificate and English Grammar and Rhetoric for Junior Matric.

July 3rd, 9 to 11.30 a.m., Algebra for Teachers' District Certificate, History, Br. Can. and Ancient, for Junior Teachers; History, English and Ancient, for Honor and Scholarship Matric, and Senior Teachers, 1.30 to 4.00 p.m., English Composition, Geography and Physics respectively for the departments previously mentioned.

July 4th, 9.00 to 11.30 a.m., Geometry for teachers' district certificate. Physics for junior teachers and Trigonometry for Honor and Scholarship Matric, and senior teachers.

1.30 to 4.00 English Literature and Chemistry respectively for the first two departments above named and problems for Scholarship only.

July 5th, 9 to 11.30 a.m., Dictation, from 9 to 9.45, for teachers district certificate, Algebra for Junior Matric, Junior Teachers and Honor and Scholarship Matric and Senior Teachers.

1.30 to 4.00—English Composition in all of departments save Teachers' District certificate.

July 6th, 9 to 11.30 a.m., Examinations in Geometry for Junior Matric., Junior Teachers and Honor and Scholarship Matric, and Senior Teachers.

1.30 to 4.00—English Literature in all of the three departments.

July 7th, 9.00 to 11.30, Arithmetic and Mensuration for Junior Teachers; Botany for Honor and Scholarship Matric, and Senior Teachers.

1.30 to 4.00 p.m.—English Grammar for Senior Teachers and Zoology for Honor and Scholarship Matric. and Senior Teachers.

For July 8th, 10th, 11th and 12th the same program is arranged for the three departments—Junior Matric, Junior Teachers and Honor and Scholarship Matric and Senior Teachers as follows—

July 8th, 9 to 11.30—Latin Authors.
1.30 to 4.00—Latin Composition.
July 10, 9 to 11.30—French Authors.
1.30 to 4—French Composition.
July 11, 9 to 11.30—German Authors. 1.30 to 4—German Composition.
July 12, 9 to 11.30—Greek Authors. 1.30 to 4—Greek Composition.

COMMERCIAL SPECIALISTS.

June 30th, 8.45 to 9.00 a.m.—Reading Instructions to Candidates. 9.00 to 11.30 a.m., Banking and Exchange. 1.30 to 4.30 p.m. Bookkeeping.

July 1st, 9.00 to 12.00 a.m.—Commercial Arithmetic. 1.30 to 3.00 p.m. Laws of Business and Business Forms.

July 3rd, 9 to 10.30 a.m.—Stenography and Theory, 10.40 to 11.40 a.m. Dictation and Transcription. 1.30 to 3.00 p.m. Penmanship.

July 4th, 9 to 10.30 a.m.—Practical Geometry, Elementary; 10.35 to 11.35 a.m., Model Drawing. 1.30 to 3.30 p.m. Advanced Drawing.

July 5th, 9 to 11 a.m.— Advanced Geometry, 11.05 to 12.35 a.m. Linear Perspective, Elementary.

WEATHER NOTES.

A little warmer.

—Millbrook will hold a big celebration on May 24th. There will be lacrosse, football, bicycle races and [illegible]

L. H. P. A. O.

Hotelmen Now Taking Steps for Next Year's Organization.

The formidable aggregation of alphabetical characters as above, when interpretated, stands for the License Holders' Protective Association of Ontario.

Local hotelmen with very few exceptions, are members of this association, and when the few who do not belong, get into difficulties with our authorities, over alleged or real infractions of law, they will wish they had joined. The fee is only $5 a year, which entitles all members to the services of Mr. James Haverson, K.C., free, and this means that unless a flagrant infraction of law has been made, the accused gets off. Mr. Haverson is the best posted lawyer in Canada on both the spirit and the letter of the license law, and what is of equally great benefit, he carries weight, through his personality and acknowledged probity, with magistrates and judges.

The local association is now taking in hand the question of membership for next year, so all hotel men, in their own interests, should back up this association all they can.

The association has broader grounds for support than the mere defence of members charged with infractions of law; it is composed of thousands of hotelmen throughout the province, and carries, as the representative of much more weight than scattered individuals could hope to.

The association watches closely all matters appertaining to liquor legislation, and being the mouth piece of a numerous but broadcast scattered clientele, cannot but wield great influence with the Government when they are legislating on liquor laws.

A case tried not very long ago in this town shows clearly the wisdom of license holders belonging to the association. A hotelman, who had not long before his trial for an infraction of the liquor laws, neglected to pay his full membership fee, employed Mr. Haverson to take his case, and had to pay his expenses from Toronto, together with his legal retainer fee. This bill of expenses would have paid his annual dues to the association and kept him protected, sir, for perhaps ten years to come.

Police Court

OFFICIALS
Chief of Police, G. I. Hazel
Magistrate, D. W. Dumble

There was no police court session yesterday.

At noon yesterday, P. C. Adams arrested a young man named George Keith of 238 Rubidge street. Keith is charged with stealing a quantity of linen from his employers, the Canadian General Electric Company.

When arrested he had a piece of the linen wound round his body underneath his clothing. The company have missed this linen from time to time recently. Yesterday, Keith was followed by the foreman, on his leaving the works, and after his arrest, the linen was discovered by searching him. The prisoner when interviewed by The Times yesterday afternoon, said that a student lately discharged from the works, had confided to him that he had been taking linen to cut up into handkerchiefs. Learning that the student was about to leave town, and having been asked by him to bring the balance he had left behind, concealed in a book, yesterday, foolishly acted as required, hence his arrest. His explanation will be tested before his Worship this morning.

Keith obtained bail during the afternoon. He is a respectable looking young man, is married, and has several children, and felt his position very keenly.

MR. CONROY WINS HIS APPEAL.

An important decision was given by his Honor Judge Weller, in Judges Chambers yesterday morning, as it confirmed one or two precedents already established in other counties, and will help simplify future interpretations of the liquor laws.

Mr. John Conroy, represented by Mr. Jas. Haverson, K.C., of Toronto, appealed against the decision made by Magistrate Dumble, on 23rd April, in a case when he was convicted on a charge of admitting people to his barroom during prohibited hours, and which also made a second offence case.

The appeal was argued before Judge Weller, as above stated, with County Crown Attorney R. E. Wood for the prosecution.

Mr. Haverson in about three minutes proved to the satisfaction of his Honor, as well as of the prosecution, that the second offence item was untenable. Mr. Wood, while admitting that Mr. Haverson had clearly proved Mr. Dumble's contention as to the case being one of second offence was wrong, claimed that the fine should stand, as the fine imposed did not exceed that of a first offence. Mr. Haverson said that if the conviction was illegal, in parte, it was wrong in toto, as proved by precedents established in the cases, both tried in 1901, of the King vs. Dealty, and King vs. Nurse. A discussion between the contending counsel, over interpretation and applicability of various sections of the Act ensued, and terminated by the prosecuting attorney triumphantly pointing to section 105 to clinch his argument. Mr. Haverson admitted that this section did seemingly make the case clear for the prosecution, but, unfortunately for Mr. Wood's case this particular section had been repealed for over two years. This settled the matter, and his Honor quashed Mr. Dumble's conviction and allowed $11 costs, which will come out of the license fund of the Ontario Government. This license fund is gotten from the Government's share of fines collected throughout the province.

In the case of King vs. Nurse, of Dumber, the defendant was convicted of a third offence, by his Worship of Toronto Junction. With the Attorney-General for the prosecution and Mr. Haverson for defence, the appeal was tried at the higher court, and as the third offence charge was not sustained, the whole conviction was quashed.

Mr. Geo. Cochrane, License Inspector, was present at the trial, but no witnesses were called, the conviction being quashed through technical legal points.

Workman Carried a Bomb, Blown to Atoms

Dynamiter Literally Hoist by His Own Petard, TWo Officers Killed--A Mistep on a Sidewalk Curb Causes the Accident.

Warsaw, May 20.—A workman, who was trying to avoid the observation of two detectives on Miodowa street at noon yesterday, stumbled on the curb of the sidewalk and a bomb which he was carrying in his pocket exploded, killing the workman and both the detectives. It is believed that the bomb was intended for Governor-General Maximovitch, who was expected to pass the spot on his way to the Cathedral to attend the service in honor of the Czar's birthday.

The bodies of the victims were literally blown to pieces. A cafe near the scene of the explosion was entirely demolished, all the windows in the neighborhood were smashed, and a lamp-post was torn out of the ground.

The first report was to the effect that a bomb had been thrown among local officials, who were on their way to or returning from the Cathedral, and caused intense excitement.

Two passers-by were severely injured and others slightly hurt by fragments of the bomb.

MR. R. N. JOLLIFFE BANQUETTED.

Members of the B. A. C. Bid Their Fellow Member Adieu

On Thursday night the B.A.C., held a banquet in Mr. H. Long's Palm Garden in honor of a departing member, Mr. R. N. Jolliffe.

When justice had been done to an elaborate spread, the health of the King was proposed and honored. The company drank to the bottoms of the glasses when Mr. R. N. Jolliffe's name was proposed. Mr. E. M. Best, the President, assured Mr. Jolliffe that it was with feelings of profound regret that the B.A.C. said farewell to him, and said their best wishes would follow him to Toronto. Mr. Jolliffe thanked the company for the very kindly expressions voiced by Mr. Best.

Mr. Jolliffe expects to leave for Toronto on Tuesday next.

FIVE MEN OUT ON STRIKE.

Mr. Adam Hall Declines to Pay the 10 Per Cent. Advance Demanded by His Employees.

Five members of the International Association of Sheet Metal Workers, Union No. 194, who have been employed in Mr. Adam Hall's establishment walked out yesterday.

It seems that a few days ago the local union made a demand upon the employers for a ten per cent. increase in the wages which the men were formerly receiving.

All of the employers excepting Mr. Hall, have signed the agreement.

"Yes," said Mr. Hall yesterday, five of my men are not working. The foreman, a journeyman and an apprentice are on duty. I have been paying the men who walked out $2.50 a day for a long time and the wages paid in other shops have been from $2.00 to $2.25 per day. Now when the others grant a ten per cent. increase it does not bring the pay up to what I have been giving—$2.50—and yet an increase of ten per cent. is demanded of me when I am putting up the highest wages in town. I think this is an unfair action as when I have to pay so much more I cannot compete with others, especially on outside contracts. I think the Union should fix a minimum and the scale of wages should be uniform. Why should I or any other man have to pay more than certain competitors. You see that the ten per cent. increase demanded of every shop in town hits me harder than the others in view of the wages I have been paying."

BAND CONCERT GRAND SUCCESS

A Crowded House Listens to Good Entertainment Given by 57th Band.

Last night a crowded house showed that our local regimental band is both a purely good musical organization and a favorite with all.

The entertainment fully realized anticipation and was greeted with rapturous applause after each selection.

The humorous selection, entitled the Village Band, full of rollicking laughter, and was an harmonious exposition of excruciating discords. Miss Sadie Free in her recitation, Mr. Gilbert Markle in his violin solo, and Mr. J. Guerin in his clever song and dance speciality, were all loudly applauded. This final concert by the band was perhaps a fitting climax to a successful series. The program was as follows:

March—"Des Petit Periot" ..... Bosc
Overture—"Poet and Peasant" ..... Von Suppe
Recitation—"Run of Crusader" ..... from "The Thoroughbreds." Miss Sadie Free.
Paraphrase—"In the Deep Cellar" ..... Lovenberg
Violin Solo—"Hedra Karl" ..... Hubay Mr. Gilbert Markle.
Selection—"The Princess Chic" .....
Fantasy—"My Old Kentucky Home" ..... Dalby
Ten Minutes with Mr. J. Guerin.
Humorous Selection—"The Village Band" ..... Zaunt
God Save the King.

CANADIANS IN JAMAICA

Control Electric, Traction and Lighting Power in Kingston

Kingston, Ja., May 18.—The West India Electric Company, of Montreal, has purchased the entire plant and business of the Jamaica Electric Light and Power Company doing business in this city. By this purchase the Canadian company obtains the entire control of the electric traction and lighting in Kingston and Lower St. Andrew. The price paid is nearly $800,000.

Russ Colliers Still in French Waters Japs Capture Pass.

Forty-Three Colliers, Mostly Russian and German, are Anchored off Nha-Be Under Supervision of the French Gunboat Caronade--Must Leave Vladivostok.

Saigon, French Cochin-China, May 19—Forty-three colliers, mostly Russian and German, are anchored off Nha-Be under the supervision of the French gunboat Caronade. Twenty Similar ships are off St. James under supervision of the French cruiser D'Assas.

Saigon, French Cochin-China, May 20.—Forty-three colliers, mostly Russian and German, are anchored off Nha-Be under the supervision of the French gunboat Caronade. Twenty similar ships are off Cape St. James, near here, under the supervision of the French cruiser D'Assas. The Russian transport Kieff is still in the commercial port of Saigon.

No more direct news of the Russian fleet is expected here beyond what might be received from refugees should fighting occur in the neighborhood of the Pescadore Islands.

St. Petersburg, May 19.—A despatch from Gen. Linevitch dated May 19, says: "A small detachment of the enemy May 16 occupied Yandi Pass on the front of the armies. The Japanese also attempted to occupy Shahotse, but were repulsed and retired southward. The same day the Japanese approached Honkhu about six miles south of Tiul, but were forced to retire."

MUST LEAVE VLADIVOSTOK.

Washington, D.C., May 20.—Richard S. Greener, American commercial agent at Vladivostock, has cabled the State Department that all the foreign commercial agents there have been asked to leave Vladivostock fortress. It is recalled that a similar measure was adopted by the Russian authorities at Port Arthur at the beginning of the investment of that place by the Japanese land and sea forces, and hence it is assumed that Vladivostock is expected to become a centre of the war very soon.

GENERAL SPORTING GOSSIP

THE TURF—BASEBALL—LACROSSE—FOOTBALL

The Peterborough Turf Club are now engaged in completing arrangements of their annual races at the Driving Park. The races will cover the two days of August 7th and 8th. There is every indication that these races will be of unusual interest. It is expected that horsemen from Toronto and surrounding towns will attend in large numbers.

• • • •

BASEBALL.

The Peterborough II baseball club have defaulted to-day's game to the T.A.S., and have decided to withdraw from the City League. This may be taken as a death blow to the organization, as only two teams, the Auburns and the T.A.S. are left. The management of the second team felt that they could not gather a bunch together that could compete with the other teams, hence their withdrawal.

A series of games between the Auburns and the T.A.S. would be interesting and would provide lots of amusement.

• • • •

All arrangements are completed for the game this afternoon on the Exhibition grounds, between the fast nine of the Sherbournes of Toronto, and Manager McEwan's aggregation. The visitors are in the same league as the Progressives, that played here last Saturday, and are a clever bunch of ball players. The locals have been strengthened materially by Stayne at 3rd bag, and are in much better shape, having put in a week of hard practice. "Mull" Douglas is pitching great ball, and the fans are assured of a great battle for supremacy. Now for a bumper crowd to encourage the boys. The following players will represent the Peterborough nine: Douglas p, Cudman c, J. Pilling 1b, Sheridan 2b, Shea ss, Stayne 3b, E. Pilling lf, Connors cf, Simpson rf. The Sherbournes will have their strongest line-up, which will be picked from the following players;—Weeks, Gratton, Kimmerly, B. Stevenson, J. Stevenson, Thorne, Bonnich, Dickinson, McDonald, Belanger, McColl, Smith, Buck, Lochold and Tyler.

• • • •

FOOTBALL.

A foot ball match between the Quakers of Peterborough and the Norwood team will be held at the park on Saturday afternoon, May 20th, at two o'clock p.m. sharp —the second game in T. V. League. In order to maintain their standing in the League the Quakers must win this game. In view of this they have strengthened their team in every respect. The home team are preparing for a hard game and will thoroughly contest every inch of ground.—Norwood Register.

ALLEN'S LUNG BALSAM

will positively cure deep-seated COUGHS, COLDS, CROUP.

A 25c. Bottle for a Simple Cold.
A 50c. Bottle for a Heavy Cold.
A $1.00 Bottle for a Deep-seated Cough.
Sold by all Druggists.

CENTRAL ONTARIO MEDICAL ASSOC.

Annual Meeting and Election of Officers--Arrange to Prevent Bad Debts.

The annual meeting of the Central Ontario Medical Association was held Thursday evening in the Ontario Bank Chambers. The attendance was large and the meeting was a most harmonious one.

The following officers were elected,
President—Dr. Caldwell.
First Vice-Pres.—Dr. Scott.
Second Vice-Pres.—Dr. Bradd.
Secretary—Dr. Morgan.
Treasurer—Dr. Greer.
Auditors—Drs. Carmichael and Amys.

Executive Committee—Drs. Brown, Neal, Young, Caldwell and Morgan.

Among other matters discussed, was that of the difficulty of collecting hard earned accounts from patients, whose purses were strong but their desire for settlement weak. To put a stop to this kind of treatment, the local disciples of Esculapius, will each make up a list of his delinquents and supply the names to all the doctors in town.

Speaking of the proposition yesterday a well-known physician said; blacklist or category of 'dead-beats' will not include poor people or those unable to pay but will contain the names of all persons who make a practice of calling in a medical man, and, when he presents a bill for his services, they either refuse payment altogether or ignore him, going then to some other doctor and saying the reason they are not engaging the previous dictor, is because he is no good. Now we do any amount of work gratuitously, but we do object to attending persons, who are well-to-do, and yet will never give a physician one cent for professional attendance. I have lost more in one month here than I did during seven years, when I practised in another town. The list of regular 'dead-beats,' will be confidential and the members of the profession here will, I am confident, adhere to it. We are not going to attend, as I said before, people who are abundantly able to pay and yet never do so."

Ottawa, May 18.—Commander Spain has returned to Ottawa from a flying trip to Toronto, and states that the Petrel has left the Queen City for the Nova Scotia fisheries protection fleet.

ROYAL Baking Powder Saves Health

The use of Royal Baking Powder is essential to the healthfulness of the family food.

Yeast ferments the food.
Alum baking powders are injurious.

Royal Baking Powder saves health.

Broken and Sad Weary of Life

Ground to the Dust With Weakness—Too Nervous to Sleep —A Pitiable Wreck

FERROZONE

Braced — Invigorated, Toned and Strengthened

Men and women, married or single, whether old or young, will find abundance of health in Ferrozone. It completely vitalized Mrs. F. Levine, a well-known resident of Point Alexander, Ont., who writes;

"I was on the verge of nervous prostration. When I got up in the morning I had to force myself to go to work.

"I felt blue and depressed, took no real comfort out of life.

"Dragging weakness and lack of spirit seemed to be killing me.

"How I wished for strength! Kind Providence brought Ferrozone to my notice and I commenced to take it. The change was wonderful. I picked up every day. Strength developed, appetite increased. I grew cheerful and strong. Ferrozone made me feel like a woman. My cure is complete and I recommend it as an unsurpassed."

The one medicine that's sure to lift you from a weak, miserable condition is Ferrozone. 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to for o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

WHY NEED THERE BE A BIG SEA FIGHT?

No one knows where and when the coming naval engagement will take place but Admiral Togo, and he won't tell. The choice is absolutely in his hands. His battleships, though fewer, are much faster than the enemy's and in a much better condition. He is far stronger in cruisers and torpedo boats. He has been able so far to completely conceal, not only his future plans, but his past and present movements. Nobody knows where he is or what he is doing, though the telegraph follows every movement of a Russian ship.

There is no reason why he should not keep up this mystification until the hour of combat. It is absolutely in his power to precipitate the hour of combat any moment, or delay it until the Russian ships are in the Japanese sea. He can follow them for days without danger of detection, holding them continually in nerve racking suspense, or he can strike them with battleships or torpedo boats, singly or in a mass, at any hour of day or night from the time they leave the China sea until they arrive at Vladivostok.

Many think the Japanese will delay the general action of battleships as long as they can, harrassing the flanks of the fleet meanwhile with fast cruisers by day and torpedo boats at night. This is exactly the policy that the accepted theories of naval strategy imposed upon the commander of a fleet weaker in battleships, but stronger in cruisers. The idea is that the large fleet can be gradually stripped of its scouts and guards by cruiser attacks and perhaps weakened by destruction of some of its battleships by torpedoes or mines. After accomplishing this, Togo could close in with his stronger and faster battleships and finish with the Russians on much easier terms.

But this idea may be developed farther. Why should Togo risk his battleships in a battle with Rojestvensky at all? The latter is going to Vladivostok. Why not let him go there with as many of his slower and heavier ships as can escape mines and torpedoes? In the meantime the fast Japanese cruisers can protect the island commerce, pick up colliers and supply ships, and destroy as many as possible of the lighter Russian ships. It would be easy enough to protect their communications with Manchuria, because the Russians cannot do much cruising until they had had a chance to dock.

With the battleships, or what was left of them, shut up in Vladivostok, the Japanese would have before them another Port Arthur operation of siege and blockade. This would be slower than a general naval engagement and more costly in lives, but it would economize the precious battleships on whose continued safety [illegible] of Russian navy.

The Coming of our Lord Considered

The Sanctuary Theory Presented and Discussed

That the Lord is to reveal himself personally to the inhabitants of this world, the scriptures plainly declare. That this coming is to be in the clouds, attended with divine power and splendor, with inconceivable power and glory, they just as clearly state. But, that there are many passages, seemingly referring to this subject, which cannot apply to the same event, is evident. From a misapplication of some of them very erroneous views have sprung up and are misleading the minds of many. There are a number of texts which speak of a coming which is not at the same time expected, which takes place suddenly and which comes as a thief unaware; and is liable to find some of the churches asleep and unprepared. (See Matt. 24-42-44, Mark 13-35-36). All the disparity that exists concerning the texts which speak in different strains Lord's coming arises from a lack of information or understanding pertaining to the subject "Of the Sanctuary." This subject is the great key and only key to the situation in the last days. This understood, every text falls into line, no violation is done to any scripture, and there is consistency and harmony throughout. Let us then look at some of the seemingly contradictory texts, to ascertain what they teach and where, consequently, they must apply. It is evident from the list of texts, above referred to, such as Matt. 24; 30-31, 1. Thess. 4; 16-17, Rev. 1-7, etc., that when the Lord visits this earth the second time, in the event which is generally known as the second appearing—second advent—of Christ, it will be a litteral personal coming in the clouds of heaven, visible to all and attended with such phenomena in the convulsions of nature (Rev. 6-14: 16; 18, 21) as this earth has never experienced. Such a coming as this cannot be in any sense as a thief; it will not be silent or secret, and, so far as the event itself is concerned, it will not be unexpected, for such premonitions will appear as its precursors as will indicate to all "The Immediate Revelation" of Christ. Even the wicked, as appears from the closing verses of Rev. 6, are aware from their terrible surroundings that the great day of wrath has come before Christ actually appears. This point being settled, the next question is: are there any other events in the experience of Christ and his church which are called a coming of the Son of Man and the coming of the Lord? We answer yes: two events, both of which are brought to view in the subject of the sanctuary, both of which are explained by that subject and that alone and all the apparent discrepancies cleared away. This will appear if we look at a few features of the sanctuary work which relates to this question and the scriptures which apply to them. The only points that need be noticed for our present purpose are these: Christ, after performing the work of a priest in the first apartment, the holy place of "The Heavenly Sanctuary," during the time alloted for the work in that department, (Dan. 8-14) then enters upon that part of his ministry which is the antitype of the atonement made by the ancient Levitical high priest on the great day of atonement in the type. (Leviticus 16.) To do this He enters into the second apartment, or most Holy, and performs a work of atonement or blotting out of sin. This decides the eternal destiny of all to whom this work pertains: for whosoever is found worthy to have his sins finally stoned for and blotted out will be saved. This, then, is the work of judgment to reach a decision and render sentence in all cases, and this judgment scene is opened by the Ancient of Days taking his position as judge in a court of justice, as the verb "did sit" signifies in Dan. 7-9, where the scene is described. Christ is then brought in before God amid the shining hosts of "His Heavenly Attendants." Here decisions are made which involves an examination of the books from which all judgment is determined. (Rev. 20-12) and an atonement is made for all who have overcome. The cases of the living, of course, come up last into this investigation, and this is called the reckoning of the Lord with His servants. (Matt. 25-19). This is the moment of supreme importance to the experience of the church. And to both of these movements the entrance of Christ into the inner sanctuary to make this atonement for His people before His Father and finish His work as priest; and His coming to His people to reckon with them in the manner indicated above; coming of the Bridegroom, and coming of the Lord, are applied not in the exact form of the foregoing expression, but expressing exactly the same idea proof—Dan. 7, 13; 14: I saw in the night vision and behold one like the Son of Man (Christ) came with the clouds of heaven (myriads) of holy angels, for this is not the atmospheric heavens where literal clouds are, and came to the Ancient of Days and they brought Him near before Him, not to this earth, for God the Ancient of Days is not here, and there was given Him dominion and glory and a kingdom. "Here is a coming" that is brought to view, not to this

(Concluded on page 3)

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The Canadian Northwest
HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 20 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the End of June, 1908.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

Stocks—The MARKETS OF THE WORLD—Grains

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $1 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and New Foundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships crossing the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $4,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the rosecate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough, for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't go it on government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough, for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't go it on government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or tearing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

Kidneys & Bladder

All sexual complaints affect these organs, hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning. Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

☞ No Names Used Without Written Consent.

O. W. Rowe, of Jackson, Mich., says: I had varicocele in the secondary stage and two strictures of 8 years' standing. I was operated on twice, undergoing great suffering, but only got temporary relief. I was finally advised to try the NEW METHOD TREATMENT of Drs. K. & K. The enlarged veins disappeared in six weeks, the stricture tissue was removed in eight weeks and my sexual energy and vitality returned so I was a man in every respect. I recommend you doctors with my whole heart."

CURES GUARANTEED. NO CURE NO PAY.

Before Treatment. After Treatment.

We treat and cure Nervous Debility, Lost Manhood, Varicocele, Stricture, Blood Diseases, Kidney and Urinary Complaints. Consultation Free. Books Free. Write for Question List for Home Treatment.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 800 feet in length with a depth of 800 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo, Colo., has averaged a little over $60 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $80 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $2.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Other improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $5 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $750.00 per ton and for gold $335.00.

With an average value of $50.00 and transportation and treatment expenses of $12.40 a ton, the net value of our ore has been $37.60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 375,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

The Coming of our Lord Considered.

(Continued from page two.)

earth, but the Ancient of Days after he has taken his position in the judgment scene described in verse 9 and 10. Here then is one movement taking place wholly in heaven which is called a *coming* of the Son of Man. This is the same coming that is brought to view. Matt 25:10. And while they went to buy the Bridegroom came, (Christ) is the Bridegroom, and at this point in the parable of that chapter, He comes, not to this earth, but to the marriage which is His reception of the kingdom; and He receives His kingdom before He comes; Luke 19:12. He receives it when being brought in before the Ancient of Days, as described in Dan. 7:13, 14. He concludes His priesthood with the atonement, and then arrays Himself in royal attire, is inaugurated King. On the second point that the decision of our cases in the sanctuary above is a coming of the Lord to us Matt. 25-19, Luke 12-36 and Rev. 3-20 may be offered as proof. After a long time the Lord and those servants cometh eth and reckons with them, Matt. 25-19. All reckoning with the servants of the Lord to decide in regard to their faithfulness in this case takes place before the Lord comes for. "When He Comes" without any further reckoning or judging, the righteous living are changed in a moment (I. Cor. 15:51:52) and the righteous dead are raised. (I Thess. 4-16.) This reckoning must, therefore, be the investigation of character and decision of destiny involved in the atonement, as Christ finishes his priesthood before His coming as King to this earth; and this is called a coming of the Lord to those servants to reckon with him. And ye yourselves like unto men that wait for the Lord when He will return from the wedding; and when he cometh and knocketh, they may open unto Him immediately—Luke 12-36. This cannot apply to the coming of Christ in the clouds of heaven to gather His people to Himself, for he does not then come to knock to see if he can find admittance; for then all cases are decided and He comes to "Confer Immortality" upon His people. hTen coming and knocking must therefore refer to the same time as the reckoning of Matt. 25-19. That is at the time when our cases come up for decision in the sanctuary; and this again is called a coming to us. If any man hear my voice and open the door I will come unto him and sup with him and he with me.—Rev 3-20. Here is brought to view a condition of union with Christ which comes from hearing his voice and opening the door to him. It is a condition which cannot be reached till sins are atoned for and blotted out. (Acts 3:19) and yet it is something which the church is to enjoy here before the Lord appears in the clouds of heaven, for after that he does not plead and knock for entrance. This must refer to the same time as Matt 25-19 and Luke 12-36. And this is called coming into the church. "Thus we find" three events to which these phases concerning the coming of the Lord are applied: (1) His coming to the Ancient of Days, when he enters the most Holy of the Heavenly Sanctuary. (2) His coming to reckon with his servants; when our cases come up for decision in conclusion of the sanctuary work. (3) His coming in power and glory with the sound of a trumpet amid the last convulsions of nature personally and visibly in the clouds of heaven. Let us now see to which of these three, if any, that element of suddenness and unexpectedness which some of the texts bring to view pertains. (1) The first coming, that to the Ancient of Days, (Dan. 7-13) and to the marriage (Matt. 25-10) took place at the end of the 2,300 days and on S. 14 in 1844. That coming was marked by a prophetic period and that period was understood. That could not come, therefore, at any hour when they, the church thought not. Matt. 24-44. (2) We pass on to the third coming, that in the clouds of heaven, and find as already noticed, that so many signs and convulsions (Rev. 6-16) will herald it, that He Himself will not be unsuspected even by the wicked. (3) But when we look to or at the second coming, the coming to reckon, we find nothing to indicate the time when it will be. That is nothing to show us just when our cases will be reached in the judgment and "Come up for decision." This then is liable to come suddenly, unexpectedly, and find us sleeping and unprepared, Matt. 24-44, Mark 13-35, 36. It is to this that the coming of the thief applies. If the good man of the house had known in what watch the thief would have come he would have watched and would not have suffered his house to be broken up. Matt. 24-43. So if anyone knew at just what time the very day his case would come up for examination and his eternal destiny be decided, as the hour approached, dismissing every other consideration, he would give himself up to self examination and prayer, repentance and confessions of sin, and buy of Christ the gold tried in the fire that he might be rich, and white raiment, the righteousness of Christ, that he might be clothed, and would anoint his eyes with eye salve that he might see. Rev. 3:18. That he might be ready and that this supreme hour of his destiny might not find him sleeping and take him unawares. Luke 21-34. But no time when the Lord will come to reckon with us as his stewards is made known. We know not when this time is. We only know that we are already many years in the period since the judgment in the sanctuary commenced; and when the cases of the dead are passed the work will then come to the living. Hence the danger that we begin to feel that the time is not so near as we supposed, and say my Lord delayed His coming and let our attention become engrossed in other things, and the work of preparation go neglected, and so before we are aware, at such an hour as we think not, when we look not for Him, the Lord comes to us as servants (Matt. 24:50) to reckon with us, and we are not ready. It is this time that we believe all the passages of the nature of Matt. 24-42:44; 50, Mark 23-35-36 have their application. With this view it is plain to be seen that there is no conflict between those passages and those who speak of another coming of a different nature in the clouds of heaven. And we are saved from the errors of supposing that the second coming of Christ to this world is to be in a secret, silent, invisible manner, and are spared the painful necessity of trying to harmonize with this silent, stealthy coming. Those strong and unequivocal texts which proclaim the majesty and glory, the flaming fire, and the mighty thunderings, the voice of the trumpet of his second advent to earth. Catarrh Leads to Consumption

he Experience of a Lady in Sydne Who was Cured of Consumption by Inhaling Catarrhozone — This Case Should Warn Others.

"The beginning of my trouble was cold, just a simple cold," writes Mrs. A. V. Thorburn, of Sydney. "I neglected this cold and then I got catarrh. When it became troublesome I took some medicine but it didn't help me. I began to cough a great deal and then consulted a doctor. I was horrified to find I must have had tubercular irritation in my lungs for a year or more. A friend strongly urged me to use catarrhozone. I conferred with my doctor and he said that lots of fresh air and the frequent use of Catarrhozone would be the proper treatment. I used to cough for at least half an hour in the morning but after using Catarrhozone a few days my cough was much easier. The irritation gradually left my throat and I commenced to get better. I kept up the Catarrhozone treatment and inhaled the medicated air five minutes every hour. I believe this was the means of saving my disease, for I got quite well again in a few months. I have since advised other sufferers from catarrh and lung trouble to use Catarrhozone, and in each case good results were obtained. I attribute my recovery entirely to Catarrhozone, which I can honestly recommend in the strongest way."

The foregoing experience should convince everybody of the evil of allowing colds to develop. To neglect catarrh is ever worse. Carry a Catarrhozone inhaler in your pocket and use it occasionally. It prevents colds, permanently cures every type of catarrh, and is known to be the only remedy that actually kills the germs of consumption.

Catarrhozone is used by all intelligent physicians and is endorsed by thousands of doctors, because it can be relied upon to absolutely cure catarrh, bronchitis, throat and lung trouble. Catarrhozone is simplest, surest and best remedy. Two months' treatment guaranteed to cure. Price $1.00, trial size 25c., at druggists or N. C. Poison & Co., Hartford, Conn., U.S.A., and Kingston, Ont. Refuse a substitute for Catarrhozone and insist on getting it when you ask for Catarrhozone.

DASHES HERE AND THERE BY TIMES' REPORTERS

Fences.

Try A. Reid for fencing or gates. 76 Lansdowne street, or address Box 576, Peterborough.

Girls Wanted.

A couple of good girls to learn the book binding, apply at once to the Times Bookstore.

Boarders Wanted.

Six gentlemen can be accommodated with first-class rooms and first-class board, from 1st of June by applying to J. C. Craig, 29 Queen street, opposite St. John's church. d-a

JERSEY CREAM FOR SALE

Delivered to any part of the town! Apply to HUGH BERTRAM, Phone 470.

Y. W. C. A. Notes.

On Sunday afternoon, at 4.15 p.m. the Rev. W. J. Jolliffe will deliver an interesting address to young women. Miss Ruth Dawson will sing. This service will be particularly interesting, and all young women are heartily welcome.

Satisfactory Showing

The Quarterly Board meeting of the Havelock circuit, which comprises the Havelock and Trent Bridge churches, was held on Monday evening. This being the closing meeting of the year, the reports from the various departments of church work were presented, and proved very satisfactory. 23 new members were added to the roll during the year, eight by letter, and 15 on profession of faith, while 21 names were erased, 16 removed, two ceased to be members and three having died. The present membership is 318, a net increase of two.

DUTTON'S MARKET.

Pineapples for preserving 81.25 to 82.25 per dozen.

Peterboro' Business College

larger this year than ever

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM. PRINGLE

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Our local merchants are in favor of Saturday July 1st, being celebrated.

—The Steamer Beaver, will probably make its first trip of the season today.

—The Chief has a pair of eye glasses that he would like to find an owner for.

—The citizens and especially the merchants are again complaining of the dust nuisance.

—The trees are now in leaf and once more the parks have assumed their summer garb.

—Mr. Frank Jory, of Lakefield, has sold his liverly business to Mr. A. Greenley, formerly of Hastings.

—The closing band concert by the 57th Regiment Band took place yesterday evening in the Opera House.

—Lansdowne Lodge, No. 25, Sons of England, will attend the George St. Methodist church in a body on Sunday night.

—Dr. W. W. McKinley, of Port Hope, has been appointed Associate Coroner for Northumberland and Durham.

—A large number of citizens are going to Toronto to-day on the Peterborough Turf Club's excursion. A special train leaves the C.P.R. station at 8.10 a.m.

—The arm of the dredge Trent, while being carted down George St. yesterday got caught in the tracks near Charlotte street, and blocked traffic for some time.

—The C.P.R. were yesterday unloading ties at the foot of Simcoe street. These are for the new siding into the Peterborough Cereal Company's mills.

—Mr. Wellington Burgess of Belmont had his leg broken between the ankle and the knee from a kick by a cow, while milking, on Thursday last. The accident will lay him up for several weeks.

—The merchants of Havelock have decided to hold a half holiday during the months of July and August, and have fixed on Wednesday as the day of the week on which business will be suspended.

—Final arrangements have now been completed for erection of the new Bell Telephone line between Peterborough and Indian River. Work will proceed at once.

—Why is not the water turned on —It is expected that the Minister of Railways and Canals will give a definite answer at once to Peterborough county representatives in reference to the maintenance of swing bridges over the canal.

—The completion of Stony Lake settlement is changing very fast. There has been twenty-six removals during the past year, and six deaths with scarcely anyone coming in. There are two of the old settlers left, in the persons of Messrs. James E. Clegue and James Robb.

—The druggists will close their stores at 7 o'clock each night, instead of 8 as at present, beginning on June 1st. Early closing will be in effect for three months on every night except Saturday. One drug store will remain open until late each evening.

LITTLE ACHES never grow to be big ones if they are promptly treated with Perry Davis' Painkiller. A good thing to remember in the season of diarrhoea, cholera morbus and other bowel complaints that come with summer.

in the lavatory placed in our market building? This neglect causes great inconvenience to people bringing produce to the market and causes trouble to the local hotelmen, as ladies, not having friends near at hand to call on, are compelled to go to hotels.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrography Work. Studio 134 Brock Street, Peterborough.

—Chief Russel stated yesterday that a town by-law forbids the setting off of firecrackers, fire works, etc., within the corporation limits, and the police intend to see that these provisions are strictly enforced. The small boy should govern himself accordingly if he wishes to avoid trouble.

—The members of the Warsaw branch of Women's Institutes are making preparations for a big concert on the evening of May 24th. The object is to pay for a piano which has lately been purchased. They have a good library and this latest acquisition shows something of the enterprising spirit of the Warsaw ladies.

—The printed notices of the resolution passed by the License Board of West Peterborough, requiring all hotel keepers to afford a clear view of the interior of their bars after hours, by having the blinds or screens at the windows removed, were distributed to the various license holders in town, by inspector Cochrane yesterday morning.

—Either P.C. Stewart is putting on weight, or the town building requires overhauling. As he stood on the floor at the rear of the building, on the ground floor, the boards suddenly gave way and down he went. Had he not made a quick movement, his avoirdupois would have gone through into the cellar beneath.

—This will of the late E. D. O'Flynn of Madoc has been probated. The estate is valued at $80,000. He leaves $3,000 to Albert College, $1,000 to Methodist missions, and $500 to the superannuation fund; $1,000 is to be invested, the interest to be used to furnish Christmas dinners to the poor and needy of Madoc without any regard for religious or political proclivities.

A PRETTY CANADIAN GIRL

Regained Health and Beauty by Use of Pe-ru-na.

Miss Louise Moore, 36 McGill St., Toronto, Can., writes:

"I wish to express my gratitude to you for giving to suffering humanity your wonderful medicine, Peruna. I was an invalid from catarrh of the liver. I was despondent, my skin was sallow, I had a bad taste in my mouth in the morning, my tongue was coated a dark brown and my breath was very bad at times. I was subject to sick headaches and vomiting. My bowels were irregular and I was wretched. I doctored for some time without becoming much better and finally, at the suggestion of friends I tried Peruna. The result was magical and within four months I was completely cured."—Miss Louise Moore.

THOUSANDS of women suffer from systemic catarrh. This is sure to produce such symptoms as cold feet and hands, sick headache, palpitation of the heart and heavy feelings in the stomach.

Then begins a series of experiments with medicine. They take medicine for sick headache. They take medicine for nervous prostration, for palpitation of the heart, for dyspepsia. None of these medicines do any good, because they do not reach the cause of the complaint.

Peruna at once mitigates all these symptoms by removing the cause.

Systemic catarrh is the trouble. Systemic catarrh pervades the whole system, deranges every organ, weakens every function. No permanent cure can be expected until the systemic catarrh is removed.

This is exactly what Peruna will do. Good health is the basis of beauty. Clean skin, clean mucous membranes, these are the true source of beauty and symmetry.

Peruna cures catarrh wherever located. Female catarrh is the most beauty-destroying disease in existence. Peruna cures by removing the cause. Peruna strikes at the source of all these hateful disfigurements.

Never Looked So Well As Since Taking Pe-ru-na

Mrs. Mary A. Brown, 48 Wells Ave., Dorchester, Mass., writes:

"Every one that looks at me says, 'I never saw you look so well as you do now.' I then told them I have been taking your medicine. I thank you for the kind letters I have received from you. I will always praise Peruna and Manalin."—Mrs. Mary A. Brown.

Dr. S. B. Hartman, President of The Hartman Sanitarium, of Columbus, O., gives advice to women free during the summer months.

All correspondence held strict confidential.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Mr. A. A. Mulholland, of Campbellford, is in town.

—Mr. A. S. Hotchkirt, of Lakefield was in town yesterday.

—Mr. Roland Spratt, of Toronto, is visiting friends in town.

—Mr. H. C. Ryan, of Smith Falls, is a guest at the Oriental.

—Mr. D. E. Turner, furniture manufacturer, Dundas, is in town.

—Mr. A. J. Ford, of Lindsay, was a visitor to Peterborough yesterday.

—Prof. Derenwend, the hair goods specialist, of Toronto, is at the Oriental.

—Mr. H. Merrick, of Kingston, post office inspector, is in town on business.

—Mr. E. Shortell has been called to Buffalo, owing to his father's serious illness.

—The Lindsay Post says;—Mrs. Irwin, of Peterborough, was in town to-day.

—Norwood Register; Miss Sanders, of Peterborough, is spending a few days with Miss L. Searight.

—The Havelock Standard says; Mr. and Mrs. John Martin, of Peterborough, spent Sunday with friends here.

Reception service at close of evening service. Also installation of deacons. The ordinance of the Lord's Supper will be observed.

B.Y.P.U. Monday evening, and public service on Wednesday.

Short hearty services. Strangers made welcome. Hymn books provided.

Rev. A. H. Brace, Pastor.

Small Blaze at Drill Shed.

Yesterday an alarm of fire brought out the brigade in one, two, three time. The wagons dashed up George street, as far as Central Park. The drill shed was on fire; it is a wooden and inflamable structure, the wind was tearing along at 60 miles an hour; three streakes of an axe, and bey presto! the fire was out of business. Some small boys had evidently lighted a diminutive fire by one of the buttresses, which caught fire. Had the shed proper been once really on fire there would have been a H. O. T. in town to-night.

Lindsay Press on Our Incorporation

Lindsay Post says: "Mayor Beat, of Peterborough, is opposed to the incorporation of the town as a city, and got into hot water by opposing the application when it was presented to the Legislative committee. He is now out with the challenge that if the Council will agree to submit the question to a vote of the people, and if the by-law is not defeated by a two-thirds vote, he will pay the entire costs connected therewith. So far the visti has been ignored. It is said the hotel interests are back of the movement for incorporation." And still the advocates for incorporation say, in the face of some 700 signatures against incorporation, that the 23 hotelkeepers in town are agitating against the Council's pet hobby.

PERSONALLY CONDUCTED TOUR

To California and Lewis and Clarke Exposition, Portland, Oregon

A personally conducted excursion to the Pacific Coast via The Grand Trunk Railway System and connecting lines leaves Quebec July 5, and Montreal and Toronto July 6. The route will be via Chicago, thence through Council Bluffs to Omaha, Denver, and Colorado Springs. Stops will be made at each of these places, and side trips taken to Manitou, Cripple Creek, Garden of the Gods, etc. From there the party will continue through the famous scenic route of the Denver and Rio Grande, through the Royal Gorge to Salt Lake City, thence to Los Angeles, San Francisco, and home through St. Paul and Minneapolis. The trip will occupy about thirty days, two days being spent on the Pacific Coast.

The price for the round trip, including railroad fare, Pullman tourist sleeping cars, all meals in the dining car, hotels, side trips, etc., is $165.00 from Quebec or $160.50 from Montreal and $150.00 from Toronto. This first trip is designed as a vacation trip for teachers, although many who are not teachers will improve the opportunity of taking the trip at the remarkably low price afforded.

For full particulars address E. C. Bowler, General Agent and Conductor, Room 308, Union Station, Toronto.

Peterborough Patent

Mr. Jas. Drain, secretary of the Calcutt Brewing Company, has secured a Dominion patent on a labor saving office device for securely manifolding index cards.

This device does away with the old and constant trouble arising from cards getting mixed, misplaced, or lost. It also has an arrangement by which the cards can, by an easily adjusted attachment permit any card wanted to be removed without disturbing the location of the rest.

The model which he has completed also contains an interior compressor which keeps the cards in compact position. Mr. Drain, in his position appreciates the value of system, and he has embodied some excellent ideas in his filing case. He has been granted a United States Certificate of Allowance upon his invention. It is understood several parties are negotiating with him relative to the acquirement of rights.

"IMPOSSIBLE," for you to enjoy the happiness of motherhood," says the doctor. Sometimes he qualifies the statement, and says: "Impossible without an operation." Yet both these "impossibles" have been made possibles by the use of Dr. Pierce's Favorite Prescription. Many times the hindrances to motherhood are to be found in womanly diseases or weaknesses, which are perfectly and permanently cured by "Favorite Prescription." This great medicine for women cures irregularity and dries debilitating drains. It heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"I wish to add my testimony to hundreds of others as to the value of Dr. Pierce's medicines," writes Mrs. Ida M. De Ford, of Lenox, Berkshire Co., Mass. "I have doctored with a great many physicians—some specialists; have tried to be cured at the trouble was. Heart was bad; stomach all out of order; tired out; nerves going in all parts of the body; sinking spells, and nearly every ailment a woman could have. I could empty a bottle of 'patent medicines' without relief. I began taking Dr. Pierce's Favorite Prescription, and ten months afterward I gave birth to a ten-pound boy. All physicians who attended us at that time I never could have a child. Both the baby and myself were strong, and I got along splendidly—thanks to your medicines."

The Common Sense Medical Adviser, 1008 large pages, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of customs and mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 119 PETERBOROUGH ONTARIO, MONDAY MAY 22 1905. PRICE TWO CENTS

Big Battle Near At Hand, General Linevitch to Meet Oyama

St. Petersburg Believes Jap General is Anxious Lest Naval Reverse Should Cut Him Off--Slight Skirmishes in Manchuria Which May be Prelude to General Battle.

Gunshu Pass, 108 miles north of Tie Pass, Manchuria, May 20.—A general engagement is imminent. Field Marshal Oyama is deploying heavy forces against General Linevitch's left, and is contracting his troops along the center, but his base is opposite the Russian right. It is not yet clear which wing is making a demonstration, and which will deliver the main blow. It is evident from Linevitch's preparations that he intends to accept a decisive battle.

The Russians occupy a line forty-two miles in length from Yenhoching to Haidoulen, via Supingkien, where they have good defensive positions strongly entrenched.

The Japanese are advancing in three columns from Kaiyuan, Changtufoo and Fokaman. The Russians' advanced position is now at Liuhochen. Their main position is at Hailiungching, whose General Matoriloff commands.

St. Petersburg, May 21.—The war office confirms the report from Gunshu Pass, Manchuria, that Field Marshal Oyama is on the eve of taking the general offensive, and no doubt is entertained here that General Linevitch will accept battle in his present positions. The general staff believes Oyama's advance was precipitated by the doubt regarding the issue of the coming naval battle between Admirals Rojestvensky and Togo. With an unbeaten army in front of him Oyama's position might be critical if his communications with Japan were interrupted even temporarily.

A HINDU VISITOR FROM THE ORIENT

Rai Khizir Arrived in Montreal From India To-day

TALKS OF INDIA MYSTICISM

Various European Professors of Theosophy are Charlatans—Medical Missionaries

Montreal, May 20.—Rai Khizir, a Hindu gentleman from Benares, India, arrived in the city from the West, and will leave by this evening's train for Boston.

His mission in America is to investigate the progress made by various cults in the larger cities who have engaged in psychic research.

For some time the Indian seers have been somewhat embarrassed by the progress made by missions conducted in India by various European professors of theosophy, whom the East Indians regard as charlatans. Just what they know, just what they are doing and how they are doing it, is what Mr. Ram Khizir wants to find out, and he has come to the fountain head of these seers to do so. After a lengthy stay in San Francisco and Chicago, he is proceeding to Boston, where he will study the belief of Mrs. Baker Eddy and her adherents.

A tall, ascetic-looking gentleman, clothed entirely in black, Mr. Ram Khizir is an interesting personage. Educated in the schools of Bombay, he later went to Oxford, whence he graduated. He has since led a rather quiet life, pursuing the study of the mysteries of theosophy.

His first trip to America has impressed him greatly, though he was somewhat prepared for the "strenuous life" by his four years' sojourn in England.

"You are young. You have abundant energy and any amount of resource, but you don't know everything, you Westerners," he remarked this morning.

"You are like a young giant who has scarcely begun to live, and you have much to learn. You can do so in a few thousand years, if you try.

"The immemorial East? Oh yes. Like yourselves we are just learners, but you see we have reached the Socratic position of knowing that we don't know anything so in time we may commence to learn."

After talking learnedly of mahatmas, astral bodies, etc. Mr. Ral Khisir, when the question of the Indian juggling was broached, seemed rather amused.

"Most Europeans have taken them too seriously. Their stock in trade is composed of a number of tricks and feats of legerdemain, which have been handed down in the juggling tribes for years. Like any of the feats performed by your own jugglers they are easily explained."

The gentleman from India spoke strongly in praise of the European medical missionaries in India, stating that they are doing a good work and one which is highly needed. When the religious side of their teaching was mentioned, he contented himself with the enigmatic remark, "We have many religions in India."

STRICKEN WITH PARALYSIS

London, May 19.—William O'Dougherty, Nationalist member of Parliament for the north division of Donegal, was suddenly stricken with paralysis in the House of Commons this afternoon and was taken to a neighboring hospital in a serious condition. Mr. O'Dougherty was writing at the time and apparently was in his usual health. He was born in 1860.

North Oxford Election

Methodist Ministers Agree to Make the Autonomy Bills an Issue

Woodstock, May 22.—At a meeting of the Methodist ministers of this district a resolution was passed almost unanimously, condemning the educational clauses of the Autonomy Bills, and declaring that in the coming bye-election they will oppose those clauses. The resolution read as follows

"Whereas the Bill known as the Autonomy Bill has been under discussion in the Dominion House of Commons for considerable time, and whereas the constitutionality of the educational clauses of the Bill is a matter upon which there is a great difference of opinion among the best legal authorities of our land, and whereas the clauses of the original Bill were so objectionable that the Government was compelled to modify them, and whereas there is ambiguity and room for different interpretation in the amended clauses, and whereas the Roman Catholic hierarchy seems to have been a very powerful factor with the Government in depriving the new Provinces of their constitutional rights, it is moved by Rev. W. B. Smith and seconded by Rev. T R. Clark and resolved,

"That in view of the impending bye-election in this riding, when the people will be given an opportunity of expressing themselves at the polls, we, as a district meeting, desire to place ourselves on record as opposed to the educational clauses of the Bill."

LIQUOR LAW IN PORT HOPE

COUNCIL APPOINT A SPECIAL MAN FOR NIGHT DUTY

Request of the License Commissioners Rendered Necessary by the Fact of the Inspector Being a Non-resident.

Port Hope, May 19.—Not satisfied with rebuking Premier Whitney for the dismissal of Inspector Powers, who received a flattering testimonial from the East Durham License Commissioners on his retirement a few weeks ago, the board have now gone a step further to appease public indignation at the partisan appointment of a non-resident inspector, whose sympathies are said to be antagonistic to the temperance sentiment. The wide-open regime which has followed in Port Hope since the appointment of the new inspector, J. Kennedy, of Pontypool, induced the commissioners to pass the following resolution and present it at last night's meeting of the town council: "The Board of License Commissioners, being desirous of securing a strict enforcement of the license law in the town of Port Hope, respectfully invite the active co-operation of the town Council in securing such enforcement, either by specific instructions to the police or in such other way as the Council may deem advisable."

Apparently realizing the gravity of such a humiliating appeal prompt measures were taken at last night's Council meeting. It was deemed necessary to appoint a special man for night duty to enforce the liquor law, and, after considerable discussion as to the injustice, though evident necessity for heeding the appeal, during which Mayor Chalk is reported to have said that the liquor license act was being laughed at in Port Hope, the following report of the Police Committee was adopted, and to the chagrin of local Conservatives Port Hope is now virtually paying for the expensive luxury of an assistant license inspector. "We think it advisable in the interests of this corporation to appoint a night constable at a salary not to exceed $400 per year; also that instructions be given the chief constable and assistant constables that they are requested to enforce the liquor license act."

The Autonomy Bill

Wants Ontario Legislature to Speak Out

Toronto, May 20.—L. O. L. 675 has passed the following resolution. That this lodge approve of the position of Dr. Beattie Nesbitt upon the Autonomy Bill, in proposing a resolution declaring the opinion of the Legislature that the constitution of the proposed new Provinces of Alberta and Saskatchewan should leave to them complete control of education. And this lodge desires further to express the hope that in view of the fact that the Autonomy Bill has passed its second reading in the House of Commons, you will insist upon the sentiment of the Province of Ontario being expressed by the Legislature of the Province of Ontario by the adoption of a motion embodying the views that you have expressed, and that such motion may be introduced in such a way that it will not be sidetracked in the Legislature.

Catholics of Holy Land

They Will Continue to be Protected by France

Paris, May 22.—Denys Cochin, a Catholic Deputy, who has just returned from Rome, where he had a long interview with the Pope, says that the Pope has no idea of allowing the present French protection of Catholics in the Holy Land to fall into the hands of the Kaiser. "The Kaiser's speech at Metz," says Cochin, "unquestionably was meant to hint at William's intention to replace France there. This deliberately disagreeable act does not need to be taken seriously. The matter seems to be settled once for all in the mind of the Pope as well as in the minds of the leading cardinals. Our rights there are inalienable for all time.

"This is recognized by Pius, who wrote to that effect to President Loubet, when he visited Rome. If the Kaiser should indulge in any overt act in the direction indicated, I have the Pope's assurance that he will at once intervene."

JAPAN'S NEW FLEET AT SEA

Four or Five Battleships and Twenty Fast Cruisers

ARE PORT ARTHUR SHIPS

Russian Vessels Said to be now in Commission

London, May 20.—A dispatch says the Japanese have organized a fleet strong enough to keep open the communication between Japan and Manchuria even if Togo should be defeated. It consists of four or five battleships and twenty fast converted cruisers.

The cruisers were purchased from three different nations secretly and new armament and engines were placed aboard by the Japanese themselves.

Nothing has been heard of any recent purchase of war vessels by Japan, and it is presumed that the battleships referred to are those raised at Port Arthur and Chemulpo and put in fighting trim. These vessels are the battleships Retrovan, Poltbirds, Sevastopol, Perseviet and Poltava, and armored cruisers Bayan, Pallada and Variag and several gunboats.

Intercolonial Railway

It is Said Important Changes Will Occur on the Railway

Moncton, N. B., May 19.—A Moncton man who has recently been in Ottawa and is known to be in very intimate terms politically and in other ways with Hon. H. E. Emmerson, is authority for the statement that there will be extensive changes in the management of the Intercolonial Railway very soon after the close of the present session of Parliament. It is even reported that Mr. Pottinger may retire from the position of general manager.

CONFESSES TO FIVE MURDERS

Remarkable Letter Received by Chester, W. Va., Police

Chester, W. Va., May 22.—In a letter to the police authorities of the city, a man signing himself "A. Johnson," and claiming to be a partner of Henry Williams, who was recently executed in Roanoke, Va., has confessed to five murders and numerous robberies. His reasons for writing are that other men have suffered for his crimes and his conscience troubles him. He says he has been converted. The dates and manner in which the different crimes were committed as furnished in Johnson's letter are more complete than the police records, and the authorities believe in its authenticity. According to Johnston, he killed a woman at Chester, West Virginia, two Italians at Uniontown, Pa., a man at Hyndman, Pa., and a woman at Martin's Ferry, Ohio. He also claims to have assaulted a woman at Scranton, Va., for which crime, he says, another man was lynched.

—The members of Lansdowne lodge, Sons of England, held their annual church parade to George street church yesterday evening. The members met in a body at their hall, and marched to the church. The sermon to the brethren was preached by Rev. Dr. Crothers.

TRAIN WRECKS NOW IMPOSSIBLE

Demonstration Before Railway Congress May Mark New Erain Railroading

ANTIWRECK DEVICE SIMPLE

Shock is Diverted From Engine or Car to a Friction Cylinder, Where it is Absorbed—Brakemen on Cars Thorough Test

Pittsburg, Pa., May 22.—Railroad men here are still discussing with the greatest interest the new device which was shown to the delegates to the Railway Congress yesterday by George Westinghouse, which prevents damage to life and property in collisions.

According to a statement made this afternoon to a press correspondent by Mr. Westinghouse, the new device is an absolute safeguard against wrecks at all times, as was demonstrated by the tests of yesterday.

He says that when locomotives and cars are equipped with it wrecks wrecks from rear-end or front-end collisions are impossible, and it is also impossible, in case of collision, for the cars to jump the tracks.

The new invention, which is known as the Westinghouse draft gear, is simple in the extreme. It is simply a buffer, which is attached under a car at each end. It is composed of a number of wedge-shaped friction strips, which are inclosed in an iron cylinder. In case of a collision the buffers on each end of the car came together instead of the force of the collison going to the car direct.

The motion of the friction strips will represent a resistance shock of 75 tons at each end of the car, which means a total resistance of 150 tons for each car.

In the tests made yesterday, when a fifty-car train was divided into three parts and then crashed into by one of the three parts to which a locomotive, running at a speed of forty-five miles an hour, was attached, the entire train came to a complete standstill within a car's length after the collision happened.

In order to show how little the force of the collision is felt, brakemen stood on the tops of many of the cars in the three sections of the train, and retained their footing without the least difficulty.

Mr. Westinghouse is of the opinion that the device will practically revolutionize railroading.

EIGHT DAY MISSION

Special Services for St. Andrews' Church.

Beginning yesterday, an eight-day mission was held in St. Andrew's church. The pastor was assisted by Evangelist Walter Russell, who has been very greatly blessed in special work in Canada and United States services were held yesterday at 11 a.m., 3.15 p.m., and 7 p.m., the subjects were as follows;—Morning, "Power from on High"; Afternoon, "The Anointed Life;" Evening, "Redemption Rights." Meetings will be held every night (except Saturday) at eight o'clock. On Tuesday, Wednesday, Thursday and Friday afternoons a Bible class will be conducted at 3.30 when the following topics will be considered, 1 "The Holy Spirit in the Son of God." 2 "The Holy Spirit in the Word of God;" 3 "The Holy Spirit in the Church of God;" 4 "The Holy Spirit in the People of God." All are cordially invited to these studies. Victoria Day will be a special day of praise and will give a golden opportunity to many who are deprived of such special privileges as well as a union meeting of all Christians in the morning service.

IN SPRING ATTIRE.

Stony Lake Attired in All Its Glory of Spring Verdure.

Stony Lake never seems to pall upon one's love of beauty, and this year the islands and shores are fit successors to the traditional beauties of years past.

This is the opinion of several gentlemen who have enjoyed a four days' visit to the charming scenes which nature is decorating with a lavish hand. The party consisted of Mr. R. H. Jackson, Mr. Fred Dumble, Mr. John Kincaid, Mr. R. Strickland, Mr. R. Emery and Mr. Fred Clarke. Mr. Grubbe, who came down on Friday, states that the lakes are looking grand, that the air is bracing, and that there is nothing that can go as far to make a man feel young again as a trip at this time of year. The party did the trip on the tug Alert, which is a staunch craft. Mr. R. H. Jackson completed arrangements for the erection of a summer cottage on the left side of the entrance to Eel's Creek, and here, it is understood, he also proposes to build a large summer hotel at some future date.

School Exercises.

Special Patriotic Exercises to be Held in the Schools May 23rd.

Empire Day will be observed in the schools on Tuesday, May 23rd, Regular class exercises will be dispensed with and instead the program, as outlined by Hon. Dr. Pyne, Minister of Education, will be closely followed.

In the morning the teachers will refer to historical, imperial and national questions, in which the greatness, progress and stability of the empire will be fully outlined. These exercises will be both interesting and instructive.

In the afternoon at some of the rooms, the parents of the scholars will be present, but this is not possible in many rooms owing to limited accommodation. At the Central school the pupils of Mr. Wm. Smith and Mr. J. C. Smith will combine, and in the afternoon hold the observance in the kindergarten department. There will be patriotic songs and readings, and Mr. J. H. Burnham is expected to give an address. Miss Nicholls' and Miss Oulton's rooms will combine. Lt.-Col. Edwards will address the pupils. Mr. Wallace's school is will give an interesting program in the gymnasium.

At the West Ward school an open air gathering will be held on Tuesday afternoon if the weather is fine. Rev. J. C. Davidson and Rev. W. J. Jolliffe will give addresses. Patriotic songs will be sung.

It is expected the other schools in town will also celebrate Empire Day in an appropriate manner.

A BICYCLISTS' GRIEVANCE.

Local Wheelsmen Complain About Carelessness of Linemen with their Scraps.

The Times' sanctum has recently been invaded frequently by bicycle riders with dishevelled hair and blood in their eyes seeking, not exactly for gore, but for publication, of a well-founded grievance.

They complain that telephone, telegraph and electric light linemen still persist in throwing clippings of wire on the streets, which when run over by a bicycle invariably make, not only a puncture, but an ugly elongated tear.

We had been under the impression that there was a town by-law in force prohibiting this criminal carelessness; if there is not a law specifically dealing with these wire clippings there certainly is a by-law prohibiting the disposal of any rubbish on the public streets. This law would undoubtedly cover this wire clippings nuisance, and we trust that any wheelsman seeing a lineman throwing his wire scraps on the streets will lay immediate information with the police.

The police, of late, have been waging fierce blood-red war on wheelmen who ride on the pavements, so they cannot, in justice, do aught but protect those riding on the roadway and observing the law.

We think that any police officer who may see those linesmen at work should keep an eye on what disposal they make of their scraps, and if they should, by a piece of gross lazy carelessness, throw their leavings on the public highway, he should arrest them on sight, as they know the danger they are creating.

Another piece of gross carelessness that is perpetrated in Peterborough, is the careless throwing of broken glass and bottles on the streets, while broken glass does not inflict so serious an injury on tires as does wire scrap, nevertheless punctures a tire instanter.

We recently saw broken glass on George street, between Hunter and Brock street, and on Hunter street, between the bridge and George street as well as in other localities. With broken glass on one side of our more constantly used streets, and wire clippings along the other side, it makes bicycling an expensive luxury, and offers a premium to breaches of the law by driving riders to the pavement.

THE NEW RUSSIAN FLEET

NEW SHIPS TO BE READY IN THREE YEARS

Will be too Late for use Against Japan--Reasons for Giving Foreign Orders

St. Petersburg, May 22.—The committee appointed by the Imperial Technical Society to consider the capacity of Russian yards to build a new fleet has sent in its report. It says that the chief motives for building abroad are the desire to renew the fleet in a three years' term and distrust in the powers of the Russian yards. There is, it argues, no ground for hurry, as the war with Japan is not likely to last long enough for the new fleet to have any influence on its results; while, if haste is rendered necessary by the danger of war with other Powers, it must be remembered that such an eventuality would make the delivery of foreign built ships impossible. The committee hears that the new naval program includes ten first-class battleships, fifteen armored cruisers, twelve protected cruisers, and twelve second-class cruisers. The Russian yards, it admits, cannot execute this immense program in three years, but are capable of carrying out a yet larger order in ten years. The question of engines, boilers, torpedo armament, electric and signalling equipment presents no difficulty but that of artillery is less simple, as neither the Obukhov nor the Motovilikhinsk works can furnish facts as to their possible capacity. The most serious difficulty is armor, as the annual output of the government works will not suffice for more than two to two-and-a-half first-class battleships. Should the shipbuilding orders be placed in Russia, the report adds, several large firms would build new slips for ironclads on the Baltic shore, so that the whole program could be completed in five years, on condition of a government guarantee of work for a stipulated period.

Held Over.

—The report of the ball game and other local news is unavoidably crowded out of this issue.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work. Lessons in Painting and Pyrographic Work. Studio 134 Brock Street, Peterboro.

Baby Stolen From Eaton's Store Found Murdered in Culvert

Mysterious Woman is Suspected--Little Girls Hunting Flowers Chanced Upon Murray Infant with Its Head Crushed In and Body Stripped of Clothing.

Toronto, May 20.—Police officers and parents are much puzzled over the mysterious disappearance yesterday of William Murray's baby boy, aged nine months. The child's mother went to Eaton's to do some shopping, leaving her baby in its carriage at the Queen street entrance. When she came out the child and carriage had been taken away, and they were still missing at noon to-day. A systematic search has been made through all the foundling institutions in the city, but no trace of the baby has been found.

Toronto, May 21.—The kidnapping of the Murray child has developed into a murder. The body of the infant was found yesterday morning in a culvert near Greenwood avenue and the G. T. R. tracks.

The culvert is about 75 feet long and is an outlet for what is known as the "Creek." The body was discovered on Friday night by little Maud Carr. Maud is only ten years of age. She went to the ravine to gather wild flowers early in the evening. She saw the body of the infant and ran home frightened. She told her father but, strange to say, he paid no attention to the story. The body lay there all night, and on Saturday morning Maud and her elder sister, Josephine, went to the ravine and peeped in. They were afraid and ran away again, and told a man what they had seen in the culvert. This man telephoned the police. The body was taken to the morgue.

The story told by little Maud Carr is that a woman had been in the neighborhood pretty much all day, wheeling a baby in a go-cart. She was there in the morning when the children came from school. She was still there at four o'clock in the afternoon. Josie Carr asked her in the afternoon if she was looking for a street or wished to be directed to any place. She said; "No, I'm waiting for my husband."

The children who saw this woman say she was dressed in a black walking skirt, wore tan shoes and stockings, a fawn coat, black hat and black feathers, with something blue about it.

Mr. and Mrs. Murray live at 50 Wellington avenue. Murray is an employe of the Polson Company. They claim the baby was stolen from Eaton's while Mrs. Murray was in shopping.

Mrs. Murray is about 25 years of age and of comely appearance. Her husband is about ten years her senior. When definite news was received by telephone of the death of her child, she and her husband were on Power street inspecting the house where they proposed moving on Monday. Mrs. Murray was overcome by the news and had to be taken to her home on Wellington avenue in a cab, where she collapsed into an hysterical state, which continued for several hours.

IDENTIFIED BY FRIEND.

Mrs. Matthews, who lives in the house adjoining the Murrays on Wellington avenue, went to the morgue yesterday afternoon with Mrs. J. S. Fletcher of 74 Bathurst street, and identified the body of the infant as that of Mrs. Murray's missing child.

"I am a mother myself and knew the dear little child well," said Mrs. Matthews to the World, "and the horror of it all almost overpowered me. What possibly could be the object of doing away with the little one passes my understanding. It cannot be revenge, for I know Mr. and Mrs. Murray well, and no better or kinder neighbors could be than they have been since I have known them."

"That is true," chorused a group of neighbors who had gathered about the door of the Murrty residence."

"No quieter or more respectable people live in Toronto," continued Mrs. Matthews. "Mrs. Murray told me this morning that this was the first time she had ever left the child alone outside Eaton's in her life, and as it was there were only three or four minutes between her going and her return. She at once told a policeman, but was assured that only some slight mistake had occurred, and that her baby would turn up all right and not to be worried. She was very much put out by the off-hand, easy-going manner in which her complaint was received by the police, who assured her that there was merely some mistake which would be set right in time. And now her dead child is lying in the morgue. Oh, it is terrible," and Mrs. Matthews clasped her own child, apparently of the same age as the little one lying on the slab at the morgue, closer in her arms.

Police Court OFFICIALS

Chief of Police, G. I. Read
Magistrate, D. W. Dumble

Young Man In Trouble.

Yesterday afternoon a young man was arrested on a warrant sworn out by a lady who evidently means matrimony or trouble ahead for the said young man. The prisoner stated yesterday evening that he did not seriously consider the question of taking the matrimonial route out of his troubles, but will show that he is not the only pebble on the beach as regards attentions shown the fair one.

A very sad sample of foolishness coupled with petty crime, in which foolishness predominated, was on the tapis at Saturday morning's police court.

George Keith was charged with having stolen some Irish linen from the Canadian General Electric Company, with whom he was an employe. Keith was defended by Mr. Kerr, and Mr. R. E. Wood conducted the case for the Crown.

Mr. J. A. Perry, the first witness, swore that he is foreman of the transformer department at the C.G.E. Co. They, the company, use different kinds of cloth in their business. Lately they have missed some of the linen, and on Friday, having been told that the prisoner had taken some with him, followed him as he was going home from his place in the shops, to the gate house. He kept prisoner here until Mr. Patterson, the superintendent was telephoned for and had arrived. He then told Mr. Patterson quietly that he suspected that the prisoner had some of the cloth with him on his person. Mr. Patterson told prisoner to go on home. Witness then recalled him and again took him into the gate house, and told him he suspected he had stolen some cloth. Keith admitted he had some cloth with him, but explained that he was taking it out for someone else. Mr. Patterson then told prisoner he could take no other course but take it up with the authorities, saying "I cannot do anything else." The prisoner then pulled the linen, some six yards, worth 28 cents per yard out from under his vest and trousers. Witness then telephoned for the police.

Under cross-examination by Mr. Kerr, witness said Keith had been in the works longer than he had, and that this is the first complaint made against him, and had always hitherto regarded prisoner as an honest workman, and that his suspicion on Thursday, concerning prisoner, arose from his having been told prisoner had the goods. All the men, of late had been under suspicion at the works. A student at the works had recently been discharged.

Here a dispute arose over his Worship ruling that Mr. Kerr should not draw in the name of a man, not present to defend himself, and try to show that he had been the real thief. Mr. Kerr then remarked that if he could not produce evidence to show that there were extenuating circumstances he might as well quit.

P. C. Adams next testified to the arrest, and identified the linen present in court as that he had got at the C.G.E. gate house.

The prisoner, put in the witness box, said he had been working for the C.G.E. Co., nearly a year, had been in Peterborough since a year ago the 15th May, and came here from Manvers. His description of the affair was that the student, Plouffe, by name, had lent him a book on book-keeping, and as he, the student, had recently been discharged, and was about to leave town, he wished to return it to him. Plouffe had stolen the linen previous to his dismissal, and had told him he was going to take it home to make into handkerchiefs. The student had put it into a box on his work-bench, and he, Keith, not wanting the officials to find it there and so suspect him, decided to take it with him and give it, with the book, which was at his house, to Plouffe. Hence his arrest.

Mr. Kerr made a strong appeal for his client.

His Worship in summing up said it was a very sad case, he pitied the foolishness of the young man, regretted the family complications, and would reserve judgment until 4 p.m.

At four o'clock the adjourned session was held, when his Worship made a feeling address to the prisoner, reminding him that when a man marries he gives a hostage to the country for his good behavior. He reminded the prisoner that it was his own doings, that brought him into the trouble. He also said that if the prisoner, on completion of his term of sentence courageously braced up, like a man, there was every chance in life for his becoming a good member of society. Mr. Dumble further said that men who steal from those who give them their bread must be punished, and to end this petty larceny business would inflict a penalty of $20 although a light one, one month in the county jail with hard labor.

DENIED BY MR. PLOUFF.

In the police news contained in this issue, our readers will notice that, in the trial and conviction of the young man named Keith, the prisoner lays the greater part of the onus of his crime on a student named Plouffe recently disbursed. We are glad to announce that Mr. Eugene Plouffe, the young man charged with being principal in the crime has returned from Ottawa, in very indignant mood, to utterly deny, the charge made against him by Keith.

Mr. Plouffe received a telephonic communication, on Saturday, in Ottawa, from a friend here, concerning the seeming stigma attaching to his name, and immediately took the first train for Peterborough, to clear himself of the heinous charge, charged against him. That Plouffe had been recently discharged from the C.G.E. Co., has no connection what ever with this stolen linen or with any other serious charges; it was simply for infraction of a minor regulation of the works.

Mr. Plouffe intends to take such legal action immediately as will not only fully exonerate himself from any connection with the theft, but will make the man who besmirched his name and honor wish he had taken his medicine quietly and not tried to saddle his theft on another man's shoulders.

U S. Colonel Cured of Rheumatism

So Crippl.d He Couldn't Walk—Absolutely Helpless Till He Took the One Sure Cure.

FERROZONE

elieved at Once—Cured Permanently—Well Ever Since

Colonel H. M. Russ, of Edwards, St. Lawrence county, N.Y., is one of the fine old heroes of the Civil war.

"I couldn't get around without a cane, and then only with difficulty.

"Rheumatism took complete control of my limbs.

"The suffering was more intense than the hardships on the battlefield.

"When my doctor had done his best I got Ferrozone.

"Then came a quick change.

"Ferrozone gave me comfort at once, eased the pain and took the stiffness out of my muscles.

"I am well to-day. Ferrozone saved me completely. I can jump and run like I did forty years ago."

No matter how long you have suffered Ferrozone will bring you prompt relief. It will increase your strength, renew your vitality, drive out every trace of rheumatic pain. Never known to fail; 50c. per box, or 5 for $2.25, at all medicine dealers, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

IN TIME OF PEACE PREPARE FOR WAR

Seldom in the annals of the Empire were there greater efforts put forth to provide for any contingency that may arise to endanger in the slightest degree htat sovereignty of the seas which has always been our boats, as are now visible in the "tight little island." The new work under construction in various English yards and docks at the beginning of the new fiscal year is eight battleships, 15 armored cruisers, one second-class cruiser, one third-class cruiser, eight scouts, 18 destroyers, and 11 submarines; and during the year it is proposed to begin one battleship, 5 ocean-going destroyers of a new type, one ocean-going destroyer of an experimental type, 12 coastal destroyers, and 11 submarines. On these new ships a sum of a million and a quarter will be spent during the fiscal year. This is a long program, but the principal pecuniary item in it is the battleship which is to be laid down at Pembroke dockyard next autumn, and on which the Admiralty proposes to demonstrate their new policy of rapid construction. She is to be completed in 16 months, as compared with the usual period hitherto of about three years. Moreover, she is to be the largest battleship in the world, and she is to be propelled by turbine machinery at a speed of 19 knots—truly a remarkable vessel. It should be noted, however, that the dockyards always have the advantage over private contractors in point of time, because they get the general specifications from which to prepare their drawings and plant long before the order to build is actually issued, whereas a contractor can do nothing until he learns that his tender is accepted. What should reassure the shipbuilding centres is the fact that, apart from this battleship, practically all the new program will be allotted to private builders. As to the distribution of the coming contracts, of course, nothing can yet be said; but, though the number of shipbuilders who can build warships is necessarily limited, it is to be hoped, for industrial reasons, that all of them in the Tyne, Thames, Clyde, Mersey and Barrow districts will get a share. It may be that some of them will get a share also in the Russian and Japanese naval programs. If England does not require them herself, she probably can sell them to those who do.

NOT BOOMING NOW

Municipal ownership of public utilities isn't quite as booming in England as it has been. Consul-General Hayle, reporting from Liverpool, says there is an unmistakable cessation of the tendency toward the municipalization of the industries, which seemed to have fairly captivated the English people a few years ago, and which threatened to become epidemic, embracing not only public utilities, but a large variety of what had generally been considered to belong to the category of individual enterprises exclusively. Very little is heard just now of new movements in this direction; and, indeed, there are influences at work — well organized, though quiet — which have for their object the wiping out, or, at any rate, the curtailment of "municipal socialism." This movement is taking advantage of the fact of the growing opposition to increased municipal taxes, the claim being made that the municipalization of industrial enterprises not only kills individual effort, but adds to the municipal rates. Of course, there is another side to this question. Still, it is significant that local authorities who are committed to the municipalization system are now devoting their chief energies to economy of management, and to bringing out a good financial showing at the end of the year, so that the profits can go to the general fund and thus ward off any increase in the taxes. The latest returns show that last year the local indebtedness in the United Kingdom was $1,717,000,000, an increase of $1,250,000,000 in twenty-eight years. The new spirit of economy is being manifested to soften criticisms against the system. British municipalities are now spending far less money than they were spending a few years ago in making improvements.

If municipal ownership of public utilities has come to this perhaps the initiative and referendum isn't what it has been cracked up to be. If it isn't it is pretty sad.

A GOOD LAW ENFORCED

The chairman of the private bills committee of the Legislature has announced that the definite policy of the Government is to observe strictly the law preventing a municipality from offering a bonus to import an industrial concern from any other municipality.

This is good law and good public policy. The village, town or city which does not offer those natural conditions which make industry profitable cannot hope to offset the lack of these conditions with a cash bonus, and no one knows this so well as does the far-sighted industrialist himself.

On the other hand—although all concerns who take bonuses do not need them—the industry which actually needs a bonus can give the municipality small guarantee of permanent fulfilment of the conditions originally imposed.

Permanent centres of large industrial activity are not to be created by artificial means. They beget themselves of permanent conditions.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

PERSONALLY CONDUCTED TOUR

To California and Lewis and Clark Exposition, Portland, Oregon

A personally conducted excursion to the Pacific Coast via The Grand Trunk Railway System and connecting lines leaves Quebec July 5, and Montreal and Toronto July 6. The route will be via Chicago, thence through Council Bluffs to Omaha, Denver, and Colorado Springs. Stops will be made at each of these places, and side trips taken to Manitou, Cripple Creek, Garden of the Gods, etc. From there the party will continue through the famous scenic route of the Denver and Rio Grande, through the Royal Gorge to Salt Lake City, thence to Los Angeles, San Francisco, and home through St. Paul and Minneapolis. The trip will occupy about thirty days, ten days being spent on the Pacific Coast.

The price for the round trip, including railroad fare, Pullman tourist sleeping cars, all meals in the dining car, hotels, side trips, etc., is $165.50 from Quebec or $160.50 from Montreal and $150.00 from Toronto. This first trip is designed as a vacation trip for teachers, although many who are not teachers will improve the opportunity of taking the trip at the remarkably low price afforded.

For full particulars address E. C. Bowler, General Agent and Conductor, Room 202, Union Station, Toronto.

Struck by Automobile

Mr. Allan Huffman, an Old Peterboro Hotelman Hurt

Mr. Allan F. Huffman, one time a resident of Peterborough, conducting the Balmoral, then the Huffman House, was on Friday evening last the victim of a serious accident. The unfortunate affair occurred at Columbus, Ohio. Mr. Huffman was crossing Broad and Fourth streets when he was struck by an automobile with such force that he was hurled several feet, falling upon the asphalt pavement. His injuries consisted of cuts and bruises about the legs, arms, head and face, and one of his knees was dislocated. As Mr. Huffman is an aged man, it is feared that the injuries sustained are such that he may not recover.

Many of Mr. Huffman's friends in town, who will remember him both in his capacity as landlord of the Huffman House, and as a jolly companion to the old Montreal lad palace festivities will regret to hear of his accident.

Ayer's Hair Vigor. Always restores color to gray hair. We say, "always." No mistake about this. It stops falling hair, also. And there is no mistake about this, either. J. C. Ayer Co., Lowell, Mass.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the farm residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

More About the Jura-Trias

Referring to our ad. in yesterday's paper, we wish to say that the block of 15,000 shares of stock in our hands for sale is tied up as collateral in a bank and it must be sold quickly or will be forfeited. This stock is worth par value. There is no treasury stock on the market. Within one year's time this stock will be earning a big profit on its par value and will perhaps be worth from $1.50 to $2.50 a share. The president of the Stubbs Investment Company was in charge of development of this property for one year and knows it to be one of the biggest propositions in the country. It is not a prospect, but a mine, and will soon be shipping metallic copper. This opportunity will be open but a short time Will accept orders for blocks of 1000 shares or more at 45 cents a share

Stocks—The MARKETS OF THE WORLD—Grains

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalised for $5,000,000 in $1 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and New Foundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $1,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so poor as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value, every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

UNLESS CURED

THE MASTER SPECIALISTS OF AMERICA

We know the diseases and weaknesses of men like an open book. We have been curing them for 30 years. We have given our lives to it, and thousands upon thousands of men restored to Vigorous Vitality are today living monuments to the skill, knowledge and success of Drs. Kennedy & Kergan. We never hold out false hopes, we never undertake a case we cannot cure. We have made so thorough a study of all the diseases of men—of Varicocele, Stricture, Blood Poisons, Hydrocele, Nervous Debility, Paralysis, Bladder, Urinary and Kidney Diseases, General Weakness, Loss of Vitality, and have cured so many thousands of cases that if there is a cure for YOUR disease you will find it here. When we undertake a case there is no such thing as failure. We charge nothing for consultation and our knowledge, skill and experience are at your service. We will explain to you How and Why We Can Cure You; why the diseases of men require the knowledge and skill of Master Specialists. We do not require to experiment with your case as we know from experience in treating thousands of cases exactly what to prescribe for your symptoms. Don't be discouraged if you have treated without success with Quacks, Fakirs, Electric Belts, Free Trials, etc. You must get cured—and Doctors alone can cure you. Our New Method System of treatment has stood the test for 25 years—why should it fail in your case. Should your case prove incurable you need not pay us a dollar. We refer you to any Bank in this city as to our financial standing. If you cannot call write for a Question Blank for Home Treatment. Consultation Free. Booklets sent Free.

DRS. KENNEDY & KERGAN,
148 SHELBY STREET, DETROIT, MICH.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 800 feet in length with a depth of 800 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo Colo., has averaged a little over $60 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $40 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $3.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charges on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $6 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $780.00 per ton and for gold $785.00.

With an average value of $60.00 and transportation and treatment expenses of $12.40 a ton, the net value of our ore has been $27.60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and sprales on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 375,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

LABOUR UNIONS ARE INJURIOUS

So Says Members of Dominion Senate

LABEL BILL BEFORE HOUSE

Strong Speeches Against Unionism by Several Senators—Number of Union Men Very Small.

Ottawa, May 18.—The Union Label Bill was debated in the Senate on motion for second reading, but the debate was adjourned, owing to the arrival of the Deputy Governor to give the royal assent to bills. Senator Davis moved the second reading in order that the promoters of the bill might have a hearing. He did not, he explained, approve of the principle. The principle had been threshed out year after year, and it was no use going in with the bill.

Although opposed to the principle, Hon. Mr. McMullen would give the bill a chance of going to committee. The principle was found in no British legislation, and originated in the United States, being first used to distinguish cigars made by Chinese from those made by white labor in San Francisco. Next the hat makers on the other side took it up. The label had been used to boycott shops that handled goods that did not bear the union labels. He cited the case of a Denver firm, which was ruined by refusing to use the union labels. If there was one British principle of which they should be proud, it was the right to sell labor freely in the best market. In Detroit recently, he saw some painters at work on the wharf, and some were pretty badly intoxicated. The foreman told him he could not discharge them, as the others would leave. The sober, steady workman should have freedom and not be hampered by drones. It was this system which had honeycombed the United States with frauds, and they could not afford to import it. He wanted every honest artisan to have freedom, and when he came to Canada, to be in a country where he was free. He was willing to give the promoters a hearing, but unless they could produce better arguments than they had done so far, better than he had ever heard, it would not be wise for the Senate to pass this bill. He knew from concerns with which he was connected in the United States what was suffered there. That country saw its error now, but it was too late to go back.

Hon. Mr. Casgrain de Lanaudiere pointed out that the bill was a public measure, and would, therefore, be considered in Committee of the Whole, where the promoters could not be heard.

BOWELL OPPOSED.

Sir Mackenzie Bowell said he had constantly opposed those bills, and his views were stronger to-day than ever, owing to the abuse of power by unions. He had, however, promised that he would not do anything to prevent the bill going to committee.

Hon. Mr. Loughheed, without sanctioning the principle of the bill, pointed out that this was not the same bill that had come up in previous years. The bill was limited to the incorporated societies of workingmen, and it was possible that the promoters might be able to show that this would give further guarantee of the preservation of public and private rights. He did not desire to commit himself on the principle, and he did not think they would be doing more than their duty in sending the bill to a special committee.

CLORAN SURPRISED.

Hon. Mr. Cloran did not wish it to be thought that the Senate was opposed to the rights of the workingmen. The workingmen had as much right to organize as the medical profession or the manufacturer. He was surprised at the views of the leader of the Opposition and of Mr. McMullen.

Hon. Mr. Power could not quite agree with Mr. Cloran. That gentleman regarded the interests of the union as those of the workingmen of Canada. As a matter of fact, the interests of the workingmen had been greatly interfered with by the unions. The number of union men in Canada was very small compared with the aggregate number of workingmen in Canada. There were fences round the legal and medical professions, but it was not the same fence as that around the unions. Lawyers and doctors had before practising to show their fitness to practice. Labor unions did not require to establish any fitness for work. No one had questioned the right of workingmen to unite, but they did question their right to interfere with those who would not unite. The fact is this bill says that it is only to apply to incorporated unions, separate from previous bills. Directly a union becomes incorporated it could be brought into court. He did not bind himself to the principle of the bill, but thought it better to let if go to the Committee on Banking and Commerce. Even if occasionally mistaken, the members of the unions were a large members of the unions were a very large and valuable portion of the community.

PRESENTS AFTER DEATH

PROMINENT MONTREAL MAN DIES ON EVE OF WEDDING

Wedding Guests Mourners—"In Midst of Life We are in Death"

Montreal, May 18.—A funeral, under particularly pathetic circumstances, took place from St. Louis de France church. It had in it all the elements of romance. It was the funeral of Mr. Joseph Delauriers, of 479 St. Denis street. Last Tuesday he was to have been married to Miss Ludivinne Lorange. Invitations had been sent out for the happy event. The marriage banns had been published in St. Louis de France church, and present rich and numerous had arrived. Within three days of the event that was to make two hearts happy, the young man was stricken with the deadly spinal meningitis, and died last Saturday.

But a week ago the following note was sent to relatives and friends:

"Mr. and Mrs. N. Deslauriers have the honor to inform you of the marriage of their son, Joseph, with Miss Ludivinne Lorange, Tuesday, May 9th, 1905, in the church of Contrecoeur.

"Reception, May 17th, at 7.30 p.m., at their residence, 479 St. Denis street, Montreal."

Three days after the date fixed for the wedding, the same relatives and friends received this sorrow-laden note:

"You are respectfully invited to attend the funeral of the late Joseph Deslauriers, only son of Napoleon Deslauriers, who died on the 12th inst., aged 26 years and 29 days. The funeral cortege will leave his father's residence, 479 St. Denis street, to St. Louis de France church, thence to Cote des Neiges cemetery."

Montreal, May 12th, 1905.

To add to Fate's irony, wedding presents came from the fiancee for him when he was lying cold in death.

Our booklet on the history and production of the gold fields of Boulder County, Colorado, is just off the press. The work is a splendid one in every respect. It will, in addition to other features, contain a valuable compilation of the production records of Boulder, carefully prepared and showing an output of $50,000,000. It will be well worth preserving by people throughout the country who are interested in the romantic and fascinating history of the gold fields of one of the richest and most famous of the Colorado counties. Our booklet should be read by everyone who takes interest in the marvelous records of the industries of the west.

The Colorado Gold Fields lead the world in the production of gold, and the wide-awake investor who wants to keep posted on the wonderful future of this section of Colorado should have a copy of this book.

We wish to direct the attention of every reader of the Times to the fact that the conditions are more favorable for

Successful Mining in the Boulder County or Northern Gold Fields of Colorado than exist elsewhere the wide world over

The finest and greatest smelters in the world are located at or near Denver, a maximum distance of only fifty miles from these gold fields. These smelters require siliceous ores from this section of Colorado to smelt successfully and have made a permanent smelting rate of $4 per ton, including the cost of freight after the ore has been put on board the car, enabling the miner or company to net a fair profit on ore running as low as $6 per ton.

These are the facts and conditions which we offer to investors as a guarantee that these goldfields are the most attractive for mining investment in this country

We send you this book free to present the merits of our gold mining enterprise located in this great section of Colorado. The story of this enterprise will interest you, whether you invest or not. It will tell you of a modern way of mining, and of how nature's treasure vaults are successfully opened and made to yield their secrets under this method. It will detail to you the wonderful possibilities of this enterprise, perhaps second to none in Colorado. We believe it will be the most profitable investment offered on the market. At any rate the book will please and entertain those interested in the great mining industry of the west. Drop us a postal card with your name and address, and thereby assure yourself the extreme satisfaction of getting our handsome souvenir. Address

CATARRH

Don't Drug the Stomach — Breath Nature's Remedy, Catarrhozone — Both Pleasant and Easy to Use. A Guarantee of Cure goes with it.

Catarrhozone always cures because it reaches the source of the disease quickly and thoroughly. Its healing vapor penetrates the minutest air cells of the nasal passages, throat and lungs. It attacks the cause of the disease direct, and doesn't work in a round about way through the stomach.

The antiseptics in Catarrhozone kill the germs that cause catarrh. It clears the nostrils, cures headache and foul breath. It prevents droppings in the throat, allays inflammation. Catarrhozone now.

So certain is Catarrhozone to remove and cure that doctors, ministers and public speakers keep it as their standby for coughs, colds, catarrh and throat trouble. Because it lasts so long it is cheap, and as it is sure to cure even the poorest can afford to buy it.

Mrs. J. A. Morris, of Perth, Ont., writes, "I cannot withhold my testimony for Catarrhozone. It cured my daughter of chronic catarrh and I therefore heartily recommend it to all sufferers. No house should be without Catarrhozone."

Why not you Catarrhozone? It cures colds in a few hours, and no case of catarrh can withstand it. Catarrhozone cures by the inhalation of medicated air which goes to all parts of the lungs, throat and breathing organs. A pleasant, certain, quick cure follows the use of Catarrhozone, which is guaranteed under all conditions to cure catarrh in any part of the system.

Two months' treatment, hard rubber inhaler and extra liquid costs only one dollar; sample size 25c. Sold by all druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A. Ormation, heals sore spots and running at the nose.

Death of Mrs. Daly.

Word was received in town yesterday of the sudden death of Mrs. Ed. Daly, of Rochester, N.Y. Deceased was a former resident of Peterborough, and has relatives and friends residing here. Mrs. John Burns, M'Donnel St, is a sister of deceased. No particulars have been received, but it is surmised that death came very suddenly.

200 Applicants for Water

Supt. Henderson of the waterworks, stated on Saturday that the department had never received so many applications from citizens to have services put in their houses as at the present time. Since the beginning of the year about 200 householders have asked for connection with the mains. The services are being put in as rapidly as possible but it will take some weeks to catch up with the work.

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM. PRINGLE

The Five Strikers Still Out

There is nothing new in the situation as it affects the sheet metal workers. Mr. Adam Hall stated on Saturday that five of his men were still out and he had no intention of signing the agreement presented by the union calling for an increase of ten per cent. in wages. He says that he is now paying the highest wages in town. All the other employers have signed the agreement as requested by the union.

Dickson Co. Have Six Drives en Route

The Boscaygeon Independent says; Mr. Wm. Crowell, forest superintendent of the Dickson Company, Peterborough, is a busy man at present, getting the season's cut of logs delivered to the big mill at Peterborough. He has six big drives on the way from Anstruther and Chandos, the old Scott limits, and he expects the first drive will reach Lakefield by the first of June. It will be a good thing if he gets them out of the way of navigation before the first of July.

Butchers Horse Makes Record Time

An exciting runaway occurred Saturday afternoon when a horse attached to the delivery wagon of Gordon's Meat Market, Market Square, became frightened at some flying paper and broke away in a furious dash down Water street, where at the National Hotel shed; a collision with a buggy occurred, the shafts of the latter being broken. The excited animal continued its flight as far as the end of the car tracks, George street, where it was captured.

Addition to Salvation Army Band

Bandsman William Packham has joined the local Salvation Army band, and will be a decided acquisition to that organization. He played in the Tunbridge-Wells' band in Kent, England, of which organization his brother is now leader and he was also a member of Eastborne band for some time. He is a skilled musician, and as a cornetist has no superior. He plays "God Save the King," in five octaves, and "Robin Adair," in three octaves. He will greatly strengthen the already efficient band of the Salvation Army.

A Monaghan Grab.

The Council of North Monaghan Township, at a recent meeting, passed a by-law, the provisions of which are such that the vaudeville park about to be established near the river terminus of the street railway will be required to take out a license before the gates can legally be thrown open for the transaction of business. The township had a by-law respecting circuses, but this did not apply to the present circumstances. It is understood that the license fee to be demanded in this case is $150. The fee for a circus is $50. The Township Council will also require that the park be properly policed.

A Lift Lock Repair.

Mr. J. Harris McClellan, Superintendent of the Trent Canal, states that the lift lock is in a good condition for business. Though it has not as yet been officially declared open for the season, he states that in case of necessity, a boat may be locked through on short notice. Men are at present repairing a small leak which appeared in the level, north of the lock. While this did not appear serious, it was thought advisable to have it repaired before the opening of the season in order to preclude the possibility of delay during the summer rush.

New Chemong Yacht.

Mr. Milne Hamilton, one of Peterborough's most enthusiastic yachtsmen has just taken over from the Peterborough Canoe Co., a handsome new 14-foot sailing dinghy, which has been built especially for him during the past few weeks. It is Mr. Hamilton's intentions to have his boat placed in the Chemong waters forthwith, and he states that he is prepared to meet all comers during the cruising season. The boat is of very excellent design and the sails are from Kingston, being made by the same gentlemen who supplied the sails for the "Strathcona" which sail-

—Mrs. A. W. Spence and Miss Jessie, Kirkfield, are in town, the guests of Mrs. J. R. Stratton.

—Miss Nellie Whiten and Miss Olive Stevens are in Campbellford the guests of Miss Jennie Owen.

—Hon. R. F. Pettigrew, of Sioux Falls, South Dakota, is in town. He went up to Burleigh Falls on Saturday in company with County Police Magistrate Edmison.

—The Lindsay Post says; Mr. Jas. Galvin, of Peterborough, transacted business in town to-day. Mr. J. W Brightman, of Peterborough was a guest at the Simpson house to-day.

—In the list of successful candidates at the semi-annual examination of the Ontario College of Pharmacy, the names of R. E. Harrison and A. J. Tovey, two well known Peterborough boys, appear. To these gentlemen congratulations are tendered.

—Mr. Eustace Grubbe and his fair young bride, arrived from Vancouver on Saturday evening. They are enjoying the blissful extacy of their honeymoon, and will, for a few days be the guests of Mr. R W. Grubbe, father of the happy groom.

—Mr. Robert Copeland, organizer for the Canadian Order of Foresters, addressed a well-attended meeting of Court Peterborough on Friday evening upon "Fraternalism," in which he emphasized the advantages of membership in the C.O.F. He spent Sunday in Millbrook.

—Mr. Hampden Burnham, of Peterborough the talented young author of the forthcoming Canadian Romance, "Marcelle," was in town on Wednesday, taking part in the cricket match between Peterborough and T.C.S., in which he distinguished himself greatly by making an impossible "catch," and was a guest over night at Mr. Seth S. Smith's.—Port Hope Guide.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Two inches of snow fell at Buckhorn on Friday night.

—Miss Sheehan is having a new residence erected on Mark street.

—Oats are still selling at 40 cents. Very few loads are being offered.

—Market, lunch and fancy baskets at bargain prices this week at Times Bookstore.

—Farmers have completed their spring seeding and are now engaged in planting corn and potatoes.

—Thomas Garnett of Port Hope, is going to manufacture cement blocks for building purposes in that town.

—The Rob Roy was to have made her initial trip down the river on Saturday, but was unable to get through the locks.

—Organizer Colby, of the B. P. O. E., has returned from Orillia, where he has been successful in organizing a lodge of Elks.

—The members of the different courts of the Canadian Order of Foresters will hold their annual church parade on Sunday, June 4th.

—The Bay of Quinte Conference of the Methodist Church will open in Picton on June 1st. The Stationing Committee will meet on May 29th.

—The two weeks mission in St. Peter's Cathedral by the Redemptorist fathers, began yesterday morning at 10.30 o'clock.

—In the Presbyterian churches of Peterborough and vicinity, the 400th anniversary of the birth of John Knox were celebrated yesterday.

—Mr. George Lipsett is erecting a handsome verandah in front of his hotel in the fifth ward. It will greatly improve the appearance of the Maple Leaf House.

—It is reported that Dr. Young, surgeon major of the 3rd Dragoons, will be appointed to take charge of the new battery in Peterborough. —the 24th Field Battery.

—Messrs. H. Snowden, Frank White Danny Simons and Harry Roach returned on Saturday from a ten days' outing at Ketchseum Lake. They report a very pleasant holiday.

—The members of the 57th Band in their costumes, representing the Bangtown Crossroad band at the concert on Friday evening, were photographed by Mr. R. M. Roy after the performance.

—It is stated that Robt. Hill, who has been lock master at Buckhorn for several years has received word from the department of railways and canals, Ottawa, that his services will not be required after June 30th next.

—The Grand Chapter, Royal Arch Masons of Canada, met in Kingston on Friday evening, and presented a cabinet of silver to M. E. Comp. A Shaw. After the presentation a banquet was held at the British-American Hotel.

—By a vote of 302 to 77 the ratepayers of Ingersoll this week approved of the Council granting to the Ingersoll Nut Company a loan of $20,000. As a result of the loan Ingersoll will shortly have an additional industry employing over forty men.

—For a good hammock, at a reasonable price, come to Times Bookstore.

—About seventy people went to Toronto Saturday morning upon the Peterborough Turf Club's excursion. A special train of six coaches left the C.P.R. station at the time specified. It is likely that the party was considerably increased between Peterborough and Toronto.

The man on the stage who does the trick of escaping from firmly tied ropes, submits to the bonds with a smile. He knows he can get out of the ropes that are being knotted. Put the same man in the woods and let Indian captors bind him to a tree for torture and he would struggle to the last against the bonds.

When the stomach is diseased there are bonds being woven every hour about the organs dependent on the stomach—heart, lungs, liver, kidneys, etc. The folly of mankind is to passively submit to the fastening of these bonds with no effort to escape until the pain they cause arouses fear.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It cures diseases of heart, liver, lungs, kidneys and other organs, when these diseases, as is often the case, have their origin in the diseased stomach.

"For a long time I was suffering and was hardly able to get about," writes Mr. Andrew J. Jernigan, of Thomas, Tucker Co., W. Va., Box 194. "Was bothered with kidney trouble and my whole system was out of order; had no appetite. A friend of mine told me to try Dr. Pierce's Golden Medical Discovery. I did so and the first bottle restored my appetite. I took six bottles of 'Golden Medical Discovery' and some of the 'Pleasant Pellets' and feel like a new person."

Dr. Pierce's Pleasant Pellets cleanse the clogged system from impurities.

The Lakefield W. M. S. will run an excursion to Stony Lake on May 24th, per Str. Stony Lake. Adult Tickets, 40 cents; Children's Tickets, 25 cents. Boat will connect with morning and afternoon train from Peterborough.

—A two-inch water main is being laid on Sherbrooke street from Monaghan road to Mr. R. A. Morrow's house. Mr. Morrow is bearing all the expense with respect to the work in order that he may have connection with the town water works system.

—There will be a contest in Otonabee division to fill the vacancy caused by the death of John Deyell. Nomination will be held at Keene on Monday, May 29. The contestants will be Mr. John Lancaster and Councillor John Carew, of Otonabee township.

—Robert Huffman, a colored gentleman, from Millbrook, had the great toe of his left foot amputated at St. Joseph's Hospital on Friday. Mr Huffman has been suffering from gangrene and the operation was considered necessary in order to prevent serious developments. Reports are that the operation was very successful and that the patient is getting along very well.

—Bert LeBar, an employe of the Fuel and Cartage Company met with an accident which will incapacitate him for work for a few days. One of his legs became jammed in some manner Saturday morning as he was working with his team, and it was necessary to remove him to the Nicholls hospital. Mr. LeBar's injuries, while painful are, fortunately, not very serious.

BOERS ARE NOT PLEASED

NOT SATISFIED WITH THE NEW CONSTITUTION

Day of Boer Tyrrany is Over, Never to Return

London, May 22.—Gen. Cronje does not like the Transvaal Government scheme soon to be submitted to the British Parliament. He admits that the terms are very liberal toward burgher representatives, as no property qualification is required of anyone who was entitled to vote in 1902; but he complains bitterly that the Boers will be swamped at the ballot box by the giving of the franchise to any white British subject in the Transvaal who for six months has occupied premises valued at $500 or rented at $50 or over annually. He resents the rule requiring the debates to be in English (although the assembly may be addressed in Dutch, by executive permission), and objects to the provision that any bill discriminating against the Kaffirs is to be reserved by the Governor for consideration by the Imperial Parliament. The last arrangement is for the protection of the blacks, whom the Boers tyrannized over and brutally maltreated. It was part of the understanding of the Peace of 1902 that the Kaffirs should not be immediately enfranchised; but Great Britain is in duty bound to see that they are well treated. And she will do so, let Cronje sulk as he may. According to the arrangement proposed the Legislature will be presided over by the Lieutenant-Governor, and will consist of from six to nine appointed members. No longer will the Boers be able to tax the other white men and exclude them from a voice in the affairs of the Government. The British flag flies over the Transvaal, and the day of Boer tyranny is over, never to return Cronje may as well accept the inevitable.

A PAINFUL DRIVE.

Paul Nesbitt Drives 30 Miles to Nichols Hospital with Broken Leg.

Paul Nesbitt, an employe of the Dickson Company, and a native of Peterborough County, well known among lumbermen, had his leg broken while working in the bush on the Company's limits on Friday. It appears that Nesbitt had felled a tree and while he was working around it, the huge trunk, finally slid from its position and Nesbitt was not quick enough in clearing himself. The tree pinned him by the leg and inflicted this fracture. Nesbitt was taken care of by his co-workers and as soon as possible was driven to Peterborough, arriving here about three o'clock on Saturday morning, when he was placed in the Nicholls hospital. The fifty-mile drive must have been a very tedious one to the unfortunate man. He is reported to be resting easily. Nesbitt has relatives in the north part of the county.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 120 PETERBOROUGH ONTARIO, TUESDAY MAY 23 1905 PRICE TWO CENTS

The Japanese Will Demand Two Billion Yen As Indemnity.

Prominent Statesmen Say Japan Must Receive Back Sakhalien and a Thousand Million Dollars--Rumored That a Junk Filled with Russian Officers Has Been Captured.

St. Petersburg May, 22nd—
Despatches from Harbin report a carnival of drunkenness and dissipation in the Russian army Champagne is flowing like rivers, dives are abundant, and a multitude of sharpers and gamblers are reaping a rich harvest.

Tokio, May 22.—It is reported that a junk filled with Russian officers has been captured. It is presumed that they were making a reconnaissance from Vladivostock.

TERMS OF PEACE.

"Should Russia ask for peace we should insist on an unconditional surrender of Saghalien, and the payment of a thousand million yen. We should also insist that Russia withdraw her troops from Manchuria, and that she restore Manchuria to China, recognize our suzerainty over Korea, cede Sakhalien to us, remove permanently the fortifications of Vladivostock, and pay an indemnity of at least two billion yen (£1,000,000,000). Such liberal terms will afford no occasion for intervention. The scene of hostilities in Manchuria being without any special interest to the powers, none of them will be prompted to take action to stop the war. On the contrary, the war is affording lucrative trade to some of them supplying materials for war.

IN HAINAN STRAITS.

Hong Kong, May 23.—The latest steamer to arrive here reports sighting a Russian volunteer fleet steamer accompanied by a large transport in the Hainan Straits on the morning of May 20. They were steaming west.

PIGMIES FROM AFRICAN FOREST

Party of Stanley's Little People Are now in Cairo

TO VISIT GREAT BRITAIN

Pigmies Consist of four Men and Two Women—A Protest Made

London, May 23.—Col. Harrison, who brought six pigmies from Ituri forest as far as Cairo, has arrived here. He hopes to transport the little people from Egypt to England in a few days. The Aborigines' Protection Society filed a protest against the proposal, but the Government decided to allow Col. Harrison to carry out his plan.

Col. Harrison tells an interesting story of how he came in touch with the pigmies, and, as a matter of fact, it was perfectly well known that one of the objects of his expedition was to secure, if possible, for medical and scientific purposes, a few of the tiny inhabitants of the great African forests.

GENUINE STANLEY DWARFS.

All are genuine Stanley dwarfs, not the alleged spurious specimens which have appeared in one or two countries.

It was not easy to win their confidence. As the little expedition struck the forest it found native villages after village. The natives were apparently well disposed. They came in in the evening and danced before the visitors, but in the middle of the night they disappeared mysteriously. This happened on three successive occasions. Then at last another village was encountered, where the inhabitants were more friendly, and as luck would have it one of the boys in Col. Harrison's party could speak Swahili, which was understood by the pigmies. The question was put to them as to whether they were willing to accompany the white hunter on his travels for "so many moons." They were told that they would be carefully looked after and back again, and they readily acquiesced.

TRACE OF SIMIAN ANCESTRY.

Four of them are men and two of them are women. Their height varies from three feet eight inches to four feet six inches. Taller than this they never grow. One of the women may have to be left behind in Cairo. She is old, and, unfortunately, is suffering from the effects of wounds inflicted by poisoned arrows, presumably in a tribal raid. Her age is about 33, but, then, few live beyond forty in any circumstances. Her great attractiveness lies in the fact that facially she is strongly suggestive of Simian relationship. On the other hand, the younger girl, who is only 22, is exceedingly good looking.

HAVE ENORMOUS APPETITES.

Needless to say, the visitors were immensely interested in all they witnessed on the journey. Nothing pleased them, more than the train and the rides they had on donkeys, since in the forests themselves there are no beasts of burden. Their appetites are enormous, and, indeed, they crunch the bones as well as the meat, so powerful are their teeth. Not unnaturally they have immensely interested the medical profession, and to such an extent have they been examined that they have entered a humorous protest against being left alone.

THE SOCIETY'S PROTEST.

The protest of the Aborigines' Protection Society was voiced by Mr. H. R. Fox-Bourne, who wrote;

"The pigmies are admittedly in the category of curious little animals, who have been beguiled into captivity, not distinguishable from that to which strange birds, reptiles, and quadrupeds are subjected when their captors expect profit from making a show of them to gaping crowds of sightseers, who boast of higher civilization.

"What is this but a base form of slavery? The excuse is that the exhibition may be of value to a few students of science, as well as a source of amusement to the multitudes willing to pay for the privilege of looking at them in a cage. But surely the interests of science can be sufficiently and much better served by the researches of competent observers in the native haunts of these poor, little creatures, and surely the multitude ought to be satisfied with the picturesque reports of travellers in these same haunts."

THE absolute purity of the ROYAL BAKING POWDER makes it pre-eminently the most useful and wholesome leavening agent known. It contains no lime, alum, phosphate or ammonia, leaves no acid or alkaline residuum in the food, and its use always insures pure, light and sweet bread, biscuit and cake which are perfectly digestible and wholesome, whether hot or cold, fresh or stale.

Royal Baking Powder has been analyzed by the Chief Health Officers of Great Britain, Canada and the United States who recommend it for its wholesome and economic qualities.

ROYAL BAKING POWDER CO., NEW YORK.

TO ASSIST BOER GIRLS

Notable Industrial Experiment to Aid Sufferers From the War

Geneva, Switzerland, May 22.—An attempt is now making in the Orange River Colony, South Africa, to teach certain home industries to members of Boer households impoverished by the war. The project is under the direction of Miss Hobhouse, and is supported by a committee in England. The first experiment has been made in the old town of Philippolis, where there are now fourteen girls learning how to weave wool into cloth, carpets, etc., in the first instance for home use, but afterward for sale.

As there are a few manufactories in the colony, there is a great chance for the success of home industries. The Boer girls show remarkable quickness in the work, and it is now proposed to teach them lace-making also, for which there is believed to be a good market. Co-operation of the industries, for the purpose of buying machinery, tools, etc., is being considered.

The whole project at present is aided by only 100 subscribers. Countess Evelyn Assinelli, 8 Grand Pre, this city, will gratefully receive any contributions to assist in this work, and is ready to furnish details to all inquirers. The countess for a long time has been collecting funds to aid the Boers, and is deeply interested in Miss Hobhouse's admirable undertaking.

MR. PLOUFFE - IS INNOCENT.

George Keith Freely Admits That He Alone Stole Goods from the C.G.E. Co.

As foretold in yesterday's issue, the result of Mr. Plouff 's return to Peterborough, to contradict and annul the charge made by George Keith, that Mr. Plouffe was implicated in the recent theft of linen from the Canadian General Electric Company, is that Mr. Prouffe is absolutly exonerated from any complicity in the affair.

The following letter explains itself;—

Having been arrested on the 19th inst., upon a charge of stealing certain goods from the Canadian General Electric Company, I made the statement to the constable that the property found in my possession was taken by me for the purpose of delivering the same to Eugene Plouffe and made other charges of dishonesty against him.

Having done this gentleman serious wrong by making this statement, I now take this opportunity of making reparation as far as possible. The goods taken by me were not taken for Mr. Plouffe, nor had he any knowledge of my taking them, nor of any improper conduct of mine in regard to the company. As far as I know, and I have every reason to believe, Mr. Plouffe is a man of absolute integrity of character, and the charges that I made against him were made for the purpose of saving myself from the consequences of my own wrongful conduct.

Having wantonly injured the reputation of a respectable man, I consider it my duty to endeavor to restore it as far as it lies in my power, and I trust that the publication of this letter will serve to remove any false impression which my previous statement may have occasioned.

I am, yours truly,
(Signed) GEORGE KEITH

CONSERVATIVE CLUB PICNIC.

Young Conservative Club will Hold Political Picnic July 8th

The Young Conservative Club have decided to hold their political picnic on Saturday, July 8, instead of Dominion Day.

Several members of Parliament have promised to be present and give addresses. Sports, and a baseball match will also be on the program. Excursions will be run on all railway and steamboat lines and it is expected several thousand people from outside of town will be here for the day. A general meeting of the club will be held in the club rooms on Saturday night, May 27th, to complete all arrangements.

Choir Presentation

Mr. R. N. Jolliffe Presented with a Ring By Charlotte St. Church Choir.

An interesting event took place in Charlotte street church Sunday night after the service when Mr. R. Norman Jolliffe was presented by the choir with a valuable ring, on the eve of his departure for Toronto.

Miss Clarry, the leader, made a few appreciative remarks and expressed the loss the choir would sustain in the removal of Mr. Jolliffe, who had always been a most faithful and talented vocalist. Mr. Walter Stocker also made a short address and handed the departing member a gold ring, on which is the monogram, "R. N. J." and inside of the gold band are inscribed the words, "Charlotte St. choir, May, 1905."

Mr. Jolliffe made a feeling and grateful reply. He has been soloist in Charlotte street church for nearly three years and will leave for Toronto to-morrow to further pursue his musical studies. Many friends will wish him every success and prosperity.

—Use Stephen's Ink: it is the best and you pay no more for it than for the inferior inks. Always in stock at Times Bookstore.

Redemptorist Fathers.

Series of Mission Services Began in St. Peter's Cathedral

Sunday evening at 7.30 in St. Peter's cathedral, the renewal of last year's Mission, conducted by the Redemptorist Fathers, commenced under most encouraging auspices, and as a result of the large attendance, its success is assured.

At the different masses on Sunday, Rev. Father Heenan, one of the Mission Fathers addressed the congregations.

The renewal of the mission will be somewhat different from last year's work. The discourses and instructions would be of a different nature, and the different speakers would emphasize more particularly the intense love and goodness our Blessed Lord manifests for humanity in the innumerable blessings that are showered down upon Him who follows His teachings.

The first week of the Mission will be for the women and masses will be said at 5 and 8.30 o'clock every morning, followed by a short instruction, and at 7.30 each evening when the Rosary will be recited, with a short instruction on each mystery, followed by a sermon and the Benediction of the Blessed Sacrament.

The Redemptorist Fathers are Rev. G. Mylett, J. J. Heenan and H. J. Zilles.

THROWS UP THE SPONGE.

Alderman Hicks Writes Celebration Committee That He Quits.

Ald. Hicks, chairman of the committee in charge of the proposed celebration in honor of incorporation, has sent the following communication to each of the members thereof;—

Dear Sir,—Owing to complications arising from the opposition to the clause relating to incorporation in the town bill for special legislation, I did not think it wise to call a meeting of the Celebration Committee until the matter had assumed definite form and until the Mayor, the honorary chairman, had expressed himself regarding the celebration.

At a meeting of the Council held Tuesday evening last the Mayor's expression could not be considered favorable and the majority of the Council expressed themselves as unfavorable to carrying on the celebration in view of the opposition. My opinion is that the celebration could not be successfully carried on under the circumstances, and I have therefore decided not to take any further action in the matter. If this does not meet with your approval will you kindly let me have your views.

Yours truly,
R. HICKS

GENERAL SPORTING GOSSIP

THE TURF—BASEBALL—LACROSSE—FOOTBALL

Manager McEwan's bunch of ball players added another victory to their credit on Saturday afternoon by defeating the Sherbournes, of the senior league, Toronto, by seven runs to four.

The game was pulled off on the Turf Club grounds, and a feature was the railbirds who were conspicuous for their absence.

There was a larger crowd present than at the opening game, but the attendance was not by any means up to the mark, partly because of the distance of the grounds from the business portion of the town, which necessitated considerable loss of time in transportation to and from the park. This, however, will be remedied for the next game, which will take place on the new grounds at Riverside Park, and big crowds are looked for.

The sample of ball played on Saturday was good, considering the soft and spongy condition of the diamond. The field had been plowed and rolled, three earlier the ground days ago, for the running brees. It required a pretty stiff and well placed hit to enable a batter to reach first safely, then too, it was objectionable to stealing bases.

The Peterborough team was the same as last Saturday, with the exception of Stayne, who played third, Jimmy Callahan taking Simpson's position in the right field.

The visitors had a good bunch of fielders and the men on the rags, with the exception of Thorne on 3rd, who made a wild throw to first, allowing three men to get over the plate, played their positions well. Weeks and B. Stevens were good with the stick, Brattan and the pitching had some nice curves, but had poor control. He was hit hard in the fifth, and Dickenson went in the box in the sixth.

The locals played good ball, Callahan at right field had little to do, Connors at center had a couple of flys to eat up. A number of hits went to the left field, and kept T. Pilling chasing. Shea at short played a very fair game, he picked out some, but once and was good with the stick. J. Pilling held down first without an error. Sheridan at 2nd has played better ball, he allowed a few to get past him. Stayne at third, made his first appearance, he is a good slicker, and shapes up like a fiend, although he allowed a bad one to get past him. "Mull" Douglas pitched a nice game of ball and has a good willing worker in Cadman, who did the receiving. He works hard, and is in the game at all times and handles the willow well.

The visitors started the running in the first of the third. Connors took in Brattan's fly, and Shea gobbled up a liner of J. Stevenson's, who failed to reach 1st, Weeks landed for a two bagger, and came in on B. Stevens hit to left field. Stevens was caught stealing second and retired the side. The Sherbournes kept this lead until the last of the fourth, when the locals began to do some stocking. Stayne started the good work by placing one to the left field, but was caught stealing 2nd. Douglas walked, Cadman drove liner to left field, and Douglas went round one, T. Pilling fanned. J. Pilling lined one to Thorne at third, who threw wild to first, Douglas, Cadman and Pilling coming home, Callahan walked, got 2nd on pass ball, stole 3rd, Connors fanned, and retired side. In the fifth the locals kept up the good work. Sheridan hit short and was out, Shea got 1st on balls, Stayne drove one between 1st and 2nd, advancing Shea to 2nd, Douglas sacrificed and Shea went round one, Cadman walked on dead ball, T. Pilling lined one to center field, and Shea and Stayne got over the plate, Cadman going to 3rd, and getting in on pass ball, J. Pilling landed one out to left field, bringing home T. Pilling, Callaghan retired the side, Timerely taking in his liner and throwing him out at first. This ended the running for the locals, the visitors getting one in each of the eighth and ninth innings. In the eighth, J. Stevenson was first up and fanned, Weeks drove two bagger to left field, and came home on B. Stevens' hit. Belanger brought in Stevens. Dominick put out [illegible] first and second, Sheridan fielded it to Shea, who covered second, and made a pretty double, stopping Belanger and throwing Dominick out on first.

In the ninth Dickenson slammed out a two-bagger, Thorne fanned, Dickenson stole 3rd, and came home on Timerely's hit, Brattan fanned, and Connors took in Stevens' fly, retiring the side and ending the game.

Following were the players;

Peterborough—Sheridan 1b, Shea s, Stayne 3b, Douglas p, Cadman c, T. Pilling lb, J. Pilling cf, Callahan rf, Connors cf.

Sherbournes — J. Stevenson 1b, Weeks c, B. Stevens 2b, Belanger lf, Bonnich c, Dickenson rf, Thorne 3b, Timerely ss, Brattan p.

Umpire—Clarke Earl.

Fighting in Manchuria

A Two Hours' Engagement in Which Russians Lost--Left Three Hundred Killed and Wounded on the Field.

Paris, May 21—The Temps to-day publishes a despatch from Tangier, Morocco, announcing that a small British vessel cruising on the Moorish coast was attacked recently by pirates, who fired on the crew and riddled the British flag with Bullets.

Tokio, May 23.—In the direction of Changtu on May 20, a force of the enemy, consisting of over a battalion of infantry, a regiment of cavalry and two guns, made a detour to the eastern height of Santaokou, eight miles west of Changtu, and from the vicinity of a coal mine, ten miles east of Changtu, at 11.30 o'clock in the morning, commenced a bombardment.

Subsequently another Russian force, with four guns, appeared on the southern height of Chunyangpo, and at 4 p.m., two battalions of the enemy advanced from the eastern side of the village, but they were repulsed.

Another mixed force of the enemy entered Erhshihlipao, where they set fire to the village and retreated.

A body of the enemy's cavalry, dismounted, attacked Tungshed on the right bank of the Liao River, thirteen miles southwest of Fukumen, on the morning of May 20. After an engagement lasting two hours, the enemy retreated in disorder toward the southwest, abandoning three hundred men, killed and wounded.

Except these collisions between small forces, the situation otherwise is unchanged.

Good for Lindsay.

The Scugog City Contributes $1,035 Towards Queen's University Fund.

Rev. J. J. Wright, who is representing Queen's University in connection with the work of raising half a million dollars as an endowment fund for that institution, has completed his labors in the town of Lindsay. He collected the handsome sum of $1,035 there, although St. Andrew's church, Lindsay, has a debt on it of $14,000.

This is a remarkably good showing and in the list of generous contributors a Chinaman gave $15.

Rev. Mr. Wright will now undertake the work in Peterborough of collecting subscriptions for Queen's endowment fund, the needs of which institution were so ably presented to the members here a week ago last Sunday, by Rev. Alfred Gandier, of Toronto.

Rev. Dr. Gordon, principal of Queen's, who was expected to spend a couple of days in town this week in connection with the endowment scheme, will not be able to come, having been suddenly called to Picton, N.S., by the death of his mother.

WEATHER NOTES.

A little warmer.

Josephine Carr Confesses to the Murder of the Murray Baby

Stole Baby in Its Carriage from a Lane Near Eaton's Store and Threw It Over an Embankment, Afterwards Stripping It and Hiding the Body in a Tunnel.

Toronto, May 22.—Josephine Carr, standing about 20 feet distant in the aged 13, living at 422 Greenwood Ave., other direction. Beside it was one of [illegible] undergarments.

THE REASON GIVEN.

According to Josie's story, as she came near home she realized that she had a helpless infant on her hands, and, fearing that her father would be angry with her for bringing home a child, resolved to get rid of her charge. She took the clothes from the child that she might conceal its identity. She had to take the clothing to the house where she concealed them until next morning, when, in company with her little brother, Ernie, she hid [illegible] in a lane [illegible] Grand street and Pape avenue, about half a mile distant. There they were found yesterday by detective Forrest, guided by the little boy, Ernie.

THE GATEMAN'S STORY.

The G.T.R. gateman at the Jones avenue crossing, where Josie turned eastward on the tracks with the baby was interviewed by a representative of the press.

"Did you see a little girl with a perambulator and baby on the track on Friday afternoon?"

"Yes," he replied, 'some time before five o'clock, three children with a perambulator and baby went east along the track."

"Did you not try to stop them?"

"I told them they had better get off the track or some of them would be getting hurt. They paid not attention, however, and went on."

DETAILS OF THE CASE.

According to one story the suggestion of kidnapping a baby came to the juvenile criminal as the result of witnessing the play, "Kidnapped in New York," and studying some of the posters of the play at the corner of Greenwood avenue and Queen street. Inspector Hall, however, stated in an interview that Josephine told him she had not attended a theatre for two weeks, but had been looking at the posters of the play, "Kidnapped in New York," which suggested to her the thought of kidnapping. She proceeded to carry the idea into effect, and, going up town on Friday afternoon, watched her opportunity. Shortly after one o'clock Mr. Murray came along with her baby and wheeling it into what looked like a secure place, hurried into the store to do some shopping. Josephine then took possession of the carriage, and, getting on a car at the corner of Queen and Sherbourne streets, rode to the terminus of the Parliament street route. She was still upwards of a mile from her home. She trundled the cart and baby along Gerrard street to Jones avenue, and then to the G.T.R. tracks, along which she walked until about twenty rods from the Greenwood ave. crossing.

"As I was going along beside the tracks," she said, "I became afraid and threw the baby over the embankment. After a while I went down, and, finding the baby dead, undressed it and put the body in the tunnel."

The embankment is 88 feet high, and beneath it is a tunnel which had very little water in it. The body was about ten feet in from the mouth of the tunnel, and the perambulator

May Visit Peterboro'

A Slick Forger Obtains $52.30 from an Orillia Merchant.

In these times of smooth confidence men and bogus promoters it is as well to keep posted on possible attempts made here to get money illegally.

Orillia News-Letter says: Tuesday evening a man walked into Mr. Palmer's store and asked him to cash a cheque for $52.30, as he wanted to get to Toronto in the morning and as an inducement said he would take some goods. He ordered $12 worth of goods, and Mr. Palmer, not having the ready cash gave him a cheque for $10 and told him he could get it cashed in Toronto at a certain place. Wednesday morning Mr. Palmer presented the cheque for $52.30 at the bank and was rather dismayed when he was told it was a forgery. He telegraphed to Toronto to stop payment and to have the man presenting it arrested, but in the course of half an hour received word that the cheque had been cashed about ten o'clock.

King Alfonso Creates a Storm

London, May 23.—The Madrid correspondent of The Chronicle says that a storm of disapproval has been aroused by a letter from King Alfonso addressed to the Bishop of Barcelona, promising his ardent help in impeding the establishment of Protestant churches in Barcelona.

When the nerves cry---- Look to the Coffee

The cry may be in some one of many ways, Trembling, Sleepy, in day time, (comes from stomach), Headache, Dyspepsia, Bowel Trouble, Heart Palpitation. Pains in various parts of the body, and even Piles, Diabetes, and weak eyes originate in a disordered nervous system brought on by Coffee.

If you don't heed the "cry" (Nature's hint) you may be sure the trouble will get worse, and not better, until you either quit the coffee habit which is the cause, or you develop fixed organic disease that may carry you down. It is the finest trade possible, to quit coffee and get well.

Health is the most exquisite fun on earth.

It's easy to quit coffee when you have choice, well made Postum Food Coffee, a delicious hot beverage with the deep seal brown of strong coffee that changes to a rich golden brown when cream is added. Then you have the crisp coffee "snap" and a flavor all its own. The nerves are relieved of the old hurt of the poisonous "Caffeine" of coffee and in its place you feed the system on strong food elements in Postom which quickly rebuild the worn out and exhausted nerve and brain cells destroyed by coffee.

These are facts!!! Prove them by 10 days trial.

"There's a Reason"

GET UP TIRED WEARY ALL DAY

Never Feel Refreshed — Always Played Out, Weak, Languid, Discontented.

FERROZONE

Will Infuse the Vim and Fire of Youth into Your Veins.

Quick permanent cure follows Ferrozone. It braces at once, makes you feel like new. You rejoice in new found strength, in vital energy, in power to act, to think, to do. No other medicine on earth so beneficial to the weak, the run-down and nervous.

Mr. George E. Mainsburg, of 179 Queen street, Toronto, was completely retsult by Ferrozone, and writes:

"I was subject to spells of dizziness and sight seeing in the head.

"I broke out in cold sweats.

"My appetite was poor and I lived in perfect dread of a collapse.

"I improved at once by using Ferrozone.

"It braced up my nerves, gave me a good appetite, strengthened my blood, and made me feel young again. I am now in the best of health just because I used Ferrozone."

It's a shame to live in a half-dead condition. Ferrozone will vitalize you. It will give you reserve strength, self-control, surplus vigor. It's the most strengthening medicine made. 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Kingston, Ont., and Hartford, Conn. U.S.A.

UNION LABEL

PETERBOROUGH, MAY 23 1905

A LESSON TO BOYCOTTERS

The announcement that the Gurney Foundry Company had won the first round in the fight against the St. Catharines unions would doubtless come as welcome news to every lover of British justice and fair play who had taken the trouble to follow the course of this extraordinary case. For years the company have maintained an unequal struggle against men whose actions have shown them to be devoid of all moral principle. Their business in St. Catharines has been wrecked; local merchants, under pain of being driven to the wall, have been compelled to cease offering "Gurney goods for sale; builders have been obliged to throw up contracts calling for Gurney supplies of any kind, and anything bearing the name of Gurney has been hounded out of the city with a zeal worthy of a nobler cause.

And why? All because some four or five years ago the Gurney Foundry Company decided to run their establishment as an open shop. In that establishment, the union man has long since been working side by side with the non-union man. Both receive good wages and work under satisfactory conditions. So far as can be learned they had no grievance, other than the imaginary one of a union man who is dissatisfied because the control of the shop has not been placed in his hands. In this trifling difference the St. Catharines brotherhood are not primarily concerned, and yet, simply because Gurney goods have been placed upon the unfair list (and that too by men who are dishonorable enough to maim the hand that buttera their bread) these same St. Catharines unions have maintained a most vigorous boycott against them, with the result that a once profitable trade has dwindled away to a mere nothing.

The laws of the land guarantee to every man the privilege of quitting a job that is not to his liking. The labor of the workingman is the goods he has for sale. He is at perfect liberty to sell it where he chooses and at any price he can get for it. But the fact that the employer to whom he offers his labor does not choose to purchase it upon the terms named, does not give the working man the right to turn around and wreck the employer's business.

The result of the Gurney action will doubtless have a wholesome influence in impressing this fact upon Canadian labor unions, and in checking any further tendency to make use of the dangerous weapon provided in the boycott. The company who, single-handed and at great expense to themselves, have fought this matter through to a successful issue, deserve great credit for their courage and perseverance and have earned the hearty thanks of every employer of labor in this country.

THE RUSSIAN POPULATION

The final results of the first and only Russian census, taken eight years ago, have just been published, and furnish some interesting and instructive facts. It appears that the Great, Little and White Russians form 66 per cent. of the total population of the Empire. Of these only 20 per cent. of the males are able to read or write, and 9 per cent. of the females. It should be noted that any one who can make a signature is counted as "literate." Of Russians proper who have received a middle-class or higher education, there are less than 1 1-2 per cent. among males and less than 1 per cent. among females. That is to say, about twelve persons in every 1,000 are what is known in Russia as "fully literate," a term full of suggestions as to the meaning of "literate" in the census returns. The figures on this point are given only for Russians proper, but probably hold good for the population at large, as the more highly cultivated races of the outer Russian Empire are about balanced by the dozens or more tribes which are practically savages. Finland, it should be remarked, is not included in these returns. The census reckons 69 per cent. of the total population as belonging to the Orthodox faith, but it is an open secret that nearly twenty millions of dissenters, who, hitherto, have not dared to acknowledge their form of belief, are counted to the credit of the Greek church. Allowing for this, 5o per cent. may be said to belong to the State church, while 11 per cent. are Mohammedans, 11 per cent. dissenters, 9 per cent. Roman Catholics, 4 per cent. Jews, and 3 per cent. Protestants. A curious feature of the census is the analysis of the "privileged" classes, or subjects, of the Czar, who have certain rights. Of these the hereditary nobles make up 1 per cent., the personal or service nobles (chinovniki) 1-2 per cent., clerics 1-2 per cent., and the merchant classes another half per cent., or altogether 25 per 1,000. There are thus three "nobles" in Russia to every "merchant."

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

PERSONALLY CONDUCTED TOUR

To California and Lewis and Clark Exposition, Portland, Oregon

A personally conducted excursion to the Pacific Coast via The Grand Trunk Railway System and connecting lines leaves Quebec July 5, and Montreal and Toronto July 6. The route will be via Chicago, thence through Council Bluffs to Omaha, Denver, and Colorado Springs. Stops will be made at each of these places, and side trips taken to Manitou, Cripple Creek, Garden of the Gods, etc. From there the party will continue through the famous scenic route of the Denver and Rio Grande, through the Royal Gorge to Salt Lake City, thence to Los Angeles, San Francisco, and home through St. Paul and Minneapolis. The trip will occupy about thirty days, ten days being spent on the Pacific Coast.

The price for the round trip, including railroad fare, Pullman tourist sleeping cars, all meals in the dining car, hotels, side trips, etc., is $165.00 from Quebec or $160.50 from Montreal and $150.00 from Toronto. This first trip is designed as a vacation trip for teachers, although many who are not teachers will improve the opportunity of taking the trip at the remarkably low price afforded.

For full particulars address E. C. Bowler, General Agent and Conductor, Room 208, Union Station, Toronto.

Change Their Faith

Manchang, Mass., May 22.—Quite a sensation in religious circles was created by the press announcements that on Sunday, April 16, 1905, the priest and forty-two members of a French Catholic church at Manchang, Mass, had all been received into the Protestant faith. The Rev. A. E. Ribourg, the priest of this church, was educated for the priesthood of the Roman church in France. It is further stated that 275 people of this church have since renounced Roman Catholicism.

Double Tracking on C. P. R.

Prior to his departure from Winnipeg last evening, Mr. William Whyte, the second vice-president of the Canadian Pacific Railway, announced that the double-tracking of that Company's line between Fort William and Winnipeg would be undertaken immediately, and completed within three years. At present the grade of this section is 5-10 of 1 per cent., eastbound, and 1 per cent. westbound, which will now be reduced to 4-10 of 1 per cent. both ways. Mr. Whyte would not give the names of the contractors, but it has been understood for some time past that Foley Bros. were the successful tenderers.

Move Against Japs and Coreans

Buffalo, N. Y., May 22.—The Structural Building Trades Alliance at yesterday's session adopted a resolution committing the Alliance to petition Congress and the Canadian Government to enact laws prohibiting Japanese and Coreans from entering the United Staets and Canada. A committee was also instructed to prepare a report on immigration embodying a protest from the Alliance against unrestricted immigration.

NOTICE.

NOTICE IS HEREBY GIVEN

That the following By-laws were passed by the Council of the Corporation of the Town of Peterborough on the sixteenth day of May, A.D., 1905:

By-law No. 1148, providing for the issue of debentures to the amount of $7897.41, secured by local special rates, on the properties fronting or abutting on parts of streets in the Town of Peterborough, therein set out and described for the purpose of paying the property owners' share of the cost of granolithic sidewalks constructed thereon during the year 1904.

By-law No. 1149, providing for the issue of debentures to the amount of $6026.60, for the purpose of paying the proportion of the cost of granolithic sidewalks, payable by the Corporation of the Town of Peterborough on parts of streets in the Town of Peterborough, therein set out and described, constructed during the year 1904

By-law No. 1150, providing for the issue of debentures to the amount of $1771.05, for the purpose of paying the part of the cost of sewers constructed during 1904 on parts of streets in the Town of Peterborough, therein set out and described, payable by the Corporation of the Town of Peterborough.

By-law No. 1151, providing for the issue of debentures to the amount of $7614.02, secured by local special rates on the properties fronting or abutting on parts of streets in the Town of Peterborough, therein set out and described, for the purpose of paying the property owners' share of the cost of sewers thereon, constructed during the year 1904.

Further that such By-laws were registered in the registry office of the County of Peterborough on the twenty-second day of May, A.D., 1905.

Any motion to quash or set aside the said By-laws, or any of them, or any part of any of such By-laws, must be made within one month from the date of registration thereof, and cannot be made thereafter.

Dated at Peterborough, this 22nd day of May, 1905.

S. R. ARMSTRONG
Clerk.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans;

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINAR

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $930.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly **Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world.** This company will control at least two thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

More About the Jura-Trias

Referring to our ad. in yesterday's paper, we wish to say that the block of 15,000 shares of stock in our hands for sale is tied up as collateral in a bank and it must be sold quickly or will be forfeited. This stock is worth par value. There is no treasury stock on the market. Within one year's time this stock will be earning a big profit on its par value and will perhaps be worth from $1.50 to $2.50 a share. The president of the Stubbs Investment Company was in charge of development of this property for one year and knows it to be one of the biggest propositions in the country. It is not a prospect, it's a mine, and will soon be shipping metallic copper. This opportunity will be open but a short time Will accept orders for blocks of 1000 shares or more at 45 cents a share

Stocks—The MARKETS OF THE WORLD—Grains

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $5 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and New Foundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-offices, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $1,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During these six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One Hundred or one Thousand Dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough, for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

Address all communications and make all checks payable to

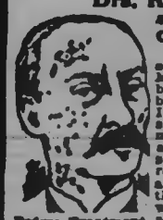
BLOOD DISEASES CURED

Drs. K. & K. Established 25 Years.

NO NAMES USED WITHOUT WRITTEN CONSENT.



Before Treatment.

After Treatment.

He was surprised at how the sores healed—"I took your New Method Treatment for a serious blood disease with which I had been afflicted for twelve years. I had consulted a score of physicians, taken all kinds of blood medicine, visited Hot Springs and other mineral water resorts, but only got temporary relief. They would help me for a time, but after discontinuing the medicines the symptoms would break out again—running sores, blotches, rheumatic pains, looseness of the hair, swellings of the glands, palms of the hands scaling, itchiness of the skin, dyspeptic stomach, etc. I had given up in despair when a friend advised me to consult you, as you had cured him of a similar disease 4 years ago. I had no hope, but took his advice. In three weeks' time the sores commenced to heal up and I became encouraged. I continued the New Method Treatment for four months and at the end of that time every symptom had disappeared. I was cured 7 years ago and no signs of any disease since. My boy, three years old, is sound and healthy. I certainly can recommend your treatment with all my heart. You can refer any person to me privately, but you can use this testimonial as you wish." W. H. S.

We treat **Nervous Debility, Varicocele, Stricture, Vital Weakness, Blood and Skin diseases, Urinary, Bladder and Kidney** complaints of men and women.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 -- Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 800 feet in length with a depth of 800 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo Colo., has averaged a little over $60 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $60 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $2.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $6 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ores so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $750.00 per ton and for gold $326.00.

With an average value of $80.00 and transportation and treatment expenses of $12.40 a ton, the net value of our ore has been $37.60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 375,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

A HINDU VISITOR FROM THE ORIENT

Ral Khizir Arrived in Montreal From India To-day

TALKS OF INDIA MYSTICISM

Various European Professors of Theosophy are Charlatans—Medical Missionaries

Montreal, May 20—Ral Khizir, a Hindu gentleman from Benares, India, arrived in the city from the West, and will leave by this evening's train for Boston.

His mission in America is to investigate the progress made by various cults in the larger cities who have engaged in psychic research.

For some time, the Indian sects have been somewhat embarrassed by the progress made by missions conducted in India by various European professors of theosophy, whom the East Indians regard as charlatans. Just what they know, just what they are doing and how they are doing it, is what Mr. Ram Khizir wants to find out, and he has come to the fountain head of these sects to do so. After a lengthy stay in San Francisco and Chicago, he is proceeding to Boston, where he will study the belief of Mrs. Baker Eddy and her adherents.

A tall, ascetic-looking gentleman, clothed entirely in black, Mr. Ram Khizir is an interesting personage. Educated in the schools of Bombay, he later went to Oxford, whence he graduated. He has since led a rather quiet life, pursuing the study of the mysteries of theosophy.

His first trip to America has impressed him greatly, though he was somewhat prepared for the "strenuous life" by his four years' sojourn in England.

"You are young. You have abundant energy and any amount of resource, but you don't know everything, you Westerners," he remarked this morning.

"You are like a young giant who has scarcely begun to live, and you have much to learn. You can do so in a few thousand years, if you try.

"The immemorial East? Oh yes. Like yourselves we are just learners, but you see we have reached the Socratic position of knowing that we don't know anything so in time we may commence to learn."

After talking learnedly of mahatmas, astral bodies, etc. Mr. Ral Khizir, when the question of the Indian juggling was broached, seemed rather amused.

"Most Europeans have taken them too seriously. Their stock in trade is composed of a number of tricks and feats of legerdemain, which have been handed down in the juggling tribes for years. Like any of the feats performed by your own jugglers they are easily explained."

The gentleman from India spoke strongly in praise of the European medical missionaries in India, stating that they are doing a good work and one which is highly needed. When the religious side of their teaching was mentioned, he contented himself with the enigmatic remark, "We have many religions in India."

North Oxford Election

Methodist Ministers Agree to Make the Autonomy Bills an Issue

Woodstock, May 22.—At a meeting of the Methodist ministers of this district a resolution was passed almost unanimously, condemning the educational clauses of the Autonomy Bills, and declaring that in the coming bye-election they will oppose those clauses. The resolution read as follows:

"Whereas the Bill known as the Autonomy Bill has been under discussion in the Dominion House of Commons for considerable time, and whereas the constitutionality of the educational clauses of the Bill is a matter upon which there is a great difference of opinion among the best legal authorities of our land, and whereas the clauses of the original Bill were so objectionable that the Government was compelled to modify them, and whereas there is ambiguity and room for different interpretation in the amended clauses, and whereas the Roman Catholic hierarchy seems to have been a very powerful factor with the Government in depriving the new Provinces of their constitutional rights, it is moved by Rev. W. B. Smith and seconded by Rev. T. R. Clark and resolved,

"That in view of the impending bye-election in this riding, when the people will be given an opportunity of expressing themselves at the polls, we, as a district meeting, desire to place ourselves on record as opposed to the educational clauses of the Bill."

CONFESSES TO FIVE MURDERS

Remarkable Letter Received by Chester, W. Va., Police

Chester, W. Va., May 22.—In a letter to the police authorities of this city, a man signing himself "A. Johnson," and claiming to be a partner of Henry Williams, who was recently executed in Roanoke, Va., has confessed to five murders and numerous robberies. His reasons for writing are that other men have suffered for his crimes and his conscience troubles him. He says he has been converted. The dates and manner in which the different crimes were committed as furnished in Johnson's letter are more complete than the police records, and the authorities believe in its authenticity. According to Johnston, he killed a woman at Chester, West Virginia, two Italians at Uniontown, Pa., a man at Hyndman, Pa., and a woman at Martin's Ferry, Ohio. He also claims to have assaulted a woman at Scranton, Va., for which crime, he says, another man was lynched.

The Autonomy Bill

Wants Ontario Legislature to Speak Out

Toronto, May 20.—L. O. L. 675 has passed the following resolution. That this lodge approve of the position of Dr. Beattie Nesbitt upon the Autonomy Bill, in proposing a resolution declaring the opinion of the Legislature that the constitution of the proposed new Provinces of Alberta and Saskatchewan should leave to them complete control of education. And this lodge desires further to express the hope that in view of the fact that the Autonomy Bill has passed its second reading in the House of Commons, you will insist upon the sentiment of the Province of Ontario being expressed by the Legislature of the Province of Ontario by the adoption of a motion embodying the views that you have expressed, and that such motion may be introduced in such a way that it will not be sidetracked in the Legislature.

STRICKEN WITH PARALYSIS

London, May 19.—William O'Dougherty, Nationalist member of Parliament for the north division of Donegal, was suddenly stricken with paralysis in the House of Commons this afternoon and was taken to a neighboring hospital in a serious condition. Mr. O'Dougherty was writing at the time and apparently was in his usual health. He was born in 1850.

BETTER THAN GOLDFIELDS NEVADA

The East Pacific Mining Co.

OF HELENA, MONTANA

OFFERS FIFTY THOUSAND SHARES of its Treasury Stock for sale at

$1.50 PER SHARE

All the money received from the sale of this stock will be used to place larger and improved machinery at the mines; to install an electric power line; a large compressor and hoist capable of sinking the property at least one thousand feet deeper; and to build a concentrating mill to treat the 23,000 tons of second class ore now already out on the dumps.

CONCENTRATING MILL IS NOW IN PROCESS OF ERECTION

and is expected to be completed and in full operation inside of sixty days, when stockholders can be assured of receiving regular monthly dividends of from 2 to 5 cents per share.

Fine Weather Gives Relief from Catarrh

But Never Cures it Because the Germs are Still Alive Though Inactive. First Kill the Germs Then You'll be Really Cured.

Catarrh germs are carried into the throat and lungs by the air we breathe. In the same way the remedy must be applied. To be effectual the cure must be breathed, for otherwise it can't get where the germs really are.

Mix your germ-killing medicine with air, breathe it right into all the little air cells where the catarrh really is, then you'll get cured quickly. This is exactly the way Catarrhozone acts. You inhale its medicated vapor to the very source of the disease. It destroys the cause of the inflammation, kills all the microbes that develop when the lining membranes become diseased. Besides this Catarrhozone is a wonderful healer. Every sore spot is rebuilt with new healthy tissue. All the poisonous secretions that have been putrifying the system are driven out. No trace of catarrh remains after Catarrhozone has been used.

Why don't you use Catarrhozone? Its the simplest thing in the world to use, and so sure to cure permanently that you really can't afford to be without it.

MISS E. M. PETERS is known by every resident in the pretty town of Highland Grove. She was cured by Catarrhozone of systematic catarrh and says: "For three years before I commenced using Catarrhozone I was continually bothered by a congested condition of my nose and throat. I was sneezing and coughing all the time and really never felt well. I perservered with Catarrhozone and was rewarded by being entirely cured. My recovery prompted others in the locality to use Catarrhozone, and many of them have had remarkable cures from using it."

MISS LOUISE MURPHY a well known society belle residing at 22 Monument St., Medford, writes: "Kindly forward me three outfits of Catarrhozone which I have found most valuable for catarrhal affections of the nose and throat. Catarrhozone cured me of weak lungs and really saved me from consumption. I am recommending Catarrhozone above all other treatments, knowing what great curative powers it possesses. I know others who have also benefited by Catarrhozone."

Catarrhozone is perfectly harmless and may be used with perfect safety by the most delicate infant. Instead of deadening the stomach with drugs, it sends the healing vapor along with the air you breathe into every air cell and passage of the nose, throat, lungs and bronchial tubes. Catarrhozone can't fail, it's sure to cure. If not satisfied you can have your money back for the asking. Two months' treatment, hard rubber inhaler and extra bottle of inhalant costs $1.00, sample size 25c. By mail to any address if price is forwarded to N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont., Can.

Calf Stealing Case.

William Ceola and John Grieves appeared before County Magistrate Robinson yesterday morning on a charge of stealing a calf from Ernest Curtis, of Belmont. The men were remanded owing to lack of evidence, and their trial will be held in Havelock at one o'clock on Friday next. The men admit that they skinned the calf and sold the skin, but they say they did not kill the calf, but found it in the woods, dead.

DAME NATURE HINTS

When the Food Is Not Suited.

When Nature gives her signal that something is wrong it is generally with the food, and old Dame is always faithful and one should act at once.

To put off that change is to risk that which may be irreparable. An Arizona man says:

"For years I could not safely eat any breakfast foods. I tried all kinds of breakfast foods, but they were all soft, starchy messes, which gave me distressing headaches. I drank strong coffee too, which appeared to benefit me at the time, but added to the headaches afterwards. Toast and coffee were no better, for I found the toast very constipating.

A friend persuaded me to quit the old coffee and starchy breakfast foods, and use "Postum Coffee and Grape-Nuts instead. I shall never regret taking his advice. I began using them three months ago.

"The change they have worked in me is wonderful. I now have no more of the distressing sensations in my stomach after eating, and I never have any headaches. I have gained 12 pounds in weight and feel better in every way. Grape-Nuts makes a delicious as well as a nutritious dish, and I find that Postum Coffee is easily digested and never produces dyspepsia symptoms."

Name given by Postum Co., Battle Creek, Mich.

There's a reason.

—John Adlum with his push cart, was around the principal streets yesterday morning, gathering up paper which littered the thoroughfares. The improvement is noticeable and no more paper should be thrown on the walks or in the gutters.

—The Canadian Pacific Railway will issue tickets at single first-class fare for the round trip, good going May 23rd and 24th, returning May 25th, avoid the rush at depot, and secure tickets, and all information from W. McIlroy, City Passenger Agent, 343 George street. 1d

—A well-known citizen, who is viewing the seedling barnyard in front of police headquarters yesterday, remarked, "That is the most untidy looking spot in Peterborough. Doubtless the police are too busy inspecting yards throughout the town to borrow a rake and clean up their own neighborhood.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrographic Work. Studio 134 Brock Street, Peterborough.

Married in St. Peter's Cathedral.

In St. Peter's cathedral yesterday morning at seven o'clock, Mrs. Margaret Curtin, of town, and Mr. John Dillon, of Courtland, New York, were united in marriage by Rev. Father McColl. Mr. Dillon formerly lived in Otonabee township, but has resided in Courtland for some years. He will be accompanied thither by his bride in a few days, and they will make their residence there.

Man in Fit, Falls, and is Stunned.

Yesterday afternoon a man who lives in Peterborough, took a fit in front of Messrs. Richard Hall & Son's dry goods establishment. The afflicted man fell so heavily on the pavement, striking his head, as to be rendered unconscious for a time. He was carried into Messrs. Ormond & Walsha' drug store and Dr. Greer telephoned for. As soon as his condition would permit the doctor had his patient removed to Nicholls Hospital.

Evangelist Russel Doing Good Work.

At the mission in St. Andrew's church yesterday evening, Rev. Walter Russell, evangelist, gave an address especially to young men and young women. He spoke on the subject, "The Value of Religion," Mr. J. C. Miller, cornet player, assisted the choir, who rendered appropriate music. The Bible school will open this afternoon at 3.30 o'clock. Mr. Russell will speak on "The Holy Spirit in the Son of God." The meetings in St. Andrew's church will be held each evening at 8 o'clock and will be full of interest and profit to all.

Hotel Kawartha Gets License

The Lindsay Post says, The East Victoria License Commissioners have granted a six months' license to the Hotel Kawartha at Fenelon Falls, erected by the J. D. Smith estate as a summer resort. Mr. Brown, of Minneapolis has taken a lease of the premises, and is now busily at work with a small army of helpers, getting in shape for the opening on June 1st. Three car loads of furniture passed through Wednesday from Toronto. Mr. Brown, we understand, has had long experience in the summer resort business, and no doubt will be instrumental in inducing many Americans to visit our beautiful lakes.

St. John's Church.

In St. John's church Sunday evening the pulpit was occupied by Rev. A. S. Madill, who is in town representing the Church Bible and Prayer Book Society. The text of an able sermon was Philippians 3.14, "I press toward the work for the prize of the high calling of God in Christ Jesus." The main idea contained in the text was that of progress and the speaker considered its relation to the world, to men, and to the church. The rector announced that on Friday evening there would be a joint meeting of the Women's Auxiliaries, to hear an address delivered by Miss Archer of Japan, a returned missionary. A celebration of the Holy Communion will be held on Friday morning at ten o'clock.

Police Court

OFFICIALS

Chief of Police, G. I. Reed
Magistrate, D. W. Dumble

Yesterday was his Worship's busy day, and the police court slate contained cases involving offences, running from that of a small boy shooting off a fire cracker to Albert Ross' most talked of novel.

A large audience had assembled to hear an expected case, but prior to its trial were shown how to close the door from the outside.

After Justice had balanced her scales she started business with several cases of tardy dog-tax payments. Mrs. Chambers smilingly admitted she owned a canine, and had got her notice to pay for said dog, but, having recently removed from the country, where the assessors collected the tax, she expected it would be the same for a town bred dog. His Worship, with his usual gallantry, accepted the lady's explanation for her delay and let her off with eighty-five cents costs, in addition to the tax.

Frank Burk also owns a dog which cost him yesterday a $2 bill and the tag.

Alex. Martin, who had, some time since, been summonsed for having a dog not paid for, and whose case had been enlarged until yesterday, in order that he might get rid of or destroy the dog whose ownership he repudiated, was not on deck when wanted yesterday. His Honor said the onus of proof must be with the police to prove that Martin had not killed the animal, before he could fine him so again enlarged the case for another week.

John Sim appeared to explain an infraction of a by-law prohibiting the erection, within the fire limits, of a shed which did not comply with the specified requirements.

His Worship asked Sim what he had done in the matter since his case was enlarged from last week. "As Sim said "Nothing," his Worship said something that sounded remarkably like $10, adding it was the lowest penalty allowed by law, and granted out that if the shed was not altered or removed at once, it would cost defendant $10 a day until such removal was completed.

A small boy, the size of a hearty grasshopper was fined $1 for neglecting the notices recently posted throughout town saying "Thou shalt not fire off fireworks."

The Chief said that although the small boy had been arrested he did not want a heavy penalty imposed, but simply desired that citizens should know fireworks were taboo.

The young man Ullman, charged with stealing two photos, after a week in Castle Nesbitt, was up for trial, but as the prosecution was not yet ready to proceed with their case, he was remanded until the 26th. Mr. Kerr, his counsel explained that he had been in correspondence with Ullman's employers and friends, but without reply as yet. Another charge was laid against the prisoner, that he had, with another person, entered into conspiracy to defraud a lady out of the sum of $5.

Still another dog case. Isaac Noble contributed $4.60 for the cause of man's most faithful friend, and the good of the town revenue. W. Gammie was also charged with being dilatory in payment of dog tax. The defendant did not appear, and his Worship told an officer to hunt him up.

A charge under the Charlton Act was enlarged until Friday, and may be settled out of court. As this happy ending of a serious case is within tangible reach of settlement it is indivisable to mention particulars.

Yesterday afternoon a lady was at the police station looking for her husband, who had, during the day, been reported to her, as under arrest.

The lady seemed very disturbed over the arrest, considering it unjust. It appears that some weeks ago a warrant had been sworn out for the man's arrest on a charge of non-support. He had until recently been out of town, and hence escaped arrest, until his return.

The lady protested that her husband had completely reformed, given up drinking and was giving her the money he earned, by steadily working, her fear is he will be so discouraged by this treatment that he will relapse.

The case comes up this morning.

North Monaghan Grab

(To the Editor of The Times)

Dear Sir,—Under the appropriate caption of "A Monaghan Grab," you inform the public of the action of the North Monaghan council in practically putting a prohibitive license upon our street railway for opening their park for the amusement of the public. This is characteristic of that body, which enjoys more than local notoriety. While the company may have got the better of the town, when it obtained its franchise, through the wrong-doing of our Council, that is no excuse for the present action of the North Monaghan council in putting on such a heavy license, which will probably choke off the plans of the company and deprive our citizens of so favorable an opportunity for a much needed outing during the sultry months of Summer.

Yours, etc.,

A CITIZEN.

Health is a magnet which irresistibly draws the man to the woman in life's mating time. A great many women covet beauty and are constantly seeking means to beautify themselves. Let a woman first seek perfect health.

There can be no general good health for women while there is disease of the delicate womanly organism.

$500 REWARD FOR WOMEN

WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"I used four bottles of your 'Favorite Prescription' and one of 'Golden Medical Discovery,'" writes Mrs. Elmer D. Shearer, of Mountjoye, Lancaster Co., Pa., "and can say that I am cured of that dreaded disease, uterine trouble. Am in better health than ever before. Every one who knows me is surprised to see me look so well. In June I was so poor in health that at times I could not walk. To-day I am cured. I tell everybody that Dr. Pierce's medicines cured me."

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 50 one-cent stamps for the cloth-bound volume. Address World's Dispensary Medical Association, Proprietors, Buffalo, N. Y.

A NEW GERM THEORY

Explains Cause of Much of the Sickness in Peterborough

It is well known that everyone swallows countless germs every day, many of them being positive disease germs which under right conditions result in serious sickness.

Dame Nature kills most of these germs when they reach the stomach and digestive organs with the natural juices secreted by the healthy stomach. As a usual thing it is only the person with a weak stomach and poor digestion who should fear the germs of disease.

The most recent theory of scientists is that the bodily health depends upon the natural action of the stomach. This explains why those who use Mi-o-na tablets are rarely ill. Taken before each meal, Mi-o-na strengthens the stomach so that disease germs are either neutralized or else driven from the system. You can eat what you want and all you want without fear of indigestion, if you take a Mi-o-na tablet before each meal.

Thousands of people are wasting away, thinking that they have heart disease, liver complaint, or some kidney disorder, and that the resulting headache, dizziness, heartburn, and general despondency and weakness is a sign of serious illness, when in reality there is nothing the matter with them but a weak stomach, which a fifty cent box of Mi-o-na tablets will restore to health and strength.

Mi-o-na is a guaranteed cure for all diseases of the stomach, excepting cancer. Ask Wm. Madill to show you the guarantee he gives with every package.

CHANGED HANDS

M'Collum Bros

Formerly of Orillia, have pleasure in announcing to the citizens of Peterborough that they have purchased the Livery Plant and business of Mr. D. H. Leary, 421 Water Street.

It is our intention to devote our personal supervision to this business, and to conduct it in the same painstaking manner which has made it the best equipped and best patronized livery in the province. We therefore solicit a continuance of the large trade which has been extended to the plant to our predecessor.

McCOLLUM BROS

C. P. R. HOTEL

CHANGE OF OWNERSHIP

Rickerby Brothers have purchased the C. P. R. Hotel, on Simcoe Street. The new proprietors of this well known hotel are now making extensive alterations and improvements in both hotel and yards. Special attention and courtesy will be shown to farmers and others patronizing the yards, sheds or hotel. Shedroom free with two men in attendance.

RATES—$1.00 per day

Special cheap rates by the week. A share of public patronage solicited. Courtesy to guests is our motto.

VOL XXXIII NO 122 PETERBOROUGH ONTARIO, WEDNESDAY MAY 24 1905 PRICE TWO CENTS

Rojestvensky Left Ten Days Ago Admiralty is Anxious.

No Word Has Reached St. Petersburg Since He Started on His Long Voyage--Sent Birlioff in Case Rojestvensky is Killed--was Often Defeated.

St. Petersburg, May 24.—The Associated Press was informed at the Admiralty this afternoon that no direct advices have been received from Vice-Admiral Rojestvenaky for ten days, when it is believed he set out on his long voyage. The report of Rojestvenaky's death was ridiculed at the Admiralty.

The sending of Vice-Admiralty Biriloff to Vladivostock, it is now explained, is a natural precautionary measure, for the purpose of having an energetic commander at Vladivostock to replace Rojestvensky in the event that the latter is killed or disabled during the coming sea fight no doubt being entertained that if the fleets come together Admiral Togo's vessels will concentrate their fire on the Russian flagship.

Should Rojestvensky come out of the fight victorious and enjoying fair health it is considered to be a foregone conclusion that he will be rewarded by appointment to the supreme command. Fortunately the best relations prevail between Rojestvensky and Birloff, and the latter would be glad to give way to his victorious colleague. Nemirovich Denchenko, the well-known Russian newspaper correspondent, has written a spirited defence of the Russian soldiers against the reproach of drunkenness, comparing his observations in the Russo-Turkish war and in the present conflict to show the increased sobriety of the Russian troops.

Tokio, May 24.—Imperial Army Headquarters, reporting to-day, says: "The Russian cavalry which detoured toward Fakumen from the right bank of the Liao River was frequently defeated by our rear-guards. On May 20, after their failure in the vicinity of Tanfangshen, they camped with the main strength at Saotatzu, 28 miles from Fakuben, and on May 31 they retreated to the right bank of the Malien River.

"In the meantime a few companies of the enemy remaining on the left bank of the Malien River were defeated, and retreated northward in disorder. Otherwise, the situation is unchanged."

Paris, May 20.—M. Francois Deloncle (Republican), Deputy for Indo-China, has submitted to the special Parliamentary Committee on Naval Affairs a remarkable report on the urgent necessity for the strengthening of the defences of Indo-China against the perial of a Japanese invasion.

"Indo-China," he says, "has only two enemies to fear, namely, Japan alone, or China, encouraged and supported by Japan. The former constitutes a real danger, for Japan has much to gain and little to risk, and her isolated position makes her almost invulnerable to us. She could in a few weeks throw 100,000 men into Indo-China, and easily reinforce this first landing party. The first phase of such a struggle would consist of Japan's efforts to secure Mastery of the sea, in order to reinforce her troops. Owing to Japan's great superiority in naval forces in far [illegible] but would fall back upon our naval base, Saigon. There it would be blockaded as the Russians were blockaded within Port Arthur. With our division thus bottled up, Japan could oppose the junction of the blockaded warships with the relief squadron, and, having seized the mastery of the sea, the Japanese thus would be free from invading forces. She has two admirable anchorages ready for her transports at Kamranh Bay and Port Bayet. She probably would take the first, as nearer to Saigon. Japanese would thus be established upon the sea route connecting Tonquin and Cochin-China.

TORPEDOES TO SINK RUSS SHIPS

Generally Believed That Togo Will not Fight

WILL TAKE NO CHANCES

Wily Old Togo Will not Risk His Precious Vessels in a General Engagement

Ernest Brindle, the correspondent of the London Daily Mail, who saw the war in the Orient in practically all of its varied phases, passed through Peterborough on his way to the Pacific Coast en route for Japan. He was seen by a Times' reporter. In speaking of the approaching naval battle in the Far East, he said:

"One can never tell, however, what is going to happen over there, though I am satisfied that the world will not witness a close action between Togo and the Russians. On the contrary, I look for a long distance battle, if, indeed, the fleets ever come together in a mass. Most likely Togo will rely on his torpedo boats to get away with the Russian ships, without placing any of his battleships or cruisers in danger."

Mr. Brindle is one of the younger crop of war correspondents who have made their mark in the Orient. He was on the ground before the war and had an exceptional opportunity of seeing both sides of the conflict, and as a result of his observations he has unbounded admiration for the Japanese and only feelings akin to commiseration for their enemy.

"I was in Port Arthur and Manchuria in January," he said. "There I saw the preliminary operations of the Russians, and later in Korea I witnessed the preliminary work of the Japanese. At Chemulpo and Seoul I saw the Japanese troops landing and marching for Ping Yang. For a month in the dispatch boat Cha Foo I sailed off the coast of Korea, but had to give it up. Then I went to Newchwang, where I was with the Russians. It was then that Louis Etzel and I started in a Chinese boat from Newchwang to sail about the coast in hopes of seeing the fighting which was confined to a narrow strip of the peninsula. You may remember that we were attacked by Chinese and Etzel was shot. I escaped, though a Chinese on board had his back torn off with the fusilade that killed Etzel. After that I returned to Newchwang and saw the battle of Tashichia, where the Russians were beaten.

"I went to Sinmintin, near Mukden, and fell in with the Chinchuses—the Chinese bandits, who swarmed over the country in large numbers. These robbers are big, hardy and daring men, who hold the country in subjection, and are as much of an institution in China as the mandarins. They are much superior to the soldiers, and China is powerless to suppress them. Occasionally they rob villages in Manchuria, but as a rule the villages there pay an annual tax to give them immunity from the Chinchuses.

"In September I came to America by way of the Pacific. I am now returning to Japan, and will go at once to the seat of war."

Large Bottles $1.00. Medium Size 50c. Small or Trial Size 25c.

Endorsed by all who have tried it.

ROCKEFELLER THREATENED

Bullet Awaits Him if He Goes to the Adirondacks

New York, May 24. — Threats of death against Wm. Rockefeller have been posted on many trees along the line of railway from Bay Pond to Brandon on the oil king's magnificent estate in the Adirondacks, and they bear the sinister significance in view of the fact that it was in this region that Orlando P. Dexter, the New York millionaire, was killed from ambush two years ago. The notices are crudely printed on brown paper and nailed to the trees, each reading as follows: "A $50,000 bullet will stop Wm. Rockefeller the minute he steps foot on this property."

Rockefeller admitted today that he knew of the threats, but stated he had made no plans for the summer, and didn't know whether or not he would go to his Adirondack house in Bay Pond.

MUST NOT DUN IN PUBLIC

Superior Court Condemns a Creditor Who Made Public Demands

Montreal, May 24.—An interesting case has been decided by Mr. Justice Archibald, in the Superior Court. The question at issue was, as to the right of a creditor to demand payment of the debtor for a debt due him, in public. The action was taken against Mr. James Devlin, of the Albion Hotel. The plaintiff, Mr. A. R. Strutt, had been living at the hotel, and it was alleged that on leaving, there was a small balance due the defendant, over which there was some dispute. The plaintiff claimed that he was entitled to an itemised account showing the extras he was paying for. This account not being forthcoming, the plaintiff delayed payment of the balance, and the defendant met the plaintiff on St. James street on several occasions afterwards, demanded payment, accompanied as the plaintiff alleged by several epithets, not usually considered parliamentary. The judgment was rendered in the plaintiff's favor for $50.00 and costs.

A Noble Aim.

School Authorities Infuse Patriotism in the Minds of Local Children

Yesterday afternoon in the schools of the town, Empire Day was observed with appropriate exercises, and the event was one in which the scholars participated with evident pleasure. In the morning the Union Jack was hoisted from every public school in the town, and during the whole day the spirit of the occasion pervaded the work of the scholars.

At the Central school in the afternoon, the pupils of Mr. Wm. Smith and Mr. J. D. Smith combined, and held the observance in the kindergarten department. There were patriotic songs and readings, and Mr. J. H. Burnham, gave an address. Miss Nicholls' and Miss Oulton's classes united, and Lieut.-Colonel Edwards addressed the pupils Mr. Wallace's scholars gave an interesting program in the gymnasium. Miss Jenkins and Miss Howson's rooms also united and gave an entertainment, the pupils taking part in the program.

At the West Ward school an open air gathering was held during the afternoon, Rev. J. C. Davidson and Rev. W. J. Jolliffe giving addresses.

At the South Ward school the Senior and Junior Fourth classes combined and Rev. A. H. Bruce and Rev. W. M. MacKay gave addresses. Mr. Kerr spoke to his pupils in the morning on "The Progress of Canada," dealing with the modes of living and peculiar habits of the old settlers. A good program of songs and recitations were given in the other classes.

At the George street school the classes also combined and the young students gave a program of patriotic songs and recitations. Rev. W. Major of All Saint's, addressed the scholars.

The North Ward School spent the afternoon in songs and recitations, no speakers being available.

At the Fifth Ward School, the pupils sang a number of patriotic songs and Rev. F. A. Langfeldt gave an address on patriotism.

Removed all Doubts

The Boniface of the Snowden Tells a Good Story

A bunch of railway men were seated round a table in the back parlor of the Snowden House the other night, when the conversation turned on beer drinking. One of the party told of a man who drank 40 glasses of lager a day, without any ill-effects.

"That's nothing," said the genial proprietor, as he refilled his corncob pipe. "I remember once when Jack Rose was spending a few days here fishing in the creek, a ribulous looking fellow came into the office and hailed Mr. Rose, whom he took to be boss of the house. He wound up by asking for a glass of beer, also remarking that this was the 17th that he had taken that morning. Seeing an incredulous look on Mr. Rose's face, he offered to wager a dollar that he could drink half a gallon without as much as winking. The wager was promptly accepted by a traveller present.

"'Wait a minute of two,' said the ribulous individual, as he disappeared.

"Returning, he expressed his confidence at being able to undertake the feat.

"The half-gallon was brought, and gradually disappeared to the last drop.

"Then they were curious to know what he left them for previously.

"'Well,' said he, 'I just went in to the bar to see if I could no it.'"

THE LEMON BROS.' SHOWS

Said to be The Greatest Circus of Modern Times

Call all the others what you will, but when all is said and told, and retold, there is but one Great Circus which is in every particular and detail the greatest and grandest of the entire world's circuses, and that is Lemon Bros. show which is coming to Peterborough on Thursday, June 1, in all its regal magnificence, its unrivaled splendor, its unequaled numbers and vast proportions. Under the greatest city of snow white tents ever erected on any grounds, will be seen, fully one hundred — count them! — one hundred exalted stars, who will give one hundred and fifty superior acts, too numerous to classify, too many to name, too multifarious to describe. Bareback riding, hurdling, trick, fancy and manege riding, aerial acts, grand gymnastics, tumbling, vaulting, leaping, athletic and contortion feats, juggling, equilibristic pole balancing, braking ladder, and other acts. Unique, stately, astounding, aerial stage and arenic performances, not seen elsewhere. Many of them by foreign artists, plenty of them by home artists. Remember the date, and do not miss the big show.

Local Men Preferred

The New Opera House to be Commenced Very Shortly.

Mr. Fuller Claflin, representing the New York Theatrical Exchange, is expected in town this week in connection with the new opera house. This firm is in the business of erecting opera houses, and to it will be entrusted the work of providing the new opera house for Peterborough. The local promoters will contract with them for the erection of the house, and the firm will call for tenders among local contractors, and by them the actual work of construction will be carried out, on plans prepared by the New York firm, which makes a business of this work, and consequently has plans already prepared for almost any style of an opera house.

There appears to have been some little misunderstanding among the people of town in this matter, many having the idea that the work was to be done by imported mechanics, but such is not the case, as the intention is to give the local tradesmen the preference. The Times is informed that in all probability work will be started in connection with the construction in the course of a few weeks.

Mr. Dunford Hurt.

Plunging Horse Brings Its Feet with Force on His Head, Stunning Him.

Mr. John Dunsford, on Saturday night, while assisting in loading horses at the Cavanagh House, was the victim of a painful and distressing accident.

Mr. Dunsford, at the time of the occurrence, was holding a horse by the head, when the animal, which was a spirited one, reared up, coming down with great force with its fore-legs, upon Mr. Dunsford's head, rendering him unconscious, and inflicting a gaping cut across the side of the scalp.

The injured man was removed at once in a cab to St. Joseph's Hospital, where the wound, which necessitated 17 stitches, was dressed by Dr. McGrath. He was then removed to his home. His condition is still critical, as he has been in a feverish condition, but his friends hope for a speedy recovery.

Mr. Dunsford is a carter by occupation but is frequently engaged in assisting Mr. T. Cavanagh in the shipping of horses. He was at one time the proprietor of the livery at present conducted by Mr. Cornell.

Adopted by Indians.

White Child Being Brought Up to Talk Their Language and Follow Their Customs--People of Orillia Object.

Toronto, May 24.—Another case of a white child adopted by Indians has come to the attention of the Children's Aid Society. As a result of the objection taken recently to the adoption of a white child by a colored woman, parties in Orillia have written Mr. J. J. Kelso, the Superintendent of Neglected Children, telling him that a tribe of Indians in that neighborhood have a little white girl some seven years of age whom they are bringing up in Indian customs and to speak the Indian language.

Mr. Kelso was asked to take what legal action he feels advisable, and he has written department agents in the vicinity for full particulars. What will be done depends, he says, on the state of civilization of the girl's present guardians.

200 More Foresters.

Court Langton C.O.F. Will Greatly Increase Membership.

Organizer Copeland has several candidates to initiate into Court Langton, C. O. F. at a special meeting to be held at Foresters' Hall, George street, Friday night, May 26th.

This court is now in exceptionally good standing. They have a membership of about 100 and intend to increase it to 200 before this special effort for new members ceases.

The initiation fee has been lowered to $3.00 which includes everything. There are in town a large number of Foresters who have not attached themselves to local courts, they are invited to put their cards into Court Langton, who will receive them free of cost.

Members of sister courts are invited to attend special meeting on Friday night.

ROBT. HAMILTON'S DEATH ASSURED.

The Body of the Missing Man Discovered Yesterday in Canal.

After so many rumors and apprehensions concerning the disappearance a week ago Saturday, of Mr. Robert Hamilton, of Smith, whose suspected death was partially assured by the discovery of his coat, and afterwards of his hat, the matter has been finally settled by finding of his body at Dam No 2, at 1230 o'clock yesterday morning.

Ever since the day of Mr. Hamilton's disappearance, his late neighbors have taken turns in remaining on duty at No. 2 Dam, and ropes have been stretched across the water, to which were attached a number of hooks, for the purpose of catching his clothing.

Yesterday morning, Walter Sanderson and William Hunter, jr., the two men on duty, discovered the body floating at the dam, the rope having caught the body and thus prevented it from being carried over the dam into the river below.

The features were hardly recognizable, but it was identified as the body of the unfortunate Mr. Hamilton, and was taken by the two men to Hickle's undertaking rooms. Coroner Grey is in Toronto, but it is improbable that an inquest will be deemed necessary.

Mr. Alex Hamilton, brother of the deceased, has arrived and will make arrangements for the funeral.

The deceased leaves five children, the oldest of whom, a girl, is fourteen years of age, while the second is a boy of twelve years.

The children are living upon the farm upon which their parents lived and are being taken care of by Mr. and Mrs. Dick, the latter a niece of the deceased.

Obituary.

Sudden Death of Mr. W. F. Leason a Respected Resident of Otonabee.

Yesterday morning the residents of both the township of Otonabee and the town of Peterborough, were shocked to hear of the sudden death, by heart failure of Mr. W. F. Leason at his home. The deceased, who was 70 years of age, had been one of the prominent men of the county, having at one time occupied a seat in the county council.

For the last five years he has resided in Otonabee, having moved to that township upon retiring from farming.

He was born in Wicklow County, Ireland, and when twenty years of age he left his native land, coming to Canada, and settled in Galway where he lived for ten years, and afterwards went to Nassau, running the Red Mills for another ten years. Later he engaged in farming operations in Douro, and lived in that township for a number of years, a highly respected resident.

He was married thirty-six years ago to Miss Hetherington, who survives him with one son, John F., of Douro, and two daughters, Mrs. Geo. Hile of Otonabee, and Miss Annie V., at home. One brother, Robert, of Sussex, England, also survives him, while two have passed away. Thos., who died two years ago, and Richard, of Douro, who passed away five years ago.

The funeral will take place to-morrow afternoon at two o'clock, from his late residence, Otonabee, to the Little Lake Cemetery.

Two Fighting Ships Launched

London, May 24.—The first-class battleship Africa, of 16,350 tons, was launched at Chatham dockyard Saturday. She is of the King Edward VII. type. The Africa, when completed, will have cost $7,500,000. The new armored cruiser, Cochrane, of 13,550 tons displacement, and of the Duke of Edinburgh type, was launched at Glasgow Saturday.

NOW ARE ALL AT HOME? Buy a bottle of Painkiller today and you will be insured against cholera morbus, diarrhoea and kindred troubles. The old reliable Perry Davis Painkiller is sold by all dealers. 25c. and 50c. bottles.

A Lesson to Canada.

The Uruguayan Outrage Held to be Proof That We Should Aid in Supporting the Empire's Navy.

London, May 24.—Discussing the illtreatment of the crew of the Agnes G. Donahue by the Government of Uruguay, The Pall Mall Gazette says: "If this small matter helps to rouse Canadian opinion to an appreciation of the anomalies of the present system whereby the navy defending the whole Empire, one portion bearing the entire cost, it will have done real good."

The Monaghan Grab.

The Council of North Monaghan Should Not Fine Pleasure Park so Heavily.

Whilst it is freely admitted that the gentlemen composing the council of North Monaghan township, are wide awake progressive men, having the interests of their constituents at heart we cannot but think their action in imposing the absurdly excessive license fee of $150 on the new pleasure park at terminus of the Street Railway Company's southern system is ill-advised and unjust.

This outing spot for our citizens during the dog days will, without question, be a great boon to all taking advantage of the cheap fares and easy access to the grounds, and cannot do any harm to either the township as a whole, or those of its residents living near by the place. It will, on the other hand have a tendency to increase the value of land in the neighborhood, from so many persons being drawn there, and who may become interested in that locality for residential purposes.

It will have also a tendency, if insisted on, to encourage an ill-feeling between hundreds of citizens of this town, whose summer program of amusements is threatened with cancellation, by the township.

More than all, it is unjust to spring such a blow on Mr. Ryan, the gentleman, who has completed his arrangements, and invested both time and money on his enterprise, after all his plans are fully completed. It is unworthy the honest farmers of North Monaghan to try to kill a legitimate enterprise, after the man has complied with all legal requirements, and made his arrangements in full, by springing this death blow to his summer's profits. It is, without meaning to convey any tacit or implied threat, a standing reason for Peterborough citizens to retaliate in the future should, at any time come a chance to give the farming community the worst end of any deal or municipal legislation.

Should this $150 be imposed, either the promoter will have to give up his enterprise, or recoup himself during the short season, by limiting the entertainment that would otherwise have been given, and the vast majority of those who will lose, in either event, are our children and youths, who are thus given innocent amusement and healthy pleasures, thereby taking them from spots and sights in town that would effect more harm than good. Let us hope the North Monaghan Council will re-consider their ill-advised imposition of this unfair fine or greatly modify it.

North Monaghan is too well off to stoop to this style of raising revenue.

Keene Excited.

Villagers are Agog Over a Factory Possibly to be Located There.

The good people of Keene are greatly excited over the announcement that part of the property known as the Beaver Meadows, has been purchased by a Mr. Johnston, of Montreal, representing a cement company, and the impression left by him here is that a large cement works will be established here. This property lies between Keene and Drummond's station, and is in close proxmity to the G.T.R. tracks, making shipments of the marl easy.

The property purchased by Mr. Johnston belonged to Mr. W. Stark, and is said to be very rich in marl deposits. The whole property is about 500 acres in extent, and is said to be one of the most valuable marl beds in this part of the province.

It is not beyond possible, should the company intend to work their recent purchase, that Peterborough will be enriched by their factory, owing to our near location to the raw material and our unexcelled future opportunities for competitive shipping rates.

ANOTHER DAGO STABBING CASE.

Lakefield Excited Over an Italian Stabbing Affray.

Our swarthy importations from Sunny Italy do not seem to get acclimatized as regards settling personal disputes; they cannot understand that such misunderstandings, should be settled by fists or law.

There are about fifty Italians employed in the construction work on the addition to the cement works at Lakefield and on Monday a large number of them came into the village and imbibed rather freely of their favorite beverage, beer.

On their way home a quarrel ensued, and the argument becoming hotter, one of the men, whose name the local police have not been able to learn, stabbed another of the party his name also being impossible to obtain.

After having stabbed his companion the Italian made good his escape, but was afterwards captured by Constable Dodge, and lodged in the cells here awaiting trial.

He is believed to be in a serious condition, however, and is very weak from loss of blood, the wound having bled profusely. He was attended to as well as was possible by his companions, and taken to the shack in which they make their home, but it is said that during his whole night he was delerous, and his friends fear that the injury may prove fatal.

County Police Magistrate Edmison will try the case should the man survive his injuries, as soon as he is sufficiently recovered to appear as witness.

Board of Works.

Mr. Jas. Bogue Gets Tender to Build the Sewer for $9,410

The most important work engaging attention by the Board of Works, at their Monday night session, was the consideration of tenders for construction of the outfall sewer, and tank for Ward Five.

It was considered that the septic tank having been advised by the Provincial Board of Health. The ice-men protest against a discharge pipe being run out into the river.

Several applications for local improvements were laid before the Board for consideration.

There were present at the meeting Mayor Best, Aldermen Adams, presiding; Batten, Hicks, Hall, Crowe and Johnston.

TENDERS FOR SEWER.

The following tenders for the outfall sewer and septic tank were received:

T. E. Wade, Peterborough, outfall and pipe $9,993.56; tank $5,000.

Jas. Bogue, Peterborough, outfall and pipe $6,210; tank $3,200.

Wm. Newman, Windsor, outfall and sewer, $9,986; tank $2,990.

John F. Connolly, Toronto, outfall and pipe $7,628.

Murphy and Lowry, Ottawa, outfall and pipe, $6,534; tank $2,900.

On motion of Ald. Hall seconded by Ald. Hicks, the tender of Mr. James Bogue for the outfall sewer and septic tank was accepted it being the lowest.

—Mr. Walter Stecker appeared on behalf of ratepayers petitioning for a sewer to be constructed on Perry street, from Aylmer to Stewart Sts.

RUSSIA COURTS ANOTHER WAR?

Activity on the Frontier of Afghanistan Continues---Proposes to Extend Her Southern Borders.

Bombay, May 24.—Russia's aggressive policy on the Afghan frontier continues. A new branch line of railway is now being constructed from Samarkand to Termes, on the River Oxus, opposite Balkh, which will be completed within a year.

Balkh, an Afghan-Turkistan town, about 13 days' journey from Kabul, across the mountains, though in a straight line the distance is not above 200 miles.

New military roads are also being made towards various points on the Afghan frontier, and in spite of her forces have not been depleted in this part of the world. They amount to five army corps, or about 200,000 men.

Preparations are now in progress which clearly indicate that after the conclusion of peace Russia intends to endeavor to rehabilitate her shattered prestige by a movement southward. No invasion of India is projected, but the opinion prevails that she proposes to cross the Upper Oxus, and occupy Northern Afghanistan to the line of the Hindo Kush, to seize Herat and occupy Khorassan, and to make her influence supreme in Tebran and North in Persia.

This program could be carried out even now without the slightest difficulty, and without the possibility of its being prevented by Great Britain. Russia would make at present no further advance beyond that indicated, and if Great Britain actively resented Russia's action, she would have to operate far from her bases. It remains for the Imperial Government to decide promptly what policy is to be pursued when the inevitable advance occurs.

This, it is thought, will constitute the first move of Russia towards the Persian Gulf, and will prepare the way for the ultimate challenge of British supremacy in India.

EMPIRE DAY

To-day is the Greatest National Holiday Among 400,000,000 British Subjects

Our readers should not forget that to-morrow, which is essentially "Victoria Day" in a double sense of the term, is also "Empire Day." It is now recognized as such in nearly every part of the British Empire. In celebrating it we are commemorating the virtues of her late Majesty, whose memory is still green in the hearts of the people. We are making continuous a custom which is particularly Victorian, having been faithfully observed from the very beginning of Peterborough's history. We are also paying loyal tribute to the Empire of which we form a part. It has become fixed as one of our great national holidays. Among those who have done much towards bringing this about is the Earl of Meath, who both by pen and personal effort, has been incessant in its advocacy. In a letter to the London Times he makes some questions for its special observance, apart from a celebration, which should have consideration locally. He says;

"If the four hundred million subjects of the King were truly bound together by feelings of mutual affection, the British Empire should constitute the most effective guarantee of peace the world has ever known.

"Inasmuch as the movement is directed towards the increase of mutual knowledge between British subjects, which by dissipating ignorance and prejudice must inevitably lead to lasting friendly feeling between one-fifth of the inhabitants of the world, it is confidently hoped that the church will lend the movement its active co-operation, by holding special services so as to strike the moral keynote of a high ideal of Imperial and of civic duty which it is desirable should be mentioned in the course of any celebrations which may be made on Empire Day, May 24.

We would like to see the National flag very appropriately be flown from church towers and steeples, public buildings, school houses and private dwellings on Empire Day."

Police Court

OFFICIALS

Chief of Police, G. I. Reed
Magistrate, D. W. Dumble

Yesterday's session of the Police Court was shot, with no spectators present, but a fairly remunerative one financially.

A young man who had been summoned, but did not appear in Court, got it in the pocket book to the tune of $4.40 for having been disorderly in the wee small hours last Sunday morning. The young man never drank the seductive tangleleg in his life, but from pure ebullition of youthful exhilaration had yelled on the streets to the discomfort of those awakened from their "beauty sleep."

Isaac Noble appeared before His Worship to protest against a fine of $4.00, imposed the preceding day for non-payment of dog tax. He explained that he had had two dogs, on one of which he had duly paid the tax; the other one he had given or sold to a farmer who requested him to keep it until he called for the animal, but that farmer had not, as yet, called. He intimated that he would not pay the tax. His Worship smiled blandly on the aggrieved gentleman, and regretted he could not remit the fine, intimating he was too busy to run around town hunting up canine history. The fine still stands and will have to be paid.

WEATHER NOTES.

A little warmer.

When Baby Comes You'l Need Strength

No Mother Can Rear a Healthy Child Unless She Is Stronger Herself.

FERROZONE

mparts New Vigor—Braces Nourishes Strengthens Weak Women.

A woman's anxieties multiply ten-fold about the time the new baby is expected. If her strength is exhausted and her blood weak, it goes hard in the hour of trial. Ferrozone should be used because it makes the blood nutritious and rich. By instilling new strength into every part of the body, it uplifts your spirits at once.

Childbirth is certainly made easier by Ferrozone. The following statement expresses the earnest gratitude of Mrs. M. E. Duckworth, of Durham. It is a woman's story—of her own case—told that other women may profit by her experience:

"Before baby was born I was in a miserable, weak, nervous state. I had no reserve strength. I tried to build up, but nothing helped me. I looked upon the coming day with dread, knowing I was unequal to the occasion.

"Ferrozone braced me up at once. It gave me strength and spirits, brought back my nerve and cheerfulness. From my experience with Ferrozone I recommend it to all expectant mothers.'

There is more concentrated nourishment in Ferrozone than you can get from anything else. It supplies what weak systems need. Simply take one tablet at meals and you'll feel uplifted at once. Ferrozone makes healthy, virile, vigorous women; try it. 50c. per box of fifty tablets, or six boxes for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $3 per year, strictly in advance.

THE SCHOOLS OF QUEBEC

The Huntingdon Gleaner, in discussing the remarks of Hon. Mr. Fisher with respect to the relation of the majority and minority schools in the Province of Quebec, calls to mind a speech made by Hon. Mr. Fitzpatrick, Minister of Justice, credited with being the framer of the original educational clauses in the Autonomy bills, when he was in the Legislative Assembly of that Province. It is admitted that the majority schools there are inferior in the character of the instruction imparted, at least from a secular point of view, to the minority schools. We know that the influence of the clergy there is a controlling factor, and while the religious phase of the curriculum is well looked after it has been at the expense of the general educational status of the schools. Results in regard to literacy have not been satisfactory. Hon. Mr. Gouin, the new Premier of Quebec, recognizes this, and has provided, in the policy which he has announced for an improved educational system, one more in harmony with the requirements of children under modern conditions, and a more effective state control and supervision. In a speech made at a gathering at Quebec he expressed the desirability of placing the pupils of the French schools in a position in which they would rank with their English-speaking neighbors. Their relative disadvantages at the present time are apparent. That was not, however, the first occasion upon which attention has been called to the state of affairs which exist there. It has long been a matter of comment among prominent representatives of the French-Canadian and others. Therefore, in calling attention to it here, we are not stating something in prejudice to the Quebec school system that cannot be borne out by contemporary evidence. On the 10th of February, 1893, Mr. Fitzpatrick, in the Legislative Assembly, in a speech on the subject said:

"Our school system is the worst that could be found in any country; its evil effects are everywhere apparent. The House has been informed that in many parishes the people were so illiterate that it was impossible to find commissioners able to read or write. He himself knew that thirty per cent. of the jurymen in our courts could not sign their names, yet large sums of money were voted for schools. To what use was that money put, and were the popular classes better educated today than twenty years ago? He thought not. . . . Classical education was on a fairly good footing, but in respect of all that concerned financial and commercial pursuits, the majority were not on equal footing, not that the ability was wanting, but because of the vicious educational system. . . . Popular education in this Province must be thorough and practical, otherwise we would never be anything but hewers of wood and drawers of water to the educational minority. I am a Catholic, and it is from that standpoint that I say our elementary system of education places us on a footing of inferiority as compared with our separated brethren. It is useless to try to hide this sad state of things any longer."

The extent to which illiteracy is prevalent in Quebec, besides being a matter of common knowledge, is borne out by the Dominion census returns. In addition to that, of those who have received an elementary education, the percentage who are on a parity of advantage with the English-speaking population, is small. The education throughout is less practical and thorough, and it is because the importance of a secular training is not sufficiently appreciated. Assuming the importance of religious principles being instilled in the minds and hearts of children at school, regarding which we are not now disposed to quarrel with the clergy, the experience of Quebec is sufficient to emphasize the danger of permitting what has been practically their exclusive control of the schools—not because they are clergy, but because in the very nature of things in their anxiety for one essential, other essentials are neglected. There are features of the policy of clerical control of education in Quebec which are of advantage in building up that Province as French-Canadian. The people are kept contented and at home, are encouraged to retain their rural characteristics, and occupy the land that is vacant, or becomes vacant, in preference to emigrating, and are influenced towards frugality, industry and thrift. In this respect, other Provinces might to advantage take a leaf out of Quebec's book, but that is not inconsistent with the untrammeled nature of school supervision and the highest practical and intellectual aims to which it is possible to attain. The fault which may reasonably be found in the educational systems of other Provinces is that too high a premium is placed upon purely academical studies, and that the moral, ethical and economic are apt to be overlooked in relation thereto. We cannot afford to despise any system, however imperfect, from which some good results flow.

EDITORIAL COMMENT.

It is getting harder every day for criminals to escape arrest. A sheriff from Honolulu is just completing a chase of 25,000 miles for a clerk who is charged with stealing bonds from a trust company in that city. He fled by way of Japan, China, Bombay, Naples and Paris, to London, where he was arrested. The sheriff, with his warrant, left Hawaii for Washington, got his extradition papers and proceeded to London, where he got his man. He brought him to New York, and will take him to Hawaii for trial.

• • • •

They are on the lookout for tornadoes in Oklahoma. People are building cyclone cellars to flee to, and even the local authorities are providing ways of warning and protection. At Hinton the following official notice has been published: "On nights when clouds look at all dangerous, a sentry will be stationed in the bell tower provided with a repeating shotgun. If there is apparent danger, he will ring the bell and fire a number of shots in quick succession. Also any person who sees a storm coming when the sentry is not stationed, will be expected to fire a gun."

PERSONALLY CONDUCTED TOUR

To California and Lewis and Clark Exposition, Portland, Oregon

A personally conducted excursion to the Pacific Coast via The Grand Trunk Railway System and connecting lines leaves Quebec July 5, and Montreal and Toronto July 6. The route will be via Chicago, thence through Council Bluffs to Omaha, Denver, and Colorado Springs. Stops will be made at each of these places, and side trips taken to Manitou, Cripple Creek, Garden of the Gods, etc. From there the party will continue through the famous scenic route of the Denver and Rio Grande, through the Royal Gorge to Salt Lake City, thence to Los Angeles, San Francisco, and home through St. Paul and Minneapolis. The trip will occupy about thirty days, ten days being spent on the Pacific Coast.

The price for the round trip, including railroad fare, Pullman tourist sleeping cars, all meals in the dining car, hotels, side trips, etc., is $165.50 from Quebec or $160.50 from Montreal and $150.00 from Toronto. This first trip is designed as a vacation trip for teachers, although many who are not teachers will improve the opportunity of taking the trip at the remarkably low price afforded.

For full particulars address E. O. Bowler, General Agent and Conductor, Room 302, Union Station, Toronto.

Was Murdered in Idaho

Listowel, May 23.—News has been received here from Bellevue, Idaho, of the murder out there of Robert Moore, of Elma, well known here. Moore got on a train at a small place called Picabo, where a crazy Italian murder was threatening everybody with a drawn dagger. Moore and others tried to pacify the man when the latter struck up Moore's arms and stabbed him through the throat. The Italian was shot down by another passenger. Moore was a fourth son of Henry Moore, of Elma. Dr. Moore, his brother, has gone west to bring back the remains.

SIR WILLIAM'S LATEST PLAN

He Would Build New City at Nip Bay, Cuba

New York, May 23.—The Sun today says: "Not content with building railways, Sir William Van Horne is now reported as about to build a city. A branch of the railway built in Cuba by Sir William's tireless energy runs to Nipe Bay, on the north east coast of the island, nearly due north from Santiago. The opening of a port city at this point was part of Sir William's original project and current rumor declares that he is about to carry the scheme out. It may not be doubted that some day there will be a harbor at that point. The harbor will be one of the best on the Cuban coast. In distance from New York and other Atlantic ports it has little or any advantage over Havana. Its advantage over Santiago as a point of shipment to American ports is considerable, with a direct line of steamers operating with the railway, there is no doubt Nipe Bay would be the main outlet for the eastern half of the island and it is possible some trade could be drawn from Havana.

A port city at this point was part

Portsmouth, May 23.—It has been officially announced that the visit of the French fleet to Spithead will take place during the first week in August. According to the present arrangement the Channel Fleet will meet the French ships in middle channel and escort them to the anchorage, where the Atlantic Fleet will be waiting to receive them. Thus there will be a very large assemblage of warships in the historic roadstead, rivalling in point of numbers the Coronation Review Fleet.

Cowes Tegatta week is always a fixture for the first week in August, and besides the English craft it is probable that some French yachts will also compete in races especially arranged. The King is to review the British and French fleets, and there are also to be festivities at Portsmouth arranged by the Admiralty and the municipality. These will include a ball given by the Admiralty in honor of the French officers, besides dinners arranged by the Admiralty and by the Mayor of Portsmouth. There is also to be various forms of social gatherings for the men, including a dinner by the Mayor of Portsmouth. Altogether, the occasion promises to be a memorable one.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been home teaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 30 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1.00, but fifteen months hence you will probably pay from $5.00 to $20.00 per share.

THERE IS NOTHING EXTRAORDINAR

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $900.00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly **Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world.** This company will control at least two thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $5 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and Newfoundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and Societies with the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $4,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government 10 per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph, of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

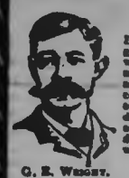
STRICTURE AND KIDNEY DISEASE CURED.



G. E. WRIGHT.

"I had stricture for eleven years. It finally brought on Bright's Disease of the Kidneys. I had an uncomfortable shooting pain in the groin and feeling as though something was in the urethra. My back was weak and I could scarcely stoop over. Urine was full of sediment. Had a desire to urinate frequently. Family doctors, so-called specialists, patent medicines, electric belts, all failed. I was discouraged. I had spent hundreds of dollars in vain. Finally I consulted Drs. Kennedy & Kergan as the last resort. I had heard a great deal about them and concluded from the fact that they had been established over 25 years that they understood their business. I am delighted with the results. In one week I felt better and in a few weeks was entirely cured. Have gained sixteen pounds in weight."
G. E. WRIGHT, Lansing.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONARCH MINING DISTRICT

CHAFFEE COUNTY, COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 800 feet in length with a depth of 800 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying interbedded. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo Colo., has averaged a little over $50 per ton, per ore settlement sheets on file. At the present price of silver these shipments would have averaged $60 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reductions. The railroad freight rate to Pueblo is $3.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $6 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $780.00 per ton and for gold $336.00.

With an average value of $60.00 and transportation and treatment expenses of $12.40 a ton, the net value of our ore has been $37.60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 975,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

REASON FOR JAPAN'S DELAY

Vladivostok Must be Captured Quickly

MANY RIVERS UNFORDABLE

Great Battles May be Expected During the Next Few Days

London, May 23.—The Daily Post's special says:

Much surprise has been expressed in military and naval circles at what seems to be the dilatoriness of the Japanese both on land and sea since the battle of Mukden and the appearance of Rojestvensky in the China Sea. But an ambassador of a neutral power who is thoroughly informed as to the situation gives me a statement of the Japanese tactics which throws important light upon the course.

All over the world there has been surprise that the Japanese did not press forward on land after the battle of Mukden, said this diplomat, and that they did not immediately attack the Russian fleet. But the Japanese know what they are about. Their strategy is of the highest and most comprehensive order. The longer Rojestvensky delays his voyage northward toward Vladivostok the better the Japanese will like it. They have set up a great ado about the use of the French coast as a base, and were justified in their protests. At the same time the Russian admiral's dallying for weeks along the coast played directly into the hands of the Japanese. Their game is to capture Vladivostok if they can before the enemy's fleet can reach the port. Hence the more delay on Rojestvensky's part the better the people at Tokio are pleased.

This being the case, the question naturally arises and is often asked, Why have not the Japanese made more vigorous efforts to invest Vladivostok? But I have been in Manchuria and southeastern Siberia, and am able to give the answer. During the winter the rivers in that region freeze nearly to their bottoms. When the spring thaw comes the rivers are not only flooded, overrunning their banks for miles, but the channels are filled with huge masses of floating ice. The streams are absolutely unfordable till the ice has run out and the floods subsided. This explains Japanese inaction all along the line during April. But by this time the rivers are normal again, and important aggressive movements may be expected from now on. I should not be surprised if Vladivostok were invested by the Japanese before the end of the month.

According to this diplomat, Admiral Togo has his main fleet at Formosa, where he is guarding both of the channels, through one of which Rojestvensky must pass on his way north. The Russians will not be permitted to pass Formosa without an attack. The notion formerly held by some observers that Togo might permit his foe to reach Vladivostok, and there bottle him up and make of that base another Port Arthur, is no longer entertained. Now the belief is that Togo will try to smash the Russians long before they get to Vladivostok; that he will start operations with torpedo attacks and cruiser raids at night just as the Russians get within a reasonable distance of the Japanese base at Formosa, and that all the way from the point of first assault to Vladivostok the Japanese will gradually increase the weight, force the risks of their attacks, until in the end, if it becomes necessary, a close engagement of the ships of the first fighting lines—the battle ships—will be hazarded. If the Russian fleet, or any part of it, ever gets through to Vladivostok, it will be after running a most appalling gantlet of shells, torpedoes and mines. A distinguished American naval officer said today he would not insure Rojestvensky's flagship for a premium of 50 cents on the dollar.

TO ASSIST BOER GIRLS

Notable Industrial Experiment to Aid Sufferers From the War

Geneva, Switzerland, May 22.—An attempt is now making in the Orange River Colony, South Africa, to teach certain home industries to members of Boer households impoverished by the war. The project is under the direction of Miss Hobhouse, and is supported by a committee in England. The first experiment has been made in the small town of Philippolis, where there are now fourteen girls learning how to weave wool into cloth, carpets, etc., in the first instance for home use, but afterward for sale.

As there are a few manufactories in the colony, there is a great chance for the success of home industries. The Boer girls show remarkable quickness in the work, and it is now proposed to teach them lace making also, for which there is believed to be a good market. Co-operation of the industries, for the purpose of buying machinery, tools, etc., is being considered.

The whole project at present is aided by only 100 subscribers. Countess Evelyn Asinelli, 8 Grand Pre, this city, will gratefully receive any contributions to assist in this work, and is ready to furnish details to all inquirers. The countess for a long time has been collecting funds to aid the Boers, and is deeply interested in Miss Hobhouse's admirable undertaking.

King Alfonso Creates a Storm

London, May 24.—The Madrid correspondent of The Chronicle says that a storm of disapproval has been aroused by a letter from King Alfonso addressed to the Bishop of Barcelona, promising his ardent help in impeding the establishment of Protestant churches in Barcelona.

History and Production of the Goldfields of Boulder County, Colorado, Portraying Economic Conditions, Which Predict the Coming Goldfields of Colorado and Presenting the Stock Offering of a Great Gold Mining Enterprise of the United States Gold Corporation.

FREE

Our booklet on the history and production of the gold fields of Boulder County, Colorado, is just off the press. The work is a splendid one in every respect. It will, in addition to other features, contain a valuable compilation of the production records of Boulder, carefully prepared and showing an output of $50,000,000. It will be well worth preserving by people throughout the country who are interested in the romantic and fascinating history of the gold fields of one of the richest and most famous of the Colorado counties. Our booklet should be read by everyone who takes interest in the marvelous records of the industries of the west.

The Colorado Gold Fields lead the world in the production of gold, and the wide-awake investor who wants to keep posted on the wonderful future of this section of Colorado should have a copy of this book.

We wish to direct the attention of every reader of the Times to the fact that the conditions are more favorable for

Successful Mining in the Boulder County or Northern Gold Fields of Colorado than exist elsewhere the wide world over

The finest and greatest smelters in the world are located at or near Denver, a maximum distance of only fifty miles from these gold fields. These smelters require silicious ores from this section of Colorado to smelt successfully and have made a permanent smelting rate of $4 per ton, including the cost of freight after the ore has been put on board the car, enabling the miner or company to net a fair profit on ore running as low as $6 per ton.

These are the facts and conditions which we offer to investors as a guarantee that these goldfields are the most attractive for mining investment in this country

We send you this book free to present the merits of our gold mining enterprise located in this great section of Colorado. The story of this enterprise will interest you, whether you invest or not. It will tell you of a modern way of mining, and of how nature's treasure vaults are successfully opened and made to yield their secrets under this method. It will detail to you the wonderful possibilities of this enterprise, perhaps second to none in Colorado. We believe it will be the most profitable investment offered on the market. At any rate the book will please and entertain those interested in the great mining industry of the west. Drop us a postal card with your name and address, and thereby assure yourself the extreme satisfaction of getting our handsome souvenir. Address

Consumption Can Be Cured

A Powerful and Effective Destroyer o Disease Germs Discovered Which Cures Consumption.

The ravages of consumption which for years have terrorized the modern world will no longer continue to cut off our population by thousands. Science has at last produced a remedy which not only can be readily applied to the lungs, but also kills every trace of bacilli in the throat, bronchial tubes, and air passages of all the breathing organs.

The name of this marvellous antiseptic about which the doctors are talking so much is Catarrhozone, the atomated air-cure. The vapor is more soothing than the air of pine woods, and its healing properties are without limit.

Through a skilfully devised inhaler the sufferer is enabled to breathe this fragrant medicated vapor into the most minute air cells of the lungs. It is so destructive to microbic life that the tubercular germs are rapidly killed and prevented from ever returning. Congestion and inflammation are relieved, coughing stops, all disagreeable symptoms are quickly cured by Catarrhozone.

So simple is Catarrhozone that anyone can use it. So certain to cure lung and throat troubles that it is prescribed by not less than twenty thousand doctors in United States and Canada. One well known authority who has made a life long study of consumption, has the following to say; "Catarrhozone is certainly a true specific for white plague. I find that its healing vapor readily spreads all through all the breathing organs passing over probably not less than one thousand square feet of mucous surface at a single inhalation. It is a perfect germicide and destroys tubercular germs with wonderful certainty. Catarrhozone is entitled to rank among the great medical discoveries of the age."

No matter how often you have been disappointed with other remedies you must not be discouraged. In Catarrhozone you will find new hope. What it has done before it can do again. Your case is not worse than others it has cured. Therefore if properly used you can also be cured by Catarrhozone. Two months treatment $1.00. At druggists or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ont. Refuse any substitute for Catarrhozone—only the genuine can cure.

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

Dr. J. W. Grey is in Toronto today.

—Mr. K. G. Lech will spend the holiday in Toronto.

—Mr. G. B. VanBlaricom will spend his holiday in Belleville.

—Mr. Charles Tanner of Lakefield, was in town yesterday morning.

—Mr. Ernest A. Lawson, will spend the holiday in Belleville.

—Mr. J. Fraser Selby, of Toronto, is a guest at the Balmoral.

—Miss M. McGill, Peterborough, is in town for the races.—Globe.

—Mr. Arthur Boucher, of Toronto University, is home for the holiday.

—Mrs. Merton of Hamilton, is visiting with Mrs. R. H. Fortye, Gilmour street.

—Mr. Evans Atwood, of the Novelti Company, will spend the holiday in Lakefield.

—Mr. Horace Walkey of the Ontario Bank staff, will spend the holiday in Keene.

—Messrs. Bert Canniff, and Mr. Jackson, of Toronto, are down for the holidays.

—Mr. J. Chambers, of Toronto, is visiting his sister, Mrs. Peter Thompson, 621 George street.

—Mr. R. J. Munro, of the Munro House, will take in the Woodbine races at Toronto to-day.

—Mrs. W J. Doughty and her daughter, Miss Ethel, will spend the holiday with Mrs. Mulhall, Lakefield.

—Mr. W. R. G. Higgins and Mr. M. Comstock left for Toronto yesterday morning, where they will spend the 24th.

—The Misses Barlee, left yesterday morning for Lakefield, where they will spend the holiday, the guest of Mr. F. J. Lefevre.

—Mr. Alex. Hamilton, of Warren, brother of the late Robert Hamilton, passed through town yesterday morning on his way to Lakefield.

—Rev. Father Zilles, who will assist in the Redemptorist Fathers' Mission at St. Peter's Cathedral, arrived on the noon train yesterday.

—Mr. Sutherland, of Toronto, passed through town yesterday morning on his way to Stony Lake, where he will open his handsome cottage on Eagle Mount, for the season.

—Mr. Fred Bell and Mr. James Foster, Boston, Mass., passed through town on Wednesday on their way to Stony Lake, where they will re-open "Elfin Nook" for the season.

—Mr. D. Hughes Charles, Manager of the Bank of Commerce, accompanied by Mrs. Charles and family, left yesterday morning for Shanty Bay, Lake Simcoe, for a two-months' vacation.

—The many friends of Mr. William Anderson, M.P.P., of East Peterborough, will regret to learn that he has been confined to his bed during the past two weeks, and upon the advice of his physician will be unable to further attend the present session of the local House.

—The following ladies and gentlemen of Peterborough, are spending the holiday at their respective summer resorts on the lakes; Messrs. J. B. McWilliams, Geo. Cochrane and family, D. W. Dumble, H. P. Lindsay, R. J. Winch and Mrs. Winch. John Nugent and Mrs. Nugent, J. D. Collins, Mrs. Collins, and Fred Collins, Felix Brownscombe and family, W. G Ferguson and family. Mr. and Mrs. R. B. Lundy, lately returned from Bermuda, where they spent the winter, will also re-open their cottage on Stony Lake.

Foot Guards Under the Ban

A special despatch to The Times says; Major-Adjt. C. F. Winter has issued an announcement that by order of the D.O.C. all future parades of the G.G.F.G. have been cancelled until further orders. It may mean the organizing or disorganizing of the regiment. This may mean that the 57th may change their intentions for July 1st.

The Locks in Perfect Condition.

The Locks below the town, were yesterday morning operated for the first time since the installation of the new gates, and are reported to be in perfect working condition. The steamer City of Peterborough was the first to lock through, as she passed on her way down the river. The Lily also made a trip up, returning yesterday morning. The locks are reported to be, in the best operating condition of any along the entire route of the canal.

Peterborough Knights Visit Belleville

To-day a new court of the Knights of Columbus, will be instituted at Belleville, and a special train, carrying about fifty members of the Peterborough Court will leave here at 6.30 this morning for the Bay City, where the members will take part in the institution ceremonies. This will be made an important event, and Knights from Montreal, Ottawa, Brockville, Cornwall, Kingston, as well as from Peterborough, will be present at the ceremony, which will be of a decidedly interesting character.

Chemong Booming.

Much activity is already in evidence in Chemong Park and the prospects that this place will be the scene of much enjoyment during the coming season. Considerable repairs are already in progress to the cottages and boat houses and several new cottages are also being erected. Mr. Herbert Morphet, of the Toronto Savings and Loan Company, is just completing a neat and pretty little cottage. Mr. R. M. Dennistoun is preparing to erect a handsome new cottage immediately in front of this one which he has for several years occupied. This is considered one of the prettiest elevations in the park.

—Mr. Herb. Morphet is erecting a handsome new residence on Homewood avenue.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrographic Work. Studio 134 Brock Street, Peterborough.

EVERYBODY READS THE TIMES.

Local Incidents

BY THE TIMES MAN ON THE STREET.

The Pleasure Park, will open at two o'clock this afternoon, and the evening performance at 7 o'clock.

—To-day being a public holiday, there will be no issue of The Times to-morrow morning.

—The Peterborough Hunt Club had an outing on Monday, Chemong being the destination. Those taking part in it were Capt. Ackerman, Capt. Medd, Mr. F. D. Kerr and Mr. W. Cameron.

—Mr. Fred Lund, of the Munro House, had the misfortune, through the carelessness of some of the boarders at the house, to have his most valuable and much admired art treasures broken.

—The Lindsay town fathers sympathize with sport. They have reduced the license fee for billiard tables from $75 to $60 for the first table and from $60 to $40 for second tables.

—The 57th Regiment had a march out last night. The boys turned out out last night headed by their band. The boys looked well on the march, nearly every company having its full quota.

—The dredge "Trent" which has been dismantled in order to allow it to pass under the Hunter street and C.P.R. bridges, on its way to "Devil's Elbow," is now below the C. P.R. bridge.

—The two boys brought to town to perform as acrobats in the Pleasure Park entertainment, were up by daylight yesterday morning, and had taken in the whole town. They are young hustlers.

—There was an even bet made by two local sports last night about the Council. One bet $10 that the town Council will not change their minds more than twice, before January 1st next, over the George street extension.

—The Lindsay Post says; Mr. Carl Walker and Miss Olive Walker, of Peterborough, are the guests of Lindsay friends. Mr. Bert Mimms, draughtsman with the Baldwin Locomotive Works, Philadelphia, is in town for a day or two. He is enjoying a brief vacation with his parents in Toronto, and will also visit Peterborough friends before returning.

—The Bible School conducted by Evangelist Russell in St. Andrew's church every afternoon this week is open to all Christians. The subjects are (1) "The Holy Spirit in the Son of God. (2) "The Holy Spirit in the Word of God," (3) "The Holy Spirit in the Church of God." (4) "The Holy Spirit in People of God." Remember the hour, 3.30, and bring your friends Your own Bible will also be a help.

—Work on the new Separate school building, at the head of Little Brock street, is going ahead rapidly. The foundations, laid in concrete and Longford stone, are nearing the ground level. The disposition of the earth removed in excavating, will make the eastern portion of the lot a nice level, and make a useful lawn and grounds of what seemed at cursory view, an undesireable location for a school site.

FROM SAME BOX

Where the Foods Come From.

"Look here waiter, honest now, don't you dip every one of these flaked breakfast foods out of the same box?" "Well yes, boss, we dus, all 'cept Grape-Nuts, cause that don't look like the others and people know 'zactly what Grape-Nuts looks like. But there's 'bout a dozen different ones named on the bill of fare and they are all thin rolled flakes so it don't make any difference which one a man calls for we just take out the order from one box."

This talk led to an investigation. Dozens of factories sprung up about three years ago making various kinds of breakfast foods, seeking to take the business of the original prepared breakfast food—Grape-Nuts. These concerns, after a precarious existence, nearly all failed, leaving thousands of boxes of their foods in mills and warehouses. These were in several instances bought up for a song by speculators and sold out to grocers and hotels for little or nothing. The process of working off this old stock has been slow. One will see names on menus of flaked foods that went out of business a year and a half or two years ago. In a few cases where the abandoned factories have been bought up, there is an effort to resuscitate the defunct, and by copying the style of advertising of Grape-Nuts, seek to influence people to purchase. But the public has been educated to the fact that all these thin flaked foods are simply soaked wheat or oats rolled thin and dried out and packed. They are not prepared like Grape-Nuts, in which the thorough baking and other operations which turn the starch part of the wheat and barley into sugar, occupy many hours and result in a food so digestible that small infants thrive on it, while it also contains the selected elements of Phosphate of Potash and Albumen that unite in the body to produce the soft gray substance in brain and nerve centres. There's a reason for Grape-Nuts, and there have been many imitations, a few of the article itself, but many more of the kind and character of the advertising. Imitators are always counterfeiters and their printed and written statements cannot be expected to be different than their goods.

This article is published by the Postum Co. at Battle Creek. Additional evidence of the truth can be supplied in quantities.

Mrs. M. T. Bell Wanted

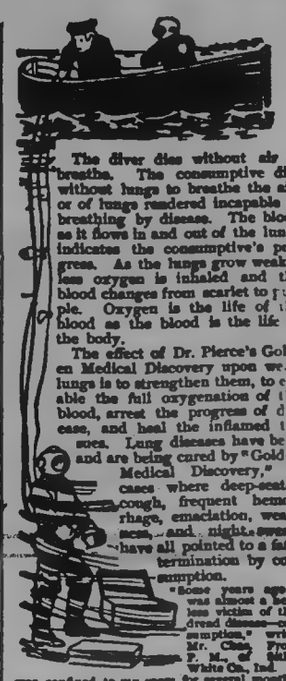
Chief Roszel Has Letter From England Asking Information About the Lady.

Chief of Police Roszel has received the following letter from Mrs. G M. Acom, 31 Cumberland street, Southampton, England:—

Dear Sir,—I shall be very grateful to you if you can give me the whereabouts of my daughter, Mrs. Mary Theresa Bell. She was living in Peterborough with her husband, Percy Bell, and their little boy, Douglas, and I wrote to P.O., Peterborough, after Christmas. Since that time the letter was returned to me, marked "Not called for." We are very anxious to know where they are and what has happened to them.

MRS. G. M. ACOM.

The Chief would be glad to receive any information concerning Mrs. Bell's whereabouts.



The diver dies without air to breathe. The consumptive dies without lungs to breathe the air, or of lungs rendered incapable of breathing by disease. The blood as it flows in and out of the lungs indicates the consumptive's progress. As the lungs grow weaker less oxygen is inhaled and the blood changes from scarlet to purple. Oxygen is the life of the blood as the blood is the life of the body.

The effect of Dr. Pierce's Golden Medical Discovery upon weak lungs is to strengthen them, to enable the full oxygenation of the blood, arrest the progress of disease, and heal the inflamed tissues. Lung diseases have been and are being cured by "Golden Medical Discovery," in cases where deep-seated cough, frequent hemmorhage, emaciation, weakness, and night sweats have all pointed to a fatal termination by consumption.

"Some years ago I was almost a helpless victim of that dread disease—consumption," writes Mr. Chas. Frost, P. M. of Silton, White Co., Ind. "I was confined to my room for several months; my friends and neighbors had given up all hope of my recovery, until one day a friend advised me to take Dr. Pierce's Golden Medical Discovery, and after I had taken the contents of the second bottle I began to improve. After taking six bottles I was, I honestly believe, delivered from the grave and entirely cured. I am now a strong and hearty man."

Dr. Pierce's Pleasant Pellets cleanse the clogged system from accumulated impurities.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Sold by Druggists, 75c.

Hall's Family Pills are the best.

AID FOR TORONTO

O. F. G. Asss. Begging for Assistance From the Counties

Hogtown wants help. It would seem that the hundreds of thousands of dollars poured into the gate receipts are not enough for Toronto Exhibition to give up enough for proper prizes.

Mr. William Collins, Secretary of the West Peterborough Farmers Institute, has received a letter from Mr. A. McNeil, President of the Ontario Fruit Growers' Association, Ottawa, stating that there has been a generous response to the scheme of securing a grant of $25 from each of the Counties of Ontario for prizes at the Fruit, Flower and Honey Show at Toronto next fall. The only fear is that some of the delegations will not be organized so as to wait on the County Council in June. Some of the suggested delegates wrote that they are too distant to meet with other delegates. In such a case the delegate might write to someone interested who is nearer the place of meeting of the council. The gentlemen suggested to wait upon the Peterborough County Council in the matter are; — F. Birdsall, Birdsall; Chas. O'Reilly, Norwood; E. M. Elliot, Peterborough; William Collins, box 926, Peterborough; Ed. Hawthorne, Warsaw; D. Moloney, Douro.

The Deal Off.

Mr. Hamilton Has Not Yet Completed His Purchase of the Nicholls Homestead.

Some days ago the local press gave a detailed account of the Nicholl's homestead having been purchased by Mr. Hamilton, of Warren, Ont.

The deal has not yet been consumed Mr. Hamilton, we understand, left a cheque for payment on his purchase with a local lawyer giving him instructions to have a thorough search made of the titles, etc.; before making the payment.

On his return, Mr. Hamilton telephoned to his Peterborough legal representative that he would not for family reasons conclude the bargain then, and instructed him to deposit the cheque to his credit.

Boy Burglars.

Youthful Thieves Enter Mr. McFarlane Wilson's Residence and Steal.

On Sunday evening, Mr. and Mrs. McFarlane Wilson, about church time left their residence at 292 London St. to make a nearby call. Two, or possibly more, boys had evidently been watching the house, and supposedly coming to the conclusion that inmates of the house had all gone to church, and would thus be away for an hour or so, as the doors were all locked entered the house by a window.

Mrs. Wilson had occasion to return to the house, within some twenty minutes after leaving it. The unexpected sudden return of the lady they had thought to have gone to church, evidently upset the plans of these youthful burglars, young lads of perhaps 15 to 16 years of age, as they rushed upstairs and jumped out of a window, and crawling along the verandah roof, jumped into the yard, next door, the property of Mr. Adam Hall. The boys only had time to steal some oranges and other fruit, but, had it not been for the opportune return of Mrs. Wilson, would have ransacked the bed rooms and stolen more valuable moveables.

They were seen to jump into Mr. Hall's yard, but were not recognized. The police have the matter in hand, and arrests will probably follow.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 123 — PETERBOROUGH ONTARIO, FRIDAY MAY 26 1905. — PRICE TWO CENTS

Rojestvensky's Fleet in the Pacific Ocean, To Meet Togo Soon

Russian Fleet Avoided the Formosan Straits and is Now 500 Miles North-East--News of Sea Battle Daily Expected--Togo Must Soon Meet Rojestvensky.

Manila, May 26.—Official advices have been received from Vigan that on May 20 over fifty war vessels were sighted off the east coast of the Batan Islands, sailing in a north-easterly direction. It is supposed that the vessels were Russian.

Shanghai, May 26.—It is credibly reported that five volunteer cruisers of the Russian fleet, accompanied by three colliers and one Russian cruiser, arrived at the mouth of the Yangtze River this afternoon. Later the cruiser departed, and three of the volunteers came to Woo Sung tonight.

This despatch strengthens the theory that the Russian fleet made a detour around Formosa, and will try to pass through the Korean Straits.

"Do you anticipate a sea fight soon?" Admiral Togo was asked. He replied;

"Certainly. The Japanese cannot afford to allow Rojestvenaky to reach Vladivostock without an engagement. I personally expect it to take place in the near future, though I admit the Admiralty knows nothing of Rojestvenaky's strategy or plans, the Emperor having accorded him complete freedom of action."

In response to a suggestion that Togo might intentionally allow Rojestvenaky to get to Vladivostock, contending himself with torpedo attacks while the Russians are on their way there, and then try tobottle Rojestvensky up in Vladivostock. Admiral Avellan smiled and said;

"The story of Port Arthur will not be repeated. Rojestvenaky will try to wrest the mastery of the sea from Togo. There are many ways of compelling Togo to accept battle. Rojestvenaky will only have to bombard one of the coast cities to force Togo to appear in its defence."

Opposed to Coercion.

Strong Letter Denouncing the Autonomy Bill, in Reply to "Tolerant Traveller."

(To the Editor of The Times.)

Dear Sir,—I notice a stupid and absurd effusion from the pen of a "Peterborough gentleman," signed "Tolerant Traveller," dealing with the educational clause of the Autonomy Bills, now before Parliament, written for the Toronto News, and published in your issue of the 17th inst. The writer of the article adduces no argument in support of the proposal to coerce the new Provinces in the West into maintaining a dual system of schools, but at once launches into a condemnation of, and charges as bigots, the newspapers and people of Ontario in general, because they conscientiously oppose the coercion of the proposed new Provinces at the dictation of the Province of Quebec, and also makes the groundless statement that "all history proves the absurdity of the separation of education from religion." These assertions are not worthy of a moment's consideration by your readers, who are, I am inclined to believe, better acquainted with history than this "gentleman," who has demonstrated his ignorance of history, and his want of knowledge regarding the whole question which is agitating the Canadian people at the present time. He tells us that the French-Canadians show us an example in tolerance and eulogizes their generous treatment of the Protestant minority of Quebec in graciously permitting them to have the privilege of a system of Public schools, and contends that, on this ground, we should not deny the same privilege to the Roman Catholics of Alberta and Saskatchewan. Does he not know that there is no analogy whatever in the two cases? Is it to be infered that he is so ignorant of this question as not to know that before Confederation no system of Public schools existed in Lower Canada, as in Ontario. In Upper Canada the schools were non-sectarian, and open alike to Protestant and Catholic. In Lower Canada the schools were strictly Roman Catholic, devoted to teaching Roman Catholic dogma, and under the practical control of the Roman Catholic hierarchy. In Upper Canada if a school section only contained a single Catholic child it could attend the Public school without impediment or embarrassment, while in Lower Canada there were, and still are, whole counties where absolutely no provision exists for the education of isolated Protestant families. Considering the circumstances, then, is it to be wondered at that the Protestants of Lower Canada requested that their educational rights be protected by a provision in the Imperial Act of Confederation? And have the French Roman Catholics of Quebec shown such an inordinate degree of tolerance and generosity in permitting Protestants to enjoy that which is solemnly guaranteed to them by the Constitution.

With regard to the statement of "Tolerant Traveller" as to the separation of education from religion, permit me to say that his contention is both absurd and preposterous. The literary education of the earliest generations of Christians was obtained in the pagan schools, in those great imperial academies which flourished in Europe, Asia and Africa, and attained their highest development in Gaul. The first attempt to provide a special education for Christians was made at Alexandria, and is illustrated by the names of Clement and Origen. The later Latin fathers took a bolder stand, and rejected altogether the suspicious aid of heathenism. Tertullian, Cyprian and Jerome wished the antagonism between Christianity and Paganism to be recognized from the earliest years, and even Augustine condemned with great harshness the culture to which he owed so much of his influence. The result of this clerical usurpation was that long hours were spent in the duties of the church, and in learning to take a part in elaborate and useless ceremonies. A most important part of the monastry was the writing room, where missals, psalters, and breviaries were copied and illuminated, and too often a masterpiece of classic literature was effaced to make room for a treatise of one of the fathers or the sermon of an abbot. The discipline was hard; the rod ruled with indiscriminating severity. How many generations have had to suffer for the floggings of those times. Hatred of learning, antagonism between the teacher and the taught, the belief that no learning can be effected which is not repulsive and distasteful, that no subject is proper for instruction which is acquired with ease and pleasure, all these idols of false education have their root and origin in monkish cruelty. Education was still secular in the most important countries, as in Rome, until Greece took her conqueror captive, a child was trained for the duties of life in the forum and the senate house. Prussia arose by leaps and bounds from a petty marquisate until she became one of the mightiest nations of Europe, and surprised the world in 1870 by almost annihilating the powerful legions of France. Von Moltke attributed the success of the Germans on this occasion to the training which they received in the Public schools, and so expressed himself to Bismarck on the field after one of the most decisive battles which has been fought in the history of Europe. About the middle of last century Japan adopted a system of Public schools, and has since displayed a progressiveness and a readiness to avail herself of modern civilization in marked contrast to the rest of Asia, which has rested in the most sluggish conservatism, sleeping while Europe and America were actively moving, content with its ancient knowledge, while the people of the West were pursuing new learning into its most secret lurking places. The United States of America, a nation almost solely the outgrowth of the nineteenth century, has a history full of great steps of progress, illuminated by a hundred events of the highest promise and significance, and stands today as a beacon light of national progress and human liberty to the world, and with her expansion and growth and the amelioration in the conditions of life, the earnest problems of government have been brought home to the people by the teachers in her public and non-sectarian system of schools and colleges. On the other hand, in countries, such as Spain, Austria, Mexico, Italy and the South American Republics, where the hierarchy have had control of education for centuries they have proved an ignominious failure, and those little nations show little signs of waking up to the fact that the world is moving around them, some of them swamped under the tide of inertness and barbarism and existing only in their ruins.

The following was written by that eminent and brilliant Frenchman, Victor Hugo, when the Roman Catholic hierarchy were seeking to get control of education in France; "Ah, we know you. We know the Clerical party; it is an old party. This it is which has found for the truth those two marvellous supporters, ignorance and error. This it is which forbids to science and genius the going beyond the missal, and which wishes to cloister thought in dogmas. Every step which the intelligence of Europe has taken has been in the spite of it. This it is which caused Galileo to be scourged for having said that the stars would not fall. This it is which put Campanella seven times to torture for saying that the number of worlds was infinite and for having caught a glimpse of the secret of creation. This it is which persecuted Harvey for having proved the circulation of the blood. In the name of Jesus it shut up Galileo. In the name of St. Paul it imprisoned Christopher Columbus. To discover a law of the heavens was an impiety, to find a world was a heresy. This it is which anathematized Pascal in the name of morality, Moliere in the name of both morality and religion. You claim the liberty of teaching. Stop; be sincere; let us understand the liberty which you claim. Is it the liberty of not teaching? You wish us to give you the people to instruct. Very well. Let us see your pupils. What have you for Italy? What have you done for Spain? For centuries you have kept in your hands, in your discretion, at your school, those two great nations, illustrious among the illustrious. What have you done for them? I shall tell you. Thanks to you, Italy, whose name no man who thinks can any longer pronounce without inexpressible filial emotions—Italy, mother of genius and of nations, which has spread over all the universe all the most brilliant marvels of poetry and the arts, Italy—which has taught mankind to read, now knows not how to read. Spain, magnificently endowed Spain, which received from the Romans her first civilization; from the Arabs her second civilization; from Providence and in spite of you, a world, America-Spain, thanks to you, a yoke of stupor, which is a yoke of degredation and decay; Spain has lost this secret power which it had from the Romans; this world which it had from God, and in exchange for all you have made it lose, it has received from you the Inquisition—the Inquisition which certain men of the party try today to re-establish; which has burned on the funeral pile millions of men; the Inquisition which disinterred the dead to burn them as heretics; which declared the children of heretics infamous and incapable of any public honors, except only those who shall have denounced their fathers; the Inquisition, which, while I speak, still holds in the Papal library the manuscripts of Galileo sealed under the Papal Signet. These are your masterpieces. This fire which we call Italy, you have extinguished. This colossus that we call Spain, you have undermined—the one in ashes, the other in ruins. That is what you have done for two great nations. What do you wish to do for France? Stop. You have just come from Rome. I congratulate you, you have had a fine success there. You came from gagging the Roman people, and now you wish to gag the French people. I understand. This attempt is still more fine, but take care, it is dangerous. France is a lion and is still alive."

France today, conscious of her disadvantages as compared with the superior educational facilities of the bordering State of Germany, at an enormous expenditure, is secularizing her schools and giving the Clerical Orders, which furnished the teachers, the option of conforming to the new law or quitting her shores. She is also abolishing the concordat made between Pope Pius VII. and the first Napoleon, thereby completing the separation of Church and State. Would France be acting thus if she was not thoroughly convinced that such a course is essential to her retention of a leading place among the nations? Are we not justified, therefore, in pronouncing the element of "Tolerant Traveller" that "all history is opposed to the separation of education from religion" as a stupendous falsehood? And are we to be denominated "narrow-minded bigots" by this "gentleman" because we believe that Separate schools are not in the interests of Canada; and are using legitimate and constitutional means of preventing their encroachment in the West, and preventing the politicians from violating the Constitution? I can assure this "gentleman" that those who are opposing the coercion of their fellow citizens in the West, by a statesman who, in the past, was as unalterably opposed to legislation of this kind as those who are now called bigots and fanatics, will not be so derelict of their duty as Canadians, who have been nurtured in the great principles of civil and religious liberty, to swerve from what we conscientiously believe to be right, because of foul and ungentlemanly epithets flung at us by such "gentlemen" as "Tolerant Traveller," who were once the champions of the principles which they now denounce.

Apologizing for trespassing so far on your valuable space, I beg to subscribe myself,

INDEPENDENT.

Peterborough, May 23rd, 1905.

DEARER LIGHT

Peterboro Light and Power Company Advance Their Rates

All the patrons of the Peterborough Light and Power Company, who buy electric light by meter have received the following circular from the company;

Due to an advance in the price of electric light, made last October, and in order to have all our customers on the same basis, the charge for electric light sold by meter, after June 1st, will be as follows;

Commercial lighting 12 1-2c. per 1000 Watts, with 20 per cent. discount if paid before 15th of the month.

House lighting 10c per 1000 Watts, with 25 per cent. discount if paid before 15th of the month.

J. H. LARMONTH,
Manager.

—This morning at 10 o'clock the members of the three Woman's Auxiliaries in town will take Holy Communion at St. John's church.

BODYGUARDS ATTEND EMPLOYERS TO PREVENT MURDER.

Chicago, May 24.—Fully 100 letters threatening death have been received by the half dozen men who have gained wide publicity as manager of the employers' end of the teamsters' strike.

Serious consideration is being given the letters since exposures made by a confession of a hired thug that he and others made a business of slugging here at the rate of $15 a person slugged.

Bodyguards are now attending all the principals on the employers' side of the teamsters' strike, and all are accompanied day and night by guards. Secretary F. W. Job of the Employers' Association and Robert J. Thorne of Montgomery Ward & Company, admitted having received many threats.

Josie Carr Had Pupils.

Ethel Titus, Aged 10 Admits Stealing a Bicycle and States That the Child-Murderess Taught Her How to do It.

Toronto, May 25.—In the series of which will probably lead to the arrest of other little girl pupils of Josephine on charges of stealing bicycles, carriages, etc. She said that Josephine taught them how to do it. In the Children's Court Ethel appeared before Deputy Magistrate Kingsford, and was remanded to the Children's Shelter, where Josephine Carr is detained. They will not be allowed to communicate with each other, of course.

The Titus girl is bright looking and fairly well-dressed. Her father, she says, drives a coal wagon. Her mother appeared with her at the Children's Court this morning.

AN ALLEGED RECEIVER.

Andrew Fraser, who purchased the bicycle from Ethel Titus, was also arrested on a charge of receiving stolen property. He appeared in the Police Court, pleaded not guilty, and was remanded. The detectives will endeavor to find out if Fraser made a practice of buying stolen property from little girls.

DR. BEEMER WILL REPORT.

Mr. Robinette, counsel for Josephine Carr, has arranged to have the child examined by Dr. Beemer, superintendent of the Asylum for Insane at Mimico, and one of the best known alienists in Canada.

"Not with a view to attesting to insanity, however," said Mr. Robinette. "But to see whether a child of that age and nature can have a general appreciation of the crime of murder."

FOILED ONCE.

Ethel told how on one occasion Josie and she walked away with a carriage which had a baby in it. But a lady presumably the mother, overlook them, and they ran away.

"And what would you have done with the baby if the lady had not caught you?"

"Well, I don't know," replied the child, vaguely.

TOLD OF HER CRIMES.

Ethel gave the police information

Plan to Beat Haultain.

Attempt to Capture New Provincial Governments--Scott and Senator Davis are Liable to Drop Out of Federal Politics.

Winnipeg, May 26.—An Ottawa special says; "The erection of the North-west Territories into two new Provinces is going to make some great changes among the politicians here. Already a number of members are figuring upon dropping out of the Dominion House, and taking a hand in the Provincial arena. There is some talk of Mr. Walter Scott retiring from the representation of West Assiniboia, and taking the leadership for the Liberals of the new Province of Saskatchewan. A dead set is being made to chase Mr. Haultain out, and the Liberals here talk as if it were going to be an easy matter.

"It is as good as settled that Mr. T. O Davis, the recently-appointed Senator, will at once retire from the Senate, and enter local politics with a view to becoming, if not leader of the party for Saskatchewan, at least a Cabinet Minister. Mr. Davis figures that the Cabinet position in Saskatchewan would be infinitely better than his job in the Senate. There would be things doing in a new Government of a new Province, and Mr. Davis takes the Senate as a joke. He is quite confident that Mr. Haultain can be beaten, and that the Liberals will form the first Government in Saskatchewan. The Senator is now in the West, sizing up the situation, and early developments are looked for.

"It is said that the changes involve the appointment of Dr. Douglas, ex-M.P., as Lieutenant-Governor, and that he has agreed to call on a Liberal instead of Mr. Haultain to form a Government, so that the appeal to the country will be made with the Liberals in the saddle."

A Welcome Bonus.

Bank of Montreal Employers Get a Bonus of 17 1-2 Per Cent.

The members of the local staff of the Bank of Montreal received the pleasing intelligence on Tuesday that they were to be given a bonus amounting to 17 1-2 per cent. of their salary. This is following out a custom inaugurated by the Bank, and carried out by it for a number of years in the past, that of sharing the profits with the employes.

At the same time the half-yearly statement was issued, this statement was most satisfactory and showed that the profits for the half year ending April 29th, 1905, after deducting charges of management, and making full provisions for all bad and doubtful debts were $781,960.40. The balance to credit of profit and loss account was $583,196.01 to which was added the profits making $1,365,156.41. A dividend of 5 per cent., being at the rate of 10 per cent. per annum, and amounting to $700,000.00 was paid, leaving the balance to the profit and loss, $665,156.41.

Little Lake Cemetery

Directors Hold Out-Door Meeting--An Innovation as to Burials

The annual outdoor spring meeting of the directors of the Little Lake Cemetery Company was held yesterday afternoon.

The cemetery is looking extremely well, notwithstanding the backward character of the weather. The grass is coming on well, and the leaf and foliage of the shrubs is well advanced.

Large numbers of our citizens visited the cemetery on the 24th mostly for the purpose of spending some time beautifying around their lots.

At Windmill Point the superintendent has made some pleasing changes. Three beds of evergreens and shrubs have been put in which enhance the appearance of this pretty spot.

The tulip beds in rich combination colored in the front of the grounds as well as about twenty private tulip beds throughout the cemetery, present a beautifully bright pleasing effects. The private bed of Mr. Harry Long on section Q., is deserving of special mention;

The new greenhouse adjoining the Superintendent's residence, is proving quite an accommodation to the patrons of the cemetery. Superintendent Wise is very proud of his greenhouse.

The interments this year, so far, are about the same as previous years. Some changes have been introduced at burials. The graves are not filled in at the time of burial—only enough earth being used to cover the rough box. The filling in is done afterwards by the workmen, who are not now required to be present at the interments.

Knights of Columbus

100 Peterborough and Lindsay Knights Visit Belleville.

A special train left here on Wednesday morning for Belleville, having on board, one hundred Knights of Columbus, from Peterborough and Lindsay. In the Bay City there were also visitors from Kingston, Brockville, Cornwall and Ottawa. Mass was celebrated in the opera house as St. Michael's church, was burned some weeks ago and is not yet rebuilt. Rev. Father Hanley of Belleville was the celebrant.

Afterwards the new council was organized in the Foresters' hall about fifty being inducted, several belonging to the Peterborough council.

The work was ably exemplified and the visiting knights were hospitably entertained. The Peterborough visitors returned home about three o'clock yesterday morning.

London, Ont., Visited By A Destructive Blaze Yesterday.

A Million Feet of Lumber Destroyed, Dyment Baker's Factory and Part of London Machine Tool Plant--Fire Caused By a Rocket--Loss is Fully $75,000.

London, May 26.—The most serious three M.C.R. cars, containing $8,000 fire in London since the destruction worth of machinery, which were on of the Grand Opera House block in 1899, broke out at two o'clock yesterday morning in the Dyment Baker Co.'s planing mill and box factory, at the corner of Wellington and Dathurst streets. In less than two hours the flames had consumed the factory, together with a part of the London Machine Tool Company's plant to the east, over a million feet of lumber belonging to the Dyment, Baker Company, piled across the street; lumber, and $3,000 worth of hardwood lumber stored in the yard of Tamblyn & Jones, builders, in rear of the Tool Co.'s works. The loss will be fully $75,000, with about $50,000 insurance. Of the loss $12,000 is sustained by the Michin Tool Co., and from $30,000 to $35,000 by the Dyment, Baker Co. The Michigan Central will be responsible to the Deering Harvester Co. for their loss on machinery.

A Shocking Death.

Wilson Cowling, Cavan, Kicked to Death by a Horse.

A very sad and fatal catastrophy was enacted last Sunday night at the farm of Mr. Thos. Cowling, Cavan, near Millbrook. The boy was feeding a horse in the stable, when the animal kicked him in the head, the caulk of the shoe penetrating the skull and injuring the brain.

The unfortunate boy was only 12 years of age, and was helping his father. The latter had taken the milk pails, and gone to the cow stable near that where the horses were, and the boy went into the latters' stable to feed and water them.

In a few minutes his father heard a noise in the adjoining stable and ran in to find his son lying on the floor unconscious, with his head crushed. One foot had hit the boy in the head inflicting the injury mentioned, and the other had hit him on the leg.

Fears were entertained for his recovery, and it was decided to bring him to the Nicholls Hospital here, and the injured lad was placed in a buggy and the trip to Peterborough commenced, but he expired while on the road, never having regained consciousness.

The funeral took place on Tuesday afternoon to this Centre-town Cemetery, Northumberland Township.

The deceased was the only child, and his parents have the sincere sympathy of the community in their trouble.

Obituary.

Mrs. Francis R. Darling of Dummer Passes Away.

The death occurred at her residence, 4th concession, Dummer, on Tuesday, May 23rd, of Margaret Middleton, wife of Mr. Francis R. Darling, after an illness of about three months' duration, of dropsy.

The deceased was 38 years of age, and was a daughter of Mr. and Mrs. John Middleton, of Dummer Township. Her husband is a son of the late William Darling, for many years License Inspector for East Peterborough, and County Councillor for his township.

The late Mrs. Darling leaves to mourn her loss three daughters, Kate, Margaret and Bella; besides six sisters, four of whom are married, and one brother. Her parents both reside in Dummer.

The funeral took place yesterday afternoon at two o'clock from the family residence to St. Mark's Cemetery, Warsaw, for interment.

Death of Mrs. Katharine O'Brien.

After a long illness, and beloved by many warm friends, on Wednesday evening, Mrs. Katherine O'Brien, relict of late Thos. O'Brien died at her late residence, Hunter street, Fifth Ward, at the age of 67 years. Funeral this morning at 10 o'clock to St. Peter's cathedral, from the family residence, 193 Hunter street east. No flowers.

Anglican Deaneries.

Boundaries Not to be Altered for the Present

A joint meeting of the Rural Deaneries of Peterborough and Haliburton was held on Wednesday at Lindsay to discuss the re-arrangement of the boundaries, and the consequence is that the boundaries will remain the same as formerly.

A lengthy discussion took place on the proposal to combine the two northern deaneries, but nothing was done with reference to it, the clergymen of the Haliburton Deanery being opposed to the contemplated amalgamation, while those from this Deanery were strong supporters of it.

PERSONALLY CONDUCTED TOUR

To California and Lewis and Clark Exposition, Portland, Oregon

A personally conducted excursion to the Pacific Coast via The Grand Trunk Railway System and connecting lines leaves Quebec July 5, and Montreal and Toronto July 6. The route will be via Chicago, thence through Council Bluffs to Omaha, Denver, and Colorado Springs. Stops will be made at each of these places, and side trips taken to Manitou, Cripple Creek, Garden of the Gods, etc. From there the party will continue through the famous scenic route of the Denver and Rio Grande, through the Royal Gorge to Salt Lake City, thence to Los Angeles, San Francisco, and home through St. Paul and Minneapolis. The trip will occupy about thirty days, ten days being spent on the Pacific Coast.

The price for the round trip, including railroad fare, Pullman tourist sleeping cars, all meals in the dining car, hotels, side trips, etc., is $165.50 from Quebec or $160.50 from Montreal and $150.00 from Toronto. This first trip is designed as a vacation trip for teachers, although many who are not teachers will improve the opportunity of taking the trip at the remarkably low price afforded.

For full particulars address E. C. Bowler, General Agent and Conductor, Room 368, Union Station, Toronto.

A Twin Catastrophe.

A Local Grocer Enters Cat Raising with Poor Success.

To raise a quadruped "Happy Family," was the ambition of a local George street grocer recently.

Mr. A Rountree who recently purchased the grocery business of Messrs. E Brown & Co., whilst pleased with the good trade done, by a new star in the grocery firmament, discovered, to his dismay, shortly after obtaining possession, that other animals than man are attracted by the appetizing odors and taste of such goods as he handled.

In other words he found that mice frequent grocery stores. Not wishing either the pleasure of their company, or to have goods nibbled at, and thereby only fit to be thrown out, Mr. Rountree went in for kitten raising in his store. The kittens, at first did not thrive, and either ran away or committed suicide. Having made the cat industry a study for a week or so, Mr. Rountree obtained two more brother kittens, and put them on a fresh milk diet, with soft and downy sleeping appartments in the rear of the shop. All was doing well until the genial cat raiser thought the kittens looked lonely. To give them pleasant and, seemingly congeneal company, Mr. R. purchased a very young bull-terrier puppy and gave it a share in the kittens' box.

For a time everything went as merry as a marriage bell, until the kittens learned they had claws, as did the puppy. From a solemn post mortem held yesterday afternoon, it was apparent that the kittens must have tried conclusions with the bull, who had evidently resented tweaty sharp little claws being inserted in his retrousse nose. The marks were in evidence He chivied his two foster brothers out to the yard, and they, endeavoring to escape, jumped, or tried to jump, over a barrel, half full of rainwater, but, with the inexperience of youth, miscalculated the distance, and played McGinty.

Mr. Rountree has given up the idea of amalgamating bull pups and kittens, but has bespoken another shipment of felines who will have to find fun for themselves.

MR. HATTON'S LETTER

Regarding the Legislation re City Incorporation

We publish elsewhere a letter from Mr. George W. Hatton, regarding the recent legislation in connection with the town. It will be seen that, Mr. Hatton apparently did everything that reasonably could be done to secure the defeat of the objectionable clauses in the town's bill, by which Peterborough is to be incorporated as a city. The whole trouble was that action against the bill was not taken sooner. Had this been done there is no doubt whatever that Peterborough would have remained "the best town in Canada."

HOW ARE ALL AT HOME? Buy a bottle of Painkiller today and you will be insured against cholera morbus, diarrhoea and kindred troubles. The old reliable Perry Davis Painkiller is sold by all dealers. 25c, and 50c. bottles.

A Death From Heart Disease

Overtake Those Who Neglect Their Weak Heart and Tired Nerves.

FERROZONE

Is the One Sure Heart Tonic That Always Cures

An attack is liable to come at any time from over-exertion, excitement or emotion.

If blood rushes to your head and palpitation and shortness of breath are noticeable, there's great cause for alarm.

A. F. Beattie, of the Alton Hotel, Bay City, Mich., was cured of heart disease by Ferrozone. See if your case is similar to this;

THE SYMPTOMS:

Nervousness	Palpitation
Trembling	Dizziness
Sinking Feeling	Heart Pains
Short Breath	Weakness

Mr. Beattie says;

"I was weak and miserable.

"I was a subject to heart palpitation and dizziness.

"As I grew worse I began to have trembling and sinking sensations.

"Ferrozone strengthened *my* heart, gave vigor to my nerves, soon made me well. It's a great builder."

The one medicine for the people with weak heart and poor nerves is Ferrozone, 50c. a box or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to for o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

UNION LABEL

PETERBOROUGH, MAY 26 1905

SPARE THE BIRDS!

The Wingham Times assists in the laudable duty of protecting our feathered friends in their most interesting domestic period while amongst us. Complaints, it says, are made of the wilful destruction of the nests and eggs of our beneficial birds by boys who should know better. The law against this mischievous practice is set forth by our contemporary as a warning to all such marauders, as follows;

"It shall be unlawful to shoot or injure any bird, or take, injure or have in possession the nest or eggs of any birds except hawks, crows, or blackbirds and English sparrows. The fine for the violation of this Act is from $1 to $20 with costs, the whole fine to be paid to the prosecutor."

If the farmers and orchardists who are chiefly interested in preserving the bird creation, for the good they do in destroying injurious insects, could catch the shooters of birds and robbers of nests, and make an example of them, it would have a wholesome effect. It is as hard to understand as it is humiliating to think that there are in every community creatures made in fairly convincing imitation of human beings who are so destitute of proper sentiment and so ignorant of the effect of wholesale and wanton destruction of bird life as to give themselves up to this criminal career with perfect impunity. If mature birds were killed for food it would be in part excusable where no other food is within reach. But the outrageous person who would kill an insect-eating songster and pay the fine, as one did not long ago with the remark that he had plenty more dollars to pay such fines with, proves that he has intentionally and deliberately as well as laboriously protected himself from acquiring the decencies of civilization.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

MR. HATTON'S LETTER

Regarding the Legislation re City Incorporation

(To the Editor of The Times.)

Dear Sir,—Your editorial, "Should Bury the Hatchet," has been referred to me, with the request that I should reply to same.

The article referred says "that The "Times has consistently and persistently opposed the view of Peterborough's incorporation as a "city, in the knowledge that a vast "majority of our citizens of all "classes oppose it, and in the belief "that such incorporation, under "forced growth of Parliamentary assistance, rather than the requisite "population, is unwise."

"It now seems that the Council "who inaugurated the idea, for reasons best known to themselves, and "our civic officials, have managed "their plan of campaign better than "the public majority."

Mr. Bradburn, the peoples representative in the Legislative Assembly, according to your interviewer (and before placing myself on record your Editorial Department has declared that the interview as reported was true) and that you would stand by it, and I have seen Mr. Bradburn and handed him a copy of this reply) stated that he had never seen the huge petition against incorporation; that Mayor Beat did not take him into his confidence when he went to Toronto to oppose the Bill, or tell him about the great opposition there was to the Bill, or that part of it referring to incorporation, until they met before the committee. The Times' reporter then concludes that the opponents to the Bill mismanaged the matter. I take exception to this conclusion, and I think that it is my duty to do so.

Should I, before witnesses, if possible, have driven our worthy representative into a corner and compelled him to place himself on record in the matter? Having a fellow friendly feeling for Mr. Bradburn, I satisfied myself by asking him, when I first appeared before the committee, viz.,—on May 2nd—as to his attitude about his Bill in regard to City incorporation. Mr. Bradburn said to me, "he was perfectly neutral, that he did not care one way or the other, and that personally he was against incorporation." We went before the Private Bills committee on May 2nd, with the result that every one knows who has been following and taking an interest in this question; and Mr. Bradburn never by word, deed or action put himself on record one way or the other on that occasion. The committee, if they did not actually throw the whole Bill out, intimated very strongly that they would like to, and had it not been Mr. Bradburn's first Bill and the committee not as yet independent enough to take the stand they felt they should take, out would have gone the Bill in its entirety. "A most dangerous Bill," "specious legislation," "do you wish to enlarge on the powers legislation has given you?" and remarks of a like nature came from the chairman. Many a good representative member has had his bill amended, if not thrown out, without losing prestige.

Next day, May 3rd—things differ—how? A deputation appointed for the purpose of interviewing the Public Works Department, in the interests of the conservation of our waters. Instead of going out of the building when their business was through, they were introduced to Mr. Carscallen, the chairman of the Private Bills committee. What had Mr. Carscallen to do with the "conservation of waters" deputation? And why should Mr. Carscallen receive and listen to this deputation on the question of civic incorporation? He had only the day before adjourned the hearing of the Bill for one week, ordering all those who were interested to attend. Mr. Carscallen is a lawyer; he is supposed to act in a semi-judicatry capacity, at least when acting as chairman of a committee. The members of the deputation present on the 3rd of May, and who expressed themselves, were Councillors, representatives of the Council, the Town Trust Commissioners, and persons directly interested in certain clauses of the Bill. The people were not represented. Mr. Bradburn, on that occasion, I am told, never gave expression to any opinion one way or the other.

May 9th, I was in Toronto with a new petition of over 600 names. Learning from one of the gentlemen present, who signed the petition against incorporation, that the Private Bills committee would pass the Bill as it was, I again went to Mr. Bradburn and told him what I had learned and again asked him if he was opposed to the prayer of the petitioners? and had he changed his mind? and was the application as contained in the Bill certain to be complied with? I was everything cut and dried? and he replied "not that he knew of, and that he had not changed his mind as to remaining neutral."

Mr. Bradburn was in town between the date of the first protest before the Private Bills committee and the date of the second. He surely cannot deny notice, therefore, of the first petition. When the second protest was made, and the petition signed by our citizens, placed upon this table in his presence, he did not ask to see it; he did not then, or at any time, to my knowledge, or to the knowledge of any one else, place himself officially or privately on record. Might he not, without any loss of dignity on his part, have made enquiries as to the names and standing of the citizens who had first of all petitioned to the Council and afterwards, as requested by the Council, to the Legislature.

Differing from the views of the chairman of the Private Bills committee as to the proper course to take, I did not drive our representative into a corner and compel him to commit himself. I should not wish to be placed in that position myself after having distinctly stated I was neutral. If Mr. Bradburn's excuse is, as I understand it, that he did not read a copy of the petition, and that the matter had gone too far to be reconsidered, I would ask whose fault it was that he did not see a copy of the petition itself? He knew part of it was on file in the Town Clerk's office; it is only a few yards from his own office; he was here Friday, Saturday, Sunday and Monday. The second petition, addressed to the members of the Legislative Assembly, as directed by the Council, was tabled; it was then his property, had he cared to take it up. As to its being too late, if that is so, why did Mr. Bradburn invite us to attend before the Private Bills committee on that date, placing a lot of work and considerable unnecessary expense on the petitioners against incorporation? At his especial invitation the citizens went to Toronto a second time to present our prayer, and but two of the deputation were even permitted to express themselves. Your conclusion that the matter was mismanaged is one that Mr. Bradburn states positively you had no right to arrive at on the basis of the interview referred to.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[3] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 30 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations nd private firms in Western Canada.

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1 00, but fifteen months hence you will probably pay from $5.00 to $20 00 per share.

THERE IS NOTHING EXTRAORDINAR

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $300 00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least two thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

W. K. HALL, Fiscal Agent, Peterborough.

3 Dividends of $32,000.00 Each in 3 Months

L. L. PATRICK, Pres. W. H. EDDY, Treas.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $5 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and New Foundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and end it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $4,000 for a $100 share; yet purchasers at that price made money, and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of those supposed fools still enjoys the fruits of their folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now, don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man wants 40? per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph, of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a year.

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY, COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 300 feet in length with a depth of 800 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to seventy feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo Colo., has averaged a little over $30 per ton, per ore settlement sheets on file. At the per cent price of silver these shipments would have averaged $60 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $3 40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $8 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ores so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $780.00 per ton and for gold $825.00.

With an average value of $35 00 and transportation and treatment expenses of $12 40 a ton, the net value of our ore has been $37 60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 575,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

"MISSING LINK" FOUND, SAYS A GERMAN DOCTOR

Professor Uhlenhuth Bases His Declaration on the Similarity of Blood in Human Beings and the Higher Apes

Berlin, May 23.—Professor-Doctor Uhlenhuth, an eminent army doctor, definitely claims to have discovered the "missing link" by a long series of investigations, having established the similarity in every respect of the blood of the high apes and human beings.

"If the blood serum of one animal be mixed with that of any other, the mixture remains clear. If, however, blood be taken from an ape and injected into the veins of a rabbit the blood subsequently taken from this rabbit becomes troubled when mixed with more ape's blood. A similar result is obtained if human blood be injected into the veins of a rabbit, and this simple experiment is often relied upon to prove if a spot of blood found on the clothes of a suspected murderer is human.

The phenomenon is observed only when the blood of some living animal is used, and the higher the ape in the scale of development the more pronounced is the reaction.

UNIONS AIDS MURDER

Hires Lawyers to Defend Men Held for Carlstrom's Death

Chicago, May 24.—The Carriage and Wagon Makers' Union has retained Attorneys Seymour Stedman and George Remus to look after the interests of the imprisoned union officials who are accused of connection of connection with the murder of Charles A. Carlstrom. A petition for a writ of habeas corpus will be filed in the Circuit Court this morning seeking the release of John Helden, one of the union men under arrest. Inspector Lavin's detectives continued their search yesterday for George Meller and the other men wanted, but without success. Detectives Howe and Biddinger went to the Seammon school to seek information from a pupil, but the woman principal refused to allow them to see the pupil. The inquest over the victim of the hired thugs was yesterday continued until May 25. The hearing of Gilhooley, Lloney and Feeley is set for 4946 morning.

THE PLAN HELD UP

No George Street Extension Contemplated This Year

The Board of Works decided on Monday night that the George street extension will not be taken up this year. The option on the property affected have expired, but satisfactory arrangements could still, in all probability, be made to attain an equitable purchase.

Mayor Hunt is one of three property owners who agrees to give the town their land for the street free but it is on condition that the street railway shall pass down the new street. It appears that there is not much probability that the company will do this, at least this year, so their action holds up the scheme.

The Mayor, however, is in favor of allowing the whole matter to stand until later.

It appears that there are two alternative proposals now being considered, one of which is to open up Aylmer street instead of George and the other is to open a new street half way between George and Aylmer streets. It is recognized however that these are not as desirable as the continuation of George street.

It is altogether probable with a changed Council next year the extension will become an fait accompli.

BOARD OF WORKS

He had a petition signed by 85 per cent. of the ratepayers effected, and he was asked to have the petition signed by two more of the ratepayers, when it will probably be granted.

Several petitions for comparitively small sidewalk improvements and additions were presented and granted.

Mr. George Curtis requested that a plank sidewalk be constructed at the corner of London and Downie streets which was granted.

Ald. Hall moved, seconded by Ald. Bliss, that the Street Railway Co. be instructed to repair the crossings on the tracks torn up by them in constructing their track. The crossings at Sherbrooke and Park streets was mentioned particularly.

Ald. Crowe and Batten moved that a new Kanolithic crossing be laid at the corner of Hunter and Queen streets.

The offer of Mr. Dumble to give a right of way for a street extending Cambridge street was discussed, and practically refused.

KING ALFONSO'S TOUR

He will Leave Madrid for Paris and London on May 28

Madrid, May 23.—The Spanish Minister of Foreign Affairs states that King Alfonso will leave Madrid for Paris on May 28. He will break his journey at San Sebastian for some hours, and leave Hendoye the following day, reaching Paris on the 30th. The young king will be accompanied by Senor Villadverde, the premier, the minister of foreign affairs, his entire military household, and a numerous suite. No definite arrangements have yet been made for his proposed visit to England.

MUST NOT DUN IN PUBLIC

Superior Court Condemns a Creditor Who Made Public Demands

Montreal, May 24.—An interesting case has been decided by Mr. Justice Archibald, in the Superior Court. The question at issue was, as to the right of a creditor to demand payment of the debtor for a debt due him, in public. The action was taken against Mr. James Devlin, of the Albion Hotel. The plaintiff, Mr. A. R. Strutt, had been living at the hotel, and it was alleged that on leaving, there was a small balance due the defendant, over which there was some dispute. The plaintiff claimed that he was entitled to an itemized account showing the extras he was paying for. This account not being forthcoming, the plaintiff delayed payment of the balance, and the defendant met the plaintiff on St. James street on several occasions afterwards, demanded payment, accompanied as the plaintiff alleged by several epithets, not usually considered parliamentary. The judgement was rendered in the plaintiff's favor for $50.00 and costs.

THE LEMON BROS.' SHOWS

Said to be The Greatest Circus of Modern Times

Call all the others what you will, but when all is said and told, and retold, there is but one Great Circus which is in every particular and detail the greatest and grandest of the entire world's circuses, and that is Lemon Bros. show which is coming to Peterborough on Thursday, June 1, in all its regal magnificence, its unrivaled splendor, its unequaled numbers and vast proportions. Under the greatest city of snow white tents ever erected on any grounds, will be seen, fully one hundred—count them!—one hundred exalted stars, who will give one hundred and fifty superior acts, too numerous to classify, too many to name, too multifarious to describe. Bareback riding, hurdling, trick, fancy and manege riding, aerial acts, grand gymnastics, tumbling, vaulting, leaping, athletic and contortion feats, juggling, equilibristic pole balancing, braking ladder, and other acts. Unique, stately, astounding, aerial stage and arenic performances, not seen elsewhere. Many of them by foreign artists, plenty of them by home artists. Remember the date, and do not miss the big show.

BETTER THAN GOLDFIELDS NEVADA

The East Pacific Mining Co.

OF HELENA, MONTANA

OFFERS FIFTY THOUSAND SHARES of its Treasury Stock for sale at

$1.50 PER SHARE

All the money received from the sale of this stock will be used to place larger and improved machinery at the mines; to install an electric power line; a large compressor and hoist capable of sinking the property at least one thousand feet deeper; and to build a concentrating mill to treat the 23,000 tons of second class ore now already out on the dumps.

CONCENTRATING MILL IS NOW IN PROCESS OF ERECTION

and is expected to be completed and in full operation inside of sixty days, when stockholders can be assured of receiving regular monthly dividends of from 2 to 5 cents per share.

Lung, Throat and Catarrhal Troubles

MARVELLOUS DISCOVERY THAT HAS DELIGHTED ALL CANADA BY ITS PROMPT CURES

The method that has proved successful through its enormous advantages of being pleasant and free from the danger of creating the drug habit employs dry air as the carrying agent.

By this method every part of the breathing apparatus is bathed by a medicated air. Germs which excite the trouble are immediately destroyed. Sore and tender spots are healed and the congested surfaces restored to normal condition.

This method of treatment is known as Catarrhozone, and has obtained a hoting never attained by any other remedy for the many diseases affecting the respiratory tract.

Catarrhozone is fragrant, healing, balsamic, pleasant as the air of the pine woods and more active as a healing agent than anything hitherto discovered. It contains neither cocaine nor any of those irritating substances which really increase the congestion and add to the difficulty, instead of curing as Catarrhozone so quickly does.

MRS. RINY BROWN, of Tenecape, N.B., had lung trouble and catarrh. She took cough mixtures but they made her sick. Then she used an atomiser, but after resorting without benefit to poultices and numerous other remedies, she tried Catarrhozone. "I used Catarrhozone Inhaler," she writes, "five minutes every hour, and soon recognised it was going to cure. I could feel the soothing medicated air spreading through the air passages of the throat, and it touched the sore spots in the lungs that other remedies failed to reach. Catarrhozone seemed to go just where it was needed most, and soon put a stop to my cough. It restored me to perfect health, and I am convinced that no cough, cold or catarrh can exist where Catarrhozone is used."

This complete Catarrhozone outfit contains a large bottle of inhalant, sufficient to keep recharging the inhaler for two months. It costs $1.00 and is guaranteed to cure; sample size 25c. Sold by all druggists or sent direct to your home by mail if price is forwarded to N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

WHY?

Because we are keeping up with the growth of Peterborough, the "Electric City," which is fast becoming a leading manufacturing centre of Canada.

Over 80 per cent. of those graduating are placed in good positions in Peterborough. Attend school where you have such prospects.

NOW IS THE TIME TO ENTER

If you cannot attend our School write for particulars regarding our correspondence course.

WM. PRINGLE

The Lakefield Stabber Remanded

Dominico Barcastro, the Italian who was charged with stabbing his companion in Lakefield on Monday night in a drunken quarrel, was brought to Peterborough on Tuesday and was taken before Police Magistrate Edmison and remanded for trial, which will be held next week.

Satisfactory Settlement.

Mr. Adam Hall and the men who walked out of his establishment several days ago, had a conference on Tuesday night, and the result is that the sheet metal workers were all at their posts again yesterday. Two men, who were receiving $2.50 per day each, do not get any increase. Three others, who were getting $1.65, $1.75 and $2.00 per day, obtain an increase of ten per cent. as demanded by the local union some time ago.

Street Railway Does Good Business

Mr. Larmouth, of the Street Railway Company, stated yesterday that the crowd was so great on Empire Day that the Company was compelled to put on all three extras to accommodate them, in all, eight cars on the line. While a large number went to the driving park to attend the band concert given there by Nash's band, a still greater number journeyed to Jackson Park to enjoy the cool and refreshing breezes in the shadow of the pines. The company estimate that something like 5,700 people travelled over its lines yesterday.

Breaches of the Fire Works Law.

We notice a very strong article in an esteemed evening contemporary of yesterday's issue, on the many breaches, during Empire Day, of the by-law forbidding the use of fireworks. The article says very truthfully that a breach of these minor laws, leads to laxity in observance of more important legislation. This is very true, and it is also true that fireworks were used in considerable quantities; in fact in the grounds of a large mansion, towards the north end of town, there was undisguised infraction of the by-law, many expensive fireworks being openly and defiantly set off.

Bible Conference.

Notwithstanding the many re-unions, associations and attractions of Victoria Day, to which citizens could legitimately with pleasure and profit turn a large number were glad of the holiday to enjoy the services in connection with the Bible Conference in St. Andrew's Church. On Wednesday night a most impressive address was given by Evangelist Russell from Romans 3, 19-20, "That every mouth may be stopped, and all the world become guilty before God. Therefore by the deeds of the law there shall no flesh be justified in his sight; for by the law is the knowledge of sin." Mr. Russell in very vigorous and earnest tones pictured the deluded condition of (1.) Ruined Humanity, 2. Respectable Humanity and (3.) Religious Humanity, in their unsaved state, and appealed to his audience to consider the matchless grace and love of God in the wonderful provision made for man in the Redemption through Christ.

Homeseekers' Excursion to North West.

On June 13th and 27th and July 13th the Canadian Pacific will sell Homeseekers' excursion tickets to Manitoba, and the Canadian North-West. The rate from Ontario points to Winnipeg and return will be $30.00, Deloraine $33.700, Yorkton $33.00, Prince Albert $36.00, Calgary $38.50 and Strathcona $40.50. Proportionate rates to many other places. Those tickets sold on June 13th will be good to return until August 14th and on June 27th until August 28th and July 15th until September 16th. Excursionists can take advantage of our tourist car accommodation. Early applications for reservations should be made to Mr. W. Maughan, City Passenger Agent, 1 King street east, Toronto. Berth rates in tourist cars are as follows; Winnipeg $4.00, Calgary $6.00. For further particulars call upon your nearest railway agent, or write C. B. Foster, District Passenger Agent, Canadian Pacific, 71 Yonge street, Toronto. 2d

—A gentleman living in the vicinity of Jackson Park, and who knows whereof he speaks, is authority for the statement that there were at least twice as many pleasure seekers in the park on Empire Day, as were ever seen in that pleasure resort before at one time.

COFFEE CONGESTION

Causes a Variety of Ills

A happy old lady in Wisconsin says;

"During the time I was a coffee drinker I was subject to sick headaches, recurring every 2 or 3 weeks, and sometimes lasting 2 or 3 days, totally unfitting me for anything.

To this affliction was added, some years ago, a trouble with my heart that was very painful, accompanied by a smothering sensation and faintness.

I would be unable to lie down, but was compelled to sit gasping for breath until I was perfectly exhausted.

Dyspepsia, also, a few years ago came to make life harder to bear. I took all sorts of patent medicines as well as doctor's prescriptions, but none of them helped me for any length of time

"The doctors frequently told me that coffee was not good for me; but without coffee I felt as if I had no breakfast. I finally decided about 2 years ago to abandon the use of coffee entirely, and as I had read a great deal about Postum Food Coffee, I concluded to try that for a breakfast beverage.

I liked the taste of it and was particularly pleased to notice that it did not 'come up' as coffee used to. I had only hoped that the Postum Food Coffee would help my digestion, but I soon found that it was doing much more than that. The bad spells with my heart grew less and less frequent, and finally ceased altogether, and I have not had an attack of sick headache for more than a year. My digestion is good, too, and I am thankful that I am once more a healthy woman. I know my wonderful restoration to health came from quitting coffee and using Food Coffee." Name given by the Postum Co., Battle Creek, Mich.

"There's a reason," and it is this. Coffee has a direct action on the liver with some people, and causes partial congestion of that organ preventing the natural outlet of the secretions. Then follows biliousness, sallow skin, headaches, constipation and finally a change of the blood corpuscles and nervous prostration.

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. C. J. Olle spent the holiday in Toronto.

—Mr. Reg. Turner is in Toronto on business.

—Mr. John Craig left for Toronto yesterday morning.

—Mr. E. S. Clarry spent the holiday in Millbrook.

—Mrs. J. Harris McLellan, left for Toronto on Tuesday for a short visit with friends.

—Mr. Dickinson, accountant of the Bank of Commerce, was in Belleville over the holiday.

—Mr. F. W. Kelly, principal of the Fifth Ward School, spent the holiday at Port Hope.

—Mr. T. E. Bradburn, M.P.P., returned to Toronto yesterday after spending the holiday at home.

—Dr. Andrew Scott, London, was home for a visit with his parents, 5th ward, over the holiday.

—Mr. T. Kelly and Mr. T. Black, of the Bank of Toronto, spent the holiday in Millbrook.

—Miss Ada Templeton, of Toronto, spent the holiday in town, the guest of Miss Florence C. Hall.

—Mr. R. N. Jolliffe has left for Toronto where he will study music with Herr Wilhelmj.

—Miss Olton of the teaching staff of the public school, spent the holiday at her home in Campbellford.

—Mr. John Jayes of the Munro House, was in Toronto, yesterday, where he had a "look-in" at the Woodbine races.

—On Wednesday Mr. G. B. VanBlaricom paid a visit to the gold mines of Harris township in his professional capacity.

—Mr. and Mrs. W. C. Routley were in town over the holiday on a visit with Mr. Routley's parents, Mr. and Mrs. C. B. Routley.

—Mr. Fred McLaughlin of Sturgeon Bay, Ont., who has been visiting his uncle, Mr. Alfred Garlick, of 332 Water street, returned to his home yesterday.

—Mr. E. Linder, carriage painter, left town yesterday for Toronto. He is going into the grocery business with his brother, in Parkdale.

—Mrs. A. T. Dorland, 320 Water street, expects to leave town to-day for Brighton, where she will make her home for the immediate future.

—Among the visitors in town on Wednesday from Port Hope were Mr. and Mrs. Jack Renwick, and family and Mr. and Mrs. E. V. Dyer and Miss Verna Dyer.

—Mr. E. Victor Cawdron, of the Molson Bank; Toronto, formerly of Ottawa, was a guest of Mr. R. C. Hayward, of the Bank of Commerce, town, over the holiday.

—Mr. Cecil Kylie, who has been ill for some time with pneumonia and pleurisy, is very much improved. His many friends in town will be glad to hear of his early recovery.

—Mr. Houllette and Mr. Schuchman, of Pittsburg, Pa., of the Star of the East Mining Co., arrived in town Tuesday. They will spend several days in Harris Township, where the mine is located

—Our readers will learn with the deepest regret that the condition of Miss Addie Calcutt, daughter of Mr. Harry Calcutt, last night was much worse. She has been ill for the past few days but little hopes were entertained for her recovery late last night.

—A delightful tea was given yesterday afternoon at the Club House of the Peterborough Golf and Country Club, by Mrs. K. Eardley-Wilmot. About fifty ladies were the guests of Mrs. Eardley-Wilmot, who made a charming hostess.

—The many friends of Mrs. (Rev.) Adam, nee Miss Elliott, will regret to learn that she is still confined to the Nicholls Hospital, where she has been for some weeks. It is to be hoped, however, that a change for the better will soon take place. Mrs. Adams has many friends who earnestly hope for her speedy recovery.

—Mrs. (Rev.) O. C. Elliott, of Belleville, formerly of Peterborough, is spending a few days in town with her sister, Mrs. John F. Allen, 170 Aylmer street, previous to her departure for Stratford, where Rev. Mr. Elliott has accepted a call. The knowledge of Mrs. Elliott's presence in town will be learned with pleasure by her large circle of friends here.

KING ALFONSO'S TOUR

He will Leave Madrid for Paris and London on May 28

Madrid, May 25.—The Spanish Minister of Foreign Affairs states that King Alfonso, will leave Madrid for Paris on May 28. He will break his journey at San Sebastian for some hours, and leave Hendeye the following day, reaching Paris on the 30th. The young king will be accompanied by Senor Villadverde, the premier, the minister of foreign affairs, his entire military household, and a numerous suite. No definite arrangements have yet been made for his proposed visit to England.

The Burdens of Modern Civilization.

Normally a woman should have no discomfort so far as feelings of discomfort are concerned, at each recurring period. But modern civilization has added its conditions of ever-present suffering to a large proportion of American women. The great bulk of such cases is due to inflammatory or congested conditions within limited territories which can be overcome by the right treatment. Of course, this local irritation is followed by headaches, backaches, nervousness, irritability, and, indeed, often results in nervous prostration or collapse which might have been avoided by proper treatment.

$500 REWARD FOR WOMEN
WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

WORLD'S DISPENSARY MEDICAL ASSOCIATION, Proprietors, Buffalo, N. Y.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Supervision and Fire, Water and Light Committees met last night.

—The open car made its first appearance for the season on the street railway lines on Wednesday.

—The Girls' Guild of St. John's church will hold a lawn social early in June on the church grounds. Watch for the date.

—The death occurred in Monaghan township on Wednesday of James Whitfield, at the advanced age of eighty-four years. Funeral arrangements are undecided as yet.

—A special meeting of Court Peterborough, No. 29, C.O.F., was held yesterday evening in the Foresters' Hall, Simcoe street. A large number of applications for membership were dealt with.

—Pastor Stoerrnagal and a company of workers will conduct a Gospel service in the church at Auburn to-night. The public generally and the people of Auburn in particular, are cordially invited.

—County Councillor Dennis Maloney of Douro township, has erected a handsome new residence upon the site of his former home which was destroyed by fire under such tragic circumstances some months ago.

—We are having at the present time some unusually cool nights, and the thermometer almost nightly goes perilously near the freezing point. Last night the mercury stood at 33 degrees as the coldest during the night.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrography Work. Studio 134 Brock Street, Peterborough.

—Interest increases in the Summer Bible Club at the Y.M.C.A. on Saturday nights from 8 to 9 o'clock. As the leader will be absent this week, the study will be led by Rev. W. MacKay, assistant pastor of St. Paul's church. Mr. Homer Herd will lead the song service that precedes the study. All young men are welcome whether members of the Y.M.C.A. or not.

Sport and Adventure with Rod and Gun

Rear-Admiral Rojestvensky Has Divided His Large Fleet?

Fifteen Vessels Coaled at Saddle Island Near Shanghai--Others Were There the Day Before and Will Go Through the Korean Straits--Japan Is Confident.

Shanghai, May 27.—There are indications that Rear-Admiral Rojestvensky has divided his fleet.

Seventeen vessels of the Baltic fleet anchored at Saddle Island last night. It is believed that they coaled there, and that from that point they will proceed north.

Saddle Island is about 75 miles southeast of Shanghai.

Tsingtau, May 27.—The whole Russian fleet is assembled near Woosung, and the German squadron is preparing at Tsingtau for eventualities.

Woosung is ten miles north of Shanghai.

Tokio, May 27.—The location of Admiral Togo's fleet continues to be secret. Popular feeling is undisturbed, and the Japanese public is confident that Admiral Togo is prepared to meet any situation.

EUROPE A NEW ROMAN EMPIRE

Aim of Kaiser's Entry Into the International Arena

EMPEROR'S LATEST DESIGN

Will Pose as the Protector of Roman Catholics in the East—Perpetual Right of Interference

London, May 27.—A few weeks ago the likelihood of a Russian naval defeat, which is now regarded as probable, would have tended to strengthen all the markets, for it would have been regarded as a precursor of peace. Now its influence is quite the opposite, and a depression deeper than for many months prevails in all speculative centres.

The reason for this change is solely the entry of the Kaiser into the international arena, and fears of his sinister schemes for German aggrandizement. A complete Russian collapse would greatly favor his designs and the enigma of their real nature is the problem that has been absorbing the attention of every statesman of Europe. The reported German seizure of Chinese territory provided a day's sensation, and now the diplomatists are studying the probable effects of Emperor William's evident desire to succeed France as the protector of Roman Catholics in the East. This design was the real object of the Kaiser's summons to Metz of Chancellor Von Buelow and the two German cardinals.

PERPETUAL RIGHT OF INTERFERENCE.

The idea was disclosed in subsequent speeches by the Kaiser and the cardinals when they congratulated themselves on Germany's influence with the Sultan. The Emperor would thus gain a perpetual right of interfering at Jerusalem, Constantinople and Pekin, a right which, in the hands of an astute statesman like mEperor William, would be extremely valuable. It is a development also which is particularly offensive to France, though it cannot cause surprise in that country, as the threat of such a transfer was repeatedly used as an argument against the Combas Bill for the abolition of the Concordat.

Europe knows today full well that in the teeming Napoleonic mind of this great statesman it has to deal with the chief factor in the shaping of its destinies. The coming crisis has given rise to renewed rumors as to the condition of his health. A little more than a year ago it was widely believed that he was suffering from an incurable disease. His recent devouring activities seemed to supply sufficient refutation of the story. The latest reports are that he still clings to his pose as an apostle of peace. Nevertheless, his pre-eminent figure in the world politics is watched with keen apprehension as embodying the greatest peril to international peace. Given the opportunity, he would make of Europe a new Roman empire. His present efforts in the opinion of some observers are directed toward the creation of that opportunity.

TARTE'S BY-ELECTION HOPES

London and Oxford Should Support Government Candidates

Montreal, May 27.—Hon. Mr. Tarte writes that he does not know how the electors of London or North Oxford will vote, but he adds that these two divisions will be doing a great wrong if they vote against the ministerial candidates because the cabinet has shown itself too favorable to Roman Catholics. If there exists a cause for complaint it is with the Catholics, for in his opinion, they do not deceive those rights which should be given to them without hesitation, and without debate by the political parties.

A government powerful in all other matters found itself under the necessity of beating a retreat in order to avoid a greater evil.

"We hope sincerely," he writes, "that the ministerial candidates may be elected in London and Oxford. Their success would contribute to checking the pernicious agitation carried on during the last few weeks by a group of newspapers and politicians who refuse to give any consideration to the most legitimate claims of the Catholic minority in this country."

PRAISE FOR EARL GREY

The New York Times Eulogizes the Governor-General

New York, May 27.—The "Times" says: "When Lord Grey came over to Canada to assume the highly important duties of Governor-General he was obliged to abandon temporarily work of peculiar interest, with which his name has been associated in a manner extremely creditable to him, that of President of the Public House Trust. It is not too much to say that in this he demonstrated his possession of qualities as valuable and rare as those demanded by his more conspicuous post. New difficulties undoubtedly were with him in Canada, of which he has already had a taste, but his sound judgment, tact, unselfish devotion to duty, and his high standard of public service, shown in the supervision of trust, can be relied on to pull him through."

IMMIGRANT CHILDREN

Proposals Discussed to Locate Them on New Brunswick Farms

Moncton, N. B., May 27.—Hon C. H. Labbois, commissioner of public works and Surveyor-General Sweeney, of the New Brunswick Government, have had a conference with Manager Gerow, of Middle Mere home, at Halifax, relative to the location of immigrant children on New Brunswick farms. The management of the home proposes to retain the guardianship of the children until they are eighteen years of age, the Government to pay the transporation from Halifax, and the farmers to sign a contract to give four, five or six months' attendance at public school each year. Another scheme being considered is that of the Salvation Army, which proposes to locate immigrants in this province at a cost to the Government of two or three dollars per head. The Government will meet shortly to consider these and other immigration schemes, with the view to the adoption of the one best suited to the requirements of the province.

FEDERAL CABINET CHANGES

Reports Pointing to a Change in the Justice Department

Brandon, Man., May 27.—Hon. Clifford Sifton arrived here on Monday night, and spent yesterday with his friends. Last night he addressed the local Liberals in their committee rooms. The ex-Minister is here to warn his followers to be vigilant regarding the registration of Liberals on June 10. Prominent local members of the Liberal party say that Hon. Mr. Sifton will re-enter the Cabinet, probably as Minister of Justice.

Ottawa, May 26.—Mr. Fitzpatrick's health is still poor, and his physicians, it is said, are urging him to give up active work for a time.

SEND AMBASSADOR BACK TO RUSSIA

French Cabinet Hurriedly Countermands His Holiday

CAUSES MUCH SPECULATION

M. Bompard Visits Foreign Office in St. Petersburg, but Declines to Give Any Reasons

St. Petersburg, May 27.—The nature of the urgent instructions which recalled M. Bompard, the French Ambassador, when he was on his way to France is unknown. When M. Bompard departed at 6 o'clock on Saturday evening by the Nord express he fully expected to be able to stay some weeks in France. But a telegram from Foreign Minister Delcasse, instructing him to return to St. Petersburg, intercepted him at Wirballen, Poland, on Sunday morning. He arrived here at 7 Monday morning and visited the Foreign Office in the afternoon. He refused to submit to any interviews.

A press correspondent has authority for stating that the instructions to Ambassador Bompard to return to St. Petersburg followed a meeting of the French Cabinet in Paris on Saturday. M. Bompard had previously received leave of absence from Foreign Minister Delcasse in the usual way, and intended to be absent from his post for a few weeks. The Cabinet at its Saturday meeting decided that this was not the time when the Ambassador should be absent from St. Petersburg. The telegram did not arrive at the Embassy here until M. Bompard had departed. So it was transmitted to the Russian frontier, where he received it on Sunday morning. The officials at the French Embassy refuse to make any explanation or to particularize the reasons for the Cabinet decision on Saturday.

JAMAICA AND UNCLE SAM

A Kingston Paper Openly Advocates Annexation

New York, May 27.—The Herald's Kingston, Jamaica correspondent, says: "Once again the question of annexation to the United States has been raised by the inhabitants of the British West Indian Islands. This has arisen through the refusal of the British Treasury to continue a grant of $50,000 a year given to the Imperial Department of Agriculture in the West Indies. Commenting on the subject the Jamaica Daily Telegraph says: 'The policy of extravagance (for the adoption of which Mr. Chamberlain was mainly responsible) has brought trouble on the head of His Majesty's present Government, and the result is that efforts are now being made by that Government to cut down expenditure wherever possible. What is to be the ultimate fate of the British possession in this part of the world? With the indifference of the English on one hand and the increasing trade relations between the East Indies and the United States on the other, it is not difficult to furnish an answer to the question. Sooner or later the West Indian Islands are bound to become incorporated in the great American republic."

BEES STOP ALL TRAFFIC

Queer Visitation Halts Business in Town of Versailles, Ky.

Versailles, Ky., May 27.—A dense swarm of bees on Main street caused a suspension of business to-night. They appeared near the postoffice in such masses that driving vehicles was impossible, and pedestrians feared to pass. Finally a committee was appointed to draw the bees away by beating tin pans and ringing bells and settled them in trees near the courthouse. This is the first instance of the kind on record.

WEATHER NOTES

A little warmer.

Where Are They At?

Local Grocery and Wine Merchants Protest Against Town By-law

There is a very general feeling of discontent among those grocers in Peterborough, who hold liquor licenses, about a by-law on the town books, concerning the operation system of management.

The Ontario Legislature has decided to enforce, to the letter, that clause of the act which says liquors and groceries must be entirely separate. This is the law of the land, and as such, whilst, causing considerable trouble and expense to those affected, is not considered a substantial grievance. The grocers, who hold licenses, are all making arrangements to comply with the law as its enforcement.

What the grocers do consider a hardship is the action of our Council who arrogate to themselves prerogatives that should, of right, belong to the Ontario Legislature.

The Council augments the restrictions imposed by law, by saying that Peterborough grocers, who have liquor shops next door, shall not allow any employer or clerk who works, or serves in the grocery department, to enter, for business purposes of their firm, the liquor department. In other words a grocer must be at the absurdly unnecessary additional expense of maintaining two separate staffs of employes.

Should the proprietor at dinner hour, or in the prosecution of some outside business, such as banking, etc., or his clerks be compelled to absent him or themselves, one branch of the business must be closed up.

This seems a very pretty bid for ultra temperance support; it would not lessen the sale of liquors in any appreciable quantity, it simply puts local tradesmen to unnecessary expense, without giving any benefit derived from the system, to the purchasing public or increasing the town revenue.

By an easy logical line of argument, this by-law, would also compel the grocery to keep up two separate systems of delivery carts and horses.

Now that the law is to be strictly enforced as to positive separation of these two branches of business, let our Council be content without a useless system of persecution.

A Second Circus

Sells & Downs Great United Shows Will Exhibit in Peterboro Soon.

The Times is in receipt of a communication from Messrs. Sells and Downs, whose advance agent was in Napanee on May 25th, stating that this celebrated aggregation of wonders in animals collected from every quarter of the globe, and their unparalleled collection of arenic exhibitors will show here in the near future.

From the well known celebrity of this enormous circus, we have reason to congratulate ourselves on having this show come here, following on the other circus.

The management of Sells and Down's seem to have confidence in the superiority of their circus, and in Peterborough's knowledge of the fact, to show here after another circus has visited the town.

They certainly have a tremendous exhibition, and are highly spoken of in the United States' dramatic and sporting papers. For particulars see their advertisements which will soon appear in this column.

Holocaust Averted.

Fowler's Corners Closely Threatened with Extinction by Fire.

On Thursday about 5 p.m., Fowlers Corners came within a very limited space of being wiped out of existence by fire.

During the day a fire had been burning in Mr. Caldwell's swamp to the south-west, about half a mile from the few buildings comprising the Corners.

About 4.30, Alf. Dundas brought his valuable stallion to the Corners, and was going to put it into Mr. R. Dysell's stable, but was advised by a neighbor that it would be unsafe on account of the wind blowing from the seat of the swamp fire to leave it there. Within a few minutes after Mr. Dundas had taken the stallion to a nearby stable, Mr. Dysell's stable was on fire.

The neighbors were hurriedly summoned, and a bucket brigade organized. The consumption of water necessary to fight the fire was so great that, in a short time, three wells were emptied, and stone boats were called into requisition to haul Water barrels from the creek. By suggestion of a neighbor, Mr. John Montgomery, the workers greatly hampered the fire by throwing wet manure and earth on the wood work. A large straw stack within ten feet of the burning stable was saved. The ladies of the hamlet deserve great credit for the way they all turned out and worked.

Had not all the neighbors worked like beavers, Fowlers' Corners would to-day be only a memory. A fine new building was in great danger of being burnt, but the workers saved it.

Well Earned.

Fire Water and Light Committee Give Employe's a Raise.

A class of our civic employes, whose services whilst arduous and never ending, are still not given the public consideration that should attach. The stationary employes at the fire hall have to be within calling distance at all hours, night and day, and for this never ending job were insufficiently remunerated. On Thursday evening the Fire, Water and Light Committee recommended an increase of $25 in the year's salary of the drivers and engineer at the fire hall, in response to an application. The former receive $450 annually, and the latter $520.

The drivers of the brigade are W. Parnell, R. Parnell, and the engineer is S. Wainright. The discussion upon the duties of the latter naturally suggested the work intended to be done by the road roller this summer, and the opinion was expressed that there would be considerable activity on some of the streets which were in need of improvement.

The motion in favor of the increase was moved by Ald. Crowe and seconded by Ald. McIntyre and a clause was inserted to the effect that the augmented amounts are to be considered the maximum as far as this Council is concerned. The increase will date from June 1st.

A Timely Awakening

The Council will Have the Long Wanted Lights in Our Parks.

On Thursday night, the Supervision Committee, demonstrated that some section of the Council has awakened to the fact that there is a duty owing to the citizens.

The dangerous, as well as disgraceful, blackness of darkness that makes Victoria Park a menace to life, limb and decency is at last to be changed. Whilst it is a delicate subject to touch on, in a public journal, we must say, and it is well known by all who have reason to enter or pass Victoria Park at night, that this beautiful spot has, during the summer season, as soon as darkness throws her mantle over the disgraceful scenes enacted there, become a scandal to our town.

Alderman Crowe spoke of the necessity for better illumination of the park and he suggested a couple of dozen 32 candle-power incandescents. Ald. Hall, seconding the motion, it being understood that the town pay for the wiring and the lamps and the lighting company furnish the power free as per agreement.

The lighting of Jackson Park was also suggested by Ald. Hall, who said he had a proposition from Mr. Larmonth that the town pay for the wiring of the park, and the lighting company would supply the light during the summer months.

The committee received the lighting proposal with approval and it will be brought before the Council and also to the attention of the trustees of the Nicholl's estate.

Defence of Josie Carr.

Her Counsel of the Opinion that Dr. Tracy's View of the Murder is the Proper One--Trial of the Child Murderess will Probably Develop Into a Conference on Criminology.

Toronto, May 26.—Irresponsibility developed from panic will probably ch the theory on defence advanced in the case of Josephine Carr, charged with murdering the Murray baby.

Mr. T. J. Robinette, K.C., counsel for the accused, intends to call celebrated alienists and other scientists to give their opinions before the jury, when the case comes up, the Autumn Assizes. It is likely that the trial of the case will resolve itself, to a certain extent, into a conference on child criminology.

DR. TRACY'S THEORY.

"It seems to me that Dr. F. H. Tracy's theory of panic as contained in an interview in the newspapers on Tuesday is a correct solution of the case," said Mr. Robinette this morning. "It is not natural that the child should have wished to do away with the baby. She probably wanted the go-cart and wheeling it along the railroad track on her way home, she became alarmed at the approach of trains—panic-stricken, so to speak—and turned the child over into the ditch. Trains run fast and frequently along the Grand Trunk Railway at this point. I shall try to find the trainmen who saw her on the tracks. Having disposed of the baby on the sudden impulse, it was not unnatural, in a child of her age, to flee from the consequences of her deed. The last thing any child would think of, under the circumstances, would be to notify the police, or any of her friends. The baby may not have been dead when she found it afterwards, but probably unconscious, she would not know the difference. Removing the clothing was another evidence of her irresponsibility."

ETHEL TITUS PLEADS GUILTY.

Ethel Titus, who was a protege of Josephine Carr, pleaded guilty in the Children's Court, before Magistrate Denison to-day, to two charges of stealing bicycles. She was remanded to the Children's Shelter for another week, and in the meantime his Worship will consider what should be done with her. The child is only ten years of age, and she has been thoroughly frightened.

The police have decided not to make any further arrests at present of the children who were said to be accomplices of Josephine Carr in thieving operations.

Policeman Irwin and Thompson, the truant officers, have reported that Maud and Earl Carr, sister and brother of Josephine, have not yet returned to school. It is probable that they will be made wards of the Children's Aid Society.

FRASER RELEASED.

Andrew Fraser, of 498 Adelaide St., west, who bought one of the stolen bicycles from Ethel Titus, was convicted this morning of receiving stolen property. He paid the child a dollar for the bicycle, but he told the Magistrate he did not know it was stolen.

The Japanese Tatics Are Puzzling to the Russian Officers.

Cannot Fathom Plan of Campaing--Interesting Parallels to Incidents Before the Russian Defeat at Mukden--Field Marshal Oyama Has a Big Game Afoot.

Gunshu Pass, 108 miles north of Tie of Field Marshal Oyama's offensive, Pass, Manchuria, May 27.—The Japanese tactics are puzzling. They give roads, but this view is not shared by way at the slightest pressure against all the officers.

their center on both the railway and the Mandarin road. The Chinese explain the retirement to Tieling among the reserves, some of whom, they say, are almost in a state of revolt because the Government has not kept its promise to return them to Japan.

The retirement of the Japanese center is interpreted by some of the staff, as well as briefer reports Russian officers as a postponement

In order to prevent wrangling over the question of reward of censure, assistant from reports forwarded by the Commander-in-Chief through the army corps commanders, General Linevitch, in an order of the day has directed that copies of the original reports of all encounters and individual exploits be transmitted to his staff direct through the ordinary channels.

His Worship allowed him to go with a warning.

THE FATHER'S STORY.

The father of Josephine Carr now says that his daughter told him it was an accident.

"I don't believe she took the life of the little one deliberately. The switchman has told me that about the time the children were on the railway track two trains passed along. She was carrying the baby and wheeling the go-cart. She tumbled in getting off the track and the go-cart went down the hill. Then she left the baby beside the track and went after the go-cart, and the child rolled down the hill. Josie was always a good girl to me and very careful of our own children.

Mr. Carr says he was not told on Friday night that the body of the child was in the culvert.

Police Court

OFFICIALS

Chief of Police, G.I. Hazel

Magistrate, D.W. Dumble

Yesterday morning's police court was crowded with witnesses and audience, evidently expectant over a supposed approaching trial under the Charlton Act.

The first case called was that of an assault charged by a local carter against a G.T.R. brakeman.

The plaintiff said that on Thursday he was unloading a car of coal on the G.T.R. tracks, to his cart. By the time he had unloaded about two tons, the shunting engine came along and moved the car to which his team was tied. He remonstrated with the brakeman, whereupon the railroad employe called him a name that does not bear reprint, and followed the name up by a blow.

In rebuttal, the defendant swore that plaintiff was "good and full," (not of christian charity or brotherly love) and denied emphatically calling him the name as alleged. He admitted the blow, but pleaded provocation. His Worship said as plaintiff had brought no witnesses with him, it was simply a case of one man's word against another's, but as plaintiff had laid the charge he must have considered he had a grievance, $5 and costs.

The defendant, without being noticed, and evidently considering the papers in connection with his case belonged to him, grabbed them, conviction and all, off His Worship's desk, and left. In the afternoon he returned the same along with the amount of his fine.

Chas. Munden swore out a warrant for Charles May for assault. Mr. Munden carries his right hand in a sling, the result of its collission with May's features, whilst the knuckles of his other hand are badly swelled from a similar collision. His Worship wanted to know if Munden wanted the earth? After doing up his man did he want him further punished? Munden explained that the Chief said if he did not have May up he would have them both up for the scrap, hence his action. The trial takes place this morning.

A PHOTOGRAPH SWINDLE.

Henry Titman, who has been a guest of the town, in Castle Nesbitt, for some two weeks, was on trial for conspiracy with one Raynor, to defraud Mrs. Robt. Sturgeon, 9 Park street, out of $2.25 on the 14th of February.

Mrs. Ida Sturgeon swore that the prisoner had called at her house about the 14th January, with another man, whom she said was, she had since learned, Raynor, and solicited orders from her for enlarging photographs. They wanted to get one

(Concluded on page four.)

Mr. Larmonth Explains

Why Our Public Lighting is So Very Inefficient.

The Fire, Water and Light Committee Thursday evening received a reply from Mr. J. H. Larmonth regarding the town's street lighting service. He stated that the Peterborough Light and Power Company was lighting the streets on a moonlight schedule, and that it was not necessary for them to run the lights for more than three hundred nights in the year, although, as a matter of fact, they do.

He then went on to explain that the lamps were at times not properly trimmed, and that the company used their own discretion as to when and at what parts of the night the public should have light. He considered that the town got its money worth.

Is it not possible that the company sometimes gets hold of a last year's almanac when chasing up the moon light nights.

Some of the committee favored charging up the lights paid for but not in use, to the company. Under a resolution, passed recently, the police are to take notice on their rounds of any lights which are now burning on nights called for by contract.

A Pretty Wedding.

Miss Martha Pilling is Married to Mr. Edward Roddy, of C.G.E. Co.

A very pretty though quiet wedding was solemnized at 150 Park street, the residence of Mrs. James Pilling, on Wednesday morning, when her only daughter, Miss Martha, was married to Mr. Edward Roddy, of th C. G. E. Works.

The ceremony took place at 11 o'clock under an arch appropriately decorated, and was performed by Rev. W. J. Jolliffe, pastor of the Charlotte street Methodist church.

There was no bridesmaid or best man, her brother, Walter, giving the bride away. Only a few immediate relatives were present, among them being Mr. and Mrs Walter Pilling, Mrs. Wm. Pilling, Miss Gertie Pilling, Mrs. George Benton, Mrs. Liddell, Mr Lyons and Mr. Wallace.

The happy couple left on the 11.45 train for Kingston, Tweed and points east. They will return today, when a reception to their friends will be given at the home of her mother, where they will reside for some time. The young couple received many beautiful presents.

GENERAL SPORTING GOSSIP

THE TURF—BASEBALL—LACROSSE—FOOTBALL

BASEBALL.

A good game is on the boards for this afternoon. Manager McEwan has made arrangements with the fast nine of the Langmuir Manufacturing Company, of Toronto, who were champions of the Manufacturers' League in that city last year, and who are playing winning ball again this year. They will give the local nine a run for their money. The game will be played on the T.A.S. grounds which will have a canvas fence, where gaps have been made. The game is called for three o'clock sharp.

• • • •

Chance for Peterborough.

Mr. E. M. Best, secretary of the local lacrosse club, has received a letter from W. B. Honeyman, chairman of the lacrosse committee, of the Lewis and Clark Centennial Exposition which opens in June. The communication is as follows;

"I would respectfully call your attention to the announcement of the Lewis and Clarke Athletic games to be held at the Lewis and Clark Centennial exhibition, and particularly the lacrosse events. There will be a Lewis Northwest Lacrosse Championship series, as well as an open championship series open to all lacrosse teams of the United States and Canada.

"I would thank you to let me know as soon as possible what the prospects are for your team entering the contest. As chairman of the committee I am requested to ascertain how many entries there will possibly be, so that we may make arrangements accordingly.

Yours truly,

W. B. HONEYMAN,
Chairman of Com.

Allen's Lung Balsam

The best Cough Medicine.

ABSOLUTE SAFETY

should be rigorously insisted upon when buying medicine, for upon that depends one's life. ALLEN'S LUNG BALSAM contains NO OPIUM in any form and is safe, sure, and prompt in cases of CROUP, COLDS, deep-seated COUGHS. Try it now, and be convinced.

Medicines Loaded With Alcohol

Think of it! The Longer You Run — Drink Habit is Easily Acquired, But Hard to Cure.

Careful analysis shows that many so-called tonics contain little else but whiskey—the rankest, poorest kind of whiskey.

You may unconsciously be using an alcoholic liquid remedy. Some member of your family may be doing so. Your duty is plain; stop it at once.

The test of a tonic is the permanency of its cure. To become strong, you must build up the blood—alcohol weakens it. You must increase your nerve force—alcohol steadily devours it.

Give up the liquid tonic, before you become its slave. The true medicine for the run-down, depressed and nervous is Ferrozone. It is nothing but concentrated cure in tablet form. It stimulates the appetite, aids digestion, fills the blood with iron, builds up nature's way. Never known to fail.

Whether weak from worry, overwork, thin blood, or ill-nourished nerves, Ferrozone will quickly make you well. It is safe and harmless, undoubtedly the best tonic and rebuilding medicine made. We must recommend you to use Ferrozone if in poor health.

Ferrozone, known as the great food-tonic, costs 50c. per box, or six for $2.50, at all dealers, or by mail from N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U.S.A.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to for o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $5 per year, strictly in advance.

PETERBOROUGH, MAY 27 1905

THE NAVAL SITUATION

The Russian fleet has avoided the Formosan Straits, and is now far out in the Pacific, on its way to Vladivostok. Definite news was received today that it passed through the Bataneo Straits, between Formosa and the Philippines, on May 19th, and was seen—fifty warships strong—sailing north-east off the east coast of Batanes Island, on May 20th. Having left Hon-Koe Bay, Annam, on May 14th, it had sailed 1,000 miles in less than a week. At the same rate of progress, it should now be nearly 500 miles north-east of Formosa, and less than that distance from the coast of Japan. The rival fleets, therefore, are rapidly coming into striking distance, and a naval engagement must soon be fought, if one has not already occurred. It would be strange if the Russians were allowed to pass close to the many islands south of Japan proper without being subjected to torpedo attack, and while it is improbable any general engagement has yet been fought, it is not unlikely that Japanese worrying, wearing down tactics have already been initiated. News of the success of these tactics may first be received from passing merchant vessels, as the Japanese censorship has become marvelously strict, but reports of a decisive battle would soon be given to the world. That news should come to hand within a week, and may be received any day.

The course Rojestvensky will take to reach Vladivostok is of great importance. It may be via the Korean Straits, the Tsugaru Channel—directly east of the Russian port, and between the two principal islands of Japan—or the Perouse Straits, south of Saghalien, which is far to the north. It must be remembered, however, as previously pointed out in these columns, that Rojestvensky's mission is not to relieve Vladivostok, but to destroy Togo's fleet, and regain supremacy of the sea. This fact makes it quite plausible that the Russian admiral will not risk a battle in the straits, but will compel Togo to come out and fight in the open sea, to the east of Japan. As Admiral Avellan, head of the Russian Admiralty, says, Rojestvensky would only have to bombard one of the coast cities of Japan to make Togo risk a free fight.

Serious doubts must be held about the Japanese success in the coming battle. The Russian fleet is overwhelmingly superior in battleships, the class of vessel that counts in a naval engagement. It has eight battleships, and two powerful coast defence vessels, which will be of almost equal service if the sea is not rough. Opposed to these are five Japanese battleships, one of which was recently reported to have been damaged by a mine, and another of which is old and small. It is true that Japan has a marked advantage in armored cruisers, but they do not make up for the deficiency in the more powerful vessels. Only superior skill and fighting ability can prevent

THOSE PUZZLING FLEETS

Admiral Togo, tell us truly, where upon the globe are you?
We have heard so many rumors that we wonder which are true.

One day you are sighted steaming somewhere off the Pelew isles,
And the next your fleets have covered something like a thousand miles.

Rojestvensky, tell us truly, how it is that you can be
One day in the Indian Ocean, also in the Yellow Sea?

Here's the cable: "Russians sighted steaming past Varella cape."
Then a postscript (little later): "Russians beached and out of shape."

Second postscript: "Russians coaling to the south of Egot isles."
Later postscript: "Ships at Pingbai" (distance twenty hundred miles).

America was a Liberty, which nobody can deny,
But he never touched the fellow who sends cables from Shanghai.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Keene.

Mr. Richard Short lost a valuable horse last week from acute colic.

The frost of the past nights has done considerable damage to vegetables in our village gardens.

Instead of the cow nuisance abating in our village, it is on the increase. It is a scandalous shame the filthy conditions of our sidewalks.

A concert and social, under the auspices of the Epworth League, in connection with the Methodist church of this place. A good program is being prepared. We trust it will be a success.

SONS OF REST.

The Sons of Rest met in their park last Saturday night, Minney Wale the president, was in the chair, at precisely seven o'clock. He called the meeting to order and declared it open for business.

Fighting Archy brought in a charge against Poney Moore. He said that Poney planted his potatoes before six o'clock in the morning, and such work as that was strictly forbidden in the rules. Minney Wale at once appointed a committee of the following brethren to investigate the case, Wolf Howson, Cod Soucie and Fatty Drummond. They reported Poney guilty. Minnie Wale at once imposed a fine of $6.79 to be paid within one week or 100 days imprisonment. Poney on hearing his sentence, dropped a few tears and asked for leniency.

Hosier Roach rose and moved that this society celebrate the 1st of July by holding a social and concert in their park. Banker Lundy seconded the motion, and asked the members to commence practicing at once for the occasion. A big time is expected, and everybody is welcome. The president then asked Sankey McFarlane and Fadey Wedlock to sing the closing ode, which they did in good old style. The meeting then duly closed till 7 o'clock next Saturday night. God save the King.

Chandos.

—Mr. Harry Roberts is slowly recovering from his long illness. His left arm troubles him a great deal yet.

—A tea and concert was held at Apsley on May 24th. It was given by the Presbyterians, and proved quite a success.

—Mr. Jim Scott's friends will be glad to know he arrived safe in Red Deer, Alta. He will have arrived at Evarat's by this time.

—Mr. J. Coyle Brown has just been making his usual visits. We are always pleased to see "Daddy" any time he comes along.

—Mr. and Mrs. Zac. Tucker were visiting their friends, Mr. and Mrs. George Bullied, on Sunday, May 21st. Donald had his run in the evening: he made a flying visit to Pleasant Valley.

—Miss Amy Boothe and Miss Emma Tucker are staying with their relations, Mr. Hawkes, and going to school at No. 8, Chandos. Jennie will know how to scold after this summer.

—Mr. Fred Wilson had the misfortune to get his foot badly cut. He was brought home on Thursday, the 18th. Fred does not seem to mind it, as this is the third time he has cut the same foot.

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the home-seeker desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may again be thrown open for entry.

APPLICATION FOR PATENT

Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Office in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

Treasury Stock 499,000 Shares

Only a limited number of shares will be sold at 10 cents, hence we would advise prompt action in ordering stock, prospectus or particulars Address

The Goldfield Mascot Mining Company

10c Dep. A, Toltec Block, Denver, Colo. L. L. PATRICK, Pres. W. H. EDDY, Treas. 10c

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

The Stubbs Investment Company

Stocks—The MARKETS OF THE WORLD—Grains

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc., etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $a shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and New Foundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Post-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $1.000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During those six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in a very few years some of the telephone fools were richer than Jay Gould ever dreamed of being.

Now don't you be wiser than your generation. Remember that rich men are afraid to risk their wealth in new things—they only want proved investments for their money. This is because they can afford to pay the price for proved investments. The poor man can't. He has to take a chance with the new things so as to get the big reward. The rich can be content with 4 per cents.; the poor man needs 400 per cents. One hundred or one thousand dollars at 4 per cent. will never make any man rich, but the same amount in something that will return from 100 to 1,000 per cent. will do so.

Canadian Marconi Stock is NOT a year.

GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1.000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, so many a man has before you on Bell investments and cable investments. And all this may come to pass in a

BLOOD DISEASES

If you inherited or contracted any Blood Disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—enlarged glands. Don't trust to luck. Don't ruin your system with the old fogy treatment—mercury, potash and patent medicines, which suppress the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEES ARE BACKED BY BANK BONDS that the Blood or Skin disease will never return. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 30 years, and no return of the disease. No experiment, no risk—not a "patch up," but a positive cure. The worst cases solicited.

W. H. PATTERSON NO NAMES USED WITHOUT WRITTEN CONSENT. W. H. PATTERSON

HAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c., all failed.

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety and especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a serious blood disease when 19 years of age. The skin and blood symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints, dyspeptic stomach, foul breath, itchy skin, etc. It is needless for me to say I tried doctors. I grew to hate the looks of one. I visited Hot Springs twice for four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 20 years, and as they made a specialty of these diseases and treated the worst cases by the best, they ought to be expert in curing them. I was afraid of advertising doctors, but I took his advice. They agreed to treat me under a guarantee or no pay. I investigated their financial standing and found they were perfectly responsible, so I commenced the new method Treatment. The eruptions disappeared in two weeks, the bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONARCH MINING DISTRICT

CHAFFEE COUNTY, COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 800 feet in length with a depth of 500 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringing through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo Colo., has averaged a little over $30 per ton, per ore settlement sheets on file. At the per cent price of silver these shipments would have averaged $60 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $3.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a basis of 61 cents per ton, the average rate being $8 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $780.00 per ton and for gold $235.00.

With an average value of $80.00 and transportation and treatment expenses of $15.40 a ton, the net value of our ore has been $37.60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 375,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

Josie Carr Had Several Accomplices

A 10 Year Old Girl States That the Child Murdress Taught Her to Steal a Bicycle

Toronto, May 25.—In the series of thieving operations which preceded the murder of the Murray baby, Josephine Carr had several child accomplices or pupils, one of whom, Ethel Titus, aged 10 years, giving her address as 67 Euclid avenue, was arrested by Acting Detective Newton this morning.

Ethel admitted to the detectives that she stole a "Crescent" bicycle belonging to Nellie Darby, and sold it to one Andrew Fraser, a machinist. She is also charged with stealing another bicycle.

"Who taught you to steal bicycles?"

"Josie Carr," said the child, frankly.

"When did you see her last?"

"Oh, about two weeks ago. We were down near Eaton's then, looking for go-carts. She wanted me to take one with a baby in it, but I wouldn't do it."

"Did Josie teach you to steal go-carts, too?"

"Well, she showed me how to do it, so the people wouldn't know."

FOILED ONCE.

Ethel told how on one occasion Josie and she walked away with a carriage which had a baby in it. But a lady presumably the mother, overtook them, and they ran away.

"And what would you have done with the baby if the lady had not caught you?"

"Well, I don't know," replied the child, vaguely.

TOLD OF HER CRIMES.

Ethel gave the police information which will probably lead to the arrest of other little girl pupils of Josephine on charges of stealing bicycles, carriages, etc. She said that Josephine taught them how to do it. In the Children's Court Ethel appeared before Deputy Magistrate Kingsford, and was remanded to the Children's Shelter, where Josephine Carr is detained. They will not be allowed to communicate with each other, of course.

The Titus girl is bright looking and fairly well-dressed. Her father, she says, drives a coal wagon. Her mother appeared with her at the Children's Court this morning.

AN ALLEGED RECEIVER.

Andrew Fraser, who purchased the bicycle from Ethel Titus, was also arrested on a charge of receiving stolen property. He apeared in the Police Court, pleaded not guilty, and was remanded. The detectives will endeavor to find out if Fraser made a practice of buying stolen property from little girls.

DR. BEEMER WILL REPORT.

Mr. Robinette, counsel for Josephine Carr, has arranged to have the child examined by Dr. Beemer, superintendent of the Asylum for Insane at Mimico, and one of the best known alienists in Canada.

"Not with a view to attesting to insanity, however," said Mr. Robinette. "But to see whether a child of that age and nature can have a general appreciation of the crime of murder."

PERSONALLY CONDUCTED TOUR

To California and Lewis and Clark Exposition, Portland, Oregon.

A personally conducted excursion to the Pacific Coast via The Grand Trunk Railway System and connecting lines leaves Quebec July 5, and Montreal and Toronto July 6. The route will be via Chicago, thence through Council Bluffs to Omaha, Denver, and Colorado Springs. Stops will be made at each of these places, and side trips taken to Manitou, Cripple Creek, Garden of the Gods, etc. From here the party will continue through the famous scenic route of the Denver and Rio Grande, through the Royal Gorge to Salt Lake City, thence to Los Angeles, San Francisco, and home through St. Paul and Minneapolis. The trip will occupy about thirty days, ten days being spent on the Pacific Coast.

The price for the round trip, including railroad fare, Pullman tourist sleeping cars, all meals in the dining car, hotels, side trips, etc., is $165.50 from Quebec or $160.50 from Montreal and $150.00 from Toronto. This first trip is designed as a vacation trip for teachers, although many who are not teachers will improve the opportunity of taking the trip at the remarkably low price afforded.

For full particulars address E. C. Bowler, General Agent and Conductor, Room 368, Union Station, Toronto.

Liberals Plan to Beat Haultain.

Scott and Senator Davis Liable to Drop Out of Federal Politics

Winnipeg, May 26.—An Ottawa special says; "The erection of the Northwest Territories into two new Provinces is going to make some great changes among the politicians here. Already a number of members are figuring upon dropping out of the Dominion House, and taking a hand in the Provincial arena. There is some talk of Mr. Walter Scott retiring from the representation of West Assiniboia, and taking the leadership for the Liberals of the new Province of Saskatchewan. A dead set is being made to chase Mr. Haultain out, and the Liberals here talk as if it were going to be an easy matter.

"It is as good as settled that Mr. T. O. Davis, the recently-appointed Senator, will at once retire from the Senate, and enter local politics with a view to becoming, if not leader of the party for Saskatchewan, at least a Cabinet Minister. Mr. Davis figures that the Cabinet position in Saskatchewan would be infinitely better than his job in the Senate. There would be things doing in a new Government of a new Province, and Mr. Davis takes the Senate as a joke. He is quite confident that Mr. Haultain can be beaten, and that the Liberals will form the first Government in Saskatchewan. The Senator is now in the West, sizing up the situation, and early developments are looked for.

"It is said that the changes involve the appointment of Dr. Douglas, ex-M.P., as Lieutenant-Governor, and that he has agreed to call on a Liberal instead of Mr. Haultain to form a Government, so that the appeal to the country will be made with the Liberals in the saddle."

FREE

History and Production of the Goldfields of Boulder County, Colorado, Portraying Economic Conditions, Which Predict the Coming Goldfields of Colorado and Presenting the Stock Offering of a Great Gold Mining Enterprise of the United States Gold Corporation.

FREE

Our booklet on the history and production of the gold fields of Boulder County, Colorado, is just off the press. The work is a splendid one in every respect. It will, in addition to other features, contain a valuable compilation of the production records of Boulder, carefully prepared and showing an output of $50,000,000. It will be well worth preserving by people throughout the country who are interested in the romantic and fascinating history of the gold fields of one of the richest and most famous of the Colorado counties. Our booklet should be read by everyone who takes interest in the marvelous records of the industries of the west.

The Colorado Gold Fields lead the world in the production of gold, and the wide-awake investor who wants to keep posted on the wonderful future of this section of Colorado should have a copy of this book.

We wish to direct the attention of every reader of the Times to the fact that the conditions are more favorable for

Successful Mining in the Boulder County or Northern Gold Fields of Colorado than exist elsewhere the wide world over

The finest and greatest smelters in the world are located at or near Denver, a maximum distance of only fifty miles from these gold fields. These smelters require silicious ores from this section of Colorado to smelt successfully and have made a permanent smelting rate of $4 per ton, including the cost of freight after the ore has been put on board the car, enabling the miner or company to net a fair profit on ore running as low as $6 per ton.

These are the facts and conditions which we offer to invesors as a guarantee that these goldfields are the most attractive for mining investment in this country

We send you this book free to present the merits of our gold mining enterprise located in this great section of Colorado. The story of this enterprise will interest you, whether you invest or not. It will tell you of a modern way of mining, and of how nature's treasure vaults are successfully opened and made to yield their secrets under this method. It will detail to you the wonderful possibilities of this enterprise, perhaps second to none in Colorado. We believe it will be the most profitable investment offered on the market. At any rate the book will please and entertain those interested in the great mining industry of the west. Drop us a postal card with your name and address, and thereby assure yourself the extreme satisfaction of getting our handsome souvenir. Address

Live Merchants Advertise in The Morning Times

Consumption is Not Hereditary

It is Not Handed Down From Generation to Generation but is Simply "Caught" by the Germs Getting Into Your Lungs Cured by Catarrhozone

Consumption was formerly believed by some to be due to poverty of the blood. By others it was supposed to be hereditary. Both these beliefs are incorrect.

If the disease passes through several members of the same family it is because the germs get into the clothes, bedding, furniture and carpets that are in general use.

These germs find their way into the air, are inhaled, lodge themselves severely in the throat and lungs were they rapidly increase, and soon claim another victim.

The only remedy that has cured a genuine case of Consumption is Catarrhozone. Its germ killing vapor is inhaled into every air cell and air passage of the head, throat and lungs, and creates a healthy condition of these organs in which disease germs cannot live.

It is impossible for consumption to make headway in the soothing antiseptic vapor of Catarrhozone is inhaled a few times daily into the lungs. The cause of the disease (germ life) is at once removed, the inflamed mucous surfaces are healed, and a lasting cure effected.

Catarrhozone is breathed right into the lungs. By its soothing influence the soreness caused by coughing is removed. The cough becomes less severe and soon ceases all together. Catarrhozone aids expectoration, quiets the nerves, and lends to the patient a large measure of comfort.

Consumptives are strongly urged to use Catarrhozone as immediate relief always follows. It is a direct method of treatment, and is endorsed by the highest medical authorities everywhere. The balsamic vapor reaches the lungs and respiratory tracts in a speedy manner that no medicine taken into the stomach can do.

Catarrhozone is just as good as a change of climate, equally pleasant and cheaper. It can be used at home at any hour of the day or night and never causes inconvenience or bother.

The complete Catarrhozone outfit contains two months treatment and costs only $1.00. It is a perfect boon to consumptives and their surrounding friends. You cannot afford to miss the benefit of Catarrhozone and should order it today. Sold by all druggists or by mail from N. C. Polson & Co., Kingston, Ont., or Hertford, Conn., U.S.A.

Orange Lodge Re-organized

Mr. John W. Staurt, County Master of the West Peterborough Orange Lodge, accompanied by a number of the local brethren, went to Lakehurst on Monday evening and re-organized the Orange Lodge of that place.

Elevator for Midland

Montreal, May 26.—It was stated to-day in circles which are regarded to be well and truly informed, that the Grand Trunk Railway have, after considerable investigation, finally decided on the erection of a million bushel steel grain elevator at Midland. Work will be commenced as soon as possible.

High School Standard Raised.

Boys and girls studying for the High School Entrance Examinations should note that candidates are now required to take forty per cent. on each subejct, and an aggregate of 60 per cent. The percentages formerly required were 33 1-3 and 50 respectively. This should mean a few minutes longer study each evening with a corresponding reduction in time spent over yellow back novels and delving into magazine exposition of "Frenzied Finance."

A Madoc Centennarian Dead.

There died in Madoc on the 6th inst., probably the oldest man in the county of Hastings. Samuel Milligan, had he lived until June, would have been 100 years of age, according to the most authentic records of the oldest neighbors. Some, however, assert that years ago he gave his age at a year then that would now leave him about 105. He had been a resident of Madoc village for the past ten years. Previous to that he lived in Elizabethville, near Queensboro, where he was a well-known and rather boisterous character. His wife died many years ago.

Lively Times in Belmont Store.

The Havelock Standard says; On Thursday afternoon of last week, two men by the name of Lindsay, from Belmont, while in Thompson Bros' store, became abusive and profane in their language, and were ordered to leave the store. Not complying with the request, the proprietor, Mr. James Thompson, undertook to eject them, and a mix-up followed in which one of the roughs was somewhat severely handled, and in which a quantity of crockery was broken. Constable Coon's services were secured, and as a sequel one paid a fine of $5 and costs, and the other apologized and was let go.

Homeseekers' Excursion to North West.

On June 13th and 27th and July 15th the Canadian Pacific will sell Homeseekers' excursion tickets to Manitoba and the Canadian North-West. The rate from Ontario points to Winnipeg and return will be $30.00, Delauaine $33,700, Yorkton $33.00, Prince Albert $36.00, Calgary $48.50 and Strathcona $40.50. Proportionate rates to many other places. Those tickets sold on June 13th will be good to return until August 14th and on June 27th until August 28th and July 13th until September 16th. Excursionists can take advantage of our tourist car accommodation. Early applications for reservations should be made to Mr. W. Maughan, City Passenger Agent, 1 King street east, Toronto. Berth rates in tourist cars are as follows; Winnipeg $4.00, Calgary $6.00. For further particulars call upon your nearest railway agent, or write C. B. Foster, District Passenger Agent, Canadian Pacific, 71 Yonge street, Toronto. 2d

THE ANNUAL UNION FARMERS' INSTITUTE EXCURSION

Of East Durham, East and West Peterborough Farmers' Institutes, will be run to the Agricultural College, Guelph, on Thursday, June 8th, 1905, via Canadian Pacific Railway; special train service. This trip is intended to give all an opportunity to see what is being done at the farmers' own farm and school. Many attractions have been added: The McDonald Institute, where domestic science is taught; the Massey building, poultry, plants and horticultural building, and many other things will be particularly attractive to our lady friends. The Guelph Horse Show will be going on from the 7th to 9th June, so that all lovers of the horse will have a chance to take in a first-class equine exhibition. Arrangements have been made for sale of horse show tickets at a specially reduced price to our excursionists on the train. For particulars of fares and time tables see large posters. 2d2w

Local Incidents
BY THE TIMES MAN ON THE STREET.

—Division Court was held yesterday before his Honor Judge Weller.

—Big bargains in hammocks to-day. Buy at Times Bookstore, and save money.

—Mr. A. T. Dorland has gone to Brighton on a visit of several weeks and may reside there.

—County Police Magistrate Edmison went to Havelock yesterday to hold court.

—The annual picnic of Rev. Father Keilty, St. Joseph's church, Douro, will be held on Thursday, June 22.

—The Northumberland Teachers' Association will hold their annual convention in Colborne on June 1st and 2nd.

—A special meeting of Court Langton, Canadian Order of Foresters, was held yesterday evening, when several candidates were initiated.

—The annual meeting of the Liberal Conservative Association of East Northumberland, will be held at Warkworth on June 1st, at 1.30 p.m.

—The bachelors of Campbellford held an assembly on the evening of the 17th inst., at which there were 200 people present, several being from Peterborough.

—The Chief has a pair of spectacles for which he wants an owner. The glass of one still has the number on it. He also has a parcel of sand paper, who owns it?

—Merchants and householders put not your trust in our Council but pray for rain to lessen the dust plague. The efficacy of this procedure was demonstrated on Thursday.

—A young lady would like a position as assistant in office of store. Open for temporary or permanent engagement. References given. Apply at this office for address.

—Norwood Register says; Seven thousand speckled trout and fourteen thousand salmon trout fry from the Government hatcheries at Ottawa, were deposited in the two ponds here on Tuesday.

—Two circuses will visit Peterborough this year. Lemon Bros. will be here on Thursday next. Sells and Downs big united shows will also visit Peterborough in the near future. Arrangements are now being made.

—What is the matter with that section of our aldermen who should, but do not, attend, to having the water turned on at the drinking fountain on Charlotte street? Why is not water turned on for the convenience in the market building?

—The assessment on the new opera house has been fixed at $3,600 for 10 years. The building will be situated on the lot immediately north of the Turner building on George street, and will extend from the latter back to Water street.

—A meeting of the Woman's Auxiliary, St. John's St. Luke's and All Saints' branches was yesterday held in St. John's school house at eight o'clock, when an address was delivered by Miss Archer, returned missionary from Japan.

SURELY AS NIGHT follows day sickness follows the eating of unripe fruit or stale vegetables. Every householder should keep Perry Davis' Painkiller in the house in summer. It gives instant relief and speedy cure.

—The Rev. William B. Heeney, Rector of Christ Church, Belleville, who has for some days been considering a call to the Rectorship of St. George's parish, Newport, R.I., has decided to accept and will leave Belleville during the last week in June.

—The Lindsay Watchman-Warder says that the erection of an opera house in Peterborough will prove beneficial to the local house, as it will make a circuit comprising Belleville, from the main line Peterborough, Lindsay, Orillia, Barrie and other northern towns.

—By a recent amendment to the Municipal Act, pathmasters are no longer required to look after the cutting of weeds on the highways in their division. Every owner or occupant of land is now required to cut weeds growing on the highways adjacent to his land.

SOCIAL AND PERSONAL
SOCIETY EVENTS OF INTEREST

—Mr. E. D. Johnston, of East Toronto, is in town.

—Mr. W. T. Bowes of Lindsay, is in town on business.

—Mrs. English, of Hastings, was in town yesterday morning.

Mr. Tighe is an expert driller, and it is in this kind of work that he will be employed.

—The Lakefield News says;—Rev. T. J. Scott, B.A.B., Th., pastor of the Murray street Baptist church, Peterborough, will preach in the Baptist church here Sunday morning and evening. Two bus loads of young people from Peterborough drove out to the residence of Mr. and Mrs. W. J. Bullock on Wednesday last and spent a very enjoyable day. Mr. R. W. Erret of Peterborough, was in the village on Wednesday inspecting the hull of the steam tug Lakefield. The hull was found to be in first-class shape.

Police Court News
Continued from Page One.

photo out of each family, which they would enlarge at a very cheap rate, and would afterwards raise their prices.

She gave them a photo of herself, which was to be enlarged for $4.50 including the frame. The prisoner had come alone at first, but when his partner arrived, he, Utman, had little to say, Raynor seemingly being the boss. Did not hear anything from them until February 14, when they called and showing a proof of her picture, told her she would have to pay one half the amount $2.25 down. She paid Raynor the money demanded, and got his receipt, produced in court. They told her their studio was over Dickson's dry goods store on George street. They also told her that their artistic work was done at the studio by Germans, who did not speak English.

Under cross-examination by Mr. Kerr, prisoner's counsel, the lady said that it was Raynor, not the prisoner who took the money, and had most to say in the deal. She had never seen her photo Again. It was also Raynor who told her that there was no use her going to the studio as the German artists could not speak English.

Robt. Sarginson, husband of previous witness, practically corroborated his wife's evidence. He said that the partner called their concern the Irving Art Studio.

Miss Florence Hall had also had a similar business transaction with prisoner and Raynor. They had told that headquarters were over Dickson's dry goods store. Had called there very many times but could never get in or find any one there. She had paid Raynor $7.50 for picture frames, but had not got the pictures back.

The Chief had succeeded in getting Miss Hall's original family group back by correspondence with the Chief of police at Ottawa, the picture being produced in court.

Mr. Ball, who occupies rooms above Dickson's store gave evidence. He had been bothered by people coming up after the picture men, who had tacked their "art" board on the door of an empty room, near his office. Once he had climbed up and looked over the transom; there was nothing in the "Art Studio."

The Chief gave witness as to prisoner's arrest in Toronto, explained how he had gotten Miss Hall's picture back from Raynor Bros. in Ottawa.

His Worship reserved judgment until Monday next.

A pro-forma case of trespass on the property of Mr. Cox, adjoining the lift lock, against Mr. R. B. Rogers, was settled by imposing a nominal fine of $1 on defendant.

A case of seduction under the Charlton Act, against a young man in town was dismissed, the information having not been laid within the specified time.

By 4 p.m., yesterday three cells in the police station were occupied, so his Worship will have something doing this morning.

Charles Clark, who lives in North Monaghan, near the R.C. cemetery, was arrested yesterday afternoon on a charge of stealing a watch from Rich. Crowmer.

Frank Scriver was arrested by P. C. Adams on a charge of taking away without her mother's consent, an Otonabee girl under the age of 16 years. He will be given a hearing this morning.

BEST ADVERTISING MEDIUM IN EASTERN ONTARIO

VOL XXXIII NO 125 PETERBOROUGH ONTARIO, MONDAY MAY 29 1905. PRICE TWO CENTS

RUSSIAN FLEET IN KOREAN STRAITS; BATTLE MAY BE NEAR.

Exciting News Which May be Forerunner to Long-Expected Engagement, Or It May be Only a Portion of Admiral Rojestvensky's Fleet to Cover Up His Detour, Russian Admiralty Even is Puzzled by His Movements--St. Petersburg Dispatches Say That the Tension in Naval Circles is very Great over The News of the Meeting of Russian and Japanese Fleets--Tokio Reports to the Associated Press Saying That It was Rumored That the Fleets Have Already Engaged in the Straits of Korea, but Nothing Confirmatory Has Been Received There of the Engagement.

Russia's Hatred Of Great Britain

Prominent Russian Paper Says That War Between the two Countries Must Come Soon

St. Petersburg, May 29.—The Gazette, on its arrival in St. Petersburg to find how far hostility to Great Britain had advanced. A nobleman of position in personal attendance upon the Czar said: "Individually, I like the British, as a nation, I hate Great Britain. My feeling is the general sentiment throughout Russia. It is true we have had only one campaign with Britain, and two with France. One may be beaten by an enemy in fair fight and afterward become close friends, but one cannot be worsted in a contest of wits without harboring resentment. Britain has made us look foolish, and because of that we hate Britain. The best guarantee of good relations between Russia and Great Britain would be a fair settlement after a fair fight, which is sure to come within a few months."

INDIA PLAGUE MUCH WORSE

Over Fifty Thousand are Dying Every Week

YEAR WILL EXCEED RECORD

Up to April 22 the Number of Deaths Was 630,963—Spreading Through Country

London, May 29.—The Lancet prints advices from its correspondent in India to the effect that the plague epidemic there continues with unabated virulence. For the week ending April 22 there were 54,602 deaths, compared with 51,786 during the preceding week. The mortality during the present year promises to exceed the records, which stand as follows:

1901...	273,679
1902...	577,627
1903...	851,263
1904..	1,022,299
To April 22, 1905...	630,963

It is doubtful if the figures tell the whole truth. Detailed figures show that the disease has spread throughout the country. The Pasteur antiplague serum has been extensively used in the present outbreak. Although it is impossible yet to give a definite opinion as to its efficacy, many reports show that it is valuable.

RUSSIAN PALACE ON FIRE

The People's Palace on the River Neva Badly Damaged

St. Petersburg, May 29.—The Narodnydom of People's Palace, a great building named after the Emperor Nicholas II., situated in the industrial quarter of the northerly side of the River Neva, was set on fire this afternoon.

The fire was extinguished after three hours. The central portion of the edifice was not damaged. The sections of it used for decoration costumes, and properties for theatrical spectacular entertainments were destroyed. The losses are heavy, but there were no fatalities. The origin of the fire is unknown.

Winnipeg After Municipal Plant

Winnipeg, May 27. — A committee of the Board of Trade has been appointed to act in conjunction with other bodies in promoting a municipal electric power plant.

BITTER TOWARD AMERICA

Feeling in Orient Kills Hope of Negotiation of New Treaty

Washington, May 29.—All hope of the success of the pending negotiations for the new Chinese exclusion treaty has for the present been abandoned by the Chinese officials as a result of the wave of resentment that has swept over China since it became known that it was planned to transfer the negotiations to Peking upon its own interpretation of the exclusion law.

Reports have reached the Chinese legation of the extent of this feeling throughout the Chinese Empire and of the hostility of the Chinese commercial guilds to American goods, which might result, it is asserted, in a general boycott against American products even were it possible to conclude the exclusion treaty now.

The Chinese legation here declares that there is no intention of bringing suit in the Supreme Court of the United States in behalf of Chinese excluded or deported in violation of the treaty of 1888. Claims for indemnity, however, will be filed. The first of these reached the State Department today.

New Ministerial Ass'n.

East Peterborough Organizes a Ministerial Association.

The Protestant clergy of Norwood District, on Monday, organized, in the Norwood Methodist church "The Ministerial Association of East Peterborough." The object in view is mutual edification and co-operation in Christian work and moral reform.

The officers elected for the present year are as follows:—

President—Rev. G. A. MacLennan.

Vice-President—Rev. D. A. Thomson

Sec.-Treas.—Rev. E. W. Pickford.

The Association will meet on the last Monday in each month in Norwood. The first meeting will be held in the Methodist church, on the 19th of June, when the Rev. C. Parker is to give a paper on the object and work of Ministerial Associations.

For Ottawa.

57th Will Go to the Capital Notwithstanding Foot Guards Trouble

When interviewed by The Times yesterday, Lt.-Col. Miller, in reference to a rumor current about town that the proposed trip to Ottawa on Dominion Day, might be abandoned, said;

"This is totally misleading, and I wish it distinctly understood that the 57th is going to Ottawa on Dominion Day, whether we are guests of the Guards or not. The train has been chartered and all arrangements made, and as the corps pays its way—transportation, commissariat, etc.—there is nothing to interfere with our trip. We are assured of a pleasant time in my event. As to whether the present existing trouble or misunderstanding in the Foot Guards will be healed then or not, I cannot say. There is a whole month ahead, and I believe, speaking for myself, that any difficulty will be overcome in the sister corps by Dominion Day. This you can say—that the 57th will leave here on Friday night, June 30th, and will spend two days in the capital, no matter what may eventuate in the Foot Guards. We are paying for the outing and have the right to visit whatever place we choose. We have decided on the Ottawa Junt and the officers and men will not be disappointed in their expectation."

THE SITUATION.

Advices from various sources on Saturday point to the possibility of a early battle between the Russian and Japanese fleets. The Tokio despatches reporting the presence of Russian warships off Tsu Islands, in the Straits of Korea, indicate that the Russian admiral has divided his fleet, as authentic despatches to the Associated Press, confirmed by advices received in Washington, show that some Russian vessels are still near Shanghai, it is probable that Rojestvensky has detached his auxiliaries, supply vessels, unarmored ships and others unfit for battle and proceeded northward with his main fighting force. Whether it is his intention to force Togo to accept battle, or whether his object is to reach Vladivostock, the despatches do not make clear. Togo's whereabouts is not known.

Saturday's Market

Potatoes in Good Supply--Prices Rule About the Same.

Several strangers in town on Saturday were, at different times, overheard remark on the largely attended, and well managed market this town sustains.

The market building was well filled, but poultry was more noted for demand than supply.

A large quantity of potatoes was seen, prices being 75c, and dropping to 70c., for the best potatoes, and seed potatoes selling at 60 and 70c. a bag.

A large amount of apples was also on the market prices ranging from 12 1-2c. to 35c per peck. There were also large quantities of garden vegetables. Upstairs prices were about the same. Eggs sold at 14 to 16c., and butter 21 and 22c. per lb.; chickens sold from 75c. to $1.25 per pair.

The ubiquitous travelling peddler with his one horse wagon full of vegetables was much in evidence about town, and many a good house wife had to leave her work to say "No thanks," for the 70th time, when asked whether she wanted to buy some rhubarb or other greens.

A Cavan Bride.

Miss Ruble Pue is Married to Mr. Arthur Wood.

In the drowsy town of "Cedar Nook," the residence of Mr. William Pue of Cavan, Empire Day was celebrated by one of the prettiest weddings ever seen in this fine township. His only daughter Miss Ruby was united in marriage to Mr. Arthur Wood, son of Mr. David Wood, of Cavan. The Rev. Mr. Johnston, of Millbrook, performed the ceremony which took place with the party standing under a beautiful arch of ever-greens. The bride was charmingly attired in white silk trimmed with lace, and carried a beautiful bouquet of carnations. Her bridesmaid, Miss Fanny Pue, was gowned in gray voile and also carried carnations and little Miss Lela Bowman, the maid of honor, was dressed in white and carried a beautiful bouquet of roses. Mr. Harry Wood, brother of the groom, acted as groomsman, and Miss Rutherford, a friend of the bride, played the wedding march.

After the ceremony a dainty dejeuner was served in the dining room which was prettily decorated for the occasion with evergreens and apple blossoms. Among the many and beautiful presents which the bride received, was a handsome cheque from the groom's mother. Mr. and Mrs. Wood left for their new home, followed by the best wishes of their many friends.

PETERBOROUGH PLEASURE PARK

The Coming Popular Resort of Peterborough People Now Doing Business.

Great interest is being taken throughout town over the new enterprise, recently inaugurated by Mr. Ryan of Toronto and Montreal.

There is every indication that this healthy and clean place of amusement so handily reached by the street railway, will get a large share of Peterborough's patronage during the summer months. Mr. Ryan is determined that his place of amusement will have nothing that can be objectionable to the most fastidious. No skews or gambling of any kind will be permitted.

The originator of this pleasure park has secured many of the leading drawing cards of the United States, and is now giving a first-class exhibition in the mammoth tent erected there.

Every reason is in evidence that would draw many ladies and children, here is the large exhibition building open to all, should rain at any time come unexpectedly, and for both ladies and children there is ample toilet accommodation.

For a good healthy hearty roll about the grass, and an old fashioned romp among the pines, the pleasure park is just the place to take the little ones.

On the 7th of June there will be a very large picnic from Newmarket held in the park, and on the 15th, over 1,000 excursionists from Orillia, Barrie and intervening stations will have free use of these extensive grounds. There is to be held in the near future, a street fair, of all kinds of shows, an affair somewhat like a carnival or Mardi-Gras in the park.

This is a place of clean amusement that this town has long wanted and should be encouraged.

Nearly Drowned.

Mr. Jas. McMartin Has Hard Struggle with Otonabee's Waves.

On the afternoon of Empire Day, Mr. Jas. McMartin, who makes a business of ferrying transients across the Otonabee, at the southern terminus of the street railway, had a spill from his punt that came near making him a passenger for old Charon, the Styx ferryman.

Perceiving a log coming down stream, he made an effort to secure it. In doing so his foot became caught in a thwart of his punt, which threw him overboard. He received a mouthful of water, which almost strangled him, and, unable to reach his boat, he called for assistance and at the same time struck for shore, reaching it before help arrived.

The strong wind blowing up stream, caused very high waves, and this rendered his struggle for life very intense. On reaching shore he was almost exhausted.

PROTECTION FOR CONSUMERS

Merchants Must Keep Edibles Protected from Contamination.

The Supervision Committee exhibited a vast amount of sense and philanthropy on Thursday night, when in addition to forbidding merchants to obstruct the pavements with packing cases, etc., on motion of Ald. Mason, seconded by Ald. Leary, a clause in the interests of the public health was added, prohibiting merchants from displaying eatables, such as fruit, fish, flesh or in fact any food for man on the outside of their stores unless it is properly screened from dust or other objectionable agencies, four-footed or otherwise. The aldermen were vigorous in their denunciation of the carelessness of merchants on this matter, and the by-law compels precaution in the delivery of eatables.

CEREAL MILLS TO CLOSE DOWN.

One of Our Largest Industries Claim That Freight Discrimination Handicaps Them.

It will be sad news for all the community to hear that the American Cereal, after their very short resumption of work are again going to throw their employes out of work.

On Saturday morning the company posted throughout the several departments the following notice;

"After next week's run this plant will be closed until a satisfactory adjustment of freight rates is made.

"The matter has been submitted to the Railway Commission which meets during the first week in June, to consider the subject.

"Employes contemplating two week's holidays should take them while the plant is closed."

ed, we will be able to run steadily without further loss of time to the employes."

W. H. DENHAM
Superintendent."

When Mr. Denham was interviewed by the press on this matter he stated that the information given in the notice practically stated the whole case.

The company found it impossible to profitably handle the export business from the Peterborough mill while the freight rates on this class of business remained as they are at present.

Fully five-sixths of the business handled by the mills here is export trade, and the rates secured from the Canadian railways are not nearly as satisfactory as those of the United States railways, and until the Canadian roads give the company better rates the export business will be handled by the Akron Mills of the company.

Mr. Denham stated that it was not because of lack of orders that the mills were closing, but it was due solely to the question of rates.

It seems a great pity that a definite and prolonged understanding with the railways had not been attained before erection of so expensive a plant However, we learn that the company are pressing for an early settlement of the difficulty.

Big Church Parade.

57th Regiment with Both Bands, and in Full Strength, Attend Service.

Yesterday's beautiful weather brought out a large number of citizens anxious to witness the annual church parade of our local crack regiment.

The boys in red, both officers, men and bands turned out in just about full strength. They wore their regulation white helmets but carried no arms, excepting the commissioned officers who carried swords.

The whole force was well groomed and presented a grand sight, both as regards personal appearance and regularity of marching and alignment.

The route taken was; drill shed to Water or Murray; Murray to Hunter, on Water; west on Hunter to George and north on George to the George street Methodist church.

The parade was headed by the Regimental Band, followed by a large buzzle band, then the regiment, led by Lt.-Col. Miller, and in their rear, Dr. Halliday, Regimental Surgeon, Adj. Dennistoun, and Rev. J. C. Davidson, regimental chaplain.

On arrival at the church, entry was made in as good form as could have been done by the most seasoned veterans.

The pews reserved for the regiment were quickly filled, when a most interesting service was held. The special music, augmented by the manly voices, and an eloquent and appropriate sermon by Rev. Dr. Crothers made one of the most impressive services ever held in this commodious church.

Attempted Burglary.

Light Fingered Gentry Frightened Away From Intended Spoils.

There is constant evidence, these times, that Peterborough contains more than one gentleman who yearns for wealth on the get rich quick plan.

In addition to several petty burglaries of late, another attempt was made on Saturday night to enter a local residence.

In a Simcoe street residence, two ladies were sleeping together on the ground floor, fronting on the street. About 12 o'clock one of the ladies heard a distinct attempt made to open the latched outside shutters; she was somewhat frightened but kept quiet a few minutes, when she again heard, what clearly was the noise of fingers being thrust through the slats, in an attempt to unlock the shutters. On awakening the lady who was asleep beside her, the latter awoke with an exclamation that must have reached the keen ears outside. There was the sound of a sudden heavy jump from the high verandah, and then escaping over an adjacent fence. By the time a male relative was awakened, and on the scene the thief had made good his escape.

A Sunday Theft.

Boys Steal Electric Light Globes from Alexander & Miller.

Yesterday afternoon as a young lady, was looking out of a window, commanding a view of the yard behind Messrs. Alexander & Millers electric fixtures store on Brock street, she saw two youths engaged there in what was certainly no work of piety, necessity or charity.

The two lads were engaged in helping themselves to electric light globes from a box in the yard. Shee without waiting to consider the possibility of capturing the thieves, impulsively called to the lads to let the goods alone. On this they fled, one with his loot, and the other, having his cap full of globes. A relative of the young lady immediately ran round to the Brock street entrance, but saw no sign of the lads, and the store was locked up.

THE AGITATION IN CRETE

Naval and Military Intervention by the Powers Likely

Constantinople, May 27.—Naval and military intervention by the powers is likely to be the outcome of the renewed agitation in Crete. The in-

Saigon, Cochin-China, May 29.— Returning soldiers report that Vice-Admiral Rojestvensky's fleet arrived off the Saddle Islands, May 24, and proceeded in the direction of the Straits of Korea.

Tokio, May 29.—Vice-Admiral Rojestvensky's fleet has been sighted off Tsushima Islands, in the Straits of Korea.

Nagasaki, May 29.—It is reported that a Russian fleet is passing Tsu Island in the Straits of Korea.

St. Petersburg, May 29.—The tension in naval circles is very great. News of the meeting of the Russian and Japanese fleets is expected hourly. The despatch from Tokio to the Associated Press saying it was rumored that the fleets have already engaged in the Straits of Korea aroused intense interest at the admiralty, but nothing confirmatory had been received there up to the time this despatch was filed. The majority of the officers were inclined to doubt the accuracy of the Tokio report, believing that Rojestvensky with his fighting ships is heading northward for the eastern port of Japan.

A DANGEROUS CROSSING.

Results in Two Young Men Being Injured by G. T. R.

There have been many and loud complaints made by persons whose business, or other reasons, impel them to cross the G.T.R. tracks at King street.

The employees of the Peter Hamilton Mfg., Co., who have daily to cross this King street track are often delayed by trains across the street, particularly during the dinner hour.

Again the railway people have a custom of leaving a line of cars standing on one track, with the end car right even with King street, and then shunting cars on the next track; this prevents people driving from the side of the track where the standing cars are stationed from seeing those on the far side from them, in motion, this almost led to what might have been a fatality with a wheelman a few days ago.

On Saturday evening this very cause was the means of two young men sustaining serious injuries, and in a new wagon being demolished.

Messrs. William James and William Evans, the son and son-in-law of Mr. Charles James, the well-known ginger beer manufacturer, on Saturday evening, were driving home in the new express wagon belonging to the former. As they drove along King street, towards the G.T.R. tracks, there was a large refrigerator car, and several box cars, standing on the track, they were approaching, the largest car being even with the street, This prevented them from seeing switching operations that were in progress on the far track.

As they tried to cross the tracks, a train of cars shunted towards King street, hit the wagon in which the two young men were seated, and hurled them violently to the ground.

Mr. James was knocked senseless, receiving several cuts on the head and had his back somewhat injured; his brother-in-law, Mr. Evan, was thrown partially under the car, and almost miraculously escaped with a badly injured foot, the great toe being smashed. The two unfortunate young men were carried to the Montreal House, and medical attendance summoned; Drs. Carmichael and McNulty replied to the call and did what they could for their patients.

As soon as they had sufficiently recovered, Mr. James was taken to his home at 180 Rubidge street, and Evans to 201 Sherbrooke street.

The wagon, a new one was completely wrecked but, strange to say, the horse escaped without injury.

GENERAL SPORTING GOSSIP

THE TURF—BASEBALL—LACROSSE—FOOTBALL

The Peterborough Baseball Team Add Another to Their List of Victories by Defeating the Champion Langmuir Co. Nine.

Manager McEwan's unbeaten ball tossers added another victory to the list on Saturday afternoon by defeating the Langmuir & Co's nine champions of the Manufacturers league, Toronto, by a score of three to two.

There was a small crowd in attendance, but a pleasant feature was the absence of fence artists, some of whom took refuge at the corner of the drill shed out of the way of the camera hunters, who were eager to get a snap of the "cheap sports."

It was any body's game up until the last of the fifth innings, when the locals brought in two runs. J. Pilling and Quinlan getting over the plate. Up until the 5th, it was a pitchers' battle, with honors favoring Quinlan, who had great speed and good control, striking out nine men, and allowing one man to walk.

Calhoun, who was the slab artist for the visitors also did good work, pitching good ball.

The runs were made in the 5th, 6th and 7th innings. The locals getting two in the fifth, Quinlan and J. Pilling getting over the plate. In the sixth the visitors tallied the only two runs. White coming in on Rattray's throw to prevent him stealing 2nd which Sheridan let by, Crossley coming over the plate on a drive of U. Calhoun to left field. The locals got their winning run in the 7th, Shea coming in on a pretty drive of Staynes just short to centerfield, Stayne would have reached 3rd on his hit, but met with a piece of hard luck, falling before reaching the bag.

The men who held down first bag seemed to be a little off color Saturday. J. Pilling did not play his usual game and was slow in taking opportunities. P. Calhoun, first baseman for the visitors, made some costly errors. The other bags were held down well. Shea at short stop played his usual good game and was good at the bat. Stayne was also proficient with the stick. Jimmy Callahan had little to do in right field, but was always ready to take anything coming. He is improving in the sticking line. T. Pilling and J. Connors played their usual game. Douglas went into pitch in the first of the sixth, but had hardly time to loosen up. Rattray did good work behind the bat.

GAME BY INNINGS.

Toronto 1st—The first three men up were easy for Quinlan, who put them down and out in one, two, three order.

Peterborough 1st—Crossley took in T. Pillin's fly, Ney at 3b, took Shea's hit, who failed to get 1st, Stayne drove a 2-bagger to left field, but Rattary retired the side with a high one to center field that J. Ney squeezed.

Toronto 2nd—Stayne squeezed Crossley's fly; U. Calhoun drove one to Sheridan at 2nd, who threw him out at 1st. J. Ney wilted. White at short, and was an easy out.

Toronto 3rd—J. Pilling closed on a high one from Hodge, Murphy struck at the wind, W. Calhoun placed one to center field and P. Calhoun walked, White submitted to the inevitable, and retired the side.

Peterborough 3rd—Connors hunt was a little strong, and U. Calhoun fielded him out at first; Quinlan and T. Pilling's hits were short.

Toronto 4th—Sheridan spoiled N. Neys hit, Crossley fanned, U. Calhoun singled, but Sheridan got away with J. Ney's fly.

Peterborough 4th—Shea hit deep to center field, J. Ney took it in; Stayne struck a liner at N. Ney on 3rd, who threw him out at first; Rattray singled past short stop into center field, Callahan beat out a hit to White at short, Rattray going to 2nd, also 3rd, Sheridan [illegible].

Toronto 5th—Hodge and Murphy failed to touch Quinlan, W. Calhoun bunted, Quinlan fielded to Pilling at first, who let the ball pass, P. Calhoun fanned.

Douglas went into pitch in the sixth and pitched good ball but had not time to loosen up. White got base on balls, Rattray threw to 2nd to prevent a steal but Sheridan failed to take in the throw, allowing White to reach home. N Ney fanned; Crossley hit safe to center field, stole 2nd, came in on U. Calhoun's drive to left field; Shea cut up J. Ney's fly, Hodge hit liner to first, Pilling fielded to Rattray who blocked U. Calhoun's run, retiring the side.

Peterborough 6th—Callahan and Sheridan fanned, J. Pilling made a hunt and reached first on U. Calhoun's wild throw to first, Connors placed one at White at short stop, and reached first, but Douglas fanned 2—2.

Toronto 7th—Sheridan took in Murphy's and W. Calhoun's drives, and fielded them out at first, Stayne dropped a difficult foul of Hodge's, P. Calhoun walked, stole 2nd, but White fanned 2—2.

Peterborough 7th—T. Pilling fanned, Shea hit safe to center field, Stayne sent a sizzler past short stop into center field, and brought in Shea, but stumbled getting to 3rd, and was caught, N. Ney took Rattray's fly, 3—2.

Toronto 8th—Douglas made Ney, Crossley and aCllhoun bite the dust 3—2.

Callahan hit to short, who threw wild to 1st, Crossley took in Sheridan's fly, Callahan running to 2nd, and did not get back to 1st. Pilling flew to White, 3—2.

Toronto 9th—J. Ney flew to Callahan, Hodge fanned, Murphy got 1st on hit to right field, Calhoun fanned 3—2.

Following were the teams;

Langmuir & Co.—P. Calhoun 1b, White ss, M. Ney 3b, Crossley 2b, U. Calhoun p, J. Ney cf, Hodge lf, Murphy c, W. Calhoun rf.

Peterborough—T. Pilling lf, Shea ss, Stayne 3b, Rattary c, Callahan rf, Sheridan 2b, J. Pilling 1b, C[illegible] cf.

"Toasted Breath of the Wheatfields"

HAS BEEN SAID OF THE DELICIOUS, CRISP FLAVOR OF

Grape-Nuts

THOSE WHO TRY THE FOOD FAITHFULLY FOR 10 DAYS LEARN THREE THINGS WORTH MORE THAN A GOLD MINE TO ANYONE WHO VALUES HEALTH AT ITS WORTH.

First, that a few ounces of perfectly digested food yields more nourishment and strength than many pounds of any kind of food undigested.

Second, that it is in Grape-Nuts alone, that the starchy part of the grain (that part which is known to supply energy) is naturally predigested in the process of manufacture. Government tests of all the principal brands of breakfast foods show that not more than one-half the nutrition (the digestive test) in cold water as Grape-Nuts and most of the foods range down from one-fourth to very low relative percentages.

Third, that nervous systems, exhausted by the high strain of present day requirements, can be and are rebuilt quickly when fed on Grape Nuts, because Nature's Phosphate of Potash and Albumen are presented in the form of delicious food, which contains the vital elements of the nerve centres, the brain and the body, in the proportion that Nature requires them, and that the phosphate of potash in Grape-Nuts is the only form of organic phosphate of potash that is soluble in cold water, the life forces make up the soft gray matter with which to refill the depleted nerve centres throughout the body and brain. A distinct feeling of buoyancy and mental strength follows a "Grape-Nuts diet."

See suggestions in little brochure in pkg. The way back to health by Grape-Nuts is pleasant and most profitable.

Said "Good-Bye" to His Family

Dying of Weakness—Given Up by Doctors as an Incurable and Hopeless Wreck

FERROZONE

SAVED HIS LIFE

After reading the following letter from Mr. H. A. Thurston, of 228 Vermont street east, Indianapolis, Ind., no one will ever doubt the merit of Ferrozone:

"A year ago I took the grippe.
"I was as weak as a child.
"I was no longer able to eat.
"My blood was thin. My cheeks were white and hollow.
"Doctor gave me all kinds of medicine, but none of them brought me strength.
"My friends said I was wasting away with some slow disease, and I bid them good-bye.
"Then I heard of the wonderful Ferrozone.
"After three days it gave me an appetite. I gained strength and became cheerful. Under Ferrozone I improved steadily. I am well today. I weigh fifteen pounds heavier than ever before, and feel like a new man.
(Signed) "H. A Thurston."

The secret of growing strong is solved by Ferrozone. It supplies actual nourishment. It braces you up quick, supplies new energy, brings back the snap and fire of youth. Try Ferrozone, 50c. per box, or six for $2.50, at all dealers in medicine, or Polson & Co., Hartford, Conn., U. S.A., and Kingston, Ont.

Morning Times

This paper is the only Morning Daily published between Toronto and Ottawa, and is largely read throughout Eastern Ontario.

Strangers visiting Peterborough are cordially invited to make their headquarters at the office of the Morning and Weekly Times, where they will be furnished with writing material, if needed.

The Times is a member of the Associated Press, and receives telegraphic news each morning up to four o'clock.

The Times will be sent to subscribers in the district at 25 cents per month, and to outside points at $2 per year, strictly in advance.

PETERBOROUGH, MAY 29 1905

A TRIP TO UNITED STATES GOLD

(By Col. W. B. Teters, Veteran Mine Operator and Expert of Boulder County.)

When I first came to Boulder in 1875, the great mining activity of the county was centered around the famous Caribou mine, which then ranked as one of the greatest mines in Colorado. During the summer of 1875 I spent a great deal of time prospecting the country west of Carbibou, extending towards the Continental Divide. The excitement over the Caribou had attracted the attention of prospectors from all over the country, and I found all the territory staked for a radius of five miles surrounding the Caribou camp.

It was therefore with unusual pleasure and interest that I recently made a trip to the mines of the United States Gold Corporation on Arapahoe peak, through the courtesy of the management to visit a country that I thoroughly prospected some thirty years before. The first thing which attracted my attention was the splendid wagon road extending from Eldora to the mines up Fourth of July gulch, a distance of some five miles. When I was in this country in '75 it was wild and inaccessible, except by a precipitous trail from Caribou.

As we arrived at the camp I was impressed by the marvelous grandeur of the scenery. It was indescribable. We were at an altitude of over 10,000 feet. To the west of us we could see the crest of the Continent. On either side of this rose Chittenden mountain and Arapahoe peak to their dizzy heights. I was reminded of the striking similarity of this scene to the San Juan country and Ouray, in Gunnison county. I recalled Tom Walsh's advice to the prospector to go to the Continental Divide to find great mines. I was swept with a conviction that here nature had lavishly deposited her precious minerals, and, here at the backbone of the continent was a mining section of wonderful possibilities.

One of the things that particularly attracted my attention was the existence of ideal conditions for economic mining. High up on the mountain side were the out-croppings of large veins standing like a wall above the surface. They ran parallel with the mountain one above the other, in succession. The series of veins could be opened and drained by one tunnel of a comparative short distance, driven from the base of the mountain, at a cost less than a shaft could be sunk on any one of the lodes. Up and down the gulch for a mile and a half the patented ground of the company was covered with a wealth of standing and fallen timber, so thick as to make travel impossible to man or beast except on the trails. The company owns the various lode claims, and I could roughly estimate there was two million feet of timber on the territory owned by the company. Here was an ample supply to timber, miles and miles of underground workings as well as for fuel and power. Close at hand the head-waters of Boulder Creek are formed within a stone's throw of the company's power house, a large stream of water flowed by which can be harnessed for cheap power and utilized for milling and smelting purposes.

EQUIPMENT.

It was a pleasure to find that this company had grasped the full force of the situation. At the base of the mountain the Klondyke tunnel has been projected some fifteen hundred feet in length and was then in over 750 feet. It was a greater pleasure to note the up-to-date and modern mining methods that were in evidence at this camp. A splendid power plant stood at the portal of the tunnel. Boilers, engine, five drill air compressors, with all other equipment, and in perfect running operation. No where in the country have I seen a finer plant of machinery.

KLONDYKE TUNNEL.

At the breast of the Klondyke then in over 750 feet into the mountain, six foot drill holes were being driven into the granite every few minutes with power drills, where it would have taken as many hours by hand.

In dimensions, the tunnel is 5 to 7 feet, laid with heavy track and water box, and is run through solid granite for its entire distance, cutting the lodes at right angles.

Five different veins had been cut ranging from two to ten feet in width. We went into the Munroe vein, where a long drift had exposed to view thousands of tons of heavy black iron ore. The vein as shown by cross cuts from the drift was full ten feet wide. In the roof of the drift several feet of soft mill dirt was exposed on the left side, which was seamed like a fine net with black mineral or iron, which, in this section, carries the gold. The matrix or gangue in the vein is very soft, while the iron is very heavy, a condition highly favorable to concentration, where the ore is too low to ship to smelters. I was reminded of the great mines of Gilpin county, which have produced millions of dollars from the same character of ore. In this day and age it is not so much the value of the ore as it is the quality of ore in the mine, so long as a net profit can be derived from the whole. The great tonnage of ore that can be mined from this vein above the tunnel level at a few dollars per ton net profit to the company is the one factor which convinced me of the marvelous possibilities of this one lode. Another factor worthy of mention is the width of the ore chute and small expense at which the ore can be shot down and run out by gravity to the portal of the tunnel for concentration or shipment.

The other four leads exposed by the tunnel were smaller than the Munroe, but many of them showed very good looking ore. They were all blind leads which were not exposed to the surface. In my judgment many more blind leads will be discovered in completing the tunnel and I should not be surprised if some of them would be as good or than any that are exposed.

The mountain is very rich in mineral as is evidenced by discovery of molybdenite in the Munroe lode since my visit to the property. The company is pushing the tunnel to completion very rapidly and anticipate having it into the Fourth of July dyke long before the end of this year.

THE SURFACE.

For over half a day we followed the outcroppings of the Monroe and Arapahoe lodes from east to west. The mountain side is literally covered with great chunks of float and vein matter which have been broken off these veins. Some of these will weigh a ton and will pan free gold. In 1875 I was over this section and assayed a great deal of the ore. It would run as high as $20 per ton but in those days such ore was worthless.

FOURTH OF JULY DYKE.

The Klondyke lodes covering about a mile on the Fourth of July Dyke outcrop on the surface above timberline. The rise of the mountain was so great that we were obliged to pick out our way up and around to the point under which the tunnel will cut with great care. We had climbed 1,000 feet above the level of the tunnel to reach this lode. The dyke at this point was fully one hundred feet wide. It is a small mountain in itself and can be seen for miles either way.

I recognized on the lower edge of the dyke an old shaft which was there in 1875. I remember well in that year the circumstances of two miners sinking the shaft on a rich pocket or ore from which they mined some fabulously rich ore and carried it over a three mile trail to Caribou on their backs as there was no other means of transportation. Several thousand dollars was thus mined from the shaft of my own knowledge. The owners of the lode later became discouraged and I am informed abandoned it. I understand that samples from the dump of this shaft gave values as high as $1,000 per ton. Here at this point stood a ledge of ore fully 20 feet wide, which I was informed, would run better than $20 per ton by actual tests in gold, copper and silver, the copper values being 8 per cent. In my judgement the dyke is the most valuable of the miles of claims owned by the company. It is one of the greatest mineral dykes that I know of in the state. Fossett refers to it in his book on Colorado at page 369 as follows:

"The Fourth of July lode is an immense ore channel situated several miles west of Caribou and near Arapahoe peak. This is from 50 to 100 feet wide, and has been traced and prospected for its entire course of three miles. It crosses the snowy range. This lode contains some very rich ore, one but requires capital to open it into condition for advantageous mining. Two tunnels are being driven towards it from the headwaters of the Boulder."

It was an open secret in the early days of the Caribou with its record productions of millions upon millions of dollars that the Caribou and Spencer lods were a branch or

Ayer's Hair Vigor. To be sure, gray hair is better than no hair. But why have it gray, and thus tell everybody you are getting old? Keep it dark and rich; make it long and heavy. J. C. Ayer Co., Lowell, Mass.

'76 and proved this theory to my own satisfaction. The Company have a mile on the main dyke itself. It lies several miles closer to the Continental Divide than the Caribou and carries high values in copper. Here is a body of ore right at the surface of remarkable values, which can be mined now at a profit. That no effort to do so has been made by the company is manifest from the precipitous character of the mountain side.

However, when the Klondyke tunnel is driven into this 100-foot dyke I should not be surprised to learn of a strike that would make this property rival or even surpass the great Caribou. In any event, the possibilities are beyond estimation. That the tunnel will open up a great body of smelting ore seems to be a matter of absolute certainty.

I stood upon this ledge above timber line and looked upon the thousands of tons of float scattered for hundreds of feet below me, and tried to contemplate the possibilities of the future when the Klondyke tunnel cut this dyke at the marvelous depth of 1,000 feet as well as a dozen other lodes at a somewhat lesser depth. I understood why the management and stockholders of the company believed that the stock would pay dividends to themselves and their children's children. I believed it myself.

Considering the great magnitude of the enterprise the management have made great progress in carrying on its plan of development work. I understand the tunnel is now in 900 feet and is now being driven in night and day a distance of some 150 feet monthly. It seems certain that the tunnel will be completed in a few months and it seems equally certain that the company will go on a permanent shipping basis this year. The quiet systematic manner in which the management have pushed their development work for two years meant business from the start and is an example which could be followed with great profit by the owners of other mines of Boulder County.

In conclusion, I wish to say that I had a most enjoyable trip to the United States Gold Camp and I appreciate the courtesy of the management in this connection. I have confidence in both the properties and management and for the reasons which I have given, I believe they have a proposition of extraordinary possibilities.

W. B. TETERS.

Messrs. Thos Patterson & Co., Fiscal Agents, Simcoe street, would be pleased to give any further information regarding this proposition.

NEW JUNK BUSINESS IN PETERBOROUGH

C. Goldman

Manager for H. CARP, Montreal Begs to announce to the citizens o Peterborough and surrounding distric that he has commenced business as dealer in junk of all kinds, and is prepared to pay the highest cash price for

HOMESTEAD REGULATIONS

Any even numbered section of Dominion lands in Manitoba or the North-west Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one quarter section of 160 acres more or less.

ENTRY

Entry may be made personally at the local land office for the district in which the land to be taken is situate, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa; the Commissioner of Immigration Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of $10 is charged for a homestead entry.

HOMESTEAD DUTIES

A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act, and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

[1] At least six months' residence upon and cultivation of the land in each year during the term of three years. It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead the cultivation

[2] If the father (or mother, if the father is deceased), of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

[3] If a settler was entitled to and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

[4] If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon the said land.

The term "vicinity" used above is meant to indicate the same township, or an adjoining or cornering township.

A settler who avails himself of the provisions of clauses [2], [3] or [4] must cultivate 30 acres of his homestead, or substitute 20 head of stock, with buildings for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd of June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled and the land may again be thrown open for entry.

APPLICATION FOR PATENT

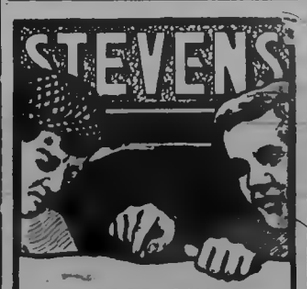
Should be made at the end of three years before the Local Agent, Sub-Agent or the Homestead Inspector. Before making application for patent the settler must give six months notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

INFORMATION

Newly arrived immigrants will receive, at the Immigration Offices in Winnipeg, or at any Dominion Lands Office in Manitoba or the North-west Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa; the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the North-west Territories.

W. W. CORY,
Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands, to which the Regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.



A GOOD GUIDE

NICKEL AND COPPER

A Few Thousand Treasury Shares

Only are left to be sold before all offerings are WITHDRAWN FOR FIFTEEN MONTHS' TIME.

You can buy the few remaining shares now at $1 00, but fifteen months hence you will probably pay from $5.00 to $20 00 per share.

THERE IS NOTHING EXTRAORDINAR

In shares advancing as above stated in mining propositions, for it is an old story of phenomenal advances in mining shares, Granite Mountain going from ten cents to $75 per share, Calumet & Hecla from $1.00 to $500 00, and so on down the list.

CONSIDER FOR A MOMENT

What this company offers—It controls to-day an actual territory of nearly Three thousand acres of land known to be immensely rich in nickel and copper ores, all in a district known and proven to be sixth among the greatest copper districts in the world. This company will control at least two thousand acres more. In all nearly five thousand acres, which will not be mined out in two hundred years.

WE STAND READY TO PROVE

That this company offers to-day the most meritorious mining proposition presented in ten years' time.

Write or call for full particulars. All shares registered by International Trust Company, Boston.

International Nickel and Copper Co., Ltd., Suite 93, Journal Building, Boston, Mass.

APPEARANCE

Is such an important feature on the table It makes a heap of difference to the pleasure of the meal whether you have a good or a poor looking Sugar on the table

St. Lawrence Extra Granulated Sugar

is the whitest and best looking Sugar to be had and besides, it has the advantage of being the best quality and greatest strength.

IF YOU WANT MONEY

Buy a block of stock of the Tonopah-Crow Gold and Copper Company. This stock is selling at 18 cents a share. It will be paying a profit in one year of not less than 25 per cent. on capitalization, which will mean a value of the stock of $2.50 a share. It may be worth $5.00 in less than two years time. There are more than 100 mineral veins crossing this property. The lowest average of ores as far as developed is $54 a ton, which does not include numerous small bodies running from $100 to $1,000. The money to be raised in these sales of stock is to be put in hoisting plant, equip and rapidly develop the mine, which includes six mining claims and mill site; 125 acres. Where can you make so much money in so short a time? This is an opportunity that seldom occurs.

THE CANADA METAL CO

Stocks—The MARKETS OF THE WORLD—Grains

NAMES THAT SPELL SUCCESS

These are the gentlemen who have made their mark in the world and whose association with the Canadian Marconi Company is a guarantee that its future will be an unparalleled success:

OFFICERS.

Col. F. C. HENSHAW, President.
GUGLIELMO MARCONI, Vice-President.
JOHN D. OPPE, Vice-President.
H. G. MATTHEWS, Secretary.
Maj. GEO. W. FISHBACK, General Manager.

Directors—Colonel F. C. Henshaw; G. Marconi; John D. Oppe; Andrew A. Allan, of the Allan Line S. S. Co.; J. N. Greenshields, K. C., Attorney for the Canadian Bank of Commerce, etc, etc.

And here are facts worth knowing about

THE MARCONI WIRELESS TELEGRAPH CO. OF CANADA

Is capitalized for $5,000,000 in $1 shares.

It has no debts or liabilities.

Its operations are on a self-supporting basis.

It has ample working capital in hand.

Its performances are always ahead of its promises.

It is a doer, not a dreamer of great things.

It is a going commercial enterprise, backed by Canadian brains and capital.

It has substantial subsidies from the Dominion and Newfoundland governments.

It has the support of the Shipping Federation.

It has the unqualified endorsement of the Commander of the Canadian Marine Service.

It has the endorsement of officers of Allan Line steamships and of all other steamships carrying the system.

It has a large and yearly increasing revenue.

It owns all the Marconi patents issued in Canada.

Its patents are basic and fundamental, and guarantee a practical working monopoly of wireless telegraph in Canadian domain.

There are thirteen stations in operation on Canadian soil and six under contract of construction.

One of the former is the Transatlantic station at Cape Breton, now being fitted for communication with England by William Marconi.

The net revenues of this one station, working jointly with another at Poldhu, are conservatively estimated $1,120,000, or over 25 per cent. upon the total capitalization.

The company's assets are conservatively estimated to be worth double its capitalization.

Stockholders of the company number the most conservative business men of the Dominion.

Directors of the company are among the most successful and most conservative Canadians.

Canada owns no Atlantic cable—its wireless service will be of immense advantage both in times of peace and times of war.

England has exclusively adopted the Marconi system for the Postal-office, the Admiralty, the Lighthouse establishments and doubtless will for the Army.

Traffic agreements have been made with all land telegraph companies, including Western Union, Postal, C. P. R., Dominion and Federal, to receive and distribute Marconi messages from over-seas and from boats.

The shipping of the St. Lawrence River and Canadian Atlantic Coast is greatly benefitted by the system.

Shares of the company have already increased in value from $3 to $5 each, and will undoubtedly go much higher at an early date.

Stocks in other electrical enterprises of similar revolutionary character have enriched investors; witness the electric telegraph, the cable, the telephone, the electric light, electric tractions, electric power transmission, and all were equally as wonderful and unbelievable at the beginning as wireless telegraphy is now.

Fancy anyone proposing to sell you stock twenty years ago in a scheme to harness the power of Niagara and send it by wire hundreds of miles to the point of use—would you have bought it? Not likely. Yet if you had you would be rich beyond the dreams of avarice.

Eight years before it had ever earned $1 Edison electric light stock sold at $1,000 for a $100 share; yet purchasers at that price made money and now practically control the great General Electric Company, that has made so many millionaires.

At one time there was none so rich as dared invest in Field's chimerical cable scheme; yet some there were who were just fools enough to let Field have their last dollar to waste on his impossible cable. The grandchildren of these supposed fools still enjoys the fruits of that folly—steam yachts, automobiles, game preserves, country villas.

Jay Gould, opulent and conceited, laughed the telephone to scorn. He had accumulated a great fortune in Western Union telegraph—but his mind was too small to conceive of the telephone as anything but a useless toy. There were others who had no great wealth to blind them to greater things and they were led by the roseate dreams of inventor Bell to believe the telephone had a great future. For six or eight years the telephone struggled with debt, with the opposition of telegraph companies, with doubt, with derision and with calumny. During these six years the annual deficit grew larger and larger. Then came the great public awakening. The telephone became not only a possibility but a necessity, an indispensable adjunct to every-day life, and in every new as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

If you can afford to put away $1,000 for a few years and forget it, don't tie it up in government four per cent. bonds. If you have $1,000 you would like to leave to your descendants, or if you have $1,000 you would like to have increased to $100,000, put it into Marconi Wireless Telegraph of Canada, at $5, and forget it for a year or so. When you remember it, the chances are it will have grown to so many thousands that you will want to retire from active business on the proceeds, as many a man has before you on Bell investments and cable investments. And all this may come to pass in a GET RICH QUICK investment but it is a GET RICH SURE investment. It may be eight years, as the electric light, it may be six years, as the telephone, or perhaps twelve years, as the cable, but it will be growing in value every year, just as certainly, just as surely, and just as rapidly as any conservative, well-managed business enterprise of like character ever did before—and that is fast enough for any fair-minded man.

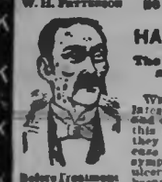
BLOOD DISEASES

If you inherited or contracted any Blood Disease you are never safe unless the virus or poison has been eradicated from the system. At times you see alarming symptoms, but live in hopes no serious results will follow. Have you any of the following symptoms? Sore throat, ulcers on the tongue or in the mouth, hair falling out, aching pains, itchiness of the skin, sores or blotches on the body, eyes red and smart, dyspeptic stomach, sexual weakness—enlarged glands. Don't trust to luck. Don't ruin your system with the old fogy treatment—mercury, potash and patent medicines, which suppress the symptoms for a time only to break out again when happy in domestic life. Don't let quacks experiment on you. Our NEW METHOD TREATMENT is guaranteed to cure you. OUR GUARANTEES ARE BACKED BY BANK MONEY that the Blood or Skin Disease will never return. Thousands of patients have been already cured by our NEW METHOD TREATMENT for over 30 years, and no return of the disease. No experiment, no risk—not a "patch up," but a positive cure. The worst cases solicited.

W. H. PATTERSON — NO NAMES USED WITHOUT WRITTEN CONSENT. — W. H. PATTERSON



Before Treatment

After Treatment

HAD BLOOD POISON 12 YEARS

The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c., all failed.

Wm. H. Patterson, of Saginaw, Mich., relates his experience: "I do not like notoriety and especially of this kind, but I feel I owe this much to Drs. K. & K. for the great good they have done me. I had a serious blood disease when 24 years of age. The skin and blood symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair became loose, pains in the bones and joints, dyspeptic stomach, foul breath, itchy skin, etc. It is needless for me to say I tried doctors. I grew to hate the looks of one. I visited Hot Springs twice for four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor friend of mine advised me to see Drs. Kennedy & Kergan. He said he had known of them for over 20 years, and as they made a specialty of these diseases and treated the worst cases by the number they ought to be expert in curing them. I was afraid of advertising doctors, but I took his advice. They agreed to treat me under a guarantee or no pay. I investigated their financial standing and found they were perfectly responsible, so I commenced the new method Treatment. The eruptions disappeared in two weeks the bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases."

The Clinton Mining Company

Incorporated under the Laws of the State of Colorado.

CAPITAL STOCK, $1,500,000.00

Shares Par Value $1.00 - Full Paid and Non-Assessable

Mines located in the

MONAROH MINING DISTRICT

CHAFFEE COUNTY, COLORADO

This Company owns three claims; the Enterprise, Ivanhoe and Almira lodes, comprising thirty acres, located on the southwest slope of Lost Mountain, in the Monarch Mining District, in Chaffee County, Colorado; also twenty acres in Teller County. The development on the Chaffee County claims consists of 2,000 feet of shafts, tunnels, drifts, cross cuts and winzes, the lower tunnel being 900 feet in length with a depth of 500 feet below the surface at the breast.

The vein lies in a contact between limestone and granite and varies in width from three or four feet to over twenty feet. The vein matter is an iron gangue with decomposed limestone impregnated with manganese with streaks of lead sulphide or galena stringering through it, which carry good values in silver and gold. Some high values in copper have also been found. The limestone forms the hanging wall and the granite the footwall of the vein, whilst there is a quartzite formation lying intermediate. The best values have been found close to the hanging wall.

There is also a very large body of iron ore in the upper tunnel that will average over fifty per cent. iron with ten ounces of silver per ton.

The ore shipped from this mine to the Pueblo plant of the American Smelting & Refining Co., at Pueblo Colo., has averaged a little over $30 per ton, per ore settlement sheets on file. At the per cent price of silver these shipments would have averaged $60 per ton.

The ore is hauled by wagon to Maysville, seven miles distant, and thence by rail. The wagon haul costs $4 a ton, which, however, is susceptible of reduction. The railroad freight rate to Pueblo is $3.40 per ton. With an output sufficient to furnish steady employment for teamsters the wagon charge can be reduced. Otherwise improvements can be made to reduce this expense.

In addition to the smelters at Pueblo we can ship to the Ohio & Colorado plant at Salida and thus effect a saving in freight. The treatment charge on our ore has ranged from $7 per ton to a bonus of 61 cents per ton, the average rate being $5 per ton. The ore being rich in lead, iron and manganese, it is very desirable for mixing and fluxing ores containing a high percentage of silica. With careful sorting we can grade the ore so that the percentage of iron and manganese will always exceed the silica, and thus cut our treatment down to a minimum.

Average samples of the ore have been assayed from time to time, the highest obtained for silver being $750.00 per ton and for gold $285.00.

With an average value of $30.00 and transportation and treatment expenses of $12.40 a ton, the net value of our ore has been $37.60 a ton. The cost of mining has been an undetermined quantity, as all of the ore shipped has been taken out in development work.

When we have completed one hundred additional feet of work in the lower tunnel we will be in shape to sink and upraise on the ore at half a dozen different points and our production should then be sufficient to meet all expenses of labor and supplies and allow a handsome surplus.

The capital stock of the company is 1,500,000 shares of $1 par value, full paid and non-assessable, of which we have now in the treasury 375,000 shares. We are selling the treasury stock to pay the cost of development; for which purpose also proceeds of ore shipments have been used. No salaries have been paid any of the officers, the only extra expenditures being for stationery and postage and the cost of patent proceedings.

TARTE'S BY-ELECTION HOPES

London and Oxford Should Support Government Candidates

Montreal, May 27.—Hon. Mr. Tarte writes that he does not know how the electors of London or North Oxford will vote, but he adds that these two divisions will be doing a great wrong if they vote against the ministerial candidates because the cabinet has shown itself too favorable to Roman Catholics. If there exists a cause for complaint it is with the Catholics, for in his opinion, they do not deceive those rights which should be given to them without hesitation, and without debate by the political parties.

A government powerful in all other matters found itself under the necessity of beating a retreat in order to avoid a greater evil.

"We hope sincerely," he writes, "that the ministerial candidates may be elected in London and Oxford. Their success would contribute to checking the pernicious agitation carried on during the last few weeks by a group of newspapers and politicians who refuse to give any consideration to the most legitimate claims of the Catholic minority in this country."

JAMAICA AND UNCLE SAM

A Kingston Paper Openly Advocates Annexation

New York, May 27.—The Herald's Kingston, Jamaica correspondent, says: "Once again the question of annexation to the United States has been raised by the inhabitants of the British West Indian Islands. This has arisen through the refusal of the British Treasury to continue a grant of $50,000 a year given to the Imperial Department of Agriculture in the West Indies. Commenting on the subject the Jamaica Daily Telegraph says: "The policy of extravagance (for the adoption of which Mr. Chamberlain was mainly responsible) has brought trouble on the head of His Majesty's present Government, and the result is that efforts are now being made by that Government to cut down expenditure wherever possible. What is to be the ultimate fate of the British possession in this part of the world? With the indifference of the English on one hand and the increasing trade relations between the East Indies and the United States on the other, it is not difficult to furnish an answer to the question. Sooner or later the West Indian Islands are bound to become incorporated in the great American republic."

PERSONALLY CONDUCTED TOUR

To California and Lewis and Clark Exposition, Portland, Oregon

A personally conducted excursion to the Pacific Coast via The Grand Trunk Railway System and connecting lines leaves Quebec July 5, and Montreal and Toronto July 6. The route will be via Chicago, thence through Council Bluffs to Omaha, Denver, and Colorado Springs. Stops will be made at each of these places, and side trips taken to Manitou, Cripple Creek, Garden of the Gods, etc. From here the party will continue through the famous scenic route of the Denver and Rio Grande, through the Royal Gorge to Salt Lake City, thence to Los Angeles, San Francisco, and home through St. Paul and Minneapolis. The trip will occupy about thirty days, ten days being spent on the Pacific Coast.

The price for the round trip, including railroad fare, Pullman tourist sleeping cars, all meals in the dining car, hotels, side trips, etc., is $168.50 from Quebec or $160.50 from Montreal and $150.00 from Toronto. This first trip is designed as a vacation trip for teachers, although many who are not teachers will improve the opportunity of taking the trip at the remarkably low price afforded.

For full particulars address E. C. Bowler, General Agent and Conductor, Room 202, Union Station, Toronto.

FEDERAL CABINET CHANGES

Reports Pointing to a Change in the Justice Department

Brandon, Man., May 27.—Hon. Clifford Sifton arrived here on Monday night, and spent yesterday with his friends. Last night he addressed the local Liberals in their committee rooms. The ex-Minister is here to warn his followers to be vigilant regarding the registration of Liberals on June 10. Prominent local members of the Liberal party say that Hon. Mr. Sifton will re-enter the Cabinet, probably as Minister of Justice.

Ottawa, May 26.—Mr. Fitzpatrick's health is still poor, and his physicians, it is said, are urging him to give up active work for a time.

IMMIGRANT CHILDREN

Proposals Discussed to Locate Them on New Brunswick Farms

Moncton, N. B., May 27.—Hon. C. H. Labbois, commissioner of public works and Surveyor-General Sweeney, of the New Brunswick Government, have had a conference with Manager Gerow, of Middle Mere home, at Halifax, relative to the location of immigrant children on New Brunswick farms. The management of the home proposes to retain the guardianship of the children until they are eighteen years of age, the Government to pay the transportation from Halifax, and the farmers to sign a contract to give four, five or six months' attendance at public school each year. Another scheme being considered is that of the Salvation Army, which proposes to locate immigrants in this province at a cost to the Government of two or three dollars per head. The Government will meet shortly to consider these and other immigration schemes, with the view to the adoption of the one best suited to the requirements of the province.

PRAISE FOR EARL GREY

The New York Times Eulogizes the Governor-General

New York, May 27.—The "Times" says: "When Lord Grey came over to Canada to assume the highly important duties of Governor-General he was obliged to abandon temporarily work of peculiar interest, with which his name has been associated in a manner extremely creditable to him, that of President of the Public House Trust. It is not too much to say that in this he demonstrated able and rare as those demanded by his more conspicuous post. New difficulties undoubtedly were with him in Canada, of which he has already had a taste, but his sound judgment, tact, unselfish devotion to duty, and his high standard of public service, shown in the supervision of trust, can be relied on to pull him through."

BEES STOP ALL TRAFFIC

Queer Visitation Halts Business in Town of Versailles, Ky.

Versailles, Ky., May 27.—A dense swarm of bees on Main street caused a suspension of business to-night. They appeared near the postoffice in such masses that driving vehicles was impossible, and pedestrians feared to pass. Finally a committee was appointed to draw the bees away by beating tin pans and ringing bells and settled them in trees near the courthouse. This is the first instance of the kind on record.

Powerful Healing Effective Cure

FOR COLDS, COUGHS, CATARRH BRONCHITIS AND ASTHMA

mply Inhale Catarrhozone; it Cures Because it Goes where the Disease Actually Is.

These diseases cannot be cured by stomach medicines; they must be treated locally. Catarrhozone is inhaled to the very source of the trouble, and gives the diseased membranes local treatment with the strongest, most-healing antiseptics known.

After one trial of Catarrhozone you will wonder how you ever lived without it. Nasty colds in the head it cures in an hour; coughs are stopped in two hours, and catarrh and bronchitis are relieved at once. Nothing could be simpler or more pleasant than to inhale the fragrant vapor of Catarrhozone. Nothing is half so certain to cure your trouble permanently.

Nor is proof of Catarrhozone's merit lacking, for it is endorsed more strongly by the medical profession than any other remedy. Its superiority to-day is unquestioned, and its sale by far exceeds that of any other two remedies on this market. Why? Because it does what is claimed for it—cures permanently those who use it for any disease of the breathing organs.

Mr. S. E. MacAuley, the well-known attorney of Portland, endorses Catarrhozone in the following letter. "I am anxious to make known that after three years' suffering from weak throat and catarrh, I have been cured by Catarrhozone. I was treated by many doctors of wide reputation. I have used scores of different remedies. I have suffered everything catarrh entails, and I am convinced that no medicine is so sure to cure as Catarrhozone, which did me untold good and completely eradicated this awful disease from my system."

Complete outfit, guaranteed to cure costs $1, sample size 25c. At all druggists or N. C. Polson & Co. Kingston, Ont., or Hartford, Conn. U.S.A. Beware of substitutes and insist on getting Catarrhozone when you ask for it.

TOWN AND COUNTY NEWS

DASHES HERE AND THERE BY TIMES' REPORTERS

Boy Wanted

Route boy wanted immediately. Apply at the Times Office.

Boarders Wanted.

Six gentlemen can be accommodated with first-class rooms and first-class board, from 1st of June, by applying to J. C Craig, 29 Queen street, opposite St. John's church. m 31

Lost.

On Sunday, between the corner of London and Water streets, and the Murray street Baptist church, a clover leaf brooch, set with pearls. The finder will be suitably rewarded by returning the same to The Times office.

Navigation Note.

The steamer Beaver made her second trip up to town on Saturday morning, with a large number of passengers on board. She will, as soon as the repairs above the lift lock are completed, which will be in the course of a week or so, be taken to the back lakes. The Water Lily and the Rainbow also made trips up.

To Stay Another Week.

The meetings at St. Andrew's have been so largely attended, and the interest displayed by those who attended was of such a nature, that Mr. Russell has been invited, and has accepted the invitation to spend another week here. The Bible Conference will be continued every afternoon commencing on Tuesday, and the evangelistic services every night.

DUTTON'S MARKET.
Pineapples for preserving $1.25 to $2.25 per dozen.

SOCIAL AND PERSONAL

SOCIETY EVENTS OF INTEREST

—Mr. John L. Brown, of Toronto, is in town.

—Mr. E. S. Lofimer, of Toronto, is in town.

—Mr. Geo E. Perry, of Lindsay, was in town Saturday.

—Prof. Fred. Pfan, of Buffalo, is registered at the Balmoral.

—Mr. S. J. Elwell, of Pembroke, is a guest at the Balmoral Hotel.

—Mr. George Gleeson, of Buffalo, N. Y., is visiting friends in town.

—Mr. J. B. Douglas has returned from a business trip to Toronto.

—Miss Ada Lee left Saturday morning for a short holiday in Toronto.

—Mr. J. J. Lundy has returned from a business trip to Lindsay.

—Mr. E. G. Loch has returned from spending a few days in Toronto.

—Mr. James H Clarke, of Campbellford, is registered at the White House.

—The Millbrook Reporter says: George McCartney, of Peterborough, spent the 24th at his old home here.

—The Lindsay Post says: Mr. J. J. Lundy, of Peterborough, was in town yesterday on business. Messrs. H. P. Lindsay and T. L. DeHart, of Peterborough, were guests at the Simpson House yesterday. Mr. Wm. Rudkins, Inland Revenue officer, Peterborough, was in town yesterday.

Local Incidents

BY THE TIMES MAN ON THE STREET.

—Mr. John Wright of the 5th ward died yesterday.

—The Orange Lodge at Lakehurst has been reorganized.

—The Chief has a door key picked up on Saturday on Simcoe street, for which he wants an owner.

—A five inch water main is being laid on Perry street, between Bethune and Park streets.

—The Globe of Saturday contains an excellent out of Mr. J. H. Burnham, the author of the Canadian historical novel "Marcelle" which is to be published immediately.

—Mrs. Morrow's chorus class will meet in the T. A. S. Hall this evening at 8 o'clock. Pupils taking part in the recital will kindly bring their music as a program will be prepared.

—Two local forest rangers have been notified by the Crown Lands department that their services will not be required after June 1st next. The forest rangers are engaged annually and their appointment has never been considered permanent.

—The Farmers' Institute excursion to Guelph on the 8th June, will have a slight change in time of starting. Owing to a recent change in the whole C.P.R. time schedule, it will be necessary for the special excursion train to leave 15 minutes earlier than already announced.

When you want a life-like Portrait in Oil, Crayon or Water Color, don't fail to come to B. Hudson's Studio, where the work and prices are always right. Fancy Work, Lessons in Painting and Pyrography Work. Studio 134 Brock Street, Peterborough.

Heavy Shipment of Machinery

A car load of new machinery for the Colonial Weaving Company, has arrived from Philadelphia. The machinery is now being installed and consists of six new looms, which will be operated in a few days. The manufactory will then have eighteen looms in all and this will necessitate the employment of more hands. The Colonial Weaving Company have large orders ahead and the prospects for a big season's trade are exceptionally bright. The additional equipment to the plant entails an outlay of several thousand dollars.

Accident at Norwood.

It never rains but it pours, is an old saw, and its truth was proved in Norwood on Friday, when Richard Kirk, an employe of the firm of Buck & McLean lost two fingers from his left hand. About two years ago he was working on the roof of a private residence, when he fell off the roof, breaking his leg and sustaining other injuries. On Friday last, Kirk whose usual work was nailing boxes when his work ran out, started to assist in edging the cheese boxes. He was warned by the employes, but he heeded not the warning. He was immediately taken across the road to Dr. Pettigrew's where chloroform was administered and the hand dressed.

Death at the Jail.

On Saturday afternoon an elderly man named Thomas Henderson died in the jail. The deceased was about 70 years of age, and had been committed as a vagrant.

He leaves to mourn his loss, his wife in town and four children. Mrs. Henderson and children are all very respected citizens, the wife having had respected citizens, the wife having worked hard, and had succeeded in rearing her family, so as to win respect from all who knew them.

Coroner Dr. Grey, gathered together a coroner's jury on Saturday evening and held an inquest, which resulted in showing that Henderson had died of senility.

A Sad Occurrence.

Death of Miss Calcutt at Nicholl's Hospital on Saturday.

At the Nicholls Hospital, early on Saturday morning, there passed away one of the most popular and highly esteemed young ladies in the town of Peterborough, Miss Adeline Balfour, second daughter of Mr. H. Calcutt.

The deceased had for some time been a sufferer from Bright's Disease, which reached a climax on Saturday last, when she was removed to the hospital for treatment.

The late Miss Calcutt was born in Peterborough. She was a daughter of Mr. H. Calcutt, her mother having passed away about twenty years ago. Sorrowing members of the family are; three sisters, Misses Margaret and Kate, who reside at home, Mrs. R. B. Rogers, Fifth Ward, and one brother, Clare, at home.

Miss Calcutt was universally esteemed, whether in her earnest church work, as a member of St. Luke's church, in her valued assistance towards the Sunday school labors, or among the various auxilliaries and visiting guild. She was indefatiguable in following to a successful terminus any of the many charitable or other undertakings she was always willing to help.

As a daughter or a hostess none had ever but the kindest words for Miss Calcutt, and her lamented taking away leaves a sore spot in many hearts throughout this town.

The funeral, which was very largely attended, was held yesterday afternoon from St. Luke's church, to the Little Lake cemetery. The service being conducted by Rev E. A. Langfeldt, her friend and pastor.

Encouraging Report.

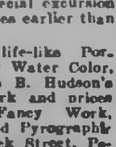
Alderman Johnston Sends Favorable Report of Labor Conditions Here.

In his report on labor conditions in Peterborough, sent by Alderman J. W. Johnston, local correspondent to the Labor Gazette, he says in part:

Work was plentiful throughout April, and mechanics of all classes were well employed. A number of houses were under construction, operations being conducted as rapidly as possible. The large shovel and tool factory was completed, and the work of installing machinery, proceeded with. Construction was begun on the large lock factory, and the extension of the Canadian General Electric shops will be begun in May. The laying of about six miles of granolithic walk by day labor was begun by the corporation. The Machine Telephone Company was actively engaged erecting lines and installing equipment. Freight shipments were heavy, especially of the products of the cereal mill, the C.G.E. shops and the canoe works. Wholesale and retail trade was more active than in some time past. Banks had a good month. There were no changes in wages, no definite decision having been arrived at in the matter of the request of the teamsters for an increase of 50 cents per day. Cordial relations existed between employers and employes.

Police Court

OFFICIALS
Chief of Police. C.I. Reed
Magistrate, D.W.Dumble



The police court yesterday had a short but busy session, with Mr. D. W. Dumble, holding the scales of justice.

Frank Scriver was charged under the criminal code, with having unlawfully taken a girl under 16 years of age from the lawful care and charge of her mother, without the mother's consent. Prisoner's counsel, Mr. Kerr, was unable, through a slight illness, to be present in the interests of his client, and, as the prosecution was not ready to proceede, the case was enlarged until this morning.

A young man named Charles Clark was charged with having stolen a silver watch, with a plated chain attached, from one Richard Culmer.

Before any witnesses were called, the complaintant said there had been a mistake, and that he wanted to withdraw the charge. The Magistrate asked Culmer if he was prepared to pay the costs, explaining that the county must not be put to expense over mistakes of this sort.

Complaintant claimed that he had not mentioned prisoner's name to the police, but had simply described the thief as "A young man who wore grey clothes" to the Chief, who had then advised him to proceed. His Worship said that complaintant had to pay for a horse used in his case by the police, and assessed him in the sum of $2.50.

Gabriel Robinson, a young Englishman, with an accent as broad as the wide Atlantic he had recently crossed, was charged with dumping manure on Simcoe street. The prisoner pleaded not guilty, and amid a general and promiscuous dropping of H's, said "I did not know the wind was blowing the manure from my wagon." When an enlargement, with concurrent additional expenses was hinted at, he remarked "I think I had better plead guilty." $2 or 10 days. He said he did not have the money with him, but would procure it; however a friend in the audience spoke up and said "Could I be allowed to pay it for him?" He was allowed.

On conclusion of the above cases, the court was cleared, to allow the parents of the young girl, who had been connected with Scrivers trial, to interview his Worship, and request that their erring daughter be sent away to an institution as she had become incorrigible. The matter was enlarged until this morning.

A Lindsay Accident.

The Lindsay Post says: A young man named Dennis O'Leary, employed in the Sylvester Works, as lathe hand, met with a serious accident this morning. While throwing on the belt operating his machine his left hand was caught in the outer gearing and badly mangled.

He was conveyed to Dr. Shier's office, where Dr. Blanchard also assisted in dressing the injured member, after which he was removed to the Ross Hospital. The little and ring fingers had to be amputated, and the metacarpal bone removed. It is just possible that a third finger may have to be amputated later on.

Young O'Leary is a son of Mr. J. C. O'Leary, postmaster at King's Wharf.

A WOMAN'S RISK

As a trapeze performer is greater than a man's. She must have a man's courage and a man's muscle to succeed. But she must also work under conditions of which a man knows nothing. Many an accident to women acrobats must be attributed to the sudden weakness to which all women are subject at certain times.

Dr. Pierce's Favorite Prescription heals the womanly diseases which cause weakness. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

"With pleasure I write to-day in praise of Dr. Pierce and his medicines," says Mrs. Mary Conway, of Appleton, Lawrence Co., Tenn. "Was troubled with female disease; the back of my head hurt me as I could not lie in bed; I would have to sit up, and then I would have such pains from my waist down I could scarcely raise up. My feet and hands would feel almost like ice. Since taking Dr. Pierce's Favorite Prescription I can sleep well all night. Could hardly drag around before I took your medicine, and now can do my housework and help my husband in the field. Words cannot express the thanks I owe to Dr. Pierce."

Weak and sick women are invited to consult Dr. Pierce, by letter, *free*. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Common Sense Medical Adviser, containing over a thousand large pages, is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 50 one-cent stamps for the cloth-bound volume, or only 21 stamps for book in paper covers. Address Dr. R. V. Pierce, Buffalo, N. Y.

Steamer King Edward.

A handsome new name plate has been placed upon the prow of the steamer Sovereign, proclaiming a change in name. The legend, which is emblazoned in gilt letters now reads "Steamer King Edward." The King Edward left on Saturday afternoon on a trial trip down the river, with a party of prominent gentlemen on board. To-day she will tow the dredge Trent to Keene. It is to be hoped that with the alterations now completed, and under another management this fine steamer will have a more satisfactory season than it experienced last year.

Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Reichstag Leader Going Blind

Berlin, May 29.—Eugene Richter, the Radical leader in the Reichstag since its foundation, Bismarck's old opponent and for a long time editor of the Freisinnige Zeitung, is losing his eye-sight. There is no hope, seemingly, that he will not become totally blind.

The Battleship Dominion

London, May 27.—Lord Strathcona is now considering the best manner of making some representative Canadian presentation to the new British battleship Dominion, which is named out of compliment to Canada. The Dominion is now on her trial trip. English counties generally present the officers' mess plate to warships named after them.

U. S. Population

Washington, May 29.—Mr. North, the director of the census, has been making an estimate of the population of the various states and territories for the current year, and brings the total for the United States, not including Alaska or the island possessions, up to 82,518,020, an increase of 1,304,689 from 1904 and 6,214,633 since the regular census of 1900.

Were Baptized in Jordan Water

Ottawa, May 27.—Water from the River Jordan, in which the Saviour was baptized, was used in St. Andrew's church yesterday, when seven infant baptisms were solemnized. The number of children and the added interest from the use of Jordan's waters made the event an impressive and rather unique one. The special water was used through the kindness of Mrs. Henry Maclaren, it having been brought from the Holy Land by her sister, Miss Loudon. Rev. Dr. Herridge officiated.

CALM IS MOMENTARY

Trouble Will Break Out Soon in the Interior of Russia

Moscow, May 27.—Unconfirmed information from the interior shows that the apparent calm is only momentary and deceptive. Fundamental changes are taking place in the interior life of the remotest provinces. The police and civil tyrants are comparatively subdued. This in itself does not indicate a surrender, but a deliberate policy on the part of the Government for mistaking the people. Never theless, the old despotism is passing away and can never be re-established. "The Government pretends to be yielding," said a noble landowner to a newspaper correspondent today. "Once the war is over, however," he adds, "Liberals would be crushed though it should be necessary to declare the whole country in a state of siege." Doubtless this would be attempted, but the agents of the proposed revival will encounter a nation organized for promoting constitutional
